## GLOSSARY

|                                   |  |
|-----------------------------------|--|
| Affected person (AP)              | - Means any person or persons, household, firm, private or public institution that, on account of changes resulting from the Project, will have its (i) standard of living adversely affected; (ii) right, title or interest in any house, land (including residential, commercial, agricultural, forest, salt mining and/or grazing land), water resources or any other moveable or fixed assets acquired, possessed, restricted or otherwise adversely affected, in full or in part, permanently or temporarily; and/or (iii) business, occupation, place of work or residence or habitat adversely affected, with or without displacement. In the case of a household, the term AP includes all members residing under one roof and operating as a single economic unit, who are adversely affected by a subproject or any of its components. |
| Detailed Measurement Survey (DMS) | - With the aid of the approved detailed engineering design, this activity involves the finalization and/or validation of the results of the inventory of losses (IOL), severity of impacts, and list of APs earlier done during RP preparation. The final cost of resettlement can be determined following completion of the DMS.  |
| Compensation                      | - Means payment in cash or in kind to replace losses of lands, housing, income and other assets caused by the Project. All compensation is based on the principle of replacement cost, which is the method of valuing assets to replace the loss at current market rates, plus any transaction costs such as administrative charges, taxes, registration and titling costs.  |
| Cut-off date                      | - Means the date of completing DMS for which land and/or assets affected by the Project are measured. The APs will be informed of the cut off date for each subproject component, and any people who settle in the subproject area after the cut off date will not be entitled to compensation and assistance under the subproject.  |
| Entitlements                      | - Refers to a range of measures comprising compensation, income restoration support, transfer assistance, income substitution, relocation support, etc. which are due to the APs, depending on the type and severity of their losses, to restore their economic and social base.   |
| Eligibility                       | - Means any person who have settled in the subproject area before the cut off date, that (i) loss of shelter, (ii) loss of assets or ability to access such assets, permanently or temporary, or (iii) loss of income sources or mean of livelihood, regardless of relocation...will be entitled to be compensation and/or assistances.  |
| Host community                    | - Means the community already in residence at a proposed resettlement or relocation site.  |
| Income restoration                | - This is the re-establishment of sources of income and livelihood of the affected households.<br>A program designed with various activities that aim to support affected persons to restore their income / livelihood to pre-project levels. The program is designed to address the specific needs of the affected persons based on the socio-economic survey and consultations.  |
| Income restoration program        |  |

|                              |  |
|------------------------------|--|
| Inventory of Losses (IOL)    | - This is the process where all fixed assets (i.e., lands used for residence, commerce, agriculture, including ponds; dwelling units; stalls and shops; secondary structures, such as fences, tombs, wells; trees with commercial value; etc.) and sources of income and livelihood inside the project area are identified, measured, their owners identified, their exact location pinpointed, and their replacement costs calculated. Additionally, the severity of impact on APs will be determined.                  |
| Land acquisition             | - Refers to the process whereby an individual, household, firm or private institution is compelled by a public agency to alienate all or part of the land it owns or possesses to the ownership and possession of that agency for public purposes in return for compensation at replacement costs.   |
| Rehabilitation               | - This refers to additional support provided to APs losing productive assets, incomes, employment or sources of living, to supplement payment of compensation for acquired assets, in order to achieve, at a minimum, full restoration of living standards and quality of life.  |
| Relocation                   | - This is the physical relocation of an AP from her/his pre-project place of residence and/or business to other place.   |
| Replacement cost             | - Means the method of valuing assets at current market value, or its nearest equivalent, plus any transaction costs such as administrative charges, taxes, registration and titling costs.   |
| Replacement Cost Study       | - This refers to the process involved in determining replacement costs of affected assets based on empirical data.   |
| Resettlement                 | - This includes all measures taken to mitigate any and all adverse impacts of a project on AP property and/or livelihoods, including compensation, relocation (where relevant), and rehabilitation as needed.  |
| Resettlement Plan (RP)       | - This is a time-bound action plan with budget setting out compensation and resettlement strategies, objectives, entitlement, actions, responsibilities, monitoring and evaluation.  |
| Severely affected households | - This refers to affected households who will (i) lose 20% or more of their total productive land and/or assets, (ii) have to relocate; and/or (iii) lose 20% or more of their total income sources due to the subproject.   |
| Vulnerable groups            | - These are distinct groups of people who might suffer disproportionately or face the risk of being further marginalized by the effects of resettlement and specifically include: (i) female headed households with dependents, (ii) disabled household heads, (iii) households falling under the National poverty line (use for 2010-2015), (iv) children and the elderly households who are landless and with no other means of support, and (v) landless households, and (vi) indigenous people or ethnic minorities. |

## Executive Summary

1. The Duc Hoa Irrigation Area spreads out in 11 communes and 1 townlet in the Duc Hoa District of Long An Province namely Tan My, Hiep Hoa, Tan Phu, Hoa Khanh Tay, Hoa Khanh Nam, Hoa Khanh Dong, Duc Lap Thuong, Duc Lap ha, Duc Hoa Thuong, My Hanh Bac, My Hanh Nam and Hau Nghia townlet (as the two communes of An Ninh Dong and An Ninh Tay are no longer included). It will benefit a command area of approximately 13,821 ha. Of which some 11,876 ha will be gravity fed and the remaining 1,945 ha will be watered in existing low level canals. There are a total of 146 canals and 441 structures comprising the irrigation system. Construction will consist of 10 Packages and 6 Borrow Areas and should be completed by the March of 2014.

2. A total land area of 50.5 ha will be permanently acquired from APs by the Duc Hoa Irrigation Area – Packages 4,7,9. This will include 41.3 ha of both agricultural and residential land which belonged to households. There are also 9.2 ha of public land as streams and roads affected for which there is no compensation. Besides, about 46.1 ha of land will be temporarily acquired during construction period (of which 44.4 ha belonged to households and 1.7 ha of public land).

3. In the three packages, there are 1,175 households (about 4,935 people) and 18 organizations to be affected by the project (the affected organizations are mainly commune authorities who managed public land). Among 1,175 AHs, there are 219 severely affected households, of which 6 AHs have to relocate and 218 AHs permanently lose more than 20% of agricultural land (There are 5 AHs lose both more than 20% agricultural land and an entire house). Besides the land, impacts are mostly on annual crops/ trees and other assets such as cattle-shed, fence, back-yard structures. No ethnic minority people in related communes are affected by the project.

4. A socio-economic survey of affected households was completed by the provincial OSDP team in the affected communes of Duc Hoa district to get information of socio-economic profile, needs and expectations of affected households. Together with the households' survey, the DMS was conducted by the Center of Land Fund Development of Duc Hoa District (CLFD) for Package 4 and the Center of Land and House Service of Long An (CLHS) for Packages 7 & 9 from Mar to Sep 2012.

5. *Updated Resettlement Plan (URP)*: The Phuoc Hoa Resettlement Framework (RF) was prepared in accordance with GoV Policy on compensation, assistance and resettlement and the ADB's Policy on Involuntary Resettlement in SPS (2009). The RP of Duc Hoa Irrigation Area has been prepared in compliance with the RF and based on basic design as well as Social Survey conducted in June and July 2010 by OSDP team. During project implementation, this RP is split into 4 RPs and updated according to results of DMS, public consultations and replacement cost survey for each civil works package, including: URP of Packages 1&2, URP of Packages 3,5,6, URP of Packages 4,7,9 and URP Packages 8,10 and 6 Borrow Areas. The RP of Packages 4,7,9 is updated according to Detail Measurement Survey (DMS), Social Economic Survey and replacement cost survey conducted in 2012 by DRC and OSDP team.

6. *Public consultations*. The Provincial Project Management Board (PPMB) has directed the District Resettlement Committee (DRC), the Center of Land Fund Development of Duc Hoa District (CLFD), Center of Land and House Service of Long An (CLHS) with support of OSDP team to conduct public meetings to provide information regarding project activities and the proposed resettlement and compensation arrangements to the affected households of the 3 packages. These public meetings were held before the DMS process from Mar to Sep 2012. The public consultations shown that the proposed compensation prices have reached consensus of majority of households, and the people broadly support the project because the project will provide sufficiently water for their cultivation.

7. *Grievance mechanism:* The mechanism has been designed to ensure that AHs' complaints and grievances will be addressed and resolved timely and precisely. Complaints of APs will pass through 3 stages before they could be elevated to a court of law as a last resort; of which stage 1 is handed by Commune PC, stage 2 at District PC and stage 3 of Provincial PC. Complainants are free from all administrative and legal fees of grievances and complaints resolution. The Grievance Redress Mechanism was disclosed to APs during public consultations.

8. *Monitoring and evaluation.* Implementation of the Updated RP will be regularly supervised and monitored by PPMU's internal monitoring with the support of OSDP team and implementation consultants. A qualified external monitoring consultant was selected by ICMB9 for conducting independent monitoring on the compliance of the compensation and resettlement implementation with the ADB policy and Vietnamese regulations as provided in Updated RP.

9. *Budget of the RP.* Compensation and assistance for APs are funded by the counterpart fund of Vietnam's Government (MARD) and ADB loans. After obtaining approval of compensation plan by the PPC, the Center of Land Fund Development of Duc Hoa district (CLFD) and the Center of Land and House Service (CLHS) of Long An province will withdraw cash from the Provincial Treasury to pay for APs. The total estimated amount of compensation and support for Duc Hoa Irrigation Area – Packages 4,7,9 including implementation fee and contingency is 162,164,121,793 VND (about 7.8 mil USD); Detailed analysis on compensation costs is provided in Chapter X and Annex 3 of this Updated RP.

## **I. Project Description**

10. The Phuoc Hoa Water Resources Project (PHWRP) is to provide an additional source of water in the Saigon and Vam Co Dong river basins for development of irrigated agriculture and to supplement existing supplies for salinity control and domestic, municipal, and industrial (DMI) use in HCMC and surrounding provinces. It will adopt an integrated development approach to increasing agricultural production by promoting efficient and sustainable management of the water resources.

11. Water resources infrastructure to be developed will include the Phuoc Hoa headworks which inundate 685 hectares (ha) with average water level at plus 42.9 m and a 40.5-kilometer (km) long transfer canal to divert and convey water from the Be River to the existing Dau Tieng Reservoir on the Saigon River in the neighboring basin. From there, it will be diverted through the existing Dau Tieng Irrigation System for multiple uses including irrigated agriculture and supplementary water for DMI use and salinity control in the Saigon and Vam Co Dong river basins. The Duc Hoa main canal of Tay Ninh section starts at km 33 +567 on the Dau Tieng east main canal and follows the existing canal alignment (N26) through Trang Bang District, Tay Ninh province. The canal then passes through Thai My commune of Cu Chi district, HCMC and Thay Cai canal by a siphon and to Tan My commune, near Hau Nghia townlet of Long An province. In Long An province, the canal length is 3.7 km. From the canal, water is diverted to Duc Hoa irrigation system. Two new irrigation areas will be developed under the Project: (i) Tan Bien Irrigation System (TBIS) in Tay Ninh Province with a net command area at full development of 6,725 ha, and (ii) Duc Hoa Irrigation System (DHIS) in Long An Province with a net command area at full development of 13,821 ha. Another irrigation area of 900 ha is planned to be developed in Cu Chi District of HCMC as an expansion of the irrigated area of Thai My commune.

12. The Duc Hoa irrigation system is located in Duc Hoa district of Long An Province. The total irrigated area is estimated at 13,821 ha, of which some 11,876 ha will be gravity fed and the remaining 1,945 ha will supplement water in existing low level canals. There are a total of 146 canals and 441 structures comprising the irrigation system. The canal network is made up of 30.38 km of primary canal with a width of up to 25.3m. Secondary canals make up 71.626 km in length and are 20.25 m in width. The tertiary canal network totals 129.675 km in length and are 15.2m in width. There are 11 communes and 1 townlet in the Duc Hoa Irrigation system area namely Tan My, Hiep Hoa, Tan Phu, Hau Nghia Townlet, Hoa Khanh Tay, Hoa Khanh Nam, Hoa Khanh Dong, Duc Lap Thuong, Duc Lap Ha, Duc Hoa Thuong, My Hanh Bac and My Hanh Nam. The Duc Hoa irrigation system is divided into 10 civil works packages and there are also 6 Borrow Areas which will supply soil materials for the canal construction.

RP of Duc Hoa Irrigation Area was prepared in 2010 for the whole area, including 13 communes and 1 townlet in Duc Hoa district, Long An province based on the initial social survey and IOL made in July 2010 by OSDP team. According to the RP, some 3,781 HHs would be affected by the project (about 17,530 affected people). This RP is split into 4 RPs for 10 civil work packages, including RP for Packages 1&2, RP for Packages 3,5,6, RP for Packages 4,7,9 and RP for Packages 8,10 and 6 Borrow Areas. Each RP has been updated based on the original RP 2010 and results of DMS, public consultations and replacement cost survey conducted during resettlement implementation.

### **1.2 Updating RP for packages 4,7,9**

13. As requested by ADB, the RP needs to be updated during the project implementation process. This RP for packages 4, 7 and 9 is updated based on original RP 2010 for Duc Hoa irrigation system and results of DMS, consultations with APs and replacement costs of the province applied for compensation in 2012 for packages 4,7,9. Some main parts of the RP are updated including (i) scope of

impacts, (ii) Socio-economic information, (iii) Public consultation and participation, (iv) Budget and cost estimate, and (v) Implementation plan.

## II. Scope of Land Acquisition and Resettlement

14. Based upon the Detailed Design, the Detailed Measurement Survey (DMS) at related communes of the Packages 4,7,9 was conducted as follows:

- Organizing affected households meetings at the CPC offices to disclosure project information and consultation.
- Distributing and guiding APs to fill in inventory sheets; disclosed sheets of project information and compensation policies.
- Conducting on-site measurements and inventories of affected assets (Measurement teams).
- Conducting social survey of 20% affected households by OSDP team (focus on the project severely affected households).

15. Inventory process in the project affected area of Packages 4,7,9 was carried out from Mar to Sep 2012. The inventory results were defined as follows:

(i) *Affected Households of Packages 4,7,9:* According to result of the DMS, total of 1,175 households (about 4,935 people) and 18 organizations will be affected by the project, of which there are 219 severely affected HHs, including 218 HHs will be acquired more than 20% productive land and 6 HHs will lose entire house and have to relocate (5 HHs losing both entire houses and more than 20% cultivation land) (Table 1).

(ii) *Acquired land area:* For the 3 packages, a total land area of 505,606 m<sup>2</sup> will be permanently acquired and apart from that there is also 461,873 m<sup>2</sup> to be temporarily acquired during the construction period (see Tables 2 & 3 for more detailed).

(iii) *Affected trees and crops:* about 66,496 trees and 857,102 m<sup>2</sup> of crops will be affected by Packages 4,7,9. The main crops and trees in the locality are pea-nuts, rice and corns, mangos, soursops, etc (Table 5).

(iv) *Losing houses/structures:* For the 3 packages, there are 14 households to be affected of houses, of which 6 households losing entire houses and 8 households losing partial houses. Totally there are about 3,615 m<sup>2</sup> of houses and structures to be affected. (see Tables 4 & 5)

(v) *Affected graves:* 20 graves with different types have to be relocated.

(vi) *Affected wells:* 87 wells will be affected by the project.

16. *Vulnerable groups.* The Vulnerable Affected Households in the sub-project include: (i) Poor households (2 HHs); (ii) Female headed households with dependents (22 HHs); (iii) Policy households (113HHs). Some households belong to more than one groups of VAPs. There are total 137 VAPs found in the subproject (Table 6).

### III. Socio Economic Information and Profile

17. The socio economic survey on the affected areas and AHs of package 4,7,9 was conducted in Aug and Sep 2012 by the OSDP team.

18. Long An OSDP coordinating with the Duc Hoa DRC, related communes and hamlet leaders have conducted a sample survey of 20% of affected households by questionnaire (concentrating in severely affected households) and carried out a property inventory of 100% of affected households. Those surveys have collected the following data: (i) socio-economic information of affected households, (ii) vulnerable groups, (iii) affected assets of households, (iv) choices of APs on resettlement options, (v) suggestion of impact mitigation measures, and (vi) the reasonability/ reasonableness of compensation rates of the project.

*Survey method:*

19. The OSDP social team used quantitative and qualitative methods to collect socio-economic data of affected households. Interviewed households using questionnaire were selected randomly from the list of affected people groups (groups of severely affected households, relocation households, female headed households and poor households). There are 246 households out of 1,175 affected households to be selected for interviewing. The team also collected statistical data of the communes to analyze and set up a baseline data for the post-resettlement evaluation. Results of the survey are summarized below:

### 3.1. Demographic information

#### *Population characteristics*

20. There are only Kinh people, no ethnic minority people living in the project affected areas. The average household size is 4.2 persons/per household as being identified in the survey.

### 3.2. Occupation and Income

21. Income of households in the affected communes by the project derives from agriculture; Agriculture is a main occupation of people in the district, however the productivity of plantation in the locality is not yet high-yield. Some households have secondary income sources from other jobs such as handicraft production, small business and services self organized by each households. Local handicrafts are being practiced by some households such as bamboo knitting basket for local use products. Of employment structure in the communes there is a trend of changing with fewer labors working on agriculture and more on industry and services.

26. In accordance to the new poverty line of Long An PPC for rural area, households having average income of each member below 400,000 VND/person/month (about 1,650,000 VND/household/month) is considered as poor households and average income of household member from 400,000 VND/person/month to less than 500,000 VND/person/month as sub-poor households.

### 3.3. Land tenants

27. There is no big land tenant in the area. The ratio of farmers in the related communes having land from 1 to 3 ha/ per household is 17% (only 1% having more than 3 ha). The remaining households has less than 6 000 m<sup>2</sup>/ per household.

### 3.4. Ethnic minority people

28. In accordance with the surveyed data and as confirmed by CPCs of related communes, there is no ethnic minority people in the affected communes.

### 3.5. Living Conditions

29. **Road system:** most of the roads in affected villages are relatively good and the provincial and district level roads are covered by asphalt. Roads between communes and hamlets are not asphalted but are compacted with red gravel.

30. **Electricity:** most households in the project area are using electricity and in the related communes 100% of households are connected to the national grid.

31. **Domestic water supply:** majority of people in the project area use water from drilled wells. The remaining households use water from dug wells or ponds. Most of households evaluate water quality through visually and according to odor. They are satisfied in general with existing water quality. However, the water used by local people is not inspected. There is not clean water supply system in the project commune. Some people get loans to drill wells themselves.

32. **Water for agricultural production:** As the district is located along the Vam Co Dong river, during dry season water of the river is salt intrusion and on-farm canals will be dried up water. . The highly elevated fields are irrigated by ground water in drilled or dug wells rather than from the canal. Therefore, Duc Hoa main canal and irrigation system constructed will improve much production conditions of farmers in the project area.

33. **Agricultural production:** Farmers in the related communes mainly grow rice, peanuts, maize and other subsidiary crops which need much water. However, due to water shortage, they only grow two crops per year and irrigate with well water. Many households grow fruit trees such as mango, soursop, sapodilla, etc.

34. **Education:** The education level of the surveyed household heads is as follows: 29.4% studied primary school, 47.8% finished secondary school and 15.4% completed high school, whereas 3.6% graduated from university and colleges. There are some people have never been to school or are illiterate (3.8%).

36. Kindergartens, primary schools and secondary schools are all located in project affected communes. There are 4 high-schools located in Hau Nghia and Duc Hoa townlets. The ratio of pupils attending kindergartens and primary schools is 100%. The ratios of pupil attended in secondary schools (up to grade 9<sup>th</sup>) and in high schools (up to grade 12<sup>th</sup>) are 98.5% and 92.2%, respectively. The remaining young people either attend vocational schools or find a job. Schools are of good quality with enough electricity, water supply and toilets. All the communes have completed compulsory education for all pupils (primary schools) and illiteracy control. Commune staff is promoting the compulsory education for high school students.

### 3.6. Poverty Conditions

38. Long An Province and Duc Hoa District are implementing poverty reduction programs in the umbrella of social safety measures of Vietnam Government in order to gain objectives of poverty reduction movement which is declared in Decision No. 20/2007/QĐ-TT dated 05/02/2007 of the Prime Minister. These programs have gained significant achievements since 2006. Programs and initiatives include:

- Initiative to poverty reduction in general and to support increased income for poor households at 145% compared to 2005;
- Support to infrastructure development of poor communes, public areas and remote areas;
- 100% of poor households are provided with health insurance for a reduction of 50% of healthcare and treatment costs;
- Poor households as per ranked by the province are entitled to preferential loans from the Social Policy Bank.
- The loan program for the replacing temporary houses with permanent houses;
- Students from poor families are entitled to get loans and schooling fees;
- Capacity building for project staff in terms of poverty reduction;
- Implementation of agriculture extension programs including aquaculture, forestry and other vocational training programs for poor households;
- The implementation of Decree 67/2007/ND-CP dated 13/04/2007 is supplemented by Decree 13/2010/ND-CP dated 27/02/2010 on people subject to social protection.

39. Details of achievements gained in poverty reduction programs of affected communes are shown in Table below.

40. The rate of poor households in the affected communes according to statistic data in 2012 is about 2.1%, decreased in comparison to 2.5% of 2011. For the affected households, percentage of poor households is between 1 to 2% according to the survey results (with average income is less than 400,000/ VND/person/month).

### **3.7. Gender issues**

41. The results of socio-economic survey and DMS show that for those households who affected by the Packages 4,7,9, there are 137 vulnerable and severe households, of which 22 households are female-headed and their lives are more difficult. Their livelihoods have mainly been relying on agricultural production or working for others as hired labors with unstable incomes. Therefore, in order to improve their living conditions and take full benefits from the project, the social support program for affected households within OSDP program shall propose some appropriate policies to help them accessing to higher income jobs and stabilizing their livelihood. Particularly, a gender action plan for vulnerable group shall be integrated into social support programs and gender strategies under the Project as follows: (1) special attention shall be given to women during the project implementation; (2) ensure active participation of women in resettlement implementation and particularly design restoration measures satisfactory with their specific needs and interests, (3) advices are given to women in making decision of resettlement, land improvement in order to maintain livelihood restoration conditions for their families.

42. Gender action plan for women affected by land acquisition and resettlement shall be integrated into OSDP socio-economic support program. Essential social support program selected by women through public consultation are: (1) micro-credit for business, production and livestock breeding (such as animal and poultry raising, etc.), (2) health insurance cards for health care for both males and females AHs, (3) child school grants in order to prevent early dropping-out of poor affected girls, (4) agricultural extension training for female farmers especially female-headed households to maximize benefits obtained from agricultural production on the remaining lands and (5) vocational program will be designed in the manner that concerns gender sensitivity for both females and males in the affected households who are in working age to help them find out some jobs based on their skills and choices.

43. Women unions at all levels in Long An province play very important role in poverty reduction in locality. In particular, the Women Union is responsible for training on “financial management”, “credit saving”, at the same time, coordinated with women unions at district and commune levels as well as other social organizations such as labor, invalid and social affairs, study promotion society, farmer association, etc. in helping the poor to improve their living conditions. Women unions at all levels played very important role in provision of local services for restoration of livelihoods for affected households, especially severely affected and vulnerable households of the sub-project.

## **IV. Information Disclosure, Consultation and Participation**

### **4.1. Information Disclosure**

44. According to the ADB Safeguard Policy Statement (SPS) to apply to projects approved after 20 January 2010, the following documents will be submitted to the ADB for Disclosure on the ADB website:

- (1) The Resettlement Framework - which was submitted to the ADB before project appraisal
- (2) Final RP endorsed by Client after the DMS (Census of APs) has been submitted
- (3) Updated RP following any changes from the DMS or other changes introduced (if any)
- (4) Resettlement monitoring reports

45. Information dissemination, in consultation with and the participation of all affected persons and involved agencies, reduces the potential for conflicts and minimizes the risk of project delays. This also

enables the Project to design the resettlement and rehabilitation program as a comprehensive development program suitable to needs and priorities of the affected people, thereby maximizing the economic and social benefits of the Project's investments.

46. According to the ADB's SPS, meaningful consultation should pay special attention to needs of disadvantaged and vulnerable groups and especially those below the poverty line; begin early in the project preparation stage and is carried out throughout the project cycle; provide timely disclosure of relevant and adequate information that is understandable and accessible to APs; be undertaken freely of intimidation or coercion; be gender inclusive and responsive, and tailored to needs of disadvantaged and vulnerable groups; and enable incorporation of all relevant view of APs and other stakeholders into decision making such as project design, mitigation measures, sharing of project benefits and opportunities.

#### **4.2 Consultation during project preparation**

47. From June 2010, several meetings have been held with the Provincial Departments such as DONRE, DARD, DOLISA and the Duc Hoa DRC, leaders of affected communes and project affected people. Objectives of the consultation were to inform/collect (i) the local authorities of Long An province, affected district and communes about the project information and sponsors' safeguard policy; (ii) differences between social safeguard policies, particularly ADB's policy on involuntary resettlement and borrower (iii) requirement for preparing a RP as one of prerequisite conditions for implementing the project; (iv) necessary procedures to prepare a RP such as IOL, Information Disclosure, Consultation and Participation, social economic survey, (v) information on capacity of local departments/agencies in RP implementation and land acquisition as well. (vi) opinions of these key stakeholders about advance, disadvantages in implementing the project, RP and their recommendations; and (vii) information's provided by local authorizes and departments as one of basis for consulting with APs.

48. Main outcomes from the meetings could be summarized as following: (i) local authorities agreed and strongly supported the project and all expected implementation as soon as possible; (ii) although Long An province has not carried out any international organizations financed projects, local authorizes ready complied with sponsor's safeguard (iii) local authorities would cooperate closely with ICMB9 and project consultants to speed up project progress; and (iv) It recommended a support from ADB in capacity building, particularly RP implementation to meet project's requirement.

49. Following these consultation meetings with local authorities and provincial/district departments, on Jun 22, 2010, a public consultation meeting on implementing the Phuoc Hoa Irrigation project was organized at the Duc Hoa DPC office with the participation of APs representatives from 11 communes and 1 townlet affected by the project, commune/village leaders in the affected communes, Duc Hoa DPC, Long An PPMB together with OSDP team and relevant organizations and associations, the ICMB9 and the project technical design consultant PST. In the locality, people are often shortage of water for irrigation. Drilling wells do not provide enough water for cultivation. Therefore, local communities strongly support the project which will bring water to local people and help improve their production conditions. The households also expected that if their land being acquired, they should be sufficiently compensated at market price.

#### **4.3 Consultation during implementation period**

50. As requested by ADB, during the project implementation, public consultation would be continued with many activities. Objectives of consultations are:

- To consult with relevant agencies about specific policies, plan in locality.

- To disclose project information, project compensation and relocation policies.
- To disseminate the survey results and compensation plan.
- To obtain comments and opinions of APs on compensation rates.
- To inform affected persons on amount of compensation and supports for individual APs.
- To correct and refine inaccurate data, if any.
- To consult relocation APs about resettlement options and measures of livelihood restoration.

51. From Mar to Sep 2012, a series of public consultation rounds has been held with participation of DPC, DRC and APs at affected communes of the irrigation project in Duc Hoa district. It can summarize and group these meetings into 5 rounds as following:

| 5     | Consultation with VAPs and SAPs to design social support program | All related communes  | Planned to be organized in Sep - Oct 2012 | CPC offices | VAPs and SAPs   |

52. By the time of updating this RP, the preparation of detailed compensation price for each household of the three packages is on-going and will be publicly posted at the communes for feedback of APs before submitting to DRC for approval. It is expected that the distribution of Detailed Compensation Prices will be done at the end of Oct 2012 by the DRC, CLFD, and CHLS in cooperation of CPCs with OSDP support. After that consultation with SAPs, VAPs on designing social support program will also be completed by OSDP team.

53. Outcomes from APs consultations during the RP implementation showed that (i) APs had known about the project for a long time. (ii) The people understand that they would benefit from the water supply of the project and prefers that the project should be implemented soon; (iii) Compensation price is often a very sensitive issue and much concerned by APs, however, after being explained with detail compensation prices applied for the project only few AHs complained on these prices; (iv) APs expressed their expectation on early receiving of compensation so that they can soon arrange and stabilize living; (v) AHs have preferred to resettle by themselves rather than to relocate to Hiep Hoa resettlement sites as the self-resettlement option can be more convenient to them. (vi) The social support programs as proposed by SAPs are cultivation and income generation credits; health insurance card, vocational training and school grants children.

54. The final Updated RP, endorsed by ADB and the Government, shall be disseminated amongst affected communities and posted on ADB's website. Any updates and amendments made on the Updated RP shall be disseminated the affected communities and posted on ADB's website.

55. Information about the project implementation was given to all APs in the form of a Project Information Booklet (PIB, See Annex 4), a poster, verbal presentation and explanation by the district DRC and implementation agencies.

## V. Grievance Redress Mechanisms

56. In order to ensure that all APs' grievances and complaints on any aspect of land acquisition, compensation and resettlement are addressed in a timely and satisfactory manner, and that all possible avenues are available to APs to air their grievances. AP's can utilize their normal civil rights at any stage of the process and access the national legal system. For the project, a well defined grievance redress mechanism has been established and informed to APs. All APs can send any questions to

implementation agencies about their rights in relation with entitlement of compensation, compensation policy, rates, land acquisition, resettlement, allowance and income restoration. They are free from any fee for resolving their complaints.

57. Grievances related to any aspect of the Project will be handled through negotiation aimed at achieving consensus. Complaints will pass through 3 stages before they could be elevated to a court of law as a last resort.

58. *First stage, at the commune level:* An aggrieved affected household may bring his/her complaint before the receiving department of the Commune People's Committee to be received and guided for necessary procedures. The CPC will meet personally with the aggrieved affected household and will have 5 days following the lodging of the complaint to resolve it (Note: in remote and mountainous areas, the complaint should be resolved within 15 days. The CPC secretariat is responsible for documenting and keeping file of all complaints that it handles.

59. Upon issuance of decision of CPC, the complainants can make an appeal within 30 days if dissatisfactory with the decision. If the second decision has been issued and the household is still not satisfied with the decision, the household can elevate his/her complaint to the DPC.

60. *Second stage, at the district level:* Upon receipt of complaint from the household, the DPC will have 15 days following the lodging of the complaint to resolve the case. The DPC is responsible for documenting and keeping file of all complaints that it handles.

61. Upon issuance of decision of DPC, the complainants can make an appeal within 30 days if dissatisfactory with the decision. If the second decision has been issued and the household is still not satisfied with the decision, the household can elevate his/her complaint to the PPC.

62. *Third Stage, at the provincial level:* Upon receipt of complaint from the household, the PPC will have 30 days (or 45 days in remote and mountainous areas) following the lodging of the complaint to resolve the case. The PPC is responsible for documenting and keeping file of all complaints.

63. Upon issuance of decision of PPC, the household can make an appeal within 45 days if dissatisfactory with the decision. If the second decision has been issued and the household is still not satisfied with the decision, the household can elevate his/her complaint to the court within 45 days.

64. *Final stage, the Court of Law Arbitrates:* Should the complainant file his/her case to the court and the court rule in favor of the complainant, then Provincial government agency will have to increase the compensation at a level to be decided by the court. In case the court will rule in favor of PPC, the complainant will have to receive compensation as described in the approved compensation plan and obey all requirements of land clearance.

65. To assure that the mechanism described above is pragmatic and acceptable to APs, consultation with local authorities and affected communities about this mechanism is needed, particularly consultation with vulnerable groups.

## **VI. Legal Framework**

### **6.1. Asian Development Bank Policy**

66. The objectives of the ADB's Policy on Involuntary Resettlement are to avoid involuntary resettlement whenever possible; to minimize involuntary resettlement by exploring project and design alternatives; and to enhance, or at least restore, the livelihoods of all displaced and vulnerable persons in real terms relative to pre-project levels; and to improve the standards of living of the displaced poor and other vulnerable groups.

67. The policy indicates important elements in involuntary resettlement are (i) compensation for lost assets and loss of livelihood and income, (ii) assistance in relocation including provision of relocation sites with appropriate facilities and services, and (iii) assistance with rehabilitation so as to achieve at least the same level of well-being with the Project as before. The policy further stipulates that the absence of legal title to land cannot be considered an obstacle to allowance and compensation for non-land assets affected. All persons affected by the Project, especially the poorer, landless, and semi-landless persons should be included in the compensation, resettlement, and rehabilitation package. The Safeguard Policy stipulates that those APs who are unable to demonstrate a legalizable or recognizable claim to the land being acquired will be eligible for non-land assets compensation only.

## **6.2. Vietnamese Acts and By laws**

68. In recent years, the Government has formulated several rules and regulations to protect the interests of displaced persons. Relevant acts and bylaws that govern various aspects of land acquisition and resettlement include:

- (i) Land law passed by the National Assembly on 26 November 2003.
- (ii) Decree 181/2004/ND-CP of the Government, dated 29 October 2004, on executing Land law.
- (iii) Decree 197/2004/ND-CP of the Government, dated 03 December 2004, on compensation, assistance and resettlement when the State acquires the land. This is arguably the key piece of legislation which replaces Decree 22/CP dated 24 April 1998 which previously provided the primary basis for compensation and resettlement activities.
- (iv) Decree 198/2004/ND-CP of the Government, dated 03 December 2004, on charging fees on land use.
- (v) Decree 17/2006/ND-CP, dated 27 January 2006, relating to amendment and additions to Decrees 181/2004/ND-CP and 197/2004/ND-CP above.
- (vi) Decree 84/2007/ND-CP, on 25<sup>th</sup> May 2007 on supplementary regulations on granting land use certificate, orders and procedures for compensation, assistance and resettlement when the State acquires land and settling complaints on land.
- (vii) Circular 06/2007/TT-BTNMT, dated 15 June 2007, of the Ministry of Natural Resources and Environment guidelines to executing Decree 84 of the Government.
- (viii) Decree 69/2009/ND-CP, dated 13 August 2009, regulating additional planning of land use, land prices, land acquisition, compensation, assistance and resettlement.
- (ix) Circular 14/2009/TT-TNMT, dated 16 November 2009, of the Ministry of Natural Resources and Environment providing guidelines on executing Decree 69/2009/ND-CP of the Government and replacing Circular 116/2004/TT-BTC, of the Ministry of Finance guiding on executing Decree 197/2004 of the Government.

- (x) Ordinance 34/2007/PL-UBTVQH11 of the National Assembly, dated 20 April 2007 on implementation of democracy in communes, wards, and townships, regulating issues for public announcement, which including public announcement of “investment projects and works and priority, implementation progress, compensation plans, assistance for land clearance and resettlement relating to project and works in communes”.
- (xi) Resettlement Framework (RF) 2003 and Updated Resettlement Framework (URF) in Dec 2010 of the Phuoc Hoa Project.
- (xii) Decision 07/2010/QD-UBND dated 1 March 2010 by Long An PPC for implementation of Decree 69 on resettlement compensations, supports and subsidies;
- (xiii) Decision 41/2010/QD-UBND dated 15 October 2010 by Long An PPC regarding the revisions and amendments to some clauses of resettlement compensations and supports policies applied to the lands in Long An province that are revoked by the State, issued along with Decision 07/2010/QD-UBND dated 01 March 2010 by Long An PPC;
- (xiv) Decision 17/2011/QD-UBND dated 24 June 2011 by Long An PPC regarding revisions and amendments to some clauses of resettlement compensations and supports policies applied to the lands in Long An province that are revoked by the State, issued along with Decision 07/2010/QD-UBND dated 01 March 2010 by Long An PPC;
- (xv) Decision 22/2011/QD-UBND dated 20 July 2011 by Long An PPC regarding issuance of unit prices for crops and animals, remaining land input costs, domestic facilities and graves in Long An province;
- (xvi) Decision 24/2011/QD-UBND dated 28 July 2011 regarding the issuance of new construction price for house building, works in Long An province;
- (xvii) Decision 45/2011/QD-UBND dated by Long An PPC on 11 November 2011 regarding the issuance of regulations of procedures for settlement of complaints on administrative decision on compensation, support and resettlement if the State withdraws lands for national defense, security, national benefits, public benefits and economic development in Long An province;
- (xviii) Decision 55/2012/QD-UBND dated 20 December 2011 by Long An PPC, issued price frame of land applied in Long An province in 2012.
- (xix) Decision 1148/QD-UBND dated 10 April 2012 approving compensation rates and supports under Phuoc Hoa Project, Duc Hoa main Canal, Primary canals, Borrow Area No. 1 and No. 2 in Tay My Commune, Duc Hoa District.
- (xx) Decision 1150/QD-UBND, dated 10 April 2012 on approval of resettlement assistance rates in cash for Phuoc Hoa irrigation project in Duc Hoa District.
- (xxi) Decision 1616/QD-UBND dated 25 May 2012 on providing additional compensation rates and supports for Borrow Area Number 3 and for temporary land acquisition of intake canal of Phuoc Hoa Project, in Tay My Commune, Duc Hoa District.
- (xxii) Decision 1617/QĐ-UBND on May 25, 2012 that approves compensation price/support units for the sub-canal N2 in Duc Hoa, Long An;

- (xxiii) Decision 1860/QĐ-UBND on Jun 15, 2012 that approves compensation price/support units for the sub-canal N3 in Duc Hoa, Long An;
- (xxiv) Decision 1934/QĐ-UBND on June 26, 2012 that supplements compensation prices of rubber trees in Duc Hoa, Long An. These prices were applied to compensate for lost assets in Duc Hoa irrigation area.

69. Other laws, decrees and regulations relevant to land management, land acquisition and resettlement include the Construction Law 16/2003/QH11, dated on 26 November 2003, on construction activities, rights and obligations of organization and individual investing in civil works construction and construction activities; Decree 105/2009/ND-CP of the Government, dated 11 November 2009 on the sanctioning for administrative violations in land issues; Decree No. 12/2009/ND-CP dated 12/2/2009 on the management of construction investment projects and replacing Decree 16/2005/ND-CP and Decree 112/2006/ND-CP on management of construction investment projects; Decree 131/2006/ND-CP, on the management and use of Official Development Assistance (ODA), and Decree 70/2001/ND-CP, on detailed regulations of marriage and family Law implementation, stipulates that all documents registering family assets and land use rights must be in the names of both husband and wife; Decisions of project provinces relating to compensation and resettlement in provincial territory will be also applied for each relevant sub-project.

### **6.3. Gaps between ADB's and GoV Policy on Involuntary Resettlement**

70. Generally, Decrees 197/2004/ND-CP and the more recent Decree 69/2009/ND-CP meet the objectives of ADB's Policy on Involuntary Resettlement, however some small differences can be found regarding the compensation of APs without legal rights to land (Land Use Rights Certificates – LURC). Preliminary enquiries reveal no illegal land users have been found in the rural areas. Table 20 presents the main areas of possible discrepancy.

Table 10: **Gaps Between National Policy and ADB Policy**

| Key Issues  | Viet Nam policy   | ADB Policy  | Project Policy  |

## VII. Entitlement, assistance and benefits

71. Eligibility is determined with regards to the cut-off date, which is taken to be the date of completing DMS for which land and/or assets affected by the Project are measured. The project affected people will be announced the cut-off date on 30 Sep 2012. Any people who settle in the subproject area after this cut-off date are not entitled to compensation and assistance.

72. In addition, the extent of eligibility for compensation in regards to land is determined by legal rights to the land concerned. There are three types of Affected Persons: i) affected persons with Land Use Rights Certificates (LURCs), ii) affected persons without LURC but legalizable under national laws, or, iii) affected persons without LURC and illegalizable.

### 7.1. Compensation and Assistance for Loss of Land

73. This is provided to ensure that the socio-economic futures of APs are at least as favorable as they were before the project. The compensation policy, which encompasses compensation for all affected assets, along with rehabilitation measures, ensures that all APs are able to, at a minimum; restore their incomes, standards of living, and productive capacities to pre-project levels. This is so that they are as well-off as they would have been in the absence of the project. Specific measures to ensure restoration of incomes and living standards of APs including compensation for lost assets are based on:

- (i) As a priority, land-for-land of equivalent productive capacity and at a location suitable and acceptable to the APs, or
- (ii) In case of the lack of available suitable same-use land or, at the request of an AP who has been informed regarding the options, cash compensation for land or a combination of the two.

74. Compensation for affected land has been offered either in the form of land-for-land of equal productive capacity at a location acceptable to the APs if available or in cash compensation at replacement cost if no land available and at the specific request of the APs. During preparation of this RP the OSDP team has conducted replacement cost surveys and also tracked recent land transactions in affected communes to ensure that compensation prices being applied are current market prices.

75. **Replacement cost survey:** The mission carried out a cost inventory directly at the area where land is acquired for canal construction. This included direct interviews with farmers, references to successful land use right transfer contracts and documents related to land prices in the surveyed area provided by the CPC. Objective of Replacement cost survey was to make a proposed compensation rates/price units for land, assets and support policies of Phuoc Hoa Project. The survey mission has been established at district level with the participation of district representatives of Finance Division; Environmental Division; CLFD, CPCs, hamlet leaders and household representatives;

76. Based on the surveyed information and data on prices of land parcels in the area and geographical factors of the surveyed land parcels in comparison with the land parcels to be priced, the mission analyzed, synthesized and established average cost using direct comparison method. After the determination of the intended land parcels, the mission organized a meeting to circulate information and receive consensus on the common prices; This required the participation of affected household representatives in the meeting.

77. **Land price appraisal and approval:** Unit prices of different land pieces have been submitted to DRC for approval. After approval of DRC, the table of various types of land has

been submitted to Department of Finance of Long An province for review and then has been sent to Long An PPC for final approval (See a list of unit prices in Annex 5).

78. Some land shall be temporarily acquired as short-term access tracks or where needed storage of materials or shelters for workers and perhaps some short-term borrow pits for materials excavating, although borrow pits if cannot be restored shall be acquired permanently. The areas shall be returned to the original owners who will be compensated for temporary losses and damages of incomes gained in cultivation or other activities, and the lands shall be returned to land owners at original condition. With regard to production lands that will be acquired permanently, although the compensation for acquired land with land of similar uses is prioritized by ADB, it is recognized that, at present, this solution shall be very difficult. As the project area is close to HCMC and population density has been lately increased, available lands are insufficient. Therefore, it is important that affected persons are compensated for the affected lands at the market value plus assistances in order to ensure that they shall not be disadvantaged in any aspect if they have to be moved to a new place.

79. *For Land Users with Permanent or Legalizable Use Rights:* For arable land that will be permanently affected, and due to the difficulties providing same-use agricultural or forestry land, all APs will be entitled as follows:

- (i) **Marginally affected APs.** APs with losses less than 20% of their total agricultural landholdings, are entitled to cash compensation for crops and trees at market prices, and cash compensation for acquired land at 100% of replacement cost.
- (ii) **Severely affected APs.** APs with losses of 20% or more of their total agricultural landholdings, are entitled to cash compensation for crops and trees at market prices and cash compensation for the lost land at 100% of replacement cost and rehabilitation assistance under the Social Support Program (skills training for one family member in a current or new occupation and a training allowance, provision of agricultural extension services to increase the productivity of remaining land, literacy training, and assistance to access existing credit programs, and priority for project-related job opportunities).

80. *Land Users without permanent or legalizable rights to use of land:* Households occupying and using land without permission from the commune will be entitled to compensation for crops and trees at 100% of market prices. They will not be compensated for land but will receive assistance corresponding to their remaining investment on land. In addition, relocated APs and poor and vulnerable households will receive rehabilitation assistance under the Social Support Program as mentioned above.

81. *Loss of Residential Land:* If there are no structures on the residential land, APs will be entitled to compensation in cash at 100% of the replacement cost of the affected land.

82. For land with structures thereon, if relocation is required, legal or legalizable APs will be entitled to stay and rebuild on their remaining land if viable, otherwise they can opt for relocation. APs who reconstruct their houses on their remaining land will be compensated with cash for affected land and structures at 100% of the replacement cost and provided resettlement allowance in cash of the provincial PC as well as affected structures at 100% of the replacement cost. APs who have no viable remaining land, or who opt for relocation, will have one of the following options:

- (i) **Relocation to a resettlement site**
  - (a) land-for-land compensation with full title to a plot of land (not less than the standard plot size) at resettlement site as close as possible to the old location and full infrastructure; and

- (b) compensation for affected structures at full replacement cost, and
  - (c) subsistence and transportation allowances, and if needed, rental assistance or temporary housing whilst waiting for the new accommodation; or,
- (ii) **Self relocation**
  - (a) with cash compensation at full replacement cost for their legal affected land and structures if they prefer to make their own arrangements for relocation, and
  - (b) subsistence and transportation allowances and cash support for leveling foundation.
- (iii) **APs who do not have recognized or recognizable claims to affected land.**
  - (a) No compensation for land but assistance for relocation; and
  - (b) Compensation for affected structures at full replacement cost, and
  - (c) Subsistence and transportation allowances; and
  - (d) If relocated household has no other place for resettlement, the PPC considers allocating a standard-sized plot in resettlement site for them.

## 7.2. Compensation for Structures

83. **Determining replacement cost of house and structures:** Department of Construction of the province is responsible for price determination. The valuation process is based on the Vietnamese construction standard and the market price of construction materials plus the cost of local labors in the province. These prices of houses and structures would be adjusted and issued annually if there is a change in the market price. These will be checked again during RP implementation and when compensation is to be paid.

84. APs losing structures will be entitled to the following:

- (a) Compensation in cash for all affected structures will be provided at replacement cost for materials and labor, regardless of whether or not they have title to the affected land or permission to build the affected structure. No deductions will be made for depreciation or salvageable materials. The amount will be sufficient to rebuild a new structure with the same technical standard as the former one. The calculation of replacement cost will be based upon i) fair market value, ii) transaction costs, iii) interest accrued, iv) transition and restoration costs, and v) any other applicable payments.
- (b) Compensation and support will be made in cash without deducting depreciation value and salvageable materials.
- (c) The calculation of compensation will be based on the actual affected area and not the useable area.

85. The level of compensation for the removal of graves will be paid for all costs of land, excavation, relocation and reburial. Current building materials prices will be used when calculating the amount of compensation if necessary. Compensation in cash will be paid to each affected family.

## 7.3. Compensation for Loss of Standing Crops and Trees

86. Prices of trees and crops are valued and issued annually, and the Long An DoF has responsibility for valuation and consultation with PPC to provide an official issuance for plants and crops, based on the market prices. For annual standing crops, compensation will be paid to households who cultivate on the land according to the full market value of the affected crops, regardless of the legal status of the land. For perennial plants, compensation will be paid according to the full market value of the affected plants, regardless of the legal status of the land. If the plants are not yet ready for harvest, compensation will include the total cost of initial investment and care until the time of the land acquisition. In case perennial plants can only be harvested once, compensation will be paid for the total cost of investments and care calculated until the time of the land acquisition. Compensation will be in cash.

#### **7.4. Compensation and Assistance for Affected Business Activities**

87. APs who must relocate their shops or enterprises will be provided assistance to rebuild and/or relocate their premises regardless of whether or not the business is legally registered. The CPC must certify that the AP is engaged in business and therefore eligible for the assistance provided. The AP is entitled to transportation assistance to a new location, compensation at replacement cost for structures lost with no deductions and depreciation for salvageable materials. Affected business owners are entitled to compensation for i) costs of re-establishing commercial activities elsewhere, ii) the net income lost during the transition period, iii) costs of transferring and reinstalling plant, machinery and equipment.

88. Businesses are entitled to full compensation of lost earnings during the transition period. Businesses that are legally registered and paying tax will receive full restoration whilst those that are not fully legal and registered with the taxation authorities will be entitled to 50% of the compensation available. Income levels must be substantiated either through taxation records or, if not available, as certified by the CPC and accepted by the DRC.

89. Workers of affected businesses are entitled to compensation for lost wages for a period of up to 6 months. If longer, they may be eligible for retraining.

90. In order to enable relocating APs losing shops at the affected locations to restore their incomes, where possible, access to business locations within the same communes is necessary to permit APs to maintain their economic and social relationships. Such APs will be given priority for relocation at commercially advantageous locations along highways, communal roads, and along canals near the bridges or footbridges in order to maximize their benefit from business opportunities.

#### **7.5. Compensation and Assistance for Temporary Impacts**

91. Temporary loss of land or assets being used for short term access, camping, storage areas or damaged properties during construction will be entitled to compensation for assets or crops on the affected land and loss of income during temporary use period. As the land is being returned to the AP there is no compensation paid for the land temporarily acquired. The land must be handed back to the APs in the same condition in regards to fertility and cleared of any debris by the contractor. Also in the event that any property is damaged by the construction contractor, the contractor will reimburse the AP at full value.

92. An entitlement matrix is established to ensure all affected households and assets to be compensated and assisted to restore livelihoods, income and assets affected by the project. See details in Annex 1.

### **VIII. Relocation of Housing and Settlements**

93. There are 6 relocated households whose houses are entirely affected by the project . Resettlement alternatives for relocated households include:

94. **Relocation in resettlement site:** If relocated households prefer to relocate to resettlement site, they will be arranged to the Hiep Hoa Townlet residential sites located in Duc Hoa District which has been fully completed with infrastructure. The people will be allocated in block C and D of the resettlement site. The PPMB and CLFD will be responsible to complete required procedures for issuing LURC for household according to the existing regulation.

95. **Self-relocation:** During consultation, 2 affected households who do not have remaining residential land have expected to resettle by themselves. In those cases, relocated households will receive resettlement support in cash by the project according to the provincial regulations (Decision 1150/QD-UBND, dated 10 April 2012 of Long An PPC on approval of resettlement assistance rate in cash for Phuoc Hoa irrigation project in Duc Hoa District) as follows:

96. A rate of support for self-relocation in cash = (Investment portion rate x 2) x Resettlement plot area according to Decision 1150/QD-UBND. In which:

- (i) Affected entire house and residential land without having any other place to live within the commune where the land is acquired: HHs will receive a support for self-relocation of 132,000,000 VND/ household.
- (ii) Affected entire house built on their own agricultural land or affected entire residential land (without a built house) without having any other place to live within the commune where the land is acquired: HHs will receive a support for self-relocation of 66,000,000 VND/ household.
- (iii) Affected entire house built on other people's land without having any other place to live within the commune where the land is acquired: HHs will receive a support for self-relocation of 58,000,000 VND/ household.

97. Their entitlements for compensation and assistance are regulated in the entitlement matrix (Annex 1)

### **IX. Income restoration and rehabilitation**

#### **9.1. Allowances during the transition period**

98. APs are entitled to provision of a range of special allowances, in accordance with Decree 69/2009, so that they can restore their livelihoods and incomes as soon as. The details on the allowances during the transition period is provided in the Entitlement Matrix at Annex 1 of this Updated RP:

99. **Relocation assistance:** Households with permanent or semi-permanent houses to be relocated will receive an allowance of 10 million VND/ household; and for temporary house, the relocation assistance will be 7 million VND/ household.

100. **Housing rental assistance:** Relocated households meeting resettlement conditions who have no other accommodation during waiting for rebuilding new house will be entitled to assistance of 300,000 VND/ person/ month or at least 900,000 VND/ household/ month, until new house is handed over, or until notice of new land is given plus up to 6 months of the allowance whilst new house is built. In the case households being relocated but still having residential land and not meeting resettlement conditions, if handing over their affected land timely, they will receive the above assistance up to 6 months if being relocated of the entire house and up to 3 months if being relocated a part of the house.

101. **Assistance for livelihood stabilization** – (i) if the APs lose 20% to 70% of productive land they shall receive assistance for 6 months if no relocation required and 12 months if relocated. (ii) if APs lose more than 70% of productive land, assistance will be for 12 months if no relocation required and for 24 months if relocated. Assistance in cash is equivalent to 30 kg rice per person per month at current market price. In all cases the rice price is based upon average price at the time of compensation as announced by Provincial Department of Finance.

102. Owners of houses and residential land, who meeting resettlement conditions, will receive cash assistance for people who are actually living in the relocated house. (i) An assistance of 30 kg rice/person/month x 12 months for houses built on agricultural land or on other people's land; or (ii) An assistance of 30 kg rice/person/month x 24 months for houses built on residential land.

103. **Assistance for new vocation and job creation**– Severely affected households due to losing 20% of productive land or more will be assisted with a cash allowance of 2 times of the agricultural land area affected but not exceeding quota of land allocation in locality. Beside of the allowance, People of working age, if requesting assistance for new vocational training are entitled to provision of a training card of value up to VND 5 million (not a cash payment).

104. **Special assistance to social policy households** – Special assistance is provided for Households who are beneficiary of social allowance (such as Heroic Mothers, Heroes Armed Forces, Invalid, Martyrs, Revolution families). If households must be relocated and: (i) not losing entire land, they will be supported with an allowance of 5 million VND/ household; (ii) in case losing entire land, they will receive an allowance of 10 million VND/ household.

105. **Special assistance to poor households:** Poor households (as classified according to the State poverty line) will be provided with the following allowance at the time of compensation payment:

a) If households being relocated entire house but not losing entire land, they will be supported one time in cash with equivalent to 30 Kg rice/month/HH for 36 months according to average price of rice in the market.

b) If households being relocated entire house and entire land, they will be supported one time in cash with equivalent to 30 Kg rice/month/HH for 72 months according to average price of rice in the market.

106. **Incentive bonus:** If relocation households hand over their affected land timely according to schedule of the project, they will receive an incentive bonus of 5 million VND/ household. If household losing entire residential land but their agricultural land is still remained, then the bonus will be 50% of the mentioned amount.

107. **Social Development Program:** All affected households losing 20% or more of their productive land/assets or any household losing 10% to 19% of productive land whose remaining land cannot sustain the households, as well as affected vulnerable households are entitled to participation in the On Farm and Social Development Program to facilitate the restoration of their livelihoods and income generation. AHs will also benefit from vocational training, agricultural extension, small business and literacy programs (if necessary).

## 9.2. Income Restoration and the Social Support Program

108. **Significantly Affected APs:** APs who must relocate and/or with losses of 20% or more of their total agricultural landholdings or any household losing 10% to 19% of productive land but the remaining land cannot sustain the households, beside of compensation for affected assets will be entitled to provision of rehabilitation assistance as well as the income restoration designed within the framework of social support programs of the Project.

109. Compensation alone is not sufficient to meet the objectives of this RP which are restoration of pre-project living standards and productive incomes of farmers who are Significantly Affected by the projects, or shopkeepers who must re-establish their business at a new location. Income restoration measures have been designed to assist severely affected farmers and shopkeepers to restore their pre-project living standards and productive incomes, and improve living standards and future prospects for the poor and vulnerable households.

110. Social support program are being continued to carry out by OSDP team. The expected support program includes:

- (i) **Agricultural extension.** Affected farmers who are compensated with agricultural land, or receive cash compensation for partial loss of productive land and still has some economic viable remaining agricultural land will be entitled to agricultural extension assistance to increase productivity on their remaining or new land. Such assistance would include cultivation techniques for new high-yielding varieties or conversion of plants and animals have higher productivity. This measure could help restore income lost so that the AP will be in a position to produce the same or higher level of income from the next season's harvest. The implementing agency will coordinate with the extension department of DARD to facilitate the provision of agricultural extension services to all severely affected farmers.
- (ii) **Skills training.** Under the Social Support Program, one member of each severely affected household will be entitled to skills training (plus a training subsistence allowance) either in their current occupation to enhance their existing skills so as to improve their productivity, or in a new occupation which could put them in a position to increase household income.
- (iii) **Literacy training.** Those severely APs will be assisted under the Social Support Program to increase their literacy through connection with existing Ministry of Labor Invalids and Social Affairs programs.
- (iv) **Access to credit.** Lack of access to credit often leads to lack of equipment and inputs and lack of capacity to optimize the use of agricultural land or to deal with difficulties in creating new enterprises. For the severely APs, they will be assisted under the Social Support Program to obtain credit assistance through existing programs or through a micro-credit scheme to be established by the Project.

111. **Job opportunities related to the project's activities:** Severely affected households will be given priority to recruit for project related jobs.

### 9.3. Social Support for Vulnerable Groups

- (v) Vulnerable groups are those likely to be particularly disadvantaged as a consequence of resettlement. Vulnerable groups include the poorest, those without legal title to assets, households headed by women with dependents, and households headed by the elderly and the disabled without means of support. Vulnerable households who are not severely affected through loss of assets (to be identified during DMS survey) will, nevertheless, receive assistance under the Social Support Program such as agricultural extension assistance for vulnerable farmers, literacy and skills training, and access to credit programs within the OSDP of the project as mentioned above.

## X. Resettlement Budget and Financing Plan

112. Resettlement costs were estimated based on results of the replacement cost survey conducted by DRC under support of OSDP team in March 2012. Budget of compensation and assistance including land and assets on land compensation for APs are fully funded by the Vietnam's Government (MARD) and ADB loans. All funds will be transferred to the provincial treasury. After obtaining approval of compensation plan from the PPC, the Center of Land Fund Development of Duc Hoa district and the Center of House and Land Services of Long An will withdraw cash from the Treasury to pay for APs. If any AP does not receive compensation because of some reasons, their compensation amount will be deposited in the bank until their problems are resolved and they agree to receive compensation. Total amount of compensation and allowances for APs affected by Duc Hoa Irrigation Area – Packages 4,7,9 is 162,164,121,793 VND (about 7.8 million USD); of which 82,317,876,942 VND is paid for land, 79,846,244,851 VND will be paid for assets, allowances and supports as well as the compensation implementation fee and contingency cost. Detailed analysis on compensation costs is provided in Annex 3 of this Updated RP.

## **XI. Institutional Arrangements**

113. As permitted under Decree 197/2004/ND-CP, MARD and ICMB9 assign the Long An Provincial Peoples' Committee (PPC) to be the project owner responsible for the implementation of resettlement activities for both HCMC and Long An province, and Tay Ninh PPC responsible for resettlement activities in Tay Ninh with the coordination and support from provincial Steering Committees and provincial related departments, of District PCs. The implementation responsibilities are allocated to Commune PCs at the locality. The main project implementation agency is ICMB9 under MARD.

### **11.1. Management Agencies and Responsibilities**

#### **Ministry of Agriculture and Rural Development (MARD) and Hydraulic Investment and Construction Management Board No. 9 (ICMB9)**

114. The Ministry of Agriculture and Rural Development (MARD) is responsible for the realization of the Phuoc Hoa Project, on behalf of the Government. Within resettlement tasks, MARD is responsible for supervising the implementation of resettlement.

115. The Hydraulic Investment and Construction Management Board No.9 (ICMB9) is assigned by MARD to be responsible for coordinating with relevant stakeholders to implement the Project's activities, including land acquisition, clearance and resettlement. ICMB9 has gained experience from resettlement planning and implementation under Phase 1 of the project. ICMB9 has overall responsibility for:

- Providing overall planning, coordination, and supervision of the resettlement program;
- Guiding implementing agencies (DRC) and the commune-level Inventory Working group to implement resettlement activities in accordance with policy of the approved RP; and if any mistakes or shortcomings identified through internal and/or external monitoring of RP implementation ICMB9 will advise local authorities to resolve timely to ensure that the objectives of the RP are met;
- Updating and finalizing RPs and obtaining PPC and ADB's approval before implementing approved Updated RPs;
- Providing resettlement training to implementing agencies, all PPMB staff and the resettlement committee at all levels;
- Coordinating with other implementation agencies and relevant institutions during periods of preparation, planning and implementation of the RP;
- Establishing procedures for ongoing internal monitoring and review of project level progress reports and for tracking compliance to project policies;
- Establishing procedures for monitoring coordination between contractors and local communities and for ensuring prompt identification and compensation for impacts occurring during construction;
- Recruiting, supervising and acting upon the recommendations of the external monitoring organization;
- Establishing procedures for the prompt implementation of corrective actions and the resolution of grievances;
- Reporting periodically on resettlement implementation progress to the ADB.

#### **Provincial People's Committee (PPC)**

116. The Long An PPC is the principal authorities at the Provincial level and act as the Project Holder of the resettlement component of this project. The PPC is responsible for:

- Implementing internal resettlement monitoring, establishing and maintaining AP databases for each component in accordance with established project procedures and providing regular reports to ICMB9 and MO;
- Implementing prompt corrective actions in response to internal and external monitoring, and resolution of grievances;

**Land Fund Development Center (CLFD) /and Center of House and Land Services of Long An (CHLS) which are under District Resettlement Committee (DRC)**

119. DRC is responsible for:

- Coordinating with relevant departments in making valuation and appraisal of land, houses and structures prices in order to establish the compensation unit prices of the project.

- Implementing all resettlement activities within the district territory under the DPC' management, including public meeting and consultation, DMS, preparing compensation plan, payment of compensation, delivery of livelihood restoration measures, and resettlement.
- Establishing and strengthening capacity of commune-level Inventory Working Group;
- Accepting and handing over the sites to the implementing agencies;
- Assisting DPC to redress APs' complaints and grievances.

120. The two implementation agencies of CLFD and CHLS are responsible for:

- Assisting the DPC for issuing the land acquisition decision for each affected household.
- Based on household list and cadastral map provided by the Center of Survey and Mapping (CSM) belonged to DONRE, conducting detailed measurement survey and inventory (DMS) for land and assets of affected households with participation of APs and providing relevant data for RP preparation.
- Preparing compensation plan for each household.
- Consulting with APs in compensation and relocation plan before submitting to the PPC for approval.
- Organizing the compensation payment for affected households after compensation plan approved.
- Assisting DPC to redress APs' complaints and grievances.

## **XII. Implementation Schedule**

121. **Approval of updated RP.** ADB and Long An PPC shall both approve the updated Resettlement Plan. Approval is expected in early Nov 2012.

122. **Information Dissemination.** PPMB have coordinated with CPC and OSDP team (before the establishment of DRC) to implement an information campaign in all affected communes since 2010 and continuing up to now. The information to be publicized includes: (i) the project scope, (ii) project impacts, (iii) entitlements of APs for all categories of loss, (iv) schedule of activities beginning with the detailed design survey, (iv) institutional responsibilities and (v) the grievance mechanism. The PIBs were prepared and distributed to all affected communities/AP during the campaigns. The final updated RP will be translated into Vietnamese and summarized to disclose to the affected communes and APs.

123. **Detailed Design.** The Detail Design of Duc Hoa Irrigation was prepared by PST consultant and approved by MARD before 2010. The design consultant has marked the project boundaries for land acquisition before May 2011. The design modification of the canal was done in Jan 2012.

124. **Establishment of District Resettlement Committee (DRC).** At district level, the DRC was established in March 2011 to implement the project resettlement.

125. **Training for Resettlement Staff.** On 5 Sep 2011, OSDP team of Long An have coordinated with consultant (BVI) to support PPMB Long An to carry out training for all local resettlement staff at PPMB, PRC, DRC, and CRC levels. Training subjects include:

- (i) participatory methods
- (ii) procedures for preparing, updating and finalizing the RPs;
- (iii) consultation and information dissemination methods;
- (iv) principles, policies, and entitlements of the RPs;
- (v) RP implementation steps, procedures, reports and schedule;
- (vi) grievance redress mechanism; and

- (vii) powers and obligations of individuals/agencies involved in the process of resettlement programs.

126. **Updating and Issuance of Replacement Cost Unit Rates.** Replacement cost survey of the project was made by implementation agencies with support of OSDP team in comparison to formal issuance of the project compensation unit rates. The unit rates have been evaluated through consultation with APs and local governments. Based on which, the Long An PC has approved land compensation rates for land with also consideration of inflation level in the project related decisions: Decision 1617/QD-UBND dated 25 May 2012 and Decision 1850/QD-UBND dated 15 Jun 2012 on land prices; As well as Decision 24/2011/QD-UBND dated 28 July 2011 on house and structures and Decision 22/2011/QD-UBND dated 20 July 2011 on other assets as mentioned above.

127. **Detailed Measurement Survey (DMS) and Census Survey.** A DMS of Packages 4,7,9 has been conducted from Mar to Sep 2012 based on the detailed design and additional in Jan 2012 based on revised of basic design in order to update RP. The DMS results and the Entitlement Matrix serve as the basis for calculating the compensation and allowances for APs. All data is computerized by the CLFD and CHLS.

128. **Approval of the updated RPs.** The updated RP is required to review and approve by ADB before commencement of any payment for APs. The approval of updated RP is expected in early Nov 2012

129. **Pricing Application.** The CLFD and CHLS are responsible for pricing application and preparing compensation plan for each affected household. The detailed compensation plans for each household are under approval process. Quantities of affected assets, AP entitlements, etc will be disclosed to APs for comment before submitting to the PPC for approval. All compensation forms were checked and signed by the APs to indicate their agreement.

130. **Payment of compensation and allowances.** The payment will be conducted by the CLFD and CHLS under the supervision of representatives of PRC, DRC, PPMB, and IMO. APs will be informed in advance about the payment schedule and place. The payment is planned in Dec 2012 after approval of the updated RP.

131. **Relocation of APs.** All relocated households selected to relocate themselves. DRC and CRC will assist them to seek and purchase land or otherwise arrange replacement land. Assistance from the DRC and commune authority is also required during the movement of APs' houses and the construction period. Relocation will be implemented after relocated APs received full compensation and allowances.

132. **Award of Civil Works Contract.** The bidding documents of the packages 4 to 10 were prepared and published on 10 Oct 2012. The bid results will be expected at the end of Nov 2012. Although contracts may be awarded earlier but no physical or economic displacement can occur until after all APs have been compensated and relocated in accordance with the approved RP.

133. **Income Restoration and Social Support Assistance.** In order to provide adequate economic rehabilitation measures, eligible APs shall be consulted on rehabilitation options which are provided under the Social Support Program in order to participate in appropriate activities. These programs should be carried out from Jan 2013 and to be implemented after signing contract with local service providers.

134. **Monitoring and Reporting.** Internal monitoring has been implementing by Long An PPMB. External monitoring is conducted by IMO every quarter, starting from Jan 2012 to

December 2013. Monitoring will continue throughout the construction period. The implementation agencies (PPMB and ICMB9) assigned staff responsible for internal monitoring of Project RP implementation, with the supports of the implementation consultants and OSDP specialist at provincial level, as well as IMO.

### **XIII. Monitoring and Reporting**

#### **13.1. Internal Monitoring**

135. Implementation of the RP will be regularly supervised and monitored by the PPMU with the support of OSDP team and implementation consultants. The findings and recommendations will be recorded by the PPMU in quarterly reports on implementation progress of compensation and resettlement to submit to the ICMB9 and the ADB for review. Internal monitoring aims to:

- a. ensure payment of compensation to project affected people are provided based on DMS results and replacement costs of affected assets at the market price at the compensation time.
- b. ensure resettlement activities are conducted according to the compensation policies as per agreed RF and RP for the project.
- c. determine if the required transition and income restoration measures are provided on time.
- d. assess if income and livelihood restoration measures have been provided properly for income restoration of APs and propose remedial measures if objectives of restoring income of households have not been met.
- e. Implementation of information disclosure and community consultation
- f. determine if complaint procedures are followed and propose solutions if there are pending issues.
- g. give priority to displaced persons' concerns and needs, specially the poor and vulnerable households.
- h. conformity between relocation and land clearance and construction commencement to ensures that APs have been provided with compensation, allowance and relocation satisfactorily before construction commencement.

### 13.2. External Monitoring

136. Compensation and resettlement implementation for project must be subject to external monitoring by an independent qualified consultant selected by ICMB9. The independent monitoring consultant should be recruited under regulations of recruiting the

Consultant by the ADB with a terms of reference that specify frequency of monitoring, methods of monitoring, monitoring indicators and reporting requirements. Monitoring reports will be submitted to the ICMB9 and the ADB after finishing site monitoring.

137. Independent monitoring of RP implementation will be based on desk review and field visits, meetings with relevant agencies, local officials and APs. Separate meetings with women and vulnerable households will be held. The main objective of external monitoring is to provide an independent periodic review and assessment of (i) achievement of resettlement objectives; (ii) changes in living standards and livelihoods; (iii) restoration and/or improvement of the economic and social base of the affected people; (iv) effectiveness and sustainability of entitlements; and (v) the need for further mitigation measures. Monitoring and evaluation indicators are presented in Table below.

138. The external monitoring will address specific issues as follows:

- a. Public consultation and awareness of resettlement policy and entitlements of APs;
- b. DMS of affected assets and compensation payment as per policies in approved RP;
- c. Coordination of resettlement activities with construction schedules;
- d. Land acquisition and transfer procedures;
- e. Construction/rebuilding of replacement houses and structures on residual land or to new relocation sites;
- f. Level of satisfaction of APs with the provisions and implementation of the RPs;
- g. Grievance redress mechanism (documentation, process, resolution);
- h. Effectiveness and sustainability of entitlements and income rehabilitation measures for APs;
- i. Gender impacts and strategy;
- j. Capacity of APs to restore/re-establish livelihoods and living standards. Special attention provided or to be provided to severely affected and vulnerable households;
- k. Resettlement impacts caused during construction activities;
- l. Participation of APs in RP planning, updating and implementation;
- m. Institutional capacity, internal monitoring and reporting; and
- n. Channeling of government funds for compensation payment and allowances for severely APs or displaced APs.

### PHUOC HOA WATER RESOURCES PROJECT AT RP IMPLEMENTATION PHASE

#### PROJECT INTRODUCTION

##### 1. General Information

To undertake poverty reduction and socio-economic development programs, the Government of Vietnam has signed the ODA Loan Agreements with the ADB and AFD for implementation of the Phuoc Hoa Water Resource Project. The Project has been undertaken in three provinces of Tay Ninh, Long An and Ho Chi Minh City. The overall objective of the Project is to provide an additional source of water in the Saigon and Vam Co Dong river basins for development of irrigated agriculture and to supplement existing supplies for salinity control and domestic, municipal, and industrial (DMI) use in Ho Chi Minh City (HCMC) and surrounding provinces. It will adopt an integrated development approach to increase agricultural production by promoting efficient and sustainable management of the water resources.

Water resources infrastructure to be developed will include the Phuoc Hoa barrage which will inundate 685 hectares (ha) and a 40 kilometer (km) long transfer canal to divert and convey water from the Be River to the existing Dau Tieng Reservoir for water use purpose as mentioned above. These works were completed under Phase 1.

Two new irrigation areas will be developed under Phase 2 of the Project: (i) Tan Bien Irrigation System (TBIS) in Tay Ninh Province with a net command area at full development of about 7,670 ha, and (iii) Duc Hoa Irrigation System (DHIS) in Long An Province with a net command area at full development of about 12,000 ha.

##### 2. Scope of Land Acquisition and Resettlement of the Project

Phase 2 of the Project affects two provinces: Tay Ninh and Long An; and Ho Chi Minh City, concerning 6 districts and approximately 24 communes and 2 townlets. The main infrastructures include:

**Duc Hoa Main Canal:** The canal will have a total length of 17.68 km with a capacity of 21,44m<sup>3</sup>/s. The Canal passes through Loc Hung and An Tinh communes in Trang Bang district of Tay Ninh province, Thai My commune in Cu Chi district of HCM, and Tan My commune of Duc Hoa district of Long An province.

**Tan Bien Irrigation System:** is a complexity of gravity and pumping irrigation system, located in Tay Ninh province. Of a total area of 7,670 ha some 5,663 ha is gravity fed and the remaining 2,007 ha will be pumped. It is estimated that the acquired land will be area is 136,46 ha for primary, secondary and tertiary canals. It will benefit An Co commune in Chau Thanh district, and also benefit and affect 231 households in Phuoc Vinh commune of Chau Thanh district, and also, 77 households in Hoa Hiep, 79 households in Thanh Tay and 46 households in Tan Binh communes of Tan Bien district.

**Duc Hoa irrigation system:** is located in Duc Hoa district of Long An province, however, after splitting from the East Canal of the Dau Tieng System, the newly built part of the main canal will

run through some part of Tay Ninh province and of HCMC. The total irrigated area is estimated at 13,821 ha, of which some 11,876 ha will be gravity fed and the remaining 1,945 ha will supplement water in existing low level canals. There are a total of 146 canals and 441 structures comprising the irrigation system. The canal network is made up of 30.38 km of primary canal with a width of 25.3m. Secondary canals make up 71.626 km in length and are 20.25 m in width. The tertiary canal network totals 129.675 km in length and are 15.2m in width. The acquired land is estimated at about 300 ha. There are a total of 11 communes and 1 townlet in the Duc Hoa Irrigation system area, known as:

- Hau Nghia townlet;
- Tan My, Hiep Hoa, Tan Phu, Hoa Khanh Dong, Hoa Khanh Nam, Hoa Khanh Tay, Duc Lap Thuong, Duc Lap Ha, Duc Hoa Thuong, Duc Hoa, Duc Hoa Dong, Hanh Bac, Hanh Nam communes.

**Borrow areas:** Borrow areas may be used for the Tan Bien irrigation System, the Duc Hoa Main Canal and the Duc Hoa Irrigation System. Material used for building embankment of transfer canal is obtained from the earth taken from digging the canal, although sometimes borrow areas are required and will be identified the sites during the construction.

The Provincial Project Management Boards in each province are responsible for implementing the Resettlement, Compensation, and Social Support Program in cooperation with the District Resettlement Committees in each affected district immediately after detailed design is approved. The project is expected to be finalized by 30 June 2014.

### **3. Legal framework of compensation, resettlement and supports for affected persons**

The objectives of the resettlement, compensation and assistance program are to:

i) to avoid involuntary resettlement wherever possible by exploring project and design alternatives; ii) to enhance , or at least restore, the livelihoods of all displaced persons in real terms relative to pre-project levels; iii) and to improve the standards of living of the displaced poor and other vulnerable groups.

#### **Eligibility of affected persons and properties**

There are three types of Affected Persons: i) persons with Land Use Rights Certificates (LURCs) to land lost in entirety or partially, ii) persons who lost land they occupy in its entirety or partially who do not currently possess a LURC but have a claim that is recognizable under national laws, or, iii) persons who lost land they occupy in its entirety or partially who do not have any recognizable claim to that land.

### **4. Compensation policy**

All affected persons are compensated for loss of properties and are entitled in income restoration and livelihood stability, as per compensation and resettlement policy of the Phuoc Hoa project, based on related Asian Development Bank and Government of Vietnam policies.

The project compensation policy in detailed as follows as:

#### **Compensation for loss of land**

Any land acquired will be compensated for at the replacement cost of same-use land in pre-project condition at the time compensation is made.

### **Agricultural land**

Affected persons (APs) who are eligible and have permanent land use certificate or are waiting for a legalizable land use right will:

- Be compensated for all acquired land by land-for-land method, with the same category if local authorities have sufficient land, or cash-for-land based on replacement cost if there is not available land.
- Be compensated for all plants, crops and structures on the acquired land, based on market prices.
- Affected persons will receive some supports for income restoration and livelihood stability, depending upon levels of adverse impacts.

Affected persons who are non-eligible and not having land use right certificates will:

- Not be compensated for loss of land, but compensated for loss of plants, crops and structures on acquired land, based on market prices, and also get some support for investment cost used so far on that land.

### **Residential land and land used for business**

All eligible affected persons will be compensated or by land-for-land, or by cash-for-land, based on replacement cost. If the remaining land is not sufficient for building a new house, within the area identified by the State, they will be relocated in other location, by choosing one of those options: (i) to receive cash and make their own arrangement for relocation, (ii) receive land or house in resettlement site and move to relocation site (if entitled). Non-eligible persons, case by case, will be examined for getting a subsistence; if they can't find any land for a self-relocation, the District Resettlement Committee will examine their situation submit to the Provincial Peoples' Committee for arranging a new place for them;

In the case affected persons have sufficient land for a new house, they will get compensation for the loss of land and structures, based on replacement cost;

If the affected person must relocate they will get some subsistence for income restoration and livelihood stability.

### **Compensation for loss of house and structure**

Eligible affected persons will be entitled to:

- In case their house is demolished, full compensation based on construction cost of a new house;
- Get some subsistence for income restoration, livelihood stability and skills training.

It may not be necessary to relocate in all cases. If a house is partly demolished but the remainder is still usable, the affected person will be entitled to compensation for costs of dismantling the part to be demolished and compensation for that part of the structure demolished based on replacement costs to original specifications, plus costs for repairing the remaining part. If a remaining part is not sufficient for basic needs of living, those affected households will get full compensation for those houses/structures.

### **Compensation for moving graves**

Moving grave will get compensation for those costs: buying/renting land, digging and moving, building new grave, and other reasonable expenses, based on rates fixed by the Provincial Peoples Committee.

**Compensation for loss of plants and crops**

Affected persons will be compensated for loss of plants and crops, based on the real amount and replacement prices.

**Secondary affected persons**

This applies to those affected by borrow areas needed for construction or for group resettlement sites, with the same provisions for all other affected persons.

**Support & Subsistence Policy**

Severely affected persons will get additional allowances:

- Relocation assistance - support for moving (if must be relocated in another place), with amounts of cash identified by the Provincial Peoples Committee.
- Loss of livelihood assistance - Transitional subsistence in 6 months for households not moving their houses and 12 months if they must relocate. Provincial Peoples Committee.
- Support for skills training for a working-aged member of affected households
- Special support for income restoration during transitional period of business households, with amounts of cash identified by the Provincial Peoples Committee.
- A bonus for on time moving suitable to the schedule as identified by the Local Committee of Compensation, Support and Resettlement.

**5. Procedures of Grievance Redress**

In order to ensure that all APs' grievances and complaints on any aspect of land acquisition, compensation and resettlement are addressed in a timely and satisfactory manner, and that all possible avenues are available to APs to air their grievances, a well defined grievance redress mechanism needs to be established. All APs can send any questions to implementation agencies about their rights in relation with entitlement of compensation, compensation policy, rates, land acquisition, resettlement, allowance and income restoration. Otherwise, all APs are not ordered to pay any fee during the grievance and complaints at any level of trial and court.

The Grievance Procedure adopted by the Project will be in accordance with Decree 69/2009/QĐ-CP; Art 40: Dealing with Grievance on Land Compensation price, Decision on Compensation, Assistance, Resettlement or Decision on Coercion for Land Acquisition.

Clause (1) of the Decree states that grievance is dealt with as per Art 138 of Land Law, Art 63, 64 of Decree 84, and regulations of Dec 136/2006/ND-CP (14/Nov/2006), and the Ordinance on Procedures for Resolving Disputes on Administrative Cases, 1986, amended in 1993 and 2006.

**Stage 1** – Within 30 days of the date of the President of the District Peoples' Committee announcing plans regarding land acquisition, the AP may lodge an appeal against the decision to the District Peoples' Committee. The Chairman of the DPC is responsible to review and rule on the decision which will be publicized and advised to the AP.

**Stage 2** – Within 30 days of receiving the decision of the DPC, and if the AP is still dissatisfied, the AP may take the matter to the Peoples' Court or lodge an appeal to the Provincial Peoples' Committee. It is the responsibility of the Chairman of the PPC to review and rule on the decision, which will be publicized and advised to the AP.

**Stage 3** – If the AP is still not satisfied with the decision of the PPC they may, within 45 days of the date of the PPC Chairman's decision, refer the case to the Peoples' Court for final decision.

## 6. General guidance

- (i) The concerned households must prepare necessary documents relating their ownership of affected land, house, and structures.
- (ii) The head of the affected household needs to take part in the process of measuring and inventory the household's property, signing the Minutes of the inventory and measuring on the total affected properties. The CSRC has to provide a valid copy of the Minute to the household for checking if necessary.
- (iii) After the inventory, the CSRC makes a list of concerned households with their affected property; the list will be publicly put up at the office of the respective commune people's committee and other appropriate public sites for community people to get information.
- (iv) The PPMBs, CSRC, and local authorities announce specific date, time, and location for implementation of compensation payment.

This announcement is put up in local media means; and sent to affected households right after getting approval of the detailed technical designs of the related components.

Since this announcement is publicly put up in local media means in concerned commune/village/hamlet and is distributed to APs, PPMBs recommend them not cultivate or build houses and physical structures on the to-be-acquired land.

The cut-off date will be following notice of land acquisition issued by the DRC and posted by the CPC. There will be no compensation for structures built or crops planed on land to be acquired after the cut off date.

For community benefits and for the Project's progress, PPMBs require affected households dismantle their house/structures/affected property and hand over the site to the Project's holder in timely manner, after receiving full compensation payments and supports. Households with on-time hand-over as planned by the CSRC will be awarded a bonus.

### **Information Disclosure**

According to the ADB SPS to apply to projects approved after 10 January 2010, the following documents are required to be submitted to the ADB for Disclosure on the ADB website:

1. Draft RP or RF endorsed by the Client before project appraisal
2. Final RP endorsed by Client after the DMS (Census of APs)
3. Updated RP following any changes from the DMS or other changes introduced (if any)
3. Resettlement monitoring reports

### **Consultation and participation**

|  |   |
|--|---|
| <b>Information Dissemination, Consultation, Participatory Approaches and Disclosure Requirements</b> | <ul style="list-style-type: none"><li>• Identification of project stakeholders.</li><li>• Disclosure of project information</li><li>• Consultations for determining principles of resettlement and compensation</li><li>• Mechanisms for stakeholder participation in planning, management, monitoring, and evaluation</li><li>• Disclosure of RP to people affected</li><li>• Local institutions or organizations to support people affected.</li></ul> <p>Potential role of non-government organizations (NGOs), women's groups and community based organizations (CBOs).</p> |

According to the ADB's revised SSP, Meaningful consultation pays special attention to needs of disadvantaged and vulnerable group and especially those below the poverty line:

1. Begins early in the project preparation stage and is carried out throughout the project cycle
2. Provides timely disclosure of relevant and adequate information that is understandable and accessible to APs
3. Consultation is undertaken free of intimidation or coercion
4. Is gender inclusive and responsive, and tailored to needs of disadvantaged and vulnerable groups?
5. Enables incorporation of all relevant view of APs and other stakeholders into decision making such as project design, mitigation measures, sharing of project benefits and opportunities.

### **Phuoc Hoa – Proposed Public Consultations**

#### **Information Dissemination and Community Consultation**

Information disclosure is an ongoing process throughout project preparation and implementation. In accordance with both ADB and GoV policy (contained in Decree 69/2009 Articles 29, 30 and 31 and 2) the PPC and DPC must ensure that public notice is given and disseminate details of the approved draft resettlement plan before project appraisal by the ADB. This draft will also be disclosed on the ADB website. Following the census of affected persons, the final resettlement plan, as endorsed by the GoV, is further disseminated to the affected communities and posted on the ADB website. Any updates or revisions to the final resettlement

plan must be further disseminated to affected communities and again, posted on the ADB website.

The Provincial Project Management Boards (PPMBs) will direct the Provincial Resettlement Committees (PRCs) and District Resettlement Committees (DRCs) to conduct a series of public meetings to provide information regarding project activities and the proposed resettlement and compensation policies.

These public meetings will be needed to: (i) disseminate information on inventory and pricing results, (ii) inform the APs on amounts of compensation and supports of each affected household, (iii) to listen to their feed back and suggestions, and (iv) for revising or adjusting the inaccurate data, if any. At the same time, the DRCs will post this information on the announcement board at the Commune PC office for at least 20 days (Decree 69/2009, Article 30(2c)). In accordance with Decree 69/2009 Article 30(2b) the posting must be recorded in official minutes and confirmed by the CPC, the Commune fatherland Front and APs. As per Decree 609 Article 30 Clause 3(a), following expiration of this period the agency in charge of compensation will summarize all opinions and comments received, including numbers of APs and stakeholders who agree and disagree, with the compensation and land acquisition and assistance offered in the resettlement plan.

### **Contents of public meetings**

Information about the following items was given to all APs in the form of a Project Information Booklet (PIB), a poster, verbal presentation and explanation, by the district DRCs:

- **Project components.** This includes the places where stakeholders can obtain more detailed information about the project.
- **Project impacts.** Anticipated impacts on the people living and working in the affected areas of the project including explanations about the need for land acquisition for the Duc Hoa Main Canal and other project components.
- **APs rights and entitlements..** The rights and entitlements for different categories of APs, including the entitlements for those losing businesses, jobs and income. Options for land-for-land and cash. Options regarding reorganizing and individual resettlement, and provisions and entitlements to be provided for each. Entitlement to rehabilitation assistance under the Social Support Program, as well as opportunities for project-related employment will be applied for all APs<sup>5</sup>.
- **Grievance mechanism and the appeal process.** All APs are to be informed that project policies and procedures are intended to ensure their pre-project living standards are at least restored if not improved. All APs must also be informed that if there is any confusion or misunderstanding about any aspect of the project, the commune or district resettlement

---

<sup>5</sup> Rights and Entitlement to livelihood rehabilitation supports, as well as opportunities for project-related benefit sharing or employment in the framework of OSDP programs.

committee can help resolve problems. If they have complaints about any aspect of the land acquisition, compensation, resettlement, and rehabilitation process, including the compensation rates being offered for their losses, they have the right to make complaints and to have their complaints heard. APs will also receive an explanation about how to access grievance redress procedures, according to Project's mechanisms and GoV's Grievance and Denouncement Law.

- **Right to participate and be consulted.** All APs are to be informed about their right to participate in the planning and implementation of the resettlement process. The APs are to be represented on district resettlement committees, and the representative for the APs present whenever commune/ district/provincial committees meet to ensure their participation in all aspects of the project. All APs are to be consulted about the following issues in particular: (a) their preferred resettlement option according to their entitlement; (b) training and training preferences in current or new occupations for all APs who will be relocated, and for APs whose income levels and living standards will be adversely affected.
- **Resettlement activities.** All APs are to be given an explanation regarding compensation calculations and compensation payments, monitoring procedures (which will include interviews with a sample of APs), reorganization, relocation to an individual location/self-relocation, and preliminary information about physical works procedures.
- **Organizational responsibilities.** All APs are to be informed about the organizations and levels of Government involved in resettlement and the responsibilities of each, as well as the names and positions of the Government officials with phone numbers, office locations, and office hours if available;
- **Implementation schedule.** All APs should receive the proposed schedule for the main resettlement activities and informed that physical works would start only after the completion of all resettlement activities and clearance from the project area. It should be clarified that APs would be expected to move only after full payment of compensation for their lost assets. Implementation schedules and charts will be provided to resettlement committees at all levels.

Following all public meetings with APs and stakeholders the DRC must complete the following activities:

- Make a list of all APs who joined the meeting;
- Make a complete record of all questions, comments, opinions, problems and decisions that arose during the information and consultation meetings.
- Deliver leaflets and project announcements to the APs.

## Annex 9: APs consultation contents and feedbacks/results

| <b>Round</b>           | <b>Titles</b>   | <b>Main contents</b>   | <b>Feedback of households/ Results of consultation</b>  |
|------------------------|---|--|---|
| 1<br>(Mar to Oct 2012) | Publicized project information and DMS plan                                     | In the meetings, OSDP team and project implementation agencies such as CLFD and CHLS and PPMB/ OSDP: (i) presented project information and Project Information Books (PIBs); (ii) Announced officially on the project land acquisition policies and plan such as DMS schedule, Asset Declaration Forms filling out; land compensation price and cash support for self-resettlement principles; and (iii) grievance redress mechanism.  | All APs agreed in principle with the project implementation policy and DMS plan. Hhs suggested that if their land being acquired, they should be consulted with compensation prices and the price should be sufficient as the market prices. The project implementation time should be early so that to avoid negative impacts on living and production conditions of local people.<br><br>Many of questions and answers between implementation agencies and hhs on how to fill out the Asset Declaration Form. |
| 2                      | Consultation and publicity on compensation price units                          |  |   |
| 2.1                    | Consultation on compensation price units before submitting for PPC for approval | Resettlement Committee present the proposed unit prices on permanent land acquisition in comparison to the provincial prices and the price market survey made by the CLFD. In general the proposed compensation prices of canal alignment N2, N3 are much higher than the provincial price according to Decision 55/2011/QD-UBND dated 10/12/2011 and closed to the current market prices. Besides the committee also have a discussion on compensation prices for temporary land acquisition. | In general, price units in 2012 are higher than those in 2011. So all participants in the meeting have agreed with the land price proposal of the Resettlement Committee. After the consultation, Land compensation prices of N2 and N3 canals finally being approved by Long An PPC at Decision 1671/QD-UBND on 25 May 2012 and Decision 1860/QD-UBND on 15 Jun 2012.  |
| 2.2                    | Publicizing land compensation unit prices                                       | After being approved by PPC in May and Jun 2012, land compensation price units were posted up at CPCs by CLFD.   | After publicizing the land compensation prices, the implementation agencies known as CLFD and CHLS have announced to APs that feedbacks from APs on the   |

| <b>Round</b> | <b>Titles</b>   | <b>Main contents</b>  | <b>Feedback of households/ Results of consultation</b>  |
|--------------|---|---|---|
|              | after approved by PPC   | Consultation on compensation price units would continuously been done with APs during publication of detailed compensation price through distribution to each HH and receiving feedbacks.   | compensation unit prices should be sent to both agencies, after receiving comments they will report to the DRC for resolution.  |
| 3.           | Public consultation to project severely affected households (SAPs) at related communes                          | Consultation on land compensation and support unit prices of canals N2 and N3. Comparison between project land prices, the annual provincial land prices and the market prices. More detail explanation on land types and method of calculations. Each household will receive Detail compensation estimation for reviewing and feedback before the compensation prices being approved by the DRC. | APs have preferred to the full/ completed land prices as it easier to understand (the prices of adding-up between land compensation and land support prices). According to some APs, unit price for Provincial Road No. 832 is still low. The support rate for land temporary acquisition is also considered to be low according to those who cultivated 3 plantation yields per year. However, the majority of APs have expressed their agreement on the land compensation price and the project implementation as it will create a better environment for local people cultivation and living conditions. |
| <b>4</b>     | <b>Public consultation to households who have to be relocated of related communes</b>                           |   |   |
| 4.1          | Consultation on the availability of resettlement sites and issue related to land plots (questions and answers). | where are resettlement sites?   | There are two relocation options by cash and land. By land at the Hiep Hoa townlet resettlement site.   |
|              |   | How far is it from the Phuoc Hoa project site?  | Around 5-10 km in average   |
|              |   | How is construction progress of the resettlement site? If fully AHs can move to the site after receiving compensation from Phuoc Hoa project?   | Infrastructure construction of the site was completed 100% and ready for AHs.   |
|              |   | What are main infrastructures there?  | It is appropriate to the approved 1/500 planning that consists of all available water supply, drainage electricity, lighting, internal roads, sidewalk systems.   |
|              |   | Can AHs buy plot or apartment?  | Buy plot of land for building the house themselves  |
|              |   | How many plots have been available to households?   | Around 50 plots   |
|              |   | How many square meter per   | Normally, it is 90 m2 (with 5mx18m).  |

|--------------|--|---|--|
|              |  | plot?   |  |
|              |  | Cost of one land plot?  | About 88,000,000 VND/ plot (or 982,600 VND/m2)   |
|              |  | Payment form? One time? Or installment plan?  | Two times  |
|              |  | Can AHs build their houses at once after paying to buy plots  | Yes, they can.   |
|              |  | What are conditions to build houses in the resettlement site? e.g. license? Or can they build grade 4?  | License is unnecessary, but before constructing, householders have to inform local authority. Grade 4 house is acceptable.   |
| 4.2          | Consultation with households who will be relocated                                   | The consultant also explained that AHs have two options (1) relocation by themselves with a relocation support in cash (2) relocation at the resettlement site of the project. OSDP consultant introduced to AHs the Hiep Hoa resettlement site and information related to infrastructure conditions, plot size, unit prices and payment method, etc. AHs understood clearly the advance and disadvantage if selecting the resettlement site; | From the 06 AHs losing entire houses, there are 02 AHs who do not have remaining land have to be relocated to other places (Mr Tran Van Gom and Mr. Nguyen Xuan Sen in Duc Lap Ha commune). The consultation results showed that these 02 AHs have to relocate to another place preferred to the cash support option for self-relocation instead of going to the project resettlement site. Other 04 AHs can relocate on-site as they still have remaining land. |
| 5            | Consultation with SAPs and VAPs of related communes to design social support program | During the SAPs consultation meetings in Sep 2012 (and on-going).   | Consultation initial results showed that there were 3 prioritized programs including: (i) credits for cultivation and income generation; (ii) vocational training and support; (iii) health insurance card and (iv) scholarship for students in addition to other APs support programs.  |
