Requests for Contract Variation should be used by consultants for the variation of contracts that have already been negotiated with ADB. The Request Form should be prepared in MS Excel Version 5 and can be accessed in ADB website under [http://www.adb.org/site/business-opportunities/operational-procurement/consulting/documents](http://www.adb.org/site/business-opportunities/operational-procurement/consulting/documents) and contains instructions and specific guidelines for its preparation, including the accompanying documentation that needs to be submitted to ADB. A completed illustrated sample is also available on the same site for further clarification.

All proposals for changes to a contract should be submitted to the Director of the User Division concerned, as shown in the contract, who will forward a recommendation to the Director, Operations Services and Financial Management Department (OSP1 or OSP2) for review and implementation of the changes that have been endorsed, with any adjustments, if necessary. The new format will help clearly illustrate the cost implications of the proposed changes and facilitate expeditious processing of such requests by ADB.
