

Land Acquisition and Resettlement Plan (LARP) Implementation Report

Mar 2014

L2466-KGZ: Surkhandarya Water Supply and Sanitation Project

,

Prepared by: ADB PMU of Uzbekistan Communal Services Agency “Uzkommunkhizmat”

This land acquisition and resettlement plan implementation report is a document of the borrower. The views expressed herein do not necessarily represent those of ADB’s Board of Directors, Management, or staff, and may be preliminary in nature. Your attention is directed to the “terms of use” section of this website.

Scope of Land Acquisition and Resettlement

1. The subproject located in the Djarkurgan district of Surkhandarya province will (1) reconstruct and increase capacity of “Surkhan” water intake; (2) lay 16 km of trunk mains off taking from the “Surkhan” water intake and (3) 55 km distribution lines. This infrastructure will provide safe water supply, on a continuous basis, to households in 17 villages with a total population of 28 852 people.

2. The physical component of the Project primarily includes the replacement of water supply systems in 9 subprojects. There was new construction in one district that entailed temporary impacts on households and land. In Djarkurgan district, new construction entailed minimal temporary agricultural land acquisition. There is no permanent impact in the whole Project. No residences or structures had been impacted or demolished. The “Surkhandarya Water Supply and Sanitation” Project has temporary impact only in Djarkurgan district (in rural settlement “Surkhan”).

Affected Persons

3. Initially, during preparation of the LARP it was expected that totally 5.236 hectares of land will be temporarily affected. However, later, during the surproject implementation period this indicator had reduced. Totally **2.642** hectares had been temporarily affected during execution of pipelaying works from water intake of “Surkhan” to rural settlements.

4. The water main route went from the “Surkhan” water intake through fields of farms and private family households. Totally, temporarily had been affected: farm enterprises – 2.6 ha and family households – 0.042 ha.

5. These irrigated cultivated lands are operated by 7 farm enterprises (fields) and 12 private family households (vegetable gardens). According to the LARP, the temporary strip of land required during construction was: farms - 10 meters wide (5 m from each side of the center axis to enable the excavator to move on one side and allow space to store the dug up earth and top soil on the other side) and family households – 3 meters (hand dug to minimize scope of negative impact).

6. However, during the process of laying pipe this strip o land in farm enterprises had been reduced from 10 meter wides to 5 meters wide due to using special digging equipment. As a result the total affected lands of farm enterprises was reduced in double: from 5.2 hectares to **2.6 hectares**.

7. As mentioned in the LARP the pipelaying works on lands of the farm enterprises and households had been executed in November 2012-January2013. During that period no crops were on land and no agricultural works had been were on and actual scope of impact was equal to zero. After completion of pipelaying works, these strips of lands had been immediately restored by the Project and returned to owners in original condition.

8. Regarding the family household. According to the LARP, 11 households with total area of 0.036 hectares were expected to have temporary impact during implementation of the subproject. However, during the subproject implementation 1 more AP was identified with insignificant impact of 0,006 hectares which is 3.8% of total area of the household land area (see Table below).

9. Hence, 7 farm enterprises and 12 family households had lost access temporarily (for period of 3-4 weeks), on an average to 0.93 % of their operated holding, which is very insignificant (**Table 2**).

Table 1. Temporary loss of access to land during November-January 2012/13 where pipe laying works had been implemented (as per LARP).

No	Name	Location	Total land leased/ operated (ha)	Area temporarily affected (ha)	Field number	Type of land	Temporarily Affected land as % of total operated land holding
FARM ENTERPRISES							
1.	«Zulfiya» (AP: Hudoyberdiev Ashur)	Surkhan	60.9	1.0	331;328; 327	Irrigated-cultivated	1.64
2.	«Kamol Bobo» (AP: Kurbonov Normamat)	Surkhan	91.4	0.5	333	Irrigated-cultivated	0.52
3.	«Said» (AP: Turakulov Uktam)	Surkhan	95.9	0.10	174;173	Irrigated-cultivated	0.1
4.	«Bobomurod» (AP: Irmurodov Hurram)	Surkhan	66.1	0.58	411;412; 413	Irrigated-cultivated	0.87
5.	«Arabbek» (AP: Umarov Shukhrat)	Surkhan	63.0	0.51	411;407	Irrigated-cultivated	0.81
6.	«Namoz Bobo» (AP: Kulatov Bahodir)	Surkhan	88.8	0.4	406	Irrigated-cultivated	0.45
7.	«Farhod» (AP: Toshboev Mahsumkul)	Surkhan	202.5	2.11	859;259; 864, 861;80	Irrigated-cultivated	1.53
				5.2 ra			
FAMILY HOUSEHOLDS							
1.	Karshieva Bibihon	Surkhan	0.16	0.006	-	Irrigated-cultivated	3.75
2.	Kuchimov Tura	Surkhan	0.16	0.006	-	Irrigated-cultivated	3.75
3.	Holmurodov Abdumalik	Surkhan	0.20	0.0015	-	Irrigated-cultivated	0.75
4.	Choriev Nurali	Surkhan	0.16	0.003	-	Irrigated-cultivated	1.87
5.	Turdiyev Hudoyberdi	Surkhan	0.16	0.003	-	Irrigated-cultivated	1.87
6.	Mustafokulov Hasam	Surkhan	0.25	0.003	-	Irrigated-cultivated	1.2
7.	Choriev Juma	Surkhan	0.15	0.003	-	Irrigated-cultivated	2
8.	Kahhorov Mahmatkul	Surkhan	0.20	0.003	-	Irrigated-cultivated	1.5
9.	Ramazonov Abduvait	Surkhan	0.25	0.003	-	Irrigated-cultivated	1.2
10.	Aljorov Juma	Surkhan	0.22	0.003	-	Irrigated-cultivated	1.36
11.	Zulfikorov Tursunpulat	Surkhan	0.20	0.0015	-	Irrigated-cultivated	0.75
				0.036			
	Total temporary affected land			5.236			

10. No one lost productive assets permanently due to pipelaying works in this region. 7 farm enterprises temporarily lost access to an insignificant portion of their leased land temporarily: on an average no more than 0.92% of their total leased land (all pipe laying works on lands of 7 farm enterprises took 3-4 weeks) in autumn-winter construction period, when no agricultural works were executed. 12 family households on whose vegetable gardens pipelaying works also had been executed in late autumn (all pipe laying works on kitchen gardens of 12 families had been executed in November-

January 2012/13) also temporarily lost access to insignificant portion of their lands, on average no more than 1.7%.

Table 2. Temporary loss of access to land during November-January 2012/13 where pipe laying works had been implemented (actual).

No	Name	Location	Total land leased/operated (ha)	Temporarily affected area (ha)	Field number	Type of land	Temporarily Affected land as % of total operated land holding

				0.042			
	Total temporary affected land			2.642			

11. All these farm enterprises and households will directly benefit from the Project implementation such as twenty-four hour access to clean and safe water supply.

Compensations

12. The temporary loss of access to cultivated irrigated land had been compensated in cash based on calculation of loss of potential income on the basis of maximal revenue: per 1 hectare for farm enterprise and 0.10 hectare for family households in 2009. The calculation for compensation is based on entitlement matrix provided in “*Land Acquisition and Resettlement Planning Document (LARP) for Djarkurgan district of Surkhandarya province, September 2010*” Section 4.5. The households which determined as vulnerable groups (*totally there are 5 households referred to vulnerable groups, highlighted in yellow in Table 3*) received additional compensations. For them, calculated amount of compensation had been multiplied **by three times** as foreseen in the LARP. For example: Temporary impacted land of Mr. Kuchimov Tura was equal to 0.006 ha. Calculated compensation amount was equal to 12 200 UZS. Compensation paid: $12\,200 \times 3 = 36\,600$ UZS. (For detailed information on provisions for compensations for vulnerable groups see “*Land Acquisition and Resettlement Planning Document (LARP) for Djarkurgan district of Surkhandarya province, September 2010*”, Section 3.2, Item 24). Construction works of temporarily affected lands started after payment of all compensations.

13. Compensations had been paid in April 2012. Initially, according to the LARP the total amount of compensations was equal to 10 729 415 UZS. However, after reduction of scope of impact and identification of one more household this amount was 5 565 904 UZS (About 3000 USD). The detailed information for that is given in below table.

Table 3. Compensations for temporary loss of access to land

Farm enterprises				
#	Head	Farm	Temporary impacted area (ha)	Compensation amount (thnd. UZS)
1	Hudayberdiev Ashur	“Zulfiya”	0.5	1 085
2	Kurbonov Normamat	“Kamol Bobo”	0.25	550
3	Turakulov Uktam.	“Said”	0.05	98.5
4	Irmurodov Hurram	“Bobomurod”	0.29	665
5	Umarov Shukrat	“Arabbek”	0.255	520
6	Kulatov Bahodir	“Nomoz bobo”	0.2	370
7	Toshboev Mahsumkul	“Farhod”	1.055	1 910
	Total		2.6	5 198.5
Family households				
	Head		Temporary impact (ha)	Compensation amount (thnd.UZS)
1	Karshieva Bibikhon		0.006	16.875
2	Kuchimov Tura		0.006	36.9
3	Holmurodov Abdumalik		0.0015	9.34
4	Choriev Nurali		0.003	28.0
5	Turdiyev Hudoyberdi		0.003	43.8
6	Mustafokulov Hasam		0.003	11.23
7	Choriev Juma		0.003	28
8	Kahhorov Mahmatkul		0.003	28.92
9	Ramazonov Abduvait		0.003	69.6
10	Alyorov Juma		0.003	42.0
11	Zulfikorov Tursunpulat		0.0015	7.35
12	Sobirov Yulchi		0.006	35
	Total		0.042	367.404
	Grand total		2.642	5 565.904

14. Compensations were paid on the basis of Land Acquisition and Resettlement Plan (LARP) prepared for Djarkurgan Subproject. The LARP was prepared in September 2010 by UCSA in coordination with local authorities in charge for land acquisition and resettlement issues based on current land acquisition and resettlement rules of the Republic of Uzbekistan and ADB. All the LARP provisions were agreed with First Deputy Hokim of Djarkurgan district of Surkhandarya province, Head of Djarkurgan District State Land Resources and Cadastre Department, Chief Architect of Djarkurgan District, Head of Djarkurgan District Agriculture and Water Resources Department, Head of District Water Supply Enterprise. Then, the LARP was submitted to ADB's review and approval. ADB's approval was received in October 2010. The LARP is completely in line with provisions of the Decree of the Cabinet of Ministers of Uzbekistan No.146 which was adopted later in May 2011 and ADB's SPS 2009.

Consultations

15. During the Project implementation number of meetings had been held.

16. The meetings had been held with affected farm enterprises, private family households, members of "Surkhan" Rural Council of Peoples as well as makhallia committees. During the consultations they were informed about LARP principles, compensations and entitlements (See Appendix 2).

17. Also, before and after construction works the PIU officers had continuous meetings with affected households with a view of discussion of routes of pipelines' lines, possibilities for minimization of land acquisition and scope of impact.

Grievance

18. Up today no claims had been received from affected persons.

External monitoring

19. PMU plans to hire independent external monitoring and evaluation specialist within April-May 2014 to evaluate effectiveness of LARP of this subproject. Totally, one person-month of services will be used.

20. Major tasks expected from the external monitor are:

- (i) Review and verify internal monitoring systems and findings
- (ii) Verify the internal monitoring process and reporting by executing agency (EA) through field visits and independent investigations.
- (iii) Prepare independent reports based on monitoring visits.
- (iv) Suggest major recommendations for remedial actions
- (v) Identify lessons learned.
- (vi) Maintain database of independent surveys.
- (vii) Assess the extent to which the resettlement plan is being followed and objectives being met.
- (ix) Assess Adequacy of the Management Information System.
- (x) Monitoring of compensations' payments, adequacy of payments and payment schedules.
- (xi) Monitoring consultations and information dissemination.
- (xii) Monitor the quality, effectiveness, efficiency and sustainability of the resettlement efforts
