

# External Monitoring Report

---

Second External Monitoring for the Implementation of Short Land Acquisition and Resettlement Plan

September 2015

PAK: Renewable Energy Development Sector  
Investment Program, Tranche 1

**Chianwali Hydro Power Project (5.38 MW)**

Prepared by Punjab Power Management Unit, Energy Department, Government of Punjab for the Asian Development Bank.

## **NOTES**

- (i) The fiscal year (FY) of the Government of the Islamic Republic of Pakistan and its agencies ends on 30 June.
- (ii) In this report “\$” refer to US dollars.

This external monitoring report is a document of the borrower. The views expressed herein do not necessarily represent those of ADB’s Board of Directors, Management, or staff, and may be preliminary in nature.

In preparing any country program or strategy, financing any project, or by making any designation of or reference to a particular territory or geographic area in this document, the Asian Development Bank does not intend to make any judgments as to the legal or other status of any territory or area.

**Re: Disclosure of 2nd External Monitoring Report of Chianwali & Deg Outfall HPPs**

Cc: ekhattak, Moeen -ud -Din Sheikh, "Shaukat Ali Shahid", Nianshan  
Zhang, Rizwan Haider, Jose Tiburcio Nicolas, Liaqat Ali

Thank you Mr. Rao,

Please keep in mind that all payments in both sub-projects must be completed by end of December 2015, as mentioned in the monitoring reports, and provide EMA certification of full payments to the the DPs as soon as this milestone is achieved.

Regards,  
Ashfaq

## EXECUTIVE SUMMARY

1. The “Renewable Energy Development Sector Investment Program<sup>1</sup> (REDSIP)” is being implemented with the assistance of Asian Development Bank (ADB Loan No. 2286-PAK). The Chianwali Hydropower project (Upper Chenab Canal RD-131+250) is 3<sup>rd</sup> No of the 5 proposed small to medium hydropower projects<sup>2</sup> ranging from 2.82 MW to 7.64 MW which are at different stages of implementation in the Punjab Province. To meet the ADB safeguard requirements, a Short Land Acquisition and Resettlement Plan (LARP) of Chianwali HPP was prepared by PPMU and approved by ADB on November, 2010 for its implementation.

2. To confirm and validate the implementation status of the LARP, this is the second External Monitoring Report prepared based on the field survey conducted from 2 – 3 September, 2015. The major findings are as under:

- i). The external monitoring survey has shown that out of total 26 affected households (AHs- land owners), the payment of land compensation has been made to 25 AHs, while the remaining amount belong to 1 AH. The matter of this 1 AH is in court regarding ownership and division of land. Compensation has already been paid / transferred to Land Acquisition Collector (LAC).
- ii). Crop compensation to all the private land owner have been paid while remaining compensation to 2 AHs of the leases is under process and will be completed by December 2015. The succession certificate of these 2 AHs is under process.
- iii). Lease amount paid to Evacuee Trust Property Board (ETPB) vide Government of the Punjab Cheque No.167613 dated 04.06.2014. Full compensation paid.
- iv). The Internal Monitoring report has been prepared by the Punjab Power Management Unit (PPMU) and submitted to Asian Development Bank (ADB).

## Conclusion

3. Based on the Second External Monitoring Report, it can be concluded that on the whole, the implementation of LARP of Chianwali Hydropower Project (CHPP) is at advance stage of completion. The following major conclusions have drawn:

- v). The payment of land compensation has been made to almost all AHs (25 land owners), while the payment to left over 1 AHs is in progress due to matter in

---

<sup>1</sup> The government of Pakistan has initiated a project to develop indigenous, nonpolluting, and renewable sources of energy to help in order to meet the country's power shortage and diversify the power sources. This will also improve the quality of the power system, especially in rural areas. The Punjab province has also developed potential sites of low-head, high-volume small hydropower stations that can be installed in the existing irrigation canal system with perennial water flows.

<sup>2</sup> i) Pakpattan, ii) Marala, iii) Chianwali, iv) Deg Outfall and v) Okara Hydro Power Projects

court regarding ownership and division of land. However compensation has already been paid/ transferred to LAC.

- For construction of proposed Chianwali hydropower project, all requisite land of 74.56 acres has been acquired, out of which, 52.10 acres was owned by the Government (Evacuee Trust Property Board), while remaining 22.46 acres were owned privately.
- The Grievance Redress Committee<sup>3</sup> is in place to resolve the community complaints/ issues.
- During the consultative meetings, local people were of the view that with the construction of Chianwali Hydropower Project, socioeconomic uplift of the population in project area is the expected output. As a result, there will be increase in employment & household income; reduction in unemployment and poverty. Ultimately, the income/ livelihood of the population will be significantly improved.

### Proposed Action Plan

4. The proposed action plan is as below:

Tasks	Major Impacts	LARP Implementation Status	Leftover	Actions Proposed	Proposed Date	Responsibility
Land Compensation	Private Land acquisition involved (22.46 acres).	Payment has been made to 25 AHs.	Payment to leftover 1 AHs is under process.	Disbursement of land compensation to remaining 1 AHs to be made.	31-Dec-2015	LAC/ PPMU
Crops Compensation	Loss of Crops	Payment of crop compensation (Rs. 2.34 million) to 2 AHs is in progress.	Payment of crop compensation to 2 AHs.	Disbursement of crop compensation to 2 AHs to be completed succession certificates are in progress.	31- Dec-2015	PPMU/ LAC
Trees Compensation	<ul style="list-style-type: none"> <li>- No private tree affected.</li> <li>- 3874 trees affected owned by Forest Department</li> </ul>	<ul style="list-style-type: none"> <li>-</li> <li>Rs. 3.8 million have been transferred to Forest Department</li> </ul>	Nil	Nil	-	-

<sup>3</sup>The GRC comprised of: (i) Project Director (Chairman), (ii) District Officer Revenue/ LAC (Member), (iii) Resettlement Consultant (Member), (iv) Representative District Govt. (Member), (v) Deputy Director (R& E) Member, (vi) Chair-person of APC (Member)

**Second External Monitoring Report for**  
LARP Implementaion of Chianwali Hydro Power Project (5.38 MW) on  
Upper Chenab Canal at RD 131+250

## **1. INTRODUCTION**

### **1.1 Background**

1. The Government of Punjab, Pakistan is implementing the project of “Renewable Energy Development Sector Investment Program<sup>4</sup> (REDSIP)”, with the assistance of Asian Development Bank (ADB Loan No. 2286-PAK). The feasibility studies of 5 projects including the i) Pakpattan, ii) Marala, iii) Chianwali, iv) Deg Outfall and v) Okara Hydro Power Projects have already been conducted during 2005 by WAPDA through Consultants. The construction of five small to medium hydropower stations ranging from 2.82 MW to 7.64 MW is being implemented in the Punjab province, while the preparation of feasibility studies of other additional five sites have also been completed under this Loan. Based on the Feasibility studies, the project of Chianwali HPP (at Upper Chenab Canal RD-131+250) is being implemented for the generation of 5.38 MW Energy. The Chianwali Hydro power project is located in the vicinity of village Chianwali, Tehsil and District Gujranwala.

2. To meet the ADB safeguard requirements, a Short Land Acquisition and Resettlement Plan (LARP) was prepared by the Punjab Power Management Unit (PPMU), Energy Department. After review, the ADB has approved this LARP on November, 2010 for its implementation as per implementation schedule given in the LARP. To confirm and validate the implementation status of the LARP, Second External Monitoring Report prepared based on the field survey conducted from 2 –3 September, 2015.

### **1.2 Project Description**

3. The CHPP is being constructed on the Upper Chenab Canal (UCC), at RD 129+000 to RD 133+000. The powerhouse is being constructed at RD 131+250. The run-of-canal site for CHPP is located between Kamoke and Gujranwala towns, near Chianwali village and the Irrigation Rest House. It is about 55 km from Lahore and 6 km from Gujranwala at UCC RD 131+250 and initial section of the project area is parallel to the Grand Trunk Road (G.T.Road) at a distance of half kilometer.

4. The scope of civil works activities start from the fall structure at RD 128+000 to the fall at RD 164+000 of the UCC. The CHPP consists of combination of two falls to utilize the head for Energy output. A Power Canal in bypass arrangement along with Power House at

---

<sup>4</sup> The government of Pakistan has initiated a project to develop indigenous, nonpolluting, and renewable sources of energy to help in order to meet the country's power shortage and diversify the power sources. This will also improve the quality of the power system, especially in rural areas. The Punjab province has also developed potential sites of low-head, high-volume small hydropower stations that can be installed in the existing irrigation canal system with perennial water flows.

right side between RD at RD 129+000 to RD 133+000 of UCC is being constructed. It includes intake section, gated spillway, power house, and tail race section etc. The bed level and embankment of Power Canal upstream of Power House are being raised according to cross sections from RD 128+000 to Power House. Location Map & Aerial view of the Chianwali Hydro Power Project Project Site presented in Figures 1.1 & 1.2.

5. The Chianwali Hydropower project (5.38 MW) comprises the construction of the following components:

- i). Construction of Power Canal works in by-pass arrangement between RD 129+256 to RD 133.035 on right side of UCC.
- ii). Raising of Existing UCC embankments from upstream of Power location up to RD 128+000 according to remodeled cross sections. Similarly, excavation of UCC bed from downstream of Power House location up to RD 164+400 according to remodeled cross sections.
- iii). Construction of new District Road Bridges adjacent to the existing fall cum Village Road Bridges at RD 128+000 and RD 164+400 of UCC and dismantling the existing Fall cum Bridges at the same RDs.
- iv). Construction of new Bridges at RD 128+000 adjacent to the existing Bridges with piles foundations at RD 139+165 and RD 148+669 of UCC and dismantle the VR Bridges with shallow foundations at same locations.
- v). Construction of protection works for such Project area including station etc..
- vi). Construction of feeder canal and associated structures to ensure the required discharge for three off taking distributaries downstream of Power House.
- vii). Gated Spillway structure with service Bridges.
- viii). Power House buildings and ancillary structures including Machine Hall, Control Building, Intake and outlet bays with cut-offs, and retaining walls etc.
- ix). Paving of 2.5 Km (approx) long and 4.5 m wide access road with double surface treatment.
- x). Offices and Residences for the Employer and Contractor's temporary Colony and infrastructure.

Figure 1.1: Location Map of Chianwali Hydro Power Project

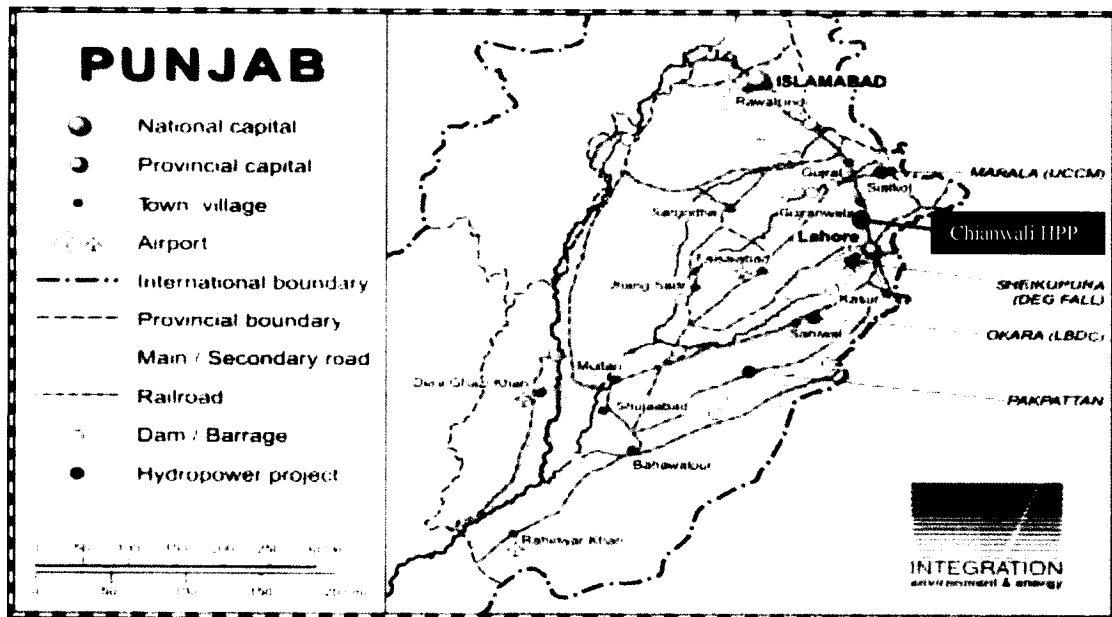

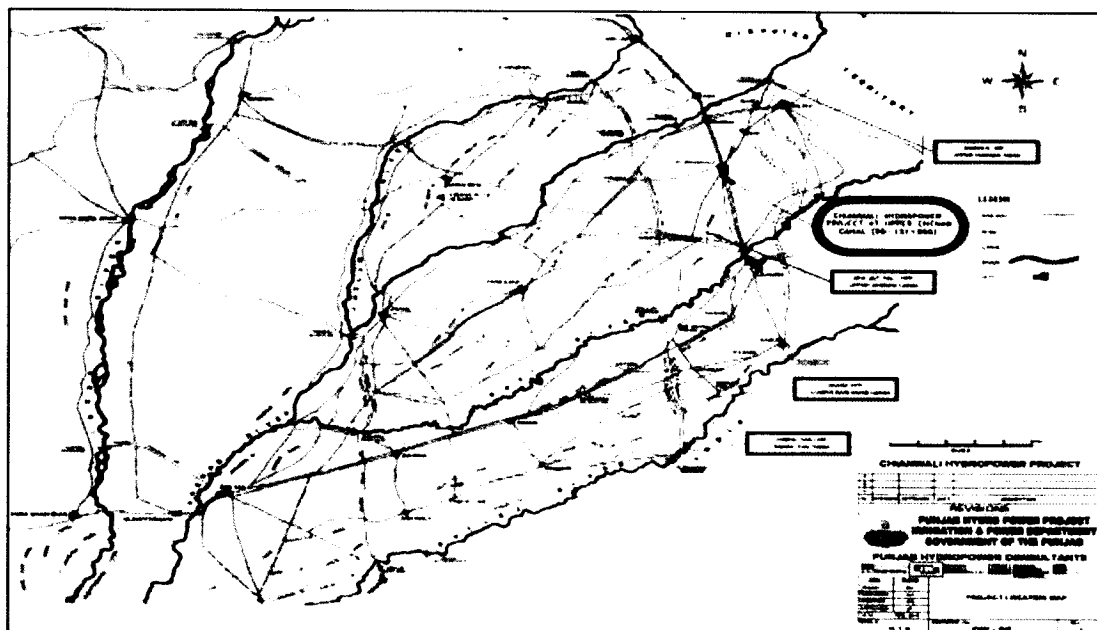

Figure1.2: Aerial View of the Chianwali Hydro Power Project Project Site

### 1.3 Objectives of External Monitoring

6. The resettlement monitoring refers to the collection, analysis, reporting and use of information relating to the progress of resettlement based on Entitlement matrix/ LARP. The monitoring is an integral part during the implementation of LARP and facilitates to assess the implementation progress and decision making. The overall objective of the study is to conduct external monitoring of the implementation of Short LARP and assess the efficiency of land acquisition process and adequacy in compensation assessed before acquiring the land and assets, adequacy of allowances provided to the vulnerable groups and timeliness of compensation disbursement, and efficiency of consultation and grievance redress mechanisms with focus on how the concerns of affected persons, especially the female and other vulnerable groups are recorded and addressed if any. Specifically, confirmation of full implementation of LARP through conducting external monitoring before the commencement of civil works is pre-requisite under ADB' safeguards requirements.

7. Keeping this in view, the implementation progress of the approved LARP is monitored to determine the updated progress on implementation status and validate the payment made to the entitled affected persons (APs). Furthermore, suggest remedial measures/ corrective action plan for the payment to leftover APs.

8. In order to accomplish the objectives, the following aspects have been studied:

- Review the internal monitoring reports especially relating to the implementation of Short LARP;
- Review the implementation status of resettlement activities including eligibility, entitlements, awards of compensation, adequacy of budget, timeliness and institutional arrangements;
- Review of community complaints/ grievance redress methods/ system of the project;
- Conduct consultations with the APs, community and other stakeholders;
- Suggest the remedial measures/ corrective action plan for leftover tasks.

## 2. APPROACH AND METHODOLOGY

9. The approach and methodology section of the report covered the review of progress of LARP implementation including status of disbursement of payment to APs, redress of community complaints, data collection and analysis.

10. Both primary and secondary data was collected. Primary data includes 5 Nos. consultative meetings with AHs and interviews of 32 AHs, confirming about the status of payment of compensation, i.e. a) received, and b) under process or some other issues. In addition, concerns/ feedback of APs as well as local community were also noted during the field survey.

11. The external monitoring field survey was conducted from conducted from 2 – 3 September, 2015 and results were also shared with DD (Resettlement), PPMU, Energy Department. All data / information from different sources were collected and analysis was made to drive results.

## 3. PUBLIC CONSULTATIONS

### 3.1 General

12. In this context, 5 Nos. consultations (consisting of 32 participants) were made with the APs/ local community to get their feedback regarding the implementation of resettlement activities under the Chianwali HPP.

### 3.2 Feedback by the APs and other Local People

13. The extensive consultations were made with the APs who have received their entitled payments and the APs, who were under the process of payment. The APs and other locals pointed out that in general there would be economic and social development of the area due to the implementation of this project.

Consultation Meeting held with the landowners at Chianwali, Tehsil and District Gujranwala

The following were the major feedback/ concerns of APs/ and local population:

- The majority of the population resided was very happy with the construction of Chianwali hydro power project.

- ### 3.3 Concerns as per first external monitoring report

- APs pointed out to have jobs during the construction activities of the project as they have both unskilled and skilled labour available with them. Accordingly, PPMU provided them the jobs in construction activities.
- Payment to 1 AH could not be made to the titled person as he has the ownership dispute, which will be resolved from Revenue Department and Court.

#### 4. STATUS OF LARP IMPLEMENTATION

16. During the project implementation, the project impacts reflected in short resettlement plan were further reduced as shown in Table 4.1.

##### 4.1 Project Impacts

17. For construction of proposed Chianwali hydropower project, all requisite land of 74.56 acres has been acquired, out of which, 52.10 acres was owned by the Government (Evacuee Trust Property Board), while remaining 22.46 acres were owned privately. Total 26 land owners and 1 leaseholder were affected due to land acquisition and crop losses.

18. Total number of affected wood trees was 3,874 owned by Forest Department. None of the private tree (wood/ fruit) was required to cut-down.

19. There was no affected private/ community structure/ infrastructure.

##### 4.2 Status of Payment of Compensation

19. Keeping in view the above mentioned project impacts, two types of compensation was required, i.e. land and crop compensation.

Todate status of payment of compensation is as below:

20. Out of total 26 AHs (land owners), payment has been made to 25 AHs, while the payment to remaining 1 AHs is under process due to court case. It has been planned to complete payment to leftover AHs as soon as possible.

- Crop compensation amounting to Rs. 3.35 million has been assessed and the disbursement of payment to all 7 crop owners (private land owner) amounting to Rs. 1.01 million has been paid, while in case of two leaseholders, payment Rs. 2.34 million is under process due to awaiting of succession certificates.
- There was no private affected tree under this project. However, 3,874 nos. trees owned by forest department were affected. In this context, the PPMU has paid Rs. 3.80 million (replenishment cost) to the Forest Department. Right of way cleared.

21. Compensation details are given in Table 4.1, while AP-wise details are presented in Annex I&II.

**Table 4.1: Status of Disbursement of Compensation to AHs**

Impact	Unit	As per short LARP			Status of Payment as per EMA report			Status of Payment as per EMA report (Sep 2015)						Remarks
		Quantity	No. of Ahs	Amount (Rs. M.)	Quantity	No. of Ahs	Amount (Rs. M.)	Payment made			Balance			
								Quantity	No. of Ahs	Amount (Rs. M.)	Quantity	No. of Ahs	Amount (Rs. M.)	
1. Acquisition of Private Land	Acre	22.11	7	26.53	22.46	26	61.16	21.96	25	60.15	0.5	1	1.01	Remaining amount belong to one AH. Matter in court regarding ownership and division of land. Compensation already paid / transferred to LAC.
2. Crops Compensation	Acre	73.08	9	4.57	74.56	26	3.35	22.46	7	1.01	52.1	2	2.34	Crops compensation to all the private land owner have been paid while remaining compensation of the lessees is under process due to awaiting of succession certificates and will be completed by December 2015.
3. Wood Trees (Forest Department)	No	4868		2.18	3874	-	3.8	3874		3.8				Payment has been made RoW cleared
Total	-	-	-	33.28	-	-	68.31	-	-	64.96 (95.10%)	-	-	3.35 (4.90%)	

\* Including 15% Compulsory Land Acquisition Charges under section 23 (2) of LAA 1894.  
 Out of 26 APs only 9 Ahs were harvesting the crops and are entitled for crop compensation  
 Evacuee Trust Property Board Land (Government land 52.01 acres) has been acquired on lease

#### **4.3 Disclosure Information Brochure/ Pamphlets**

22. The information brochure summarizing the provisions of the LARP (in urdu language) has been given to all the families whose land, trees, crops or other assets and incomes are affected by the Chianwali Hydro Power Project. The objective was to inform the APs / locals regarding entitled compensation and rehabilitation assistance and of a number of basic issues relative to the modalities of implementation of the compensation and rehabilitation program. The Information Brochures/ Booklets (in Urdu language) were already distributed among affected persons.

#### **5. INTERNAL MONITORING REPORT**

23. In accordance with the Resettlement plan, Internal monitoring report has been prepared by the PPMU and accordingly submitted to ADB.

## 6. CONCLUSIONS AND RECOMMENDATIONS

24. Based on the External monitoring report, it can be concluded that on the whole, the implementation of LARP of Chianwali Hydropower Project (CHPP) is at advance stage of completion. The following major conclusions are drawn:

- The payment of land compensation has been made to almost all AHs (25 land owners), while the payment to left over 1 AHs is in progress as the matter is in court regarding ownership and division of land. However compensation has already been paid/ transferred to LAC.
- For construction of proposed Chianwali hydropower project, all requisite land of 74.56 acres has been acquired, out of which, 52.01 acres was owned by the Government (Evacuee Trust Property Board), while remaining 22.46 acres were owned privately.
- The Grievance Redress Committee<sup>5</sup> is in place to resolve the community complaints/ issues.
- During the consultative meetings, local people were of the view that with the construction of Chianwali Hydropower Project, socioeconomic uplift of the population in project area is the expected output. As a result, there will be increase in employment & household income; reduction in unemployment and poverty. Ultimately, the income/ livelihood of the population will be significantly improved.

### Proposed Action Plan

25. The proposed action plan is as below:

Tasks	Major Impacts	LARP Implementation Status	Leftover	Actions Proposed	Proposed Date	Responsibility
Land Compensation	Private Land acquisition involved (22.46 acres).	Payment has been made to 25 AHs.	Payment to leftover 1 AHs is under process.	Disbursement of land compensation to remaining 1 AHs to be made. Matter in court regarding ownership and division of land	31-Dec-2015	LAC/ PPMU

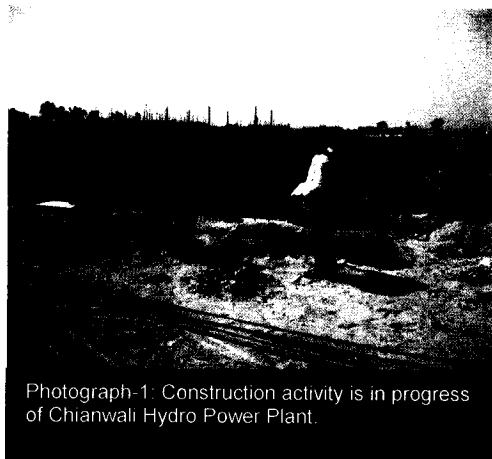

<sup>5</sup>The GRC comprised of: (i) Project Director (Chairman), (ii) District Officer Revenue/ LAC (Member), (iii) Resettlement Consultant (Member), (iv) Representative District Govt. (Member), (v) Deputy Director (R& E) Member, (vi) Chair-person of APC (Member)

Crops Compensation	Loss of Crops	Payment of crop compensation (Rs. 2.34 million) to 2 AHs is in progress.	Payment of crop compensation to 2 AHs.	Disbursement of crop compensation to 2 AHs to be completed. Sucession certificates still awaited	December , 2015	PPMU/ LAC
Trees Compensation	<ul style="list-style-type: none"> <li>- No private tree affected.</li> <li>- 3874 trees affected owned by Forest Department</li> </ul>	<ul style="list-style-type: none"> <li>-</li> <li>Rs. 3.8 million has been paid to Forest Department</li> </ul>	Nil	Nil	-	-
