I. INTRODUCTION

1. The Ministry of Education and Training (MOET) is implementing the Second Upper Secondary Education Development Project (USEDP II, or the Project) in the 33 provinces of Viet Nam, through Loan № 2929 – VIE (SF) from Asian Development Bank. Under the Project, a total of 135 upper secondary schools (USSs) and six (6) pedagogical centers have been selected for assistance. In the screening and categorization for social safeguards, Category A subprojects are automatically excluded, while Category C subprojects shall be prioritized for financing. The subproject USSs with minor impacts (Category B) may be considered subject to the preparation and implementation of a resettlement plan (RP) acceptable to ADB, as prescribed in 2009 Safeguard Policy Statement (SPS). The RP for Category B subproject shall be approved first by the Bank and disclosed in the ADB website before implementation by MOET.

2. Phu Yen is a coastal province in the South Central Coast of Vietnam. It is the easternmost province of Vietnam's mainland. Three (3) beneficiary USSs were selected for the Project, namely: (i) Nguyen Khuyen Lower and Upper Secondary School; (ii) Nguyen Viet Xuan Lower and Upper Secondary School; and (iii) Son Giang Lower and Upper Secondary School. They are located in 03 districts of the province. As screened, they are all Category C subprojects both in Involuntary Resettlement and Indigenous Peoples categorization (Attachments 1 to 3), since no social impacts are expected inside the schools' premises. The Central Project Management Unit (CPMU) of USEDP II has submitted this Due Diligence Report (DDR) for information of ADB and to secure its "No Objection" for the award of civil works contract for the construction of school facilities.

II. APPROACH AND METHODOLOGY IN DUE DILIGENCE

3. The CPMU has applied the selection criteria in evaluating the USSs included in the long list. The criteria were developed during the PPTA. Given the large number of USSs and their geographic locations, the CPMU sent questionnaires to be filled-up by school officials whose responses were the basis for screening and selection in producing the shortlist of USSs. The school officials of shortlisted USSs were then given two sets of questionnaires. The first set was used in gathering information on their proposed facilities and statistical data that justify their proposal. The proposed investments were then screened and made the reasonable distribution of facilities that are urgently needed. The second set was aimed to validate if land acquisition shall be required. National resettlement specialist and CPMU civil work assistance conducted site visit and consultation with key officials of the Phu Yen PPMU and the proposed USSs during 13-14 August 2014.

III. THE PROPOSED FACILITIES

4. In all, three (3) USSs will construct a total of 26 regular classrooms and 7 function rooms for the classes in biology, physics, chemistry, and laboratory. The construction of regular classrooms will follow the standard minimum dimension as provided for in Decision № 37/2008/QĐ-BGDĐT (July 16, 2008) by MOET. The following dimension of each classroom is as follows: length = 7.8 m and width = 9.9 m. Comprising the width is 7.5 m working area and 2.4 m for the corridor. Each classroom shall have a total area of 54.54 m².

5. The function rooms shall have the following dimensions: length = 15.6 m and width = 9.9 m. The length shall be composed of 11.7 m for working area and 3.9 m for preparation room of teacher. The width is composed of 7.5 m for activity room and 2.4 m for the corridor. Overall, each function room shall have a minimum total area of 109.08 m² in which 83.4 m² for activity room and 25.68 m² for preparation room of the teacher.

6. The distribution of the proposed facilities in three (3) schools is shown in Table 1.
