Listing Application

This Pricing Supplement comprises the details required to list the issue of Notes described herein pursuant to the listing of the Global Medium-Term Note Program of ADB.

Use of Proceeds

The net proceeds of the issue of the Notes will be included in the ordinary capital resources of ADB which will then be allocated to a special sub-portfolio therein and tracked against the disbursements to Eligible Projects (as defined below). As long as the Notes are outstanding, the balance of the sub-portfolio will be reduced, at the end of each quarter, by amounts matching the disbursements made during the quarter with respect to the Eligible Projects. Pending such disbursement, the sub-portfolio will be invested in accordance with ADB’s liquidity policy.

Eligible projects under ADB’s Green Bond framework (“Eligible Projects”) include projects funded by ADB, in whole or in part, that (i) target a reduction of greenhouse gas emissions into the atmosphere or removal of greenhouse gas emissions from the atmosphere (“Climate

Change Mitigation Projects”) and/or (ii) target the reduction of the vulnerability of human or natural systems to the consequences of climate change and enhance resilience and adaptive capacity (“Climate Change Adaptation Projects”).

Examples of Climate Change Mitigation Projects would typically include, without limitation, those that fall under the following sectors:

- Renewable energy – projects that use energy resources that can be naturally replenished (solar, wind, geothermal, and small hydro energy generation);
- Energy efficiency – projects that deliver more energy services with the same energy input (excluding fossil fuel projects); and
- Sustainable transport – projects that provide accessible, safe, environmentally friendly, and affordable transportation.

Examples of Climate Change Adaptation Projects would typically include, without limitation, those that fall under the following sectors:

- Energy – projects that help improve energy security (excluding fossil fuel projects);
- Water and other urban infrastructure and services – projects that improve water security and livelihoods of vulnerable urban populations, such as, providing urban flood protection; and
- Transport - projects that reduce the vulnerability of transport infrastructure.

The above examples of Eligible Projects are for illustrative purposes only and no assurance can be provided that disbursements for projects with these specific characteristics will be made by ADB during the term of the Notes.

Material Adverse Change Statement

There has been no material adverse change in the financial position or prospects of ADB since the date of the financial statements included in the Information Statement of ADB, which was most recently published on 25 April 2017.
