Executive Summary

1. This Resettlement plan (RP) of the Chame - Khangsar road sub Project that describes the involuntary Resettlement Planning and Procedure of Rural Reconstruction and Rehabilitation Sector Development Program (RRRSDP)
2. Chame Khangsar Road Sub project lies in the upper part of Manang District headquarter nominated by the DDC. The length of the proposed road is about 35.22 km which passes through six VDCs namely Chame, Pisang, Bhraka, Manang, Tanki Manang and Khangsar. This alignment, a north-west rural road which provides access from district headquarters at Manang to the service center at Khangsar,
3. The total road section requires 34.95 ha. Land and passes through 434 land parcels of private ownership measuring 12.32 ha. Since the road follows existing trail, 5.61 ha. Of private land is already obtained by the trail, and remaining 6.71 ha needed for the construction.
4. Household survey of the project affected people (APs), altogether 92 household comprising 423 people were affected Where 218 male and 205 female. No one household were below poverty line and 38 public and private structures need to be removed throughout the alignment. 241 trees belonging to private and community forest and 26 fruit trees will be affected.
5. In terms of food sufficiency only few 10 households reported more than 9 month, 20 household reported 6-9 month, 49 households reported 3-6 months and 13 household reported to have food sufficiency less than 3 month of the year. An average food sufficiency month is reported 6.8 and most of the population involves in the hotel business because this is one of the best route of trek.
6. The RP has been prepared based on the ADB's policy on involuntary Resettlement. The major objectives of the project is to avoid of minimize land acquisition and involuntary resettlement wherever possible and in unavoidable situation to ensure the AP's rights and receive assistance to remain in the same level as they would have been in absence of the sub project. All involuntary land acquisition (other than voluntary land donation) will be compensated at replacement cost. Special attention will be paid to ensure that households headed by the women and other vulnerable groups receive appropriate assistance. The national laws, Regulation, resettlement framework and ADB's resettlement safeguard policy are followed during land acquisition and paying compensation.
7. The project has formed a grievance redress committee (GRC) in the district level and two sub-committees at VDC level for hearing and addressing complaints of the APs. A compensation determination committee (CDC) has been formed under the chairmanship of CDO. The RP has made sufficient provision to restore/rehabilitate APs will also receive opportunity through Livelihood Enhancement Skill Training (LEST) to restore their living standard.
8. PCU supported by the CISC at the centre, DPOs supported by the DI'ST at the district level and VICCC at the VDC level will be involved in implementing the project. Total resettlement cost including other assistance of Nrs **7200709** has been decided by CDC.

1. Introduction

1. This Resettlement Plan (RP) describes the involuntary resettlement planning process and procedures that will be applied to the Chame-Khangsar road subproject of Rural Reconstruction and Rehabilitation Sector Development Program (RRRSDP) which will trigger ADB's Involuntary Resettlement Policy. The sub-project is located in Manang District, Gandaki Zone, in the Western Development Region. The road section starts from Chame, district headquarter of Manang, and ends at Khangsar VDC passes through Chame, Pisang, Bhraka, Manang, Tanki Manang and Khangsar. The subproject is a part of upper Manang Rural Road, a north-west rural road which provides access from district headquarters at Manang to the service center at Khangsar, currently inaccessible Northern part of the district in terms of development. This road will help the people of Upper Manang Road Corridor and surrounding areas to access the public market, health facilities and government services and link to the Beshishahar district headquarter of Lamjung through Chame and upper part tourist attraction area Tilicho lake as well as easy to cross Muktinath through Throngla pick in near future.

2. The Chame-Khangsar sub project is one of the core subprojects of upper Manang selected by the District Development Council. The length of the proposed road is about 35.22 km. The Track of the road alignment has been opened by DDC funding. Some portions of the alignment have been already constructed (except main portion of the road and bridge) while others need to be improved and rehabilitated. To improve the access from the District Headquarter up to settlement along the alignment and link local area and the district market, quantity of private land would be required. The existing road will be upgraded to fair weather. The Road standard is 5m formation width with full Right of Way (RoW) of 10 m width (5 m both sides from the centre line) is fully acquired and owned by the requiring body. However, in some section of Chame-Khangsar subproject, the implementing agency DPT/DPO has decided to reduce the RoW at Humde settlement of Manang VDC chainage 21+100 to 21+900 (800m) and Bhraka settlement of Bhraka VDC chainage 26+900 to 27+500 (600m) This for reduce the (Total $8+4=12$) number of Structures to be displaced.

3. Information on the socioeconomic characteristics of the affected people (APs) and their loss assessment has been collected using census household surveys and focus group interviews as part of the feasibility study. The subproject affects 434 private plots in which 158 (63.2 %) households were absent during the survey and only 92 (36.8 %) households were interviewed. Hence the 92 households of 423 people were included in the analysis of the study. While several alternatives were explored during the project design to avoid or minimize land acquisition, some impacts are unavoidable due to technical and road safety considerations. The survey team has selected the least valuable, least agriculturally productive land for the right of way and road improvement and took care to avoid the demolition of houses. Being a rehabilitation project, the design of the road alignment is limited to the previously decided alignments, which also need additional land for the construction.

4. The survey team involved in community meetings and interviews with Landowners who lost land to the existing alignment in the past and the owners of the additional land needed for widening and new construction of the alignment. Details of additional land requirements were discussed with affected persons and families.

In general, involuntary resettlement should be minimized the population displacement. It addresses loss of land, structures, resources and means of livelihood or social support systems. Affected people affected should be informed fully and consulted on settlement and compensation options.

5. This RP has been prepared for setting out strategies to mitigate adverse effects and improve or maintain living standards of APs. It will set the parameters for the entitlement package for those affected, the institutional framework, mechanism for consultation and grievance resolution, the timeframe and cost estimates. In preparing the RP, ADB's Policy on Involuntary Resettlement and the Resettlement Framework (RF) for the Project has been closely followed. The RP is prepared based on the feasibility study findings regarding loss of land, trees fruit trees and structures within 10 m Right of Way of the road alignment.

The sub-project affects 250 households, 38 structures, 174 trees and 26 fruit trees. Since the sub-project does not experience significant impact, short resettlement plan has been prepared to safeguards the APs.

2. Scope of Land Acquisition and Resettlement

6. The Household Listing and Census Survey show that the proposed alignment would affect 250 households, primarily through the loss of land. Therefore total of 6.71 hectares of private land will be required for the road construction this represents an average loss of 0.02 ha per household. All total 38 structure of right of way will need to displace for the road construction of which 3 are residencial,4 business structures and remaining are other structures like mane, chhorten, tap, Gate, cattle shed, wall, kitchen ,dining . It was found that about 51 percent households had land holding size of <0.5 ha, likewise 19 percent households had >0.5and <1.0 ha land holding and 29 percent household had more than 1 hector land holding. About 90% of household would lose <20% of their land only, and 10% household would lose >20% land. An analysis of pre and post project scenario indicates that the land holding pattern will remain similar after the project. However the affected household would not come below poverty level as they earn more from non-agricultural sources. The detailed list of APs and their land holding and extent of potential loss are summarized in Table 1.

Table -1: Summary of Impact

S.N	Particulars	Pre-project		Post- Project		Remarks
		Number	Percent	Number	Percent	
1	Land Holding HH					
	<0.5 ha	47	51.08	48	52.17	
	0.5-1.0 ha	18	19.57	19	20.65	
	>1.0 ha	27	29.35	25	27.18

3. Socioeconomic Information of the Affected Households

7. The census was followed by a detailed socio-economic survey of 92 APs households were carried out among those, who were living in the village (other 158HH were absentee land owners), in order to collect further Information regarding APs income, food sufficiency, poverty and ethnic background. The Table 2 below summarizes the APs socio-economic information from the survey.

Table -2: Socio-Economic Analysis of APs Households

S.N	Particulars	Pre-project		Post- Project		Remarks
		Number	Percent	Number	Percent	
1	Income from Land (HH)					
	<12000	8	8.69	9	9.78	
	12000-25000	18	19.57	21	22.83	
	>25000	66	71.74	62	67.39

	16- 45	196				
	46 - 60	42				
	> 60	37				

Source: socio-Economic Survey (2066)

8. The survey shows that average annual income of the affected households is about 312641 rupees. Majority households have annual income above 50,000 rupees, and 1.08% households have annual income less than 50,000 rupees. It is interesting to note that about 82.87% income comes from other sources and only 17.13% comes from land. While no changes are expected on agricultural and non-agricultural income as a result of the land and structure loss, households are expected to some reduction in agricultural income in proportion to their loss of land. In terms of food sufficiency only few 10.86% households have above 10-12 months food security, majority households have 4-6 months and/or even less and average annual food expenses is 8065 rupees which reflected more than 6 months food sufficiency for the 92 affected person households. In general affected households were not able to manage more than this from the agriculture production before the project. Main source of their income is Hotel business and almost all households are able to manage food more than 12 months from their income, therefore there has not been any adverse impact on food security to the affected households after the project implementation.

9. All total 100% of the affected households are from the ethnic group (Ghale, Gurung and Lama) there are no households of the person from the other group. The data indicates that along the road alignment male population is more than the female population. Most of the population involves in the hotel business because this is one of the best route of trek therefore the socio-economic status is above than the poverty line.

10. Useful skills exists within the households along the alignment .13.3% household have knowledge on construction, 21.7% households involve in hotel business, 25% households have involve in trade business, only 10.8% are engaged on their own land and 27.1% households are doing trekking / tour guide. This data indicate that the majority people have involve in business due to the tourist area therefore less number of people have interest to involve in the construction being alternative options.

11. Total households income was relatively high in terms of per capita income and no households fell below the national poverty line due to their diversified income sources other than agriculture. Most of the APs households are found losing <20% and those who have lost >20% also does not fell below the poverty line.

4. Applicable Legal and Policy Framework

12. The **Interim Constitution of Nepal (2007)** guarantees the fundamental rights of a citizen. Article 19(1) establishes the right to property for every citizen of Nepal, whereby every citizen is entitled to earn, use, sell and exercise their right to property under existing laws.

Article 19(2) states that except for social welfare, the state will not acquire or exercise authority over individual property. Article 19(3) states that when the state acquires or establishes its right over private property, the state will compensate for loss of property and the basis and procedure for such compensation will be specified under relevant laws.

13. The **Land Acquisition Act (1977)** and its subsequent amendment in 1993 specify procedures of land acquisition and compensation. The Act empowers the Government to acquire any land, on the payment of compensation, for public purposes or for the operation of any development project initiated by government institutions. There is a provision of Compensation Determination Committee (CDC) chaired by Chief District Officer to determine compensation rates for affected properties. The Act also includes a provision for acquisition of land through negotiations. It states in Clause 27 "notwithstanding anything contained elsewhere in this Act, the Government may acquire any land for any purpose through negotiations with the concerned land owner. It shall not be necessary to comply with the procedure laid down in this act when acquiring land through negotiations."

14. The **Land Reform Act (1964)** is also relevant. As per the Act, a landowner may not be compensated for more land than he is entitled to under the law. This Act also establishes the tiller's right on the land which he is tilling. The land reform act additionally specifies the compensation entitlements of registered tenants on land sold by the owner or acquired for the development purposes. The Act amendment most recently in 2001 has established a rule that when state acquires land under tenancy, the tenant and the landlord will each be entitled to 50 percent of the total compensation amount.

15. The **Land Revenue Act (1977)** is also applicable, as the land acquisition involves change of ownership of land. Article 8 of the Act states that registration, change in ownership, termination of ownership right and maintenance of land records are done by Land Revenue Office. Similarly article 16 says, if land revenue is not paid by the concerned owner for long period of time, the revenue can be collected through auction of the parcel of the land for which revenue has been due.

16. The **Public Roads Act, 2031 (1974)** empowers the government to acquire any land on a temporary basis for storage facilities, construction camps and so on during construction and upgrading of roads. Any buildings and other structures such as houses, sheds, schools, and temples are to be avoided wherever possible. The government is required to pay compensation for any damages caused to buildings, standing crops and trees. Compensation rates are negotiated between the government and the landowners.

17. Land acquisitions must also comply with the provisions set out in the **Guthi Corporation Act 1976**. The Section 42 of the Act states that Guthi (religious/trust) land acquired for a development must be replaced with other land.

18. The government has drafted, with ADB's technical assistance, a **National Policy on Land Acquisition, Compensation and Resettlement Development Projects**. The Policy is still in the draft form, but once approved will provide clear guidelines to screen, assess and plan land acquisition and resettlement aspects in development projects. The draft Policy highlights the need to handle resettlement issues with utmost care and forethought particularly in case of vulnerable groups. There are provisions of voluntary land donation by non-poor and providing assistance to poor families.

19. The **ADB's Policy on Involuntary Resettlement** states that involuntary resettlement should be avoided where feasible. Where population displacement is unavoidable, exploring all viable options should minimize it. People unavoidably displaced should be compensated and assisted, so that their economic and social future would be generally as favorable with the project as it would have been in the absence of the project. People affected should be

informed fully and consulted on resettlement and compensation options. Existing social and cultural institutions of resettlers and their hosts should be supported and used to the greatest extent possible, and resettlers should be integrated economically and socially into host communities. The absence of formal legal title to land by some affected groups should not be a bar to compensation; particular attention should be paid to households headed by women and other vulnerable groups, such as indigenous peoples and ethnic minorities, and appropriate assistance provided to help them improve their status. As far as possible, involuntary resettlement should be conceived in the presentation of project costs and benefits. The policy addresses losses of land, resources, and means of livelihood or social support systems, which people suffer as a result of an ADB project.

20. The **ADB's Operational Manual Section F2/OP** states that where projects provide direct benefits to communities, and are amenable to a local decision-making process, arrangements to deal with losses on a transparent, voluntary basis may be included in resettlement plans, with appropriate safeguards. Such safeguards include (i) full consultation with landowners and any nontitled affected people on site selection; (ii) ensuring that voluntary donations do not severely affect the living standards of affected people, and are linked directly to benefits for the affected people, with community sanctioned measures to replace any losses that are agreed to through verbal and written record by affected people; (iii) any voluntary "donation" will be confirmed through verbal and written record and verified by an independent third party such as a designated nongovernmental organization or legal authority; and (iv) having adequate grievance redress mechanisms in place. All such arrangements will be set out in a resettlement framework that is prepared before the first management review meeting or private sector credit committee meeting and covenanted

5. Definition, Objectives, Policies and Entitlement for the Project

21. The following are the definition of related terminology used in this RP:

- i) **Affected Person (AP):** All persons who as of the cut-off-date stand to lose for the Project all or part of their land or other assets, irrespective of legal or ownership title.
- ii) **Cut-off Date:** The date of census survey to count the APs and their affected land and assets.
- iii) **Land Donation:** Land owners' willingness to provide part of his land for the project in expectation of project benefits. It must be voluntary or unforced and confirmed in written agreement witnessed by third part.
- iv) **Legalizable:** Those who do not have formal legal rights to land when APs are recorded, but could claim rights to such land under the law of Nepal.
- v) **Nontitle:** Those who have no recognizable rights or claims to the land that they are occupying. However illegal inhabitants as per law of Nepal will be excluded from nontitle.
- vi) **Poverty Line:** The level of income below which an individual or a household is considered poor. Nepal's national poverty line (currently NRs 10216 for Panchthar district), which is based on a food consumption basket of 2,124 calories and an allowance for non food items of about two thirds of the cost of the basket, will be adopted by the Project to count APs under the poverty line. The determination of poor households or persons under the Project will be based on the census and socio-economic survey and confirmed by community meeting that affected person/household falls below the poverty line.
- vii) **Project Affected Family:** A family consisting of APs, his/her spouse, sons, unmarried daughters, daughters-in law, brothers or unmarried sisters, father, mother

and other legally adopted members residing with him/her and dependent on him/her for their livelihood.

- viii) **Severely Project Affected Family/People (SPAF):** A Project Affected Family that is affected by the project such that:
 - a. There is a loss of land or income such that the affected family fall below the poverty line; and/or
 - b. There is a loss of residential house such that the family members are physically displaced from housing.
- ix) **Squatters:** People living on or farming land not owned by them selves and without any legal title or tenancy agreement. The land may belong to the Government or to individuals.
- x) **Titled:** APs who have formal legal rights to land, including any customary or traditional rights recognized under the laws of Nepal.
- xi) **Third Party:** An agency or organization to witness and/or verify "no coercion" clause in an agreement with APs in case of voluntary land donation. One independent agency (i.e. not involved in project implementation), preferably working on rights aspect, will be recruited in each development region to serve this function.
- xii) **Vulnerable Group:** Distinct group of people or persons who are considered to be more vulnerable to impoverishment risks than others. The poor, women-headed, *Dalits* and IPs households who fall below poverty line will be counted as vulnerable APs.
- xiii) **Women Headed Household:** Household headed by women, the woman may be divorced, widowed or abandoned or her husband can be working away from the District for long periods of time, but where the woman takes the decisions about the use of and access to household resources.

22. The objectives of the RP are to (i) avoid land acquisition and involuntary resettlement wherever feasible; and (ii) minimize it where it is unavoidable, and ensure that APs receive assistance, so that they would be at least as well off as they would have been in the absence of the project. The key resettlement principles for the Project are as following:

- i) Involuntary land acquisition and resettlement impact will be avoided or minimized through careful planning and design of the project;
- ii) For any unavoidable involuntary land acquisition and resettlement, APs will be provided compensation at replacement cost and/or assistance so that they will be as well-off as without the project;
- iii) APs will not be forced for donation of their land, and there will be adequate safeguards for voluntary land donation.
- iv) APs will be fully informed and consulted during project design and implementation, particularly on land acquisition and compensation options;
- v) The absence of formal legal title to land will not be a bar to compensation for house, structures and trees/crops, and particular attention will be paid to vulnerable groups and appropriate assistance provided to help them improve their socio-economic status;
- vi) Land compensation and resettlement assistance will be completed before award of civil works contracts, while other rehabilitation activities will continue during project construction; and
- vii) Land acquisition and resettlement will be conceived part of the project and the costs related to resettlement will be included in and financed out of the project cost.

23. The sub-project selection and planning follow community-driven approach, which gives communities control over planning and project implementation. The sub-project will provide direct benefits to community, including improved access to markets and services such as schools, health and other public services. It is believed that the improved road also will lead to higher value and production of local land because of improved access and availability of agricultural inputs. Given that most local people are willing to voluntarily donate part of their land in road improvement that provides benefit to community. However, adequate process and safeguards are built in the RP ensuring that the voluntary land donation is unforced and it doesn't lead to impoverishment of affected people, including:

- a. Full consultation with affected persons and communities on selection of sites and appropriate design to avoid/minimize additional land take and resettlement effects;
- b. As a first principle, APs were informed of their right to entitle compensation for any loss of their property (house, land, and trees) that might be caused by the project construction, and the land donation might be accepted only as a last option;
- c. No one were be forced to donate their land and APs will have the right to refuse land donation;
- d. In case APs are directly linked to project benefits and thus are willing to voluntarily donate their land after they are fully informed about their entitlement, the project will assess their socio-economic status and potential impact of land donation and accept land donation only from those APs who do not fall below the poverty line after the land donation.
- e. Any voluntary land donation (after the process as mentioned above) will be confirmed through a written record, including a "no coercion" clause verified by an independent third party
- f. The donation will be limited to only land and minor assets (houses and major assets will be excluded from donation);
- g. A Grievance Redress Committee (GRC) will be set up in every road section (chaired by local leader, and including representatives of APs) and APs who are not satisfied with the land donation can file their complaint with GRC. If GRC found out that the above provisions were not complied with, APs will be excluded from the land donation.

24. All involuntary land acquisition (other than exceptional voluntary land donation) will be compensated at replacement cost and APs assisted so that their economic and social future would generally be as favorable as it would have been in the absence of the project. The absence to formal title to land will not be a bar to compensation assistance for loss of assets and special attention will be paid to ensuring that households headed by women and other vulnerable groups receive appropriate assistance to help them improve their status. The APs whose land was affected by the road was informed by the project office through publishing general notice at the VDC. Therefore, the date written in the notice will remain the "cut-off-date" (26-11-2009) for the entitlement and owners (including non-titled) of affected assets till such a date will be eligible to be categorized as APs. The entitlement policy/matrix is in Table 3.

Table- 3: Entitlement Policy/Matrix

Type of Loss	Application	Definition of Entitled Persons	Policy/Entitlement
1. Acquisition of private, tenancy, or Guthi land	Entire or part of land to be acquired from owner of the land as recorded at cut off date	<ul style="list-style-type: none"> Titleholder Tenants 	<ul style="list-style-type: none"> Land with equivalent size and category, or cash compensation at replacement cost In case of vulnerable group, preference will be in replacing land for land. Any transfer costs, registration fees or charges Registered tenant will receive the 50% value of the land Land registration in the name of both land owner and spouse (in case of land for land compensation) If remaining land becomes unviable for use as a result of land acquisition, APs will have option to relinquish unviable remaining portion of land and receive similar benefits to those losing all their land parcel. Non-titled persons will receive compensation for crops and subsistence allowance for one year crop, and provided with replacement land if <i>Ailani</i> or Gov. land is available in the village. Any up-front costs for the tenancy agreement will be reimbursed either through an agreement with the land lord or by the EA
2. Temporary loss of land	Temporary land taken by the project	<ul style="list-style-type: none"> Titleholder Tenants 	<ul style="list-style-type: none"> Compensation at replacement cost for the net loss of income, damaged assets, crops and trees etc. An agreement between contractors and APs before entering the site if case of involvement of contractors.
3. Loss of residential, commercial, and other structure	Structures, buildings including cattle shed, walls, toilets etc. affected by the project.	<ul style="list-style-type: none"> Owner Tenants Non-titled (encroachers/squatters) 	<ul style="list-style-type: none"> Compensation for full or partial loss at replacement cost of the affected structure without depreciation or deduction for salvaged material. Displacement and transportation allowance for residential and commercial structures to cover actual cost as estimated in the RP. Rental stipend equivalent of three months rent for tenants who have to relocate from tented building.
4. Loss of community structures / resources	Community facilities (e.g. irrigation, water, etc.) affected by the project.	The users of the facility or community or group	<ul style="list-style-type: none"> Reconstruction by the project leaving such facilities in a equivalent or better condition than they were before. or Cash compensation at full replacement cost without depreciation or deduction for salvaged material.
5. Loss of trees and crops	Affected fruit/nut trees	Owner of the affected fruit/nut trees	Cash compensation based on annual value of the produce and calculated according to the Department of Agriculture norms. RPs to confirm that the DoA norms and techniques are sufficient and updated regularly.
	Affected timber and fodder trees	Owner of the affected timber and fodder trees	Cash compensation based on calculation of the production and calculated according to the norms as decided by the Ministry of Forestry and Soil Conservation.
	Affected crops	Owner of the affected crops Sharecropper of the affected crops	<ul style="list-style-type: none"> Cash compensation based on the local market prices for the produce of one year and calculated as per the norms of District Agriculture Development Office. 50% cash compensation of the lost crop for the sharecropper.

Type of Loss	Application	Definition of Entitled Persons	Policy/Entitlement
6. Loss of economic opportunity	Economic opportunity lost as result of loss of livelihood base.	Persons in the road vicinity who may be adversely affected, although they do not lose assets as such	<ul style="list-style-type: none"> • Preferential employment in wage labour in project construction works. • Skills training support for economic restoration • Priority in poverty reduction/social development program
7. Loss of time and travel expenses	All expenses incurred in traveling to fill application and making claims and time lost.	The entire project affected persons eligible for compensation.	Project facilitates to avoid time and travel expenses by providing the compensation at site..
8. Land donations	Loss of land and other assets by means of voluntary donation	Voluntary donation is accepted only if AP: <ul style="list-style-type: none"> • Is project beneficiary and is fully consulted and informed about their rights; • Doesn't fall below poverty line after land donation; • Donating up to 20% land holding, • Unforced or freely willing to donate (with an agreement, including a "no coercion" verified by third party; 	<ul style="list-style-type: none"> • No compensation for the donated land, but entitled for compensation of other assets such as house, structures,, etc. • Transfer of land ownership by negotiation (DDC and the owner). • Free/escape of any transfer costs, registration fees or charges. • Preferential employment in wage labour in project construction work.
9. Additional Assistance			
	9.1 Preference t in employment in wage labour in project activities	All APs	<ul style="list-style-type: none"> • Construction contracts include provision that APs will have priority in wage labor on project construction during implementation. • APs shall be given priority after construction for work as maintenance worker, mandated in local body agreement.
	9.2 Skill training and income generation support	One member of each PAF belonging to vulnerable group/below poverty line	<ul style="list-style-type: none"> • Skill training and income generation support financed by project • RP to include a need assessment and skill training program for APs.
	9.3 Priority in poverty reduction/social development programs	All APs	<ul style="list-style-type: none"> • Participation of APs with priority in saving credit scheme facilitated by the Project. • Participation of APs with priority in life skills, income generation, and other entrepreneurship.

6. Information Dissemination, Consultation, Participation, Disclosure and Approval of Resettlement Plan

25. Different seven community consultations meetings were held with community and affected households at different date and venue in the VDCs. In the meeting proposed alignment and project modalities were discussed with community and with each affected household. The main purpose of the discussion was to acknowledge the public and APs about ADB's Policy on involuntary resettlement, compensation and entitlement, resettlement framework of RRRSDP, impacts and benefits of the subproject and availability of the fund/budget for RP implementation.

26. The community meetings and interviews were conducted with the owners of land and structures under the existing alignment and the owners of additional land needed for widening the road. During the meeting people were requested to donate the additional land needed for the improvement of the existing alignment. Written consent has been given by the owners for the land donation. For this, the people wanted life skill training and employment opportunities as compensation to restoration their livelihood. They also said that the project should ensure no further harm to the remaining land outside the construction. During the walkover survey people actively participated in identifying the alignment and the suggestions of the local people were considered in the final design. All the information related to resettlement activities and compensation disbursements have been made publicly by the project. The RP has included provisions of life skill training, income generating activities, and preferential employment of APs in the construction works.

27. The resettlement\social team of DIST assisted by VICCC and supported by DPO carried out an information campaign before conducting the registration of APs. The information leaflet in Nepali language has been also distributed among the affected households which contain information on the project introduction, objective, working modality and compensation policy. During the Household resettlement survey each household was also personally informed about the project, entitlements and procedures. The draft RP has been disclosed to the affected people and they are informed about their entitlements along with project procedure, planning and implementation. The disclosure and consultation process is aimed to:

- Explain the relevant details of the project scope and schedule
- Explain the RP and the various degrees of project impact
- Provide details of the entitlements under the RP and what is required of APs in order to claim their entitlement.
- Explain the Implementation Schedule with a timetable for the delivery of entitlements,
- Explain the compensation process and set out compensation rates,
- Provide a detailed explanation of the grievance process and other support in arbitration,
- Enlist the help of VICCC and other influential community officials in encouraging the participation of the APs in RP implementation, and

- Ensure that all vulnerable groups understand the process and that their needs are specifically taken into consideration and are met by assistance by the Project.

28. A continued information and consultation programme will be conducted during RP implementation and income restoration. These programs will be continued for purposes of grievance procedures and for post-implementation.

29. The Resettlement Specialist and Social Development Specialist of DIST will act as the information conduit, informing communities about the progress of the sub-project and supporting and facilitating VICCC in its community organisation role. This will support enable communities to prepare for participation more readily and help socially disadvantaged people to negotiate employment, understand their compensation requirements, gain fairer compensation or acceptable alternatives and conclude land deed transfer to the Government.

7. Grievance Redress Mechanism

30. A Grievance Redress Committees (GRC) has been established at subproject level for hearing the complaints of APs. The project affected persons have formal recourse to the CDO and Ministry of Home Affairs in case of grievance under regulations specified under the Land Acquisition Act 2034 (1997). A Grievance Redress Sub-Committee was formed at VDC level to hear complaints and for their appropriate resolution. Other than disputes relating to legal rights, it will review all grievances relating to land acquisition. Grievances will be redressed within two to four weeks from the date of lodging the complaints. GRC comprises:

- i. Head of DDC/ Local leader nominated by DDC(Chairperson)
- ii. Representative of local bodies.
- iii. Representative of APs (including VICCC member)
- iv. Representative of Civil society organizations;
- v. Representative of project
- vi. Social mobilisers /DIST to attend as observers and to give support to APs.

31. Each VICCC has formed a Grievance Redresses Sub-committee at VDC level comprising 3 members from VICCC and 2 members from APs to hear complaints and grievances at local level. APs can approach the sub-committee with his/her problem which is then discussed locally with the aim of amicable settlement. There were not any aspect of written and verbal complain came from affected person. They were satisfied to the work and no one has complained.

32. The key functions of the GRCs are to (i) receive complaints from APs; (ii) record the complains, categories and prioritize them; (iii) settle the grievances in consultation with APs and DPO staff; (v) report to the aggrieved parties about the decision/solution; and (vi) forward the unresolved cases to higher authorities. The main steps for the grievance resolution are in Box 1:

Box 1: Steps for Grievance Resolution under the Project

Steps 1: APs file the complaints in Grievance Redress Sub-Committee (GRCS) formed at VDC level. Complaints of APs on any aspect of donation, compensation, relocation or unaddressed losses shall in first instance be settled verbally or in written form with GRCS. The complaint can be discussed in an informal meeting with the AP by the concerned personnel to settle the issue at VDC level. The Project Manager, Social Mobilization Coordinator of DISC, Community leader and NGO working in the VDC will also be involved in the consultation process in this regard.

Steps 2: If no understanding or amicable solution reached from the GRCS at Village level, APs can appeal to District level GRC.

Steps 3: If APs are not satisfied from the response of District level GRC member, the APs can appeal to the CDC. While lodging the complaint, the AP must produce documents to support his/her claim. The CDC will provide the decision within 15 days of registering the appeal.

Steps 4: If APs are not contended with the decision of CDC or in the absence of any response of its representatives, within 35 days of the complaint, the AP, in his/her last resort, may submit its case to the District Court.

8. Compensation and Income Restoration

8.1 Valuation and Compensation Determination

33. The survey and valuation of affected land, households and other structures were undertaken by DPO assisted by DIST. The team has assessed loss and assessed value for compensation as per the district norms. Cadastral mapping has verified the land plots under road.

34. Compensation Determination Committee (CDC) meeting under the chairmanship of CDO was held on 2066- 08-27. The compensation rates, meeting minute and compensation receivers are enclosed in annex. For Chame - Khangsar road Sub Project, compensation for land, structures and trees was calculated based on replacement cost principle and forwarded to CDC meeting according to the entitlement matrix. CDC has endorsed the rate of land as decided by VICCC, the rate of fruit trees were calculated as per the norms given by DAO and harvesting/transportation cost of trees as per the Forest Norms.

35. The payments will be disbursed by cheque or cash. Payments will be made at the road subproject site organizing a public meeting for small amount, especially for fruit and timber trees. Whereas cheque will be issued for the amounts more than Nrs. 1000. To make the decision making process transparent and representative of the affected persons, someone from VICCC and DIST member will be invited as observers.

8.2 Income Restoration and Rehabilitation Program

36. Project will incorporate compensation of loss incurred as well as also proposes various programs to restore or rehabilitate their lost income through direct employment and other measures. Income restoration programs are specifically focused for affected households, particularly to the poor and vulnerable households or are at risk of impoverishment. Moreover, the contract documents also include provisions regarding preferential employment of APs. The sub project will provide at least 90 days of unskilled job to one adult from each affected families to enable them to earn sufficient to restore their income involving them through Road Builders' Group (RBG). The APs will be also benefited through saving and credit program carried out by the projects which will encourage the laborers to save 20 percent of their payment.

37. Beside direct employment in the sub project, programs designed under Social Action Plan (SAP) also will provide them further opportunities of socio-economic empowerment. The APs' are further given priority to become maintenance workers after completion of the sub project construction.

8.3 Livelihood Enhancement Skills Training (LEST) for APs

38. Apart from employment in the sub project, APs will be benefited from LEST to enhance their livelihood. LEST will include income generating activities and life skill training to restore their income affected due to the sub-project. The Livelihood Enhancement Skills Trainings are basically based on the Training Need Assessment (TNA) of the affected families.

39. Household survey has listed total of 92 households directly affected by the sub project. Affected person who are from vulnerable and poorest of the poor mass identified from socio-economic survey will be given priority in LEST. Basically APs expectation from the sub project includes income generating opportunities through various trainings sectors (see Table 3).

Among 423 affected populations, sub project have targeted the economically active population to receive trainings or involve in road construction with gender and social inclusive approach.

Table No- 4: Livelihood Enhancement Skill Training for Affected Persons

SN	Type of training		Target trainee			Duration	Rate/ unit	Est. budget	Starting date	Remarks
			M	F	T					
1.	IG Related									
	1.1	Tour guide	3	3	6	10 days	1500	90000	Aug-2010	
	1.2	Cook	7	5	12	15 days	2500	450000	Sept-2010	
	1.3	Driving	6	-	6	15 days	1000	90000	Dec-2010	
	1.4	Masonry and house construction	6	-	6	1 month	1000	180000	Nov-2010	
	1.5	Jam /jelly	4	8	12	10 days	1000	120000	Oct-	

		production							2010	
	1.6	Carpentry furniture	6	-	6	1 month	1500	270000	Nov-2010	
	1.7	Fruit production and management	3	3	6	5 days	1000	90000	Aug-2010	
	1.8	Hair cutting	6	-	6	7 days	1000	42000	July-2010	
	1.9	Gabion wire weaving	6	-	6	10	1500	90000	June-2010	
	Sub total		47	19	66			1422000		

Note: The Proposed date and training may change as per need of the trainee during implementation

9. Institutional Frameworks

9.1 Institutional Arrangement of the Project

40. Ministry of Local Development (MoLD) is the executing agency of the project, whereas DoLIDAR is the central implementing agency for central level activities. DDC is the implementing agency in the district level and VICCC constituted in each VDC will facilitate the resettlement activities at the grassroots level. Institutional arrangements of the project at the various levels are:

9.1.1 Central-level Arrangements

41. PCU will co-ordinate, guide and monitor day-to-day project implementation including compliance with safeguard provisions. CISC will support PCU in effective planning and implementation of the resettlement, compensation and rehabilitation measures outlined in the RP. The resettlement specialists of the CISC will look after policy compliance and monitoring of the RP implementation.

9.1.2 District Level Arrangements

42. At the district level, DPO under DDC has overall planning and implementation responsibilities of the project including compliance of safeguard provisions. Resettlement Specialist of the DIST assists the DPO in planning and implementation of resettlement activities. Resettlement Specialist also helps APs through information campaigns/community consultation to promote clarity and transparency on the resettlement safeguard provisions including resettlement entitlements, compensation payments and income generation opportunities to the APs.

9.1.3 Subproject Level Arrangements

43. Project Coordinator (PC) of the DPO has given major responsibility to plan and implement the RP in sub-project level. For the smooth implementation of the land acquisition, compensation and mitigation measures, PC establishes integration and coordination with the Office of the Chief District Officer, District Land Revenue Office, District

Land Survey Office, District Agriculture Development Office, District Forest Office and other line agencies within the district. The DPCC and VICCC also provide necessary support to the DPO in the whole resettlement process of planning, implementation and monitoring of the sub-project.

9.1.4 Compensation Determination Committee (CDC)

44. CDC under the Land Acquisition Act 1977 plays a major role in providing notice, deciding rates of compensation concerning to the sub project. In addition, VICCC, GRC and its sub-committee/s also plays facilitator's role in the sub-project level.

In line with the Land Acquisition Act 2034, Compensation Determination Committee (CDC) has been reactivated to decide compensation rate of the affected properties caused by the sub-project. The committee is composed of the CDO, the DLRO, DLSO, DDC representative and the project co-ordinator i.e the DTO engineer. To make the decision making process transparent two APs of the sub-project are included as observers.

10. Resettlement Budget and Financing Plan

45. The financial resources necessary for acquisition and compensation are budgeted into the project costs and will be administered according to the Land Acquisition Act 1977. These include:

- (i) Direct compensation costs for acquisition of assets;
- (ii) Costs associated with enhancement measures for affected households and persons; and
- (iii) Costs associated with the implementation and management of resettlement activities and capacity building.

The costs required for RP implementation will already be allocated to the Project Account. The district will include the required budget in its yearly budget under the heading RP implementation.

10.1 Costs of Compensation for Assets

A. Land: According to the government categorization only pachahar qualities land is available in the project area. Mainly two type of land (Khet and Pakho) affected by the project Categorized in high Himalayan district. Official land prices are calculated annually at district level for each of the different land types and classes. There is variation in the land rate between Government and current market rate. The Government and Market rate of land is presented in the following table.

Table No- 5: Comparative Price of the Land along the Alignment (NRs. per Ropani)

Sn	VDC/	Wn	Government Rate/ Ropani					Market Rate/ Ropani				
			Abal	Doyam	Seem	Chahar	Pachahar	Abal	Doyam	Seem	Chahar	Pachahar
1.	Chame	1					36200					55000
2.	Chame	3-4					35000					48000
3.	Chame	5					92500					150000
4.	Chame	6					102500					180000
5.	Chame	7					156200					226000

6.	Chame	8					77500					124000
7.	Tanki M.	2-3					81200					150000
8.	Tanki M.	4-5					47500					105000
9.	Tanki M.	9					93700					170000
10.	Pisang	1					47500					115000
11.	Bhraka	1-3					47500					106000
12.	Manang	1-9					96200					190000
13.	Khangsar	1-9					48200					92000

Source: The land revenue office of Manang and approved by CDC.

B. Trees: The quantity of tree production and valuation is carried out on basis of Ministry of Forest and Soil Conservation (MoFSC) norms 2060. The norms has following provision for felling of trees having girth of more than 12 cm when measured at 1.3m above the ground including the sectioning of trunk, branches, and stumps up to a distance of 15m along the road with the indicated size would need the following labor input:

- Above 12 cm to 30 cm girth	0.13 person day
- Above 31 cm to 60 cm girth	0.39 person day
- Above 61 cm to 90 cm girth	0.52 person day
- Above 91 cm to 120 cm girth	1.56 person day
- Above 121 cm to 180 cm girth	2.50 person day
- Above 181 cm to 240 cm girth	4.00 person day
- Above 241 cm to 300 cm girth	12.99 person day
- Above 301 cm girth	41.67 person day

Reference: norms 37.4

Transportation of the logs (poles), which is as follow Load, transport and unload for the First 10m distance from the source	0.50 Person day/cubic meter
For each additional 10m	0.08 Person day/cubic meter
For the first 1000m	8.42 Person day/cubic meter
For each additional 1000m (0.08 Person day/cubic m x 100)	8.00 Person day/cubic meter
For the first 5000m (8.42 x 4.8)	40.42 Person day/cubic meter
For the small seedling less than 12 cm girth	Rs.10 per seedling.

C. Fruit Trees: Mainly two types of fruit trees to be displace from the road alignment .the price of the particular based on the record of District Agriculture Development office and finalized by the CDC meeting is presented in the following table.

Table No- 6: Rate of the Fruit trees in NRs

S.N.	Types of trees	Rate/Mature trees	Rate / Small trees	Remarks
1.	Apple	6642	800	
2.	Okhar	10748	800	

Office of the District Agriculture Development and approved by the CDC.

D. Standing Crops: During the assessment there are four types of Agriculture product affected by the project on the affected plots and the price finalized on current market price by the CDC meeting with the help of District Agriculture Development Office is presented in the following table.

Table No- 7: Agriculture product based on the market price in NRs

S.N.	Name of product	Current market price/unit		Remarks
		Price/Pathi	Price / KG	
1.	Karu	240	80	Chame market price
2.	Buckwheat	234	78	Chame market price
3.	Potato	96	32	Chame market price
4.	Beans	240	80	Chame market price

Office of the District Agriculture Development and approved by the CDC.

E. Houses/Structure: There are 38 structures to be displaced after limiting the 8m width of RoW from the road alignment for construction of subproject. Engineering valuation of these structures has been done by technical team of DIST based on the replacement cost principle. Discuss with community consultation about the structure to be removed and it's recommended to CDC for further procedure. CDC has endorsed it and recommended to incorporate in Resettlement Plan. The detail and incorporated copy of compensation for the affected structures will be attaché in updated plan. The private and public structures affected by the subproject are summarized in the following table.

Table No- 8: Summary of the Affected Structures

S.N.	Types of structures	Total	Private	Community	Non-title	Remarks
1.	Residential house	3	3	0	0	
2.	Toilet	3	3	0	0	
3.	Business Stall	4	3	0	1	
4.	Cattle shed	2	2	0	0	
5.	Tap	3	0	3	0	
6.	Kitchen	4	3	0	1	
7.	Dining	4	3	0	1	
8.	Mane/Chhorten	7	0	7	0	
9.	Gate	4	0	4	0	
10.	Fruit store	1	1	0	0	
11.	Wall	3	1	0	1	
Total		38	19	14	4	

Source: Field survey (2066)

10.2 Cost of Rehabilitation Support

45. This proposes cost allocated in different categories to support the affected individual and households. Rs 5,000 allocated as consolation allowance for every private structure displacement household.

- Rs. 20,000 allocated in Displacement and transportation allowance for residential and commercial structures (for the transfer of materials to new from the old and losses during closing time)
- Rs. 6000 Rental stipend equivalent of 3 months rent to the displacement household for resettle in new place.

- APs need to travel from their village to district headquarter in the process of land acquisition and deed transferring; travel allowances will be paid based on district agriculture wage rate. While the Project will try to facilitate the land acquisition process locally, the estimated cost for such travel allowance is NRs. 250,000.

10.3 Cost of Implementation of RP

46. This cost item covers the organizational arrangements required for the implementation and management of resettlement-related activities. It includes awareness and information dissemination campaigns and costs for meetings and consultation. The community support cost is included in the project management and capacity building component.

10.4 Total Cost Estimate for RP

47. The value of private land for new cutting is equivalent to Nrs. 18.88 million. The total cost of resettlement including compensation for the loss of structure as displacement cost, livelihood restoration programme and deed transfer is Nrs.7.20 million. The detail cost is given in table 6.

Table No- 9: Summary of Cost for RP

S N	Item	Unit	Total Loss	Amount (NRs)	Remarks
1.	DIRECT COST				
	1.1 Compensation for private land	Sqm		0	donation
	1.2 Other Trees	No.		146184	
	1.3 Fruit Trees	No.		197328	
	1.4 Private structure compensation	No.		2832926	
	1.5 Community structure reconstruction	No.		441075	
	1.6 Standing corps	KG	6528	306067	
	Sub Total			3923580	
2.	INDIRECT COST				
	Consolation allowance	LS	19	95000	
	Displacement allowance	LS	7	140000	
	Rental stipend	3m	19	342000	
	Transportation allowance	5000/	38	190000	
	2.1 Deed transfer Assistance	LS	250HHs	125000	
	2.2 Official Deed transfer fees	LS		75000	
	2.3 Public appreciation programme	92HH		92000	
	2.4 Travel allowance	Ls	92HH	250000	
	Sub Total			1309000	
3.	Livelihood Enhancement Skill Training			1530000	
4.	Contingency (5%)			338129	
5.	Reserve fund for absentee owner compensation	LS	158HH	100000	
	Grand Total			7200709	

11. Implementation Schedule

48. Subproject RPs will include a time-bound action plan to complete the resettlement activities tailored to sub-project construction schedule. The DPO will ensure that funds are delivered on time for timely implementation of resettlement plan. Civil works contracts will not be awarded unless required compensation payment has been completed. An indicative list of activities and time period is shown in Table 7.

Table No- 10: An Implementation Schedule for Chame -Khangsar Road Sub-project is included as follows:

SN	Activities	Feb-10				Mar-10				April-10				May-10				Jun-10				July-10				Aug-10				Sept-10				Oct-10				2010

13	External Monitoring and evaluation of RP																															*	*	*	*	*						

12. Monitoring and Evaluation

12.1 Monitoring at District Level

49. The DPO will be responsible for the internal monitoring of the resettlement planning and implementation throughout the sub-project cycle. The DPO shall submit monthly progress reports to PCU on implementation of resettlement plan. The PCU will submit quarterly monitoring reports to ADB for its review. Such reports will be posted on website of ADB and DoLIDAR

50. District project coordinator or his/her representative will attend VICCC meetings, as and when required. Progress on resettlement implementation and any concerns will be discussed in such meetings. The VICCC and resettlement/social staff of DIST will facilitate the monitoring of progress and resolution of any grievances locally.

51. DPO will organize periodic progress review workshops involving APs representatives. Special attention will be given to securing the participation of women and socially disadvantaged group. The workshops will provide households with the opportunity to discuss both the positive and negative aspects of their resettlement, compensation and reestablishment. An inclusive problem-solving approach will be followed, using local experiences and realities as the basis for solutions. Social development and resettlement specialist of the DIST will facilitate such workshops.

12.2 Verification by PCU.

52. The verification of satisfactory implementation of RP including completion of land compensation is a condition for contract award and commencement of civil works. A verification report in this regard will be prepared by PCU assisted by social/resettlement specialist of CISC and submitted to ADB along with proposal to award the contract(s). The verification report has to have investigated the extent to which any land donations were freely made and with adequate safeguard, and whether assessed compensation / assistance have been paid to the APs.

12.3 External/Third Party Monitoring

53. The implementation activities will be monitored and evaluated externally once in a year through independently appointed agency, consultant or NGO not involved with any aspects of the project, which will provide report to both PCU/DPO and to ADB. The socio – economic survey undertaken for land acquisition will form the baseline data, from which many of the indicators can be measured. A sample survey at the end of the sub-project period will cover all the categories of APs and access change caused by the project. The aim of the sample monitoring survey will be to measure the extent to which APs living standards have been restored / improved. This RP has included appropriate monitoring indicators for external monitoring.

Table- 11: Monitoring and Evaluation Indicators

Type	Indicator	Examples of Variables
Process Indicator	Staffing	Number of DoLIDAR staff on RRRSDP, for sub-project Number of other line agency officials available for tasks Number of Social Development Staff located in the field
	Consultation	Number of Building Groups contacted or established and meetings held Grievances by type and resolution Number of field visits by DoLIDAR/DPO and social development specialist and Resettlement specialist Number of NGOs/CBOs participating in subproject
	Procedures in Operation	Census and asset verification/quantification procedures in place Effectiveness of compensation delivery system Number of land transfers (owner to GON) effected Coordination between DPO and other line agencies
Output Indicators; data disaggregated by sex of owner/ head of household	Acquisition of Land	Area of land acquired by road section and contract Area of private land acquired Area of communal/government land acquired Area of the land voluntarily donated
	Buildings	Number, type and size of private buildings acquired Number, type and size of community structures acquired
	Trees and Crops	Number and type of private trees acquired Number and type of government/community trees acquired Crops destroyed by area, type and number of owners
	Compensation and Rehabilitation	Number of households affected (land, buildings, trees, crops) Number of owners compensated by type of loss Amount compensated by type and owner Number and amount of allowances paid Livelihood restoration cost
	Reestablishment of Community Resources	Number of community structures repaired or replaced Number of trees planted by government agency
impact Indicator – data disaggregated by sex of owner/ head of household	Household Earning Capacity	Employment status of economically active members Landholding size, area cultivated and production volume, by crop Selling of cultivation land Changes to livestock ownership – pre- and post disturbance Changes to income-earning activities (agriculture) – pre- and post disturbance Changes to income-earning activities (off-farm) – pre- and post disturbance Amount and balance of income and expenditure
	Change of Status of women	Participate in training program Affiliated in saving credit program Use of credit facilities Participation in road construction Participation in commercial enterprise
	Change of Status of children	School attendance rate by gender Participation in road construction
	Settlement & Population	Growth in number and size of settlements Growth in market areas Influx of squatters

पुनर्वास योजना: चामे - खाङ्गसार सडक उप आयोजना, मनाङ्ग कार्यकारी सारांश

पृष्ठभूमि

नेपाल सरकारले लामो दृष्टिकोणमा गर्दा क्षति भएका ग्रामीण पूर्वाधारहरूको पुनःनिर्माण र पुनःस्थापनाको कार्य एशियाली विकास बैंक, स्विस् सरकार (SDC), ब्रिटिस सरकारको अन्तराष्ट्रिय विकास विभाग (DFID) तथा ओपेक फण्ड (OFID)को आर्थिक सहयोगमा **ग्रामीण पूर्वाधार पुनर्निर्माण र पुनर्स्थापना आयोजना** नेपालको बिसवटा जिल्लाहरूमा संचालन गरिरहेको छ । मनाङ्ग जिल्लामा अवस्थित प्रस्तावित **चामे - खाङ्गसार** ग्रामीण सडकको पुनर्स्थापना सोही कार्यक्रम अन्तर्गत संचालन गर्न लागिएको एक उप-आयोजना हो ।

यस पुनर्वास योजनाले ग्रामीण पुनर्निर्माण तथा पुनर्स्थापना आयोजना (RRRSDP) अन्तर्गत संचालित **चामे - खाङ्गसार** सडक आयोजनाको अस्वैच्छिक पुनर्वास योजनाको नीति तथा प्रकृयालाई प्रस्तुत गरेको छ । यो पुनर्वास योजना तयार गर्दा जग्गा प्राप्ती ऐन २०३४ लाई आधार मानी एसियाली विकास बैंकको अस्वैच्छिक पुनर्वास नीति १९९५ र ग्रामीण पुनर्निर्माण तथा पुनर्स्थापना आयोजना (RRRSDP) को पुनर्वास प्रारूप अनुरूप तयार पारिएको हो । यसका अतिरिक्त नेपालको अन्तरिम संविधान २०६३, भूमिसुधार ऐन २०२९, जग्गा मालपोत ऐन २०३४, सार्वजनिक सडक ऐन २०३९, गुठी संस्थान ऐन २०३३ तथा अन्य पुनर्वास सम्बन्धि राष्ट्रिय कानून, नीति र नियमावलीहरूलाई पनि ध्यानमा राखिएको थियो ।

प्रस्तावक

प्रस्तावित सडक उप-आयोजना को पुनर्वास योजनाको तयार तथा प्रस्तावक जिल्ला विकास समिति र जिल्ला प्राविधिक कार्यालय/जिल्ला आयोजना कार्यालय, मनाङ्ग रहेको छ ।

पुनर्वास योजना तयारीको उद्देश्य

पुनर्वास योजनाको मुख्य उद्देश्य प्रस्तावित उप-आयोजना निर्माण गर्दा गरिने स्वैच्छिक तथा अस्वैच्छिक पुनर्वासको कारण बाट प्रभावित व्यक्ति तथा परिवार माथी पर्नजाने भौतिक, सामाजिक, आर्थिक तथा सांस्कृतिक पक्षमा पर्न सक्न नकारात्मक प्रभावको न्यूनिकरण गर्न के कस्ता सामाजिक सुरक्षा कवजहरूको आवश्यकता पर्दछ, सो को योजना बनाई कार्यान्वयन गराउनु, तथा प्रस्तावित सडक आयोजनाको लागि छोटो पुनर्वास योजनाको तयार गरे पुग्छ भन्ने कुराको यकिन गर्नु हो ।

अध्ययन प्रकृया

५ जुलाई, २००९ मा प्रभावित परिवार तथा व्यक्तिको आधारभुत सामाजिक आर्थिक सर्वेक्षण, नापी सर्वेक्षण बाट लिइएको तथ्याङ्क तथा अन्य उपलब्ध तथ्याङ्कहरूको साथै जिल्ला कार्यान्वयन सहयोगी टोली तथा प्राविधिक टोलीबाट पुनर्वास कार्यको सर्वेक्षणको सिलसिलामा संकलन गरेका तथ्याङ्कहरू केलाएर पुनर्वास योजना तयार पारिएको छ ।

प्रस्तावित उप-आयोजनाको पुनर्वास योजनाको सारांश विवरण

१. यस सडक आयोजनाको जम्मा लम्बाई ३५.२२ कि.मी रहेको छ । यस आयोजना मनाङ्ग जिल्लाको सदरमुकाम चामे गा.वि.स. बाट सुरु भई खाङ्गसार गा.वि.स. मा पुगेर अन्त्य हुन्छ । यो सडक आयोजना अन्तर्गत बारै महिना चल्ने ५ मिटर चौडाई भएको सडक निर्माण गरिने छ भने यस सडकको अधिकार क्षेत्र (ROW) १० मिटर कायम गरिएको छ । ग्रामीण

सडकको मापदण्ड अनुरूप यो आयोजनालाई 'क' वर्गमा वर्गीकरण गरिएको छ । यो सडक आयोजना निर्माणको लागि ६.७१ हेक्टर व्यक्तिगत जमिन थप आवश्यक पर्ने देखिन्छ ।

२. यस आयोजना क्षेत्रभित्र पर्ने प्रभावित घरधुरीहरूको सामाजिक-आर्थिक सर्भेक्षण तथा प्रभावित सम्पत्तिको क्षति विश्लेषण गरि उनीहरूको सामाजिक आर्थिक अवस्था र क्षतिका बारेमा तथ्याङ्क संकलन गरिएको थियो । कित्ता नापी सर्भेक्षणले देखाए अनुसार यस आयोजनाले जम्मा २५० घरधुरीका ४३४ व्यक्तिगत त्यटहरू प्रभावित भएको देखिन्छ जसमा ९२ घरधुरीको मात्र सामाजिक तथा आर्थिक सर्भेक्षण गर्न सम्भव भएको थियो । क्षतिको विश्लेषण गर्दा ७२ वटा सामुदायिक रुखविरुवाहरू, १६९ व्यक्तिगत रुखविरुवाहरू र ३८ वटा व्यक्तिगत तथा सामुदायिक प्रभावित हुने देखिन्छ (यसैसाथ संलग्न गरिएको प्रभावित जग्गा तथा रुखविरुवाहरूको विवरण हेर्नुहोस्) ।

३. सर्भेक्षण गरिएका ९२ घरधुरी मध्ये सम्पूर्ण ९२ घरधुरी जनजाति रहेका छन् जसमा महिला २०५ र पुरुष २१८ गरी जम्मा ४२३ जना व्यक्ति प्रभावित प्रभावित हुने देखिन्छ । आयोजना प्रभावित घरधुरीहरूको आयका विभिन्न स्रोतहरूको विश्लेषण गर्दा कृषि उत्पादनबाट भन्दा गैरकृषिका स्रोतबाट बढी आम्दानी हुने गरेको पाईएको थियो । यो सडक निर्माणका लागि जग्गा दान गरे बापत प्रभावित घरधुरीको कृषिजन्य उत्पादनमा केही कमी हुने अनुमान गरिएपनि सो जग्गा उब्जाउ नभएकाले कृषिजन्य उत्पादनमा खासै कमी हुने देखिदैन गैरकृषि का स्रोतमा पनि कुनै नोक्सानी बेहोनु पर्ने छैन । सम्पूर्ण घरधुरीले जग्गा गुमाए पनि बाटो बनेपछीका विभिन्न फाइदा जस्तै सडक बनेपछि जग्गाको मुल्य बढ्ने तथा आयोजना अन्तरगतका क्षतीलाई आय आर्जन तालिम तथा अन्य सहयोग बाट पूर्ती हुने अपेक्षा राखिएको छ ।

४. यस सडक आयोजनाबाट प्रभावित सबै घरधुरीबाट २० प्रतिशत भन्दा कम मात्र जग्गा प्रभावित भएको र सबै ९२ परिवार ३७ परिवार गरीबीको रेखाभन्दा माथि रहेका पाईएको थियो । सो अनुरूप यस आयोजनाले सबै ९२ घरधुरी बाट आयोजना निर्माणको लागि स्वैच्छिक जग्गादान स्विकार गरेकोछ ।

५. जग्गा अधिग्रहण सम्बन्धी उजुरी, गुनासो वा विवाद सुन्न तथा सो को उचित समाधान गर्न जिल्ला तहमा गुनासो निदान समिति (GRC) तथा गाउँ तहमा दुई उपसमितिहरू गठन गरिएको छ । यस उपसमितिमा ३ जना गाउँस्तरीय पूर्वाधार निर्माण समन्वय समिति (VICCC) बाट र २ जना प्रभावित घरधुरी बाट गरी ५ जना भएको गुनासो निदान समिति बनाइएको छ ।

६. प्रमूख जिल्ला अधिकारीको अध्यक्षतामा मुआब्जा निर्धारण समितिको गठन गरिएको छ । यस समितिले आयोजना प्रभावितहरूलाई क्षतिपूर्ति वापत दिइने रकमलाई पनि अनुमोदन गरेकोछ । क्षतिपूर्ति, लगत कट्टा, सीप विकास तालीम तथा अन्य विभिन्न शीर्षक गरी जम्मा रु ७२००७०९ को पुनर्वास बजेटको प्रस्ताव गरिएकोछ । आयोजनाले प्रभावित परिवारका कम्तिमा पनि १ व्यक्तिलाई ९० दिन बराबरको अदक्ष कामदारको रुपमा रोजगारको अवसर प्रदान गर्नेछ । यसको साथै आयोजनाले संचालन गर्ने जीवन उपयोगी सीप तालीमद्वारा प्रभावित परिवारको आय तथा क्षमतामा सुधार गरिने छ ।

७. यो आयोजनाको केन्द्रिय तहमा आयोजना समन्वय एकाई (PCU) रहेकोछ जसलाई केन्द्रिय कार्यान्वयन सहयोग परामर्शदाता (CISC) ले कार्यक्रमको कार्यान्वयनमा सहयोग पुऱ्याईरहेकोछ भने जिल्लामा जिल्ला आयोजना कार्यालय (DPO) लाई जिल्ला कार्यान्वयन सहयोग टोली (DIST) ले प्राविधिक सहयोग गर्दछ । सडक आयोजनालाई गाउँ तहमा गाउँ स्तरीय पुर्वाधार निर्माण समन्वय समितिले योजना कार्यान्वयन गर्नमा सहयोग पुऱ्याउँदछ ।

८. यो सडक आयोजना कार्यान्वयन र आन्तरिक अनुगमन गर्ने काम जिल्ला आयोजना कार्यालय (DPO) को हुनेछ । पुनर्वास योजनाको कार्यान्वयन सम्पन्न भएको रुजु गर्ने काम केन्द्रिय कार्यान्वयन सहयोग परामर्शदाता (CISC) का पुर्नवास विज्ञबाट सम्पन्न भई सो को प्रतिवेदन सहित आयोजना निर्माणकार्य शुरु गर्न आयोजना समन्वय एकाई (PCU) बाट एशियाली विकास बैंकमा प्रस्तावना पठाए पछि मात्र निर्माण कार्य सुरु हुनेछ ।

निष्कर्ष

पुनर्वास योजना अन्तर्गत उल्लेख गरिएको उपायहरूको कार्यान्वयन गरिएमा यस आयोजनाको कार्यान्वयनले आयोजना क्षेत्रका प्रभावित परिवारलाई सामाजिक - आर्थिक तथा जिविकोपार्जनमा उल्लेखनीय सकारात्मक प्रभाव पार्ने देखिन्छ ।
