

Semiannual Indigenous People Social Monitoring Report

Project No. 39432-013
December 2019

Participatory Small-Scale Water Resources Sector Project

This Semiannual Indigenous People Social Monitoring Report is a document of the borrower. The views expressed herein do not necessarily represent those of ADB's Board of Directors, Management, or staff, and may be preliminary in nature.

In preparing any country program or strategy, financing any project, or by making any designation of or reference to a particular territory or geographic area in this document, the Asian Development Bank does not intend to make any judgments as to the legal or other status of any territory or area.

Participatory Small-Scale Water Resource Sector Project (PSSWRSP)

Background and Components

The PSSWRSP intended to reduce poverty by (i) increasing agricultural production in sub-project areas through a sustainable stakeholder driven water management system; and (ii) to internalize the participatory development process through strengthening LGED's Integrated Water Resource Management Unit to plan, implement, monitor and support sustainable SSWR development. LGED is the project Executing Agency. The project was in operation from September 2009 to June 2018.

The project aimed to design 265 subprojects in 46 out of the 64 districts of Bangladesh excluding three districts of the Chittagong Hill Tracts. The project has undertaken four types of subprojects:

- I. Flood Management, rehabilitate and construct embankment and/or sluice gates to reduce depth and duration of farmland flooding;
- II. Drainage improvement, re-excavation of drainage canals to increase the capacity of drainage systems to benefit agriculture and cultured fisheries;
- III. Water Conservation, develop the water retention capacity of existing haors, beels and khals to increase the availability of irrigation water;
- IV. Command Area Development, to improve existing irrigation system by providing better distribution system to increase efficiency and productivity of irrigation water.

Gender Dimension

In accordance to the entitlement matrix female headed HHs are considered as vulnerable HH and qualify for additional cash grants. The project also paid attention to hire women for project activities where possible. A total of 153 women were considered as entitled person. 23 vulnerable individuals received additional cash grant, out of the group of vulnerable individuals 11 were female.

Indigenous People

The feasibility study reports of the subprojects haven't identified any indigenous people. The need for an Indigenous People Specific Action Plan will be established on the criteria defined in ADBs policy on IPs. ADB field Mission identified IP in 10 districts where opportunities exist for larger and strategic interventions.

Table 1: Summary of Resettlement Plans and Socio-Economic Survey Reports as of 30th June 2018

Batch/Year	Subproject Assignment of Resettlement Plan	Approved by ADB	Implemented	Number of SESR submitted	Social Conflict Resettlement Plan	Social Conflict SES
Batch (1) 2010-2011	1	1	1	1	0	0
Batch (2) 2011-2012	4	4	4	14	0	2
Batch (3) 2012-2013	8	8	8	41	2	0
Batch (4) 2013-2014	8	8	8	56	0	6
Batch (5) 2014-2015	7	7	7	62	0	0
Batch (6) 2015-2016	6	6	6	57	0	7
Total	34	34	34	231	2	16
