Executive Summary

1. This Resettlement Plan (RP) is prepared for Kushma-Durlung-Saliya road sub-project that describes the involuntary resettlement planning process and procedures under Rural Reconstruction and Rehabilitation Sector Development Program (RRRSDP).
2. The Sub-project is located at Parbat district which is prioritized in DTMP (Priority No: 2) has been selected from the formal meeting of DDC council. The proposed road sub-project follows 5 years old existing alignment which starts from Baglung-Pokhara highway (Durlung Chouk) passes through densely populated three VDCs namely; Shivalaya, Durlung and Kyang and ends at Lespar of Kyang VDC. The total length of the proposed road is 21.085 km, which requires 16.43 ha land where private land under existing road is 2.37 ha, private land under new cutting is 6.18 ha, additional private land for absentee HHs is 1.38 ha, public land under existing road is 3.08 ha and public land under new cutting is 3.41 ha. The value of land for new cutting for the road construction is equivalent to Nrs. 12.41 million. The subproject will be upgraded into all weather graveling road standards with 5m formation width.
3. The total affected household is 313. The socio-economic and loss assessment survey has been done in 220 HHs. 93 HHs were not interviewed after making several attempts during the socio-economic survey. The socio- economic survey shows that, 1342 persons were affected comprising 683 male and 659 female from the interviewed HHs. Total of 11 structures are affected from where one is community school and remaining are private structures. All 220 HHs lose <20% of their total land holding. On the other hand, 344 plots of private land will be affected. In addition, only 21 households comprising 126 persons will lose more than 10 % of their land holding, which is well below threshold of 200 persons as mentioned in Resettlement Framework (RF). Therefore, there is no significant impact on project. Hence, this sub-project falls under category B of Involuntary Resettlement policy of ADB. That is why; a Short Resettlement Plan is prepared to mitigate the losses due to the implementation of the road subproject.
4. The RP has been prepared based on the Resettlement Framework of the project. The objectives of the RP are to (i) avoid land acquisition and involuntary resettlement wherever feasible; and (ii) minimize it where it is unavoidable, and ensure that APs receive assistance, so that they would be at least as well off as they would have been in the absence of the project. While preparing this Resettlement Plan Project's key resettlement principles are strictly followed and incorporated in this plan.
5. The census was followed by a socio-economic survey of 220 HHs focusing on APs income, food sufficiency, poverty and ethnic background. The survey revealed that average annual income of the affected households is about 156966 rupees. Majority of the households have annual income above 55,000 rupees, and 27 HHs of households have annual income less than 55,000 rupees. The household's income is relatively high in terms of per capita income. All 220 interviewed HHs falls above the poverty line.
6. For voluntarily land donation the project has prepared land donation agreement paper. All affected HHs agreed to donate their land without force who have <20% land loss. However, adequate process and safeguards are built in the RP ensuring that the voluntary land donation is unforced and it doesn't lead to impoverishment of affected people as stated in project resettlement framework which is described in this RP.
7. The survey team has assessed the various categories of loss envisaged in the entitlement matrix and finalized the estimated prices/costs for compensation at replacement cost. The Compensation Determination Committee (CDC) has been formed under the chairmanship of CDO. The CDC decided the compensation rates based on recommendation of resettlement survey. The main principle for the decision of compensation rates is to provide compensation at replacement value of the lost assets.

9. A Grievance Redress Committees (GRC) has been formed at district level for hearing the complaints of APs and for their appropriate resolution and its sub-committee 3 Grievance Redress Sub- Committee (GRSC) has been formed at the village level including three representative from VICCC and two from Affected family for hearing the complaints and disputes relating to land acquisition and to bring appropriate resolution.

10. The resettlement principles adopted for this subproject recognize the Land Acquisition Act, 2034 (1977) and the requirements of the Asian Development Bank (ADB) policy on Involuntary Resettlement. In addition to the Land Acquisition Act 2034 (1977) there are also other relevant acts like; Public Roads Act 2031 (1974), Land Reform Act (1964) Land Revenue Act (1977) and other guidelines, policies and plans related to land acquisition and resettlement for the road which were also reviewed while preparing this RP.

11. The improvement in earning capability and project benefits will be maximized through the addition of a savings component and life skill training for APs, run by the project. In order to create employment opportunities in construction work, the project will provide supplementary support to the identified APs through Livelihood Enhancement Skills Training (LEST) program and other community infrastructure supplementary investment projects. A list of skills training and income generation has been prepared and total of Rs 943800 has been budgeted. The total cost of resettlement including compensation for the loss of structure, land, livelihood restoration programme, deed transfer and reserve fund for absentee is NRs. 7.32 million.

12. The Project Executing Agency, Ministry of Local Development (MoLD) has established Project Coordination Unit (PCU) under Department of Local Infrastructure Development & Agricultural Roads (DoLIDAR). Central Implementation Support Consultant (CISC) resettlement team has assisted PCU in effective planning, implementation and monitoring of the RP. The Implementing Agency, DDC has established District Project Office (DPO) supported by District Implementation Support Team (DIST) in the district.

1. Introduction

1. This Resettlement Plan describes the involuntary resettlement planning process and procedures that will be applied to the **Kushma –Durlung-Saliya** roads sub-project under Rural Reconstruction and Rehabilitation and Sector Development Program (RRRSDP) which triggers ADB's involuntary resettlement policy and safeguards & RRRSDP Involuntary Resettlement Framework.

2. The proposed **Kushma –Durlung-Saliya** Sub-project is located north west of Parbat district. The sub project has been selected by the formal meeting of DDC council. The road starts from North Baglung–pokhara Highway. It covered three VDCs namely Shivalaya , Durlung and Kayang. The subproject will be upgraded into all weather graveling road standards with 5m formation width. While selecting the subproject, the EA has defined the sub project as Class 'A' standard.

3. The proposed subproject is 21.085 km. long follows 5 years old existing vehicle playing road and it was constructed through local resources. The sub-project will be upgraded into gravel standard (all weather) with 5 m formation width. The RoW will be 5 meter either side in the whole alignment.

4. Household listing survey, socio-economic and loss assessment survey, target group interviews, community consultation meeting with APs have been carried out in the entire alignment as the part of feasibility and detail survey to determine resettlement impacts, land holding status, loss of properties and assets and eligibility for compensation. As a rehabilitation project; survey design is carried out in the existing alignment even though 6.18 ha of private land is needed to acquire for road construction.

5. The total affected household is 313. The socio-economic and loss assessment survey has been done in 220 HHs. 93 HHs were not interviewed after making several attempts during the socio-economic survey. The socio- economic survey shows that, 1342 persons were affected comprising 683 male and 659 female from the interviewed HHs. Total of 11 structures are affected from where one is community school and remaining are private structures. All 220 HHs lose <20% of their total land holding. On the other hand, 344 plots of private land will be affected. In addition, only 21 households comprising 126 persons will lose more than 10 % of their land holding, which is well below threshold of 200 persons as mentioned in Resettlement Framework (RF). Therefore, there is no significant impact on project. Hence, this sub-project falls under category B of Involuntary Resettlement policy of ADB. That is why; a Short Resettlement Plan is prepared to mitigate the losses due to the implementation of the road subproject.

6 This road sub-project will provide various benefits to the local people after its completion. The people will have immediate access to the district headquarter and will link Baglung – Pokhara highway in the North which will make easy to connect other places of the country culminating various economic opportunities. Significant numbers of raw materials and goods (Bamboo, Vegetable, fruits) can supply to other part of the country through this sub project as well as reduce in traveling time due to improvement of the existing road and direct linkage with District Headquarter. In addition, it is also anticipated that implementation of this subproject may bring several positive changes such as; create employment opportunities during construction period, increase in land price, development of market etc.

2. Scope of Land Acquisition and Resettlement

7. The subproject requires 16.43 ha land where private land under existing road is 2.37 ha, private land under new cutting is 6.18 ha, additional private land for absentee HHs is 1.38 ha, public land under existing road is 3.08 ha and public land under new cutting is 3.41 ha. This represents an average loss of 0.03 ha per household. It was found that 64.09 percent of the HHs land holding size is <0.5 ha , 23.64 percent of the HHs land holding size is 0.5 -1ha and

12.27 percent of the HHs land holding size is >1 ha . The total affected land of non interviewed HHs is 1.39 ha. An analysis of pre and post project scenario indicates that the land holding pattern will remain same after the project. The list of APs, their detailed socio-economic information of land holding and extent of potential loss are summarized in Table 1.

Table: 1 Summary of Impacts

	Pre-Project		Post-Project		Remarks
	Number	%	Number	%	
1. Total Aps					
Households	313				
Population	1342				
Male	683	50.89			
Female	659	49.11			
Average household size	6.1	100%			
Absentee Household	93				
Absentee Population	567				
2. Land Holding (HH)					
<0.5 ha	141	64.09	148	67.3	
0.5-1.0 ha	52	23.64	45	20.45	
>1.0ha	27	12.27	27	12.27	
Average (ha)	0.53	100%		100%	
3. Households by Land Loss					
Losing <20%	212	96.36			
Losing >20%	8	3.64			
Average ha	0.029				
4. Number of affected person					
Losing <20%	1342	100			
Losing >20%	0	0			
5. Types of Loss					
5.1 Total Area of the land (sqm)	164311				
5.1.1 Private land New Cutting (sqm)	61802				
5.1.2 Private Land under Existing Road	23755				
5.1.3 Absentee HHs affected land	13854				
5.1.4 Public land under existing road	30800				
5.1.5 Public land under new cutting	34100				
5.2 Total number of plots	344				
5.3 Private Structures	10				
5.4 Public Structures	1				
5.5 No. Of trees	0				

3. Socio-economic Information of the Affected Households

8. The census was followed by a detailed socio-economic and loss assessment survey of 220 affected households to collect further information regarding APs especially income, food sufficiency, poverty and ethnic background. Table no 2 below depict the APs socio-economic information from the survey.

Table: 2 Socio-Economic Analysis of Aps Households

Variable	Pre-Project		Post-Project	
	#	%	#	%
1. Income from Land (HH)				
<12,000	141	64.1	167	75.91
12,000-25,000	75	34.1	49	22.27
>25,000	4	1.82	4	1.82
Average	10175	100%		100%
2. Non-agricultural Income (HH)				
<12,000	0	0		
12,000-25,000	5	2.27		
>25,000	215	97.73		
Average	146791	100%		
3. Total Income(HH)				
<25,000	3	1.36	4	1.82
25,000-50,000	13	5.91	12	5.45
>50,000	204	92.73	204	92.73
Average	156966	100%		100%
4. Food sufficiency (HH)				
<3 months	0	0		
3-6 months	0	0		
6-9 months	0	0		
>9 months	220	100

46 – 60	189			
> 60	144			
Total	1342			

Source: Resettlement Survey, March/April 2010

9. The survey shows that, average annual income of the affected HHs is about Nrs 156966. 27 affected HHs have annual income less than 55,000 rupees and 165 HHs have annual income above 55000. It is known from the survey that only 6.48 percent of the total income covers from land and 93.52 percent comes from other sources such as employment, wage labor and business. The above trend of income shows that dependency on agriculture is slowly changing to off-farm activities though no changes are expected on non- agricultural income in proportion to loss of land. In terms of food security, all 220 HHs have more than 12 months food security from their sources of income both from agriculture and non agriculture.

10. The donation criteria of the project state that the economic future of the APs must be remained same as they are before the project. The donation is accepted from all 220 households. The major income of the households is from non-agriculture sources. The survey finding also reveals that, there will be more or less same earning level and food security before and after the project. It is expected that the loss incurred due to the project will also be off-set by benefits of the road as well as assistance and skill training provided under the project.

11. Out of total APs, 52 percent of the households are from Brahman/Kshetri, 32.27 percent of the household are from Janajati and 15.45 percent from Dalit cast. Regarding their pattern of income, about 50% of the households work on their own land and involve in milk production and selling, while about 20% of household are involved in business. In the same way, nearly 5 % of the households are engaged in livestock, 10% household works as wage labour within and outside the village and 15 % have pension and remittances.

12. The survey of the project affected families along the road alignment reveals that the members of the APs expressed unwillingness to involve in road construction activities as they prefer to work in other areas such as; craftsperson like bamboo works, carpentry, food processing, house construction etc. Various types of income generation and awareness trainings like adult literacy, agriculture extension, livestock rising, health and sanitation have been taken by the affected peoples through different agencies.

13. The average time taken to reach the District Headquarters is 5 hours on foot and 3 hour by bus cost 250 rupees single trip. Average walking time (round trip) to primary schools is around 1 hour, college is 3 hour and to secondary schools is 2 hour. Sub-health posts are located at about 1hour distance. District Hospital is found in Kushma Bazar (headquarter of Parbat district) with 5 hours of walk for single trip. Local markets are on average of 40 minutes walk away whereas a larger market is around 5 hours walking distance. Veterinary and agro-centre are found in average 1 hour walk and telephone service is available all over the village.

4. Applicable Legal and Policy Framework

14. This section reviews the policy framework that applies to the project. Resettlement Plan (RP) is guided by Land Acquisition Act (LAA 1977) 2034, ADB Involuntary Resettlement Policy, and the approved Resettlement Framework of the project.

15. The **Interim Constitution of Nepal (2007)** guarantees the fundamental rights of a citizen. Article 19(1) establishes the right to property for every citizen of Nepal, where by every citizen is entitled to earn, use, sell and exercise their right to property under existing laws.

Article 19 (2) states that except for social welfare, the state will not acquire or exercise authority upon individual property. Article 19(3) states that when the state acquires or establishes its right over private property, the state will compensate for loss of property and the basis and procedure for such compensation will be specified under relevant laws.

16. The **Land Acquisition Act (1977)** and its subsequent amendment in 1993 specify procedures of land acquisition and compensation. The Act empowers the Government to acquire any land, on the payment of compensation, for public purposes or for the operation of any development project initiated by government institutions. There is a provision of Compensation Determination Committee (CDC) chaired by Chief District Officer to determine compensation rates for affected properties. The Act also includes a provision for acquisition of land through negotiations. It states in Clause 27 "notwithstanding anything contained elsewhere in this Act, the Government may acquire any land for any purpose through negotiations with the concerned land owner. It shall not be necessary to comply with the procedure laid down in this act when acquiring land through negotiations."

17. The **Land Reform Act (1964)** is also relevant. As per the Act, a landowner may not be compensated for more land than he is entitled to under the law. This Act also establishes the tiller's right on the land which he is tilling. The land reform act additionally specifies the compensation entitlements of registered tenants on land sold by the owner or acquired for the development purposes. The Act amendment most recently in 2001 has established a rule that when state acquires land under tenancy, the tenant and the landlord will each be entitled to 50 percent of the total compensation amount.

18. The **Land Revenue Act (1977)** is also applicable, as the land acquisition involves change of ownership of land. Article 8 of the Act states that registration, change in ownership, termination of ownership right and maintenance of land records are done by Land Revenue Office. Similarly article 16 says, if land revenue is not paid by the concerned owner for long period of time, the revenue can be collected through auction of the parcel of the land for which revenue has been due.

19. The **Public Roads Act, 2031 (1974)** empowers the government to acquire any land on a temporary basis for storage facilities, construction camps and so on during construction and upgrading of roads. Any buildings and other structures such as houses, sheds, schools, and temples are to be avoided wherever possible. The government is required to pay compensation for any damages caused to buildings, standing crops and trees. Compensation rates are negotiated between the government and the landowners.

20. Land acquisition must also comply with the provisions set out in the **Guthi Corporation Act 1976**. The Section 42 of the Act states that Guthi (religious/trust) land acquired for a development must be replaced with other land.

21. The **ADB's Policy on Involuntary Resettlement** states that involuntary resettlement should be avoided where feasible. Where population displacement is unavoidable, it should be minimized by exploring all viable options. People unavoidably displaced should be compensated and assisted, so that their economic and social future would be generally as favourable with the project as it would have been in the absence of the project. People affected should be informed fully and consulted on resettlement and compensation options. Existing social and cultural institutions of resettlers and their hosts should be supported and used to the greatest extent possible, and resettlers should be integrated economically and socially into host communities. The absence of formal legal title to land by some affected groups should not be a bar to compensation; particular attention should be paid to households headed by women and other vulnerable groups, such as indigenous peoples and ethnic minorities, and appropriate assistance provided to help them improve their status. As far as possible, involuntary resettlement should be conceived in the presentation of project costs and benefits. The policy addresses losses of land, resources, and means of livelihood or social support systems, which people suffer as a result of an ADB project.

5. Definition, Objectives, Policies and Entitlement for the Project

22. The following are the definition of related terminology used in this RP:

- i) **Affected Person (AP):** All persons who as of the cut-off-date stand to lose for the Project all or part of their land or other assets, irrespective of legal or ownership title.
- ii) **Cut-off Date:** The date of census survey to count the APs and their affected land and assets.
- iii) **Land Donation:** Land owners' willingness to provide part of his land for the project in expectation of project benefits. It must be voluntary or unforced and confirmed in written agreement witnessed by third part.
- iv) **Legalizable:** Those who do not have formal legal rights to land when APs are recorded, but could claim rights to such land under the law of Nepal.
- v) **Nontitle:** Those who have no recognizable rights or claims to the land that they are occupying. However illegal inhabitants as per law of Nepal will be excluded from nontitle.
- vi) **Poverty Line:** The level of income below which an individual or a household is considered poor. Poverty line has been calculated Rs. 15030 based on cumulative sum of Government's CPI inflation rate taking base year 2003. The determination of poor households or persons under the Project will be based on the census and socio-economic survey and confirmed by community meeting that affected person/household falls below the poverty line.
- vii) **Project Affected Family:** A family consisting of APs, his/her spouse, sons, unmarried daughters, daughters-in law, brothers or unmarried sisters, father, mother and other legally adopted members residing with him/her and dependent on him/her for their livelihood.
- viii) **Severely Project Affected Family/People (SPAF):** A Project Affected Family that is affected by the project such that:
 - a. There is a loss of land or income such that the affected family fall below the poverty line; and/or
 - b. There is a loss of residential house such that the family members are physically displaced from housing.
- ix) **Squatters:** People living on or farming land not owned by them selves and without any legal title or tenancy agreement. The land may belong to the Government or to individuals.
- x) **Titled:** APs who have formal legal rights to land, including any customary of traditional rights recognized under the laws of Nepal.
- xi) **Third Party:** An agency or organization to witness and/or verify "no coercion" clause in an agreement with APs in case of voluntary land donation. One independent agency (i.e. not involved in project implementation), preferably working on rights aspect, will be recruited in each development region to serve this function.
- xii) **Vulnerable Group:** Distinct group of people or persons who are considered to be more vulnerable to impoverishment risks than others. The poor, women-headed, *Dalits* and IPs households who fall below poverty line will be counted as vulnerable APs.
- xiii) **Women-headed household:** Household headed by women, the woman may be divorced, widowed or abandoned or her husband can be working away from the District for long periods of time, but where the woman takes the decisions about the use of and access to household resources.

23. The objectives of the RP are to (i) avoid land acquisition and involuntary resettlement wherever feasible; and (ii) minimize it where it is unavoidable, and ensure that APs receive

assistance, so that they would be at least as well off as they would have been in the absence of the project. The key resettlement principles for the Project are as following:

- i) Involuntary land acquisition and resettlement impact will be avoided or minimized through careful planning and design of the project;
- ii) For any unavoidable involuntary land acquisition and resettlement, APs will be provided compensation at replacement cost and/or assistance so that they will be as well-off as without the project;
- iii) APs will not be forced for donation of their land, and there will be adequate safeguards for voluntary land donation.
- iv) APs will be fully informed and consulted during project design and implementation, particularly on land acquisition and compensation options;
- v) The absence of formal legal title to land will not be a bar to compensation for house, structures and trees/crops, and particular attention will be paid to vulnerable groups and appropriate assistance provided to help them improve their socio-economic status;
- vi) Land compensation and resettlement assistance will be completed before award of civil works contracts, while other rehabilitation activities will continue during project construction; and
- vii) Land acquisition and resettlement will be conceived part of the project and the costs related to resettlement will be included in and financed out of the project cost.

24. The sub-project selection and planning follow community-driven approach, which gives communities control over planning and project implementation. The sub-project will provide direct benefits to community, including improved access to markets and services such as schools, health and other public services. It is believed that the improved road also will lead to higher value and production of local land because of improved access and availability of agricultural inputs. Given that most local people are willing to voluntarily donate part of their land in road improvement that provides benefit to community. However, adequate process and safeguards are built in the RP ensuring that the voluntary land donation is unforced and it doesn't lead to impoverishment of affected people, including:

- a. Full consultation with affected persons and communities on selection of sites and appropriate design to avoid/minimize additional land take and resettlement effects;
- b. As a first principle, APs were informed of their right to entitle compensation for any loss of their property (house, land, and trees) that might be caused by the project construction, and the land donation might be accepted only as a last option;
- c. No one were be forced to donate their land and APs will have the right to refuse land donation;
- d. In case APs are directly linked to project benefits and thus are willing to voluntarily donate their land after they are fully informed about their entitlement, the project will assess their socio-economic status and potential impact of land donation and accept land donation only from those APs who do not fall below the poverty line after the land donation.
- e. Any voluntary land donation (after the process as mentioned above) will be confirmed through a written record, including a "no coercion" clause verified by an independent third party
- f. The donation will be limited to only land and minor assets (houses and major assets will be excluded from donation);
- g. A Grievance Redress Committee (GRC) will be set up in every road section (chaired by local leader, and including representatives of APs) and APs who are not satisfied with the land donation can file their complaint with GRC. If GRC found out that the above provisions were not complied with, APs will be excluded from the land donation.

25. All involuntary land acquisition (other than exceptional voluntary land donation) will be compensated at replacement cost and APs assisted so that their economic and social future would generally be as favourable as it would have been in the absence of the project. The absence to formal title to land will not be a bar to compensation assistance for loss of assets and special attention will be paid to ensuring that households headed by women and other vulnerable groups receive appropriate assistance to help them improve their status. The APs whose land was affected by the road was informed through publishing general notice during census survey, which will remain the “cut-off-date” (20-07-2067) for the entitlement and owners (including non-titled) of affected assets till such a date will be eligible to be categorized as APs. The entitlement policy/matrix is in Table 3.

Table: 3 Entitlement Policy/Matrix

Type of Loss	Application	Definition of Entitled Persons	Policy/Entitlement
1. Acquisition of private, tenancy, or Guthi land	Entire or part of land to be acquired from owner of the land as recorded at cut off date	<ul style="list-style-type: none"> • Titleholder • Tenants 	<ul style="list-style-type: none"> • Land with equivalent size and category, or cash compensation at replacement cost • In case of vulnerable group, preference will be in replacing land for land. • Any transfer costs, registration fees or charges • Registered tenant will receive the 50% value of the land • Land registration in the name of both land owner and spouse (in case of land for land compensation) • If remaining land becomes unviable for use as a result of land acquisition, APs will have option to relinquish unviable remaining portion of land and receive similar benefits to those losing their entire land parcel. • Non-titled persons will receive compensation for crops and subsistence allowance for one year crop, and provided with replacement land if <i>Ailani</i> or Gov. land is available in the village. Any up-front costs for the tenancy agreement will be reimbursed either through an agreement with the land lord or by the EA
2. Temporary loss of land	Temporary land taken by the project	<ul style="list-style-type: none"> • Titleholder • Tenants 	<ul style="list-style-type: none"> • Compensation at replacement cost for the net loss of income, damaged assets, crops and trees etc. • An agreement between contractors and APs before entering the site if case of involvement of contractors.
3. Loss of residential, commercial, and other structure	Structures, buildings including cattle shed, walls, toilets etc. affected by the project.	<ul style="list-style-type: none"> • Owner • Tenants • Non-titled (encroachers/squatters) 	<ul style="list-style-type: none"> • Compensation for full or partial loss at replacement cost of the affected structure without depreciation or deduction for salvaged material. • Displacement and transportation allowance for residential and commercial structures to cover actual cost as estimated in the RP. • Rental stipend equivalent of three months rent for tenants who have to relocate from tented building.

Type of Loss	Application	Definition of Entitled Persons	Policy/Entitlement
4. Loss of community structures / resources	Community facilities (e.g. irrigation, water, etc.) affected by the project.	The users of the facility or community or group	<ul style="list-style-type: none"> Reconstruction by the project leaving such facilities in a equivalent or better condition than they were before. or Cash compensation at full replacement cost without depreciation or deduction for salvaged material.
5. Loss of trees and crops	Affected fruit/nut trees	Owner of the affected fruit/nut trees	Cash compensation based on annual value of the produce and calculated according to the Department of Agriculture norms. RPs to confirm that the DoA norms and techniques are sufficient and updated regularly.
	Affected timber and fodder trees	Owner of the affected timber and fodder trees	Cash compensation based on calculation of the production and calculated according to the norms as decided by the Ministry of Forestry and Soil Conservation.
	Affected crops	Owner of the affected crops Sharecropper of the affected crops	<ul style="list-style-type: none"> Cash compensation based on the local market prices for the produce of one year and calculated as per the norms of District Agriculture Development Office. 50% cash compensation of the lost crop for the sharecropper.
6. Loss of economic opportunity	Economic opportunity lost as result of loss of livelihood base.	Persons in the road vicinity who may be adversely affected, although they do not lose assets as such	<ul style="list-style-type: none"> Preferential employment in wage labour in project construction works. Skills training support for economic restoration Priority in poverty reduction/social development program
7. Loss of time and travel expenses	All expenses incurred in travelling to fill application and making claims and time lost.	The entire project affected persons eligible for compensation.	Project facilitates to avoid time and travel expenses by providing the compensation at site.

Type of Loss	Application	Definition of Entitled Persons	Policy/Entitlement
8. Land donations	Loss of land and other assets by means of voluntary donation	<p>Voluntary donation is accepted only if AP:</p> <ul style="list-style-type: none"> Is project beneficiary and is fully consulted and informed about their rights; Doesn't fall below poverty line after land donation; Donating up to 20% land holding, Unforced or freely willing to donate (with an agreement, including a "no coercion" verified by third party; 	<ul style="list-style-type: none"> No compensation for the donated land, but entitled for compensation of other assets such as house, structures, etc. Transfer of land ownership by negotiation (DDC and the owner). Free/escape of any transfer costs, registration fees or charges. Preferential employment in wage labour in project construction work.
9. Additional Assistance			
	9.1 Preference t in employment in wage labour in project activities	All APs	<ul style="list-style-type: none"> Construction contracts include provision that APs will have priority in wage labour on project construction during implementation. APs shall be given priority after construction for work as maintenance worker, mandated in local body agreement.
	9.2 Skill training and income generation support	One member of each PAF belonging to vulnerable group/below poverty line	<ul style="list-style-type: none"> Skill training and income generation support financed by project RP to include a need assessment and skill training program for APs.
	9.3 Priority in poverty reduction/social development programs	All APs	<ul style="list-style-type: none"> Participation of APs with priority in saving credit scheme facilitated by the Project. Participation of APs with priority in life skills, income generation, and other entrepreneurship.

6. Gender Impact and Mitigating Measures

26. The construction of the sub-project, as per the women participants, will have far-reaching impacts on them and their lives. Firstly, women participants expressed that their mobility will be greatly enhanced. The sub-project would definitely increase the access of women to various services and by and large women of various castes and communities expressed the need for the road construction. They had opinion that they would especially benefit from the sub-project, since their mobility would be enhanced both in terms of access to social services, as well as access to higher levels of schooling in district headquarter Kushma. The road construction would also considerably augment their access to higher levels of health care outside the village. However, in terms of safety, women voiced some concerns particularly with regard to the safety of their children as they were of the opinion that the construction of the road would increase the number of the vehicles thereby increasing the safety hazards for children, elderly as well as women. With a view to address aforesaid concerns raised by women, social mobilizers from DIST will conduct awareness program focusing on safety measures during vehicle movement. Moreover, they will also act as catalyst for mitigating health hazards due to dust produce by massive numbers of vehicles and likely accident events.

27. The sub-project is anticipated to have impacts on a total of 32 women headed HHs including 5 Dalit HHs residing on the project area. Adequate provisions have therefore been made in this RP to provide additional assistance through Livelihood Enhancement Skill Training (LEST) to those women headed including Dalits HHs, so as to restore their livelihood.

7. Community Consultation, Participation and Disclosure

28. Nine community consultations meetings were held with community and affected households at different date and venue in the VDCs. In the meeting, proposed alignment and project modalities were discussed with community and with each affected household. The main purpose of the discussion was to acknowledge the public and APs about ADB's Policy on involuntary resettlement, compensation and entitlement, resettlement framework of RRRSDP, impacts and benefits of the subproject and availability of the fund/budget for RP implementation.

29. The community meetings were conducted with the owners of land under the existing road alignment and the owners of additional land required for widening the road. Written consent has been given by the owners for the land donation. For this, the people wanted life skill training and employment opportunities as compensation to restore their livelihood. They also said that the project should ensure no further harm to the remaining land outside the construction area. During the walkover survey, people actively participated in identifying the alignment and the suggestions of the local people were considered in the final design. All the information related to resettlement activities and compensation disbursements have been made publicly by the project. The RP has included provisions of life skill training, income generating activities, and preferential employment of APs in the construction works.

30. The resettlement\social team of DIST assisted by VICCC and supported by DPO carried out an information campaign before conducting the registration of APs. The information leaflet in Nepali language has been also distributed among the affected households which contain information on the project introduction, objective, working modality and compensation policy. During the Household resettlement survey each household was also personally informed about the project, entitlements and procedures. The draft RP has been disclosed to the affected people and they are informed about their entitlements along with project procedure, planning and implementation. The disclosure and consultation process is aimed to:

- Explain the relevant details of the project scope and schedule

- Explain the RP and the various degrees of project impact
- Provide details of the entitlements under the RP and what is required of APs in order to claim their entitlement.
- Explain the Implementation Schedule with a timetable for the delivery of entitlements,
- Explain the compensation process and set out compensation rates,
- Provide a detailed explanation of the grievance process and other support in arbitration,
- Enlist the help of VICCC and other influential community officials in encouraging the participation of the APs in RP implementation, and
- Ensure that all vulnerable groups understand the process and that their needs are specifically taken into consideration and are met by assistance by the Project.

31. A continued information sharing and community consultation programme will be conducted during RP implementation and income restoration. These programs will be continued for purposes of grievance procedures and for post-implementation.

32. The Resettlement Specialist and Social Development Specialist of DIST will act as the information conduit, informing communities about the progress of the sub-project and supporting and facilitating VICCC in its community organisation role. This will support enable communities to prepare for participation more readily and help socially disadvantaged people to negotiate employment, understand their compensation requirements, gain fairer compensation or acceptable alternatives and conclude land deed transfer to the Government.

8. Grievance Redress Mechanism

33. A Grievance Redress Committees (GRC) has been established at district level and Grievance Redress Sub-Committee at VDC level have been established for hearing the complaints of APs and for their appropriate resolution. A grievance process has been established in which APs who are not satisfied with the compensation, replacement cost of lost assets, livelihoods and allowances can register their grievance with GRSC and GRSC submits the issues to the GRC. Generally, grievances will be redressed within two to four weeks from the date of lodging the complaints.

34. A Grievance Redress Committee at District Level Comprise:

- i. Head of DDC/local leader (Chairperson),
- ii. One representative of the local bodies;
- iii. Two representatives of the APs (including BG member)
- iv. One representatives of civil society;
- v. One representative of Project.
- vi. Resettlement Specialist, NGO representative Socialmobilizer attended as observers to give support to APs.

35. Three VICCC have been formed in each VDC. Similarly a Grievance Redresses Sub-committees also has been formed at VDC level that comprises of 3 members from VICCC and 2 members from APs to hear complaints and grievances at local level. APs can approach the sub-committee with their problem that is discussed locally with the aim of amicable solution. The social mobilizers will act as intermediaries to assist the vulnerable APs.

36. The key functions of the GRCs are to (i) provide support for APs to lodge their any complains; (ii) record the complains, categories and prioritize them; (iii) settle the grievances in consultation with APs and DTO staff; (v) report to the aggrieved parties about the

Box 1: Steps for Grievance Resolution under the Project

Steps 1: APs file the complaints in Grievance Redress Sub-Committee (GRCS) formed at VDC level. Complaints of APs on any aspect of donation, compensation, relocation or unaddressed losses shall in first instance be settled verbally or in written form with GRCS. The complaint can be discussed in an informal meeting with the AP by the concerned personnel to settle the issue at VDC level. The Project Manager, Social Mobilization Coordinator of DISC, Community leader and NGO working in the VDC will also be involved in the consultation process in this regard.

Steps 2: If no understanding or amicable solution reached from the GRCS at Village level, APs can appeal to District level GRC.

Steps 3: If APs are not satisfied from the response of District level GRC member, the APs can appeal to the CDC. While lodging the complaint, the AP must produce documents to support his/her claim. The CDC will provide the decision within 15 days of registering the appeal.

Steps 4: If APs are not contended with the decision of CDC or in the absence of any response of its representatives, within 35 days of the complaint, the AP, in his/her last resort, may submit

37. The Grievance Redress sub-committee formed at VDC level (under VICCC) and there were not any aspect of written and verbal complain came from affected person. They were satisfied to the work and no one has complained.

9. Implementation Arrangements

9.1. Institutional Arrangements

38. The key agencies involved in implementation of this framework are as follows:

- Project Coordination Unit (PCU) supported by Central Implementation Support Consultants (CISC) at Department of Local Infrastructure and Agricultural Roads (DoLIDAR), Ministry of Local Development (MLD);
- District Project Office (DPO) supported by District Implementation Support Team (DIST) at District Development Committee (DDC); and
- Village Infrastructure Construction Coordination Committee (VICCC)

9.1.1 Central Level Arrangements

39. The Project Coordination Unit (PCU) has been established under DoLIDAR to handle and coordinate RRRSDP management works. The PCU has overall responsibility for the coordination of the resettlement activities. The CISC will support PCU in effective planning and implementation of the resettlement, compensation and rehabilitation measures outlined in this resettlement plan. The resettlement specialists and Resettlement Associate under PCU/CISC will look after the policy compliance and monitoring of the proper implementation of the plan and its recommendations.

9.1.2 District Level Arrangements

40. District Project Office (DPO) has been established at district level to ensure that ADB's Policy on Involuntary Resettlement that is followed in preparation and implementation of subproject resettlement plan and mitigation measures. DPO will coordinate with the Chief District Officer, Land Revenue and Survey Office, District Agriculture Development Office,

District Forest Office. The DIST will assist the DPO in planning, preparing and implementing the resettlement activities and plan.

41. DIST will help the affected person with information campaigns to promote clarity and transparency, and help with community level consultations about entitlements and of what to do with compensation payments and income generation opportunities. DIST will also act as advocates for APs to access government programmes for income generation and skill enhancement.

9.1.3 Subproject Level Arrangements

42. Project Coordinator of the district will lead the implementation of the plan in sub-project level. He will establish the coordination among the district offices for the successful implementation of the plan. The project coordinator will integrate construction, land acquisition and compensation activities within sub-project. The District Project Coordination Committee (DPCC) and Village Infrastructure Construction Coordination Committee (VICCC) will provide necessary support to the project coordinator in the planning, implementation and monitoring of the resettlement activities.

9.1.4 Compensation Determination Committee (CDC)

43. The Land Acquisition Act 1977 provides for the establishment of Compensation Determination Committee to decide compensation levels at District level. This is composed of the CDO, the LRO, a representative of the DDC and the project coordinator. To make the decision taking process transparent and representative of the affected persons, two representatives from the APs and VICCC member will be invited as observers.

10. Compensation and Income Restoration

10.1 Methodologies for Valuing and Determining Compensation

44. Following compensation and restoration measured shall be applied while implementing the Resettlements Plan. Project Affected Peoples will be received compensation and replacement cost for any involuntary land acquisition and resettlement so that their economic and social future would be as favourable as it would have been in the absence of the project. The absence to formal title to land will not be a bar to compensation and special attention will be paid to ensuring that households headed by women and other vulnerable groups receive appropriate assistance to help them improve their status.

45. The survey and valuation of affected land and households was undertaken by an enhanced survey team at District level in the DPO (District Project Office) assisted by the DIST. The team has assessed the various categories of loss envisaged in the entitlement matrix and fixed prices/costs for compensation. Cadastral mapping has been completed with the help of District Survey Office to verify the plot boundaries. Cadastral maps marked with the proposed alignment have been produced to make the deed transfer process easy.

46. The Compensation Determination Committee (CDC) has been formed under the chairmanship of CDO. The Chief of the Land Revenue Office, a representative of DDC and the Project Coordinator are the members of the CDC and other related officials were invited. In case of this subproject, price of the land was negotiated at replacement cost. The compensation for structure has been calculated based on the replacement cost principle and was forwarded in the CDC meeting according to the entitlement matrix. Compensation payments will be disbursed by cheque/cash. Payment will be made at the Village or at public meetings in the local area for small amount by cash and by cheque for land payments or other compensation amounts more than Rs. 1000.

10.2 Voluntary Land Donation Process

47. The meeting was organized with the identified APs losing land in the road alignment and discussed on resettlement planning and procedures. In the meeting, they were informed

about the land donation process as described in resettlement framework of the project. Out of 313 HHs, 220 interviewed HHs were found ready to donate their land voluntarily. Further, the 1Memorandum of Understanding (MoU) was prepared and the concerned households losing land were informed individually to sign on MoU. The households donating or agreed to provide land signed in a written agreement with DPO. Total 173 HHs signed the MoU out of 220 HHs. Among remaining 47 HHs to be signed in MoU, 10 household's land owner have died and 37 land owners were not met during MoU sign after making several attempts. The agreement is witnessed by a third party District local NGO & VDC level Grievance Redress Sub-committee to ensure that the donation was unforced. Furthermore, the APs who have voluntarily donated the land for the subproject will be rewarded by District Project Office with a token of appreciation. Assessment of socio-economic condition and compensation arrangements to the absentee HHs will be conducted after publishing public notice from VDC. The detailed deed transfer action plan is presented in table below;

Table No: 4 Deed Transfer Action Plan

S. N	Activities	Dec-2010				Jan-1011				Feb-2011				Mar-2011				Apr- 2011			
		1	2	3	4	1	2	3	4	1	2	3	4	1	2	3	4	1	2	3	4
1	Meeting With Land Revenue Office																				
2	Letter Collection for the land owner for Deed transfer																				
3	Make Necessary Arrangements																				
4	Conduct meeting with land owner																				
5	Informed landowner for their presents to deed transfer																				
6	Conduct deed transfer																				
7	Distribute new land registration Certificate to landowner																				
8	Conduct Appreciation Programme with landowner																				

10.3 Income Restoration and Rehabilitation

48. Affected households, particularly who have Women Headed Households, Dalit, ethnic, poor and vulnerable groups are at risk of impoverishment, will be assisted through income restoration programs. APs will be given priority for employment in sub-project construction. The contract documents will include provisions regarding preferential employment of APs. It is expected that the unskilled APs selected for the construction work will be developed into skilled workers through such employment and that such knowledge will be useful for APs income generation even after the project completion. The project benefits for APs will be maximised through their inclusion in the Project's savings and credit program and life skill training program. The APs join savings groups and develop the ability to manage money, learn more life skills and, as a result, can further enhance their income earning capacity. APs will also be given priority to become maintenance workers after completion of the sub-project construction.

¹ A copy of land donation agreement and verification letters has been attached in Annex 3.

10.4 Livelihood Enhancement Skills Training (LEST) for APs

49. In addition to sub-project employment, APs will be provided with further income restoration measures known as Livelihood Enhancement Skills Training (LEST) to restore their livelihoods. The LEST will include a) income generating activities, and, b) non-income generating activities, which will be delivered through life skills development, training and supplementary investment schemes. This will provide support to affected persons with the reestablishment of their livelihoods, development of new income-generating opportunities and training in life skills.

50. This section covers support to affected persons with the reestablishment of their livelihoods, the development of new income-generating opportunities and training in life skills. During the construction, the project affected families will have priority for employment as laborers in Road Building Groups and engineering design will ensure 90 days of work for APs for road construction. Employment in the group might be insufficient to restore lost livelihoods and further income restoration measures i.e. life skills training and access to other development initiatives will be provided by the project. A special condition of contract will be added in contractor's contract to include the affected family member to join the labour group.

51. Based on identified APs, multiple options of income generating and life skill training have been explored and a package of income restoration program for APs will be organized. The training program has been designed for the age group (16 to 45 years) comprising 19 male and 21 female from the women headed HHs, poorest of the poor and vulnerable group. The cost of Nrs. 943800 for this program is included in the RP and will be financed under the Project's community empowerment program budget heading.

Table: 5 Livelihood Enhancement Skills Training for Affected Persons

Description		Targeted trainee			Duration	Rate (Nrs.)	Estimated Budget (Nrs.)	Starting date
1	Skills training	Male	Female	Total				
1.1	Dairy processing	4	4	8	1 month	18325	146600	Feb 2011
1.2	Veterinary	3	3	6	3 month	34767	208600	Feb 2011
1.3	TV/radio/Mobile repairing	4	2	6	3 months	34767	208600	Mar.2011
1.4	Sewing cutting	0	6	6	3 months	34767	208600	April 2011
1.5	House wiring	2	0	2	2months	44000	88000	April.2011
1.6	Off Season Vegetable Cultivation/Promotion	4	4	8	5 days	4113	32900	May 2011
1.7	Motor driving	2	2	4	1 months	12625	50500	June 2011
	Total	19	21	40			943800	

52. District Project Office (DPO) will deliver the skills training through training institutions/professional, which are available locally and in neighboring districts. The DIST resettlement / social team will assist to identify and employ professional experts/institutions to impart this special package. Preference will be given to locally based resource persons/institutions having expertise in the subject area towards building local-base resource network and continuity of support services even after the project completion. The district level sector-wise line agencies of the government, especially the Cottage and Small Industry Office, District Agricultural Office, Department of Animal Husbandry Services, Department of Horticulture, District Forest Office, District Soil Conservation Services available in the districts will be mobilized by the DPO for additional resource and training.

11. Resettlement Budget and Financing Plan

53. The financial resources necessary for relocation and compensation are budgeted in the project costs and will be administered according to the Land Acquisition Act 1977. These include: (i) Direct compensation costs for acquisition of assets (ii) Costs associated with enhancement measures for affected households and persons and (iii) Costs associated with the implementation and management of resettlement activities and capacity building of the project agencies.

54. The costs required for RP implementation (including land compensation) will be financed out of sub-project grant provided to the district. The district has included the required budget in its yearly budget under the heading RP implementation. The cost will be channelled to pay all cost for RP implementation through the following route: (i) to the district development fund and then into each DDC's project operating account, and (ii) then payment to the concerned stakeholders.

11.1 Costs of Compensation for Assets

55. **Land:** Mainly two types of land (Khet & Bari) are affected by the project in this section of the subproject. Land and structure prices are calculated annually at district level for each of the different land and structure types and classes. Altogether 313 HHs lose land in this subproject. All 220 interviewed HHs lose <20% of their total land holding so the affected land are acquired by negotiation.

Table 6: Comparative Price of the Land along the Road Alignment of FY 2066/067 (NRs. per Ropani)

VDC	Government Rate	Market Rate
Shivalaya	363000	450000
Durlung	150000	200000
Kayang	100000	150000

56. **Crops:** Standing crops are not affected by the sub-project.

57. **Trees:** The quantity of tree production and valuation is carried out on basis of Ministry of Forest and Soil Conservation (MoFSC) norms 2060. The norms has following provision for felling of trees having girth of more than 12 cm when measured at 1.3m above the ground including the sectioning of trunk, branches, and stumps up to a distance of 15m along the road with the indicated size would need the following labour input:

Above 12 cm to 30 cm girth	0.13 person day
Above 31 cm to 60 cm girth	0.39 person day
Above 61 cm to 90 cm girth	0.52 person day
Above 91 cm to 120 cm girth	1.56 person day
Above 121 cm to 180 cm girth	2.50 person day
Above 181 cm to 240 cm girth	4.00 person day
Above 241 cm to 300 cm girth	12.99 person day
Above 301 cm girth	41.67 person day

58. Transportation of the logs (poles), or the indicated distance would require the following man power input:

First 10m distance from the source	0.50 person day/cubic meter
For each additional 10m	0.08 person day/cubic meter
For the first 1000m	8.42 person day/cubic meter
For each additional 1000m (0.08 person day/cubic m x 100)	8.00 person day/cubic meter
For the first 5000m (8.42 x 4 x 8)	40.42 person day/cubic meter
For the small seedling less than 12 cm girth	Rs. 10 per seedling.

District wage rate decided for the fiscal year 2066/67 is 190 per day.

11.2 Travel Allowances

59. The project affected Person (APs) are need to travel outside their village in the project implementation process such as deed transfer process, district level negotiation meeting and compensation receiving process. So the travel allowances will be paid them based on district agriculture wage rate. The estimated cost allowance is NRs.100000

11.3 Allowances for Rehabilitation Support

60. Allowances in this category cover support measures for affected individuals and households. The formal price of the rehabilitation support has been assessed during the socio-economic survey and has been set according to the current market price. The final decision for rehabilitation allowance will be made by Compensation Determination Committee (CDC).

11.4 Total Cost Estimate for RP

61. The value of private land for new cutting is equivalent to Nrs. 12.41 million. The total cost of resettlement including compensation for the loss of structure as displacement cost, livelihood restoration programme, reserve fund for absentee's households and deed transfer is Nrs.7.32 million. The detail cost is given in table 7.

Table: 7 Summary of Cost for RP

Item		Unit	Total loss	Amount (NRs.)	Remarks
1. DIRECT COST					
1.1	Compensation for private land	sqm	99411		12410000
1.2	Private Trees	No.	0	0	
1.3	Public tree	No.	0	0	
1.4	CFUGs Tree	No.	0	0	
1.5	Private structure	No.	10	1045132.00	
1.6	Public Structure	No	1	133,908.00	
Sub Total (A)				11,79,040.00	
2.INDIRECT COST					
2.1	Moved allowance	LS		75,000.00	
2.2	Rental Stipend		2000*9*3	54,000.00	
2.3	Transportation Allowance	LS		1,00,000.00	
2.4	Deed Transfer Assistance	HHN	313	160,000.00	
2.5	Official Deed Transfer fees	LS	313	160,000.00	
Sub Total (B)				4,49,000.00	
3	Income generation and Livelihood improvement programme			9,43,800.00	
4	Appreciation Program for APs	LS		1,00,000.00	
Sub-Total (C)				10,43,800.00	
Total (A+B+C)				26,71,840.36	
5	Provisional Sum (5%)			133592.00	
6	Reserve Fund for Absentees HHs (93 HHs)			27,21,756.00	
7	Reserve Fund for not signed MoU HHs (47 HHs)			17,98,395.00	
Grand Total				73,25,583.00	

62. An Implementation Schedule for Kushma- Durlung – Salija Road

[illegible]

12. Monitoring and Evaluation

A. Monitoring at District Level

63. The District Project Office (DPO) will be responsible for the internal monitoring of the resettlement planning and implementation throughout the sub-project cycle. The DPO shall submit monthly progress reports to PCU on implementation of resettlement plan. The PCU will submit quarterly monitoring reports to ADB for its review. Such reports will be posted on websites of ADB and PCU.

64. Project Coordinator or his/her representative will attend VICCC meetings when required. Progress on resettlement implementation and any concerns will be discussed in such meetings. The VICCC and social staff will facilitate the monitoring of progress and resolution of any grievances locally.

65. DPO will organize periodic progress review workshops involving APs representatives. Special attention will be given to securing the participation of women. The workshops will provide households with the opportunity to discuss both the positive and negative aspects of their resettlement, compensation and reestablishment. An inclusive problem-solving approach will be followed, using local experiences and realities as the basis for solutions. Social development and resettlement specialist will facilitate such workshops.

B. Verification by PCU

66. The verification of satisfactory implementation of RP including completion of land compensation is a condition for contract award and commencement of civil works. A verification report in this regard will be prepared by PCU assisted by Social /Resettlement Specialist and submitted to ADB along with proposal to award the contract(s). The verification report has to have investigated the extent to which any land donations were freely made and with adequate safeguard, and whether assessed compensation/assistance has been paid to the APs. About 10% APs may be surveyed as part of the verification.

C. External/Third Party Monitoring

67. The implementation activities will be monitored and evaluated externally once in a year through an independently appointed agency, consultant or NGO not involved with any aspects of the Project, which will provide report to both PCU/ DPO and to ADB. The PCU will hire such external monitoring agency with ADB concurrence. A sample survey of affected households needs to be undertaken to assess the degree to which the Project's resettlement objectives have been met. The socio-economic survey undertaken for land acquisition will form a baseline data, from which many of the indicators can be measured. A sample survey at the end of the sub-project period will cover all the categories of APs and assess changes caused by the Project. The aim of the sample monitoring survey will be to measure the extent to which APs living standards have been restored/improved. The RPs will include appropriate monitoring indicators for external monitoring. The Table 8 include following monitoring indicators for external monitoring.

Table 9: Monitoring and Evaluation Indicators

Type	Indicator	Examples of Variables
Process Indicator	Staffing	Number of DoLIDAR staff on RRRSDP, for sub-project Number of other line agency officials available for tasks Number of Social Development Staff located in the field
	Consultation	Number of Building Groups contacted or established and meetings held Grievances by type and resolution Number of field visits by DoLIDAR/DPO and social development specialist and Resettlement specialist Number of NGOs/CBOs participating in subproject

Type	Indicator	Examples of Variables
	Procedures in Operation	Census and asset verification/quantification procedures in place Effectiveness of compensation delivery system Number of land transfers (owner to GON) effected Coordination between DPO and other line agencies
Output Indicators; data disaggregated by sex of owner/ head of household	Acquisition of Land	Area of land acquired by road section and contract Area of private land acquired Area of communal/government land acquired Area of the land voluntarily donated
	Buildings	Number, type and size of private buildings acquired Number, type and size of community structures acquired
	Compensation and Rehabilitation	Number of households affected (buildings) Number of owners compensated by type of loss Amount compensated by type and owner Number and amount of allowances paid Livelihood restoration cost
	Reestablishment of Community Resources	Number of community structures repaired or replaced
impact Indicator – data disaggregated by sex of owner/ head of household	Household Earning Capacity	Employment status of economically active members Landholding size, area cultivated and production volume, by crop Selling of cultivation land Changes to livestock ownership – pre- and post disturbance Changes to income-earning activities (agriculture) – pre- and post disturbance Changes to income-earning activities (off-farm) – pre- and post disturbance Amount and balance of income and expenditure
	Change of Status of women	Participate in training program Participation in road construction Participation in commercial enterprise
	Change of Status of children	School attendance rate by gender Participation in road construction
	Settlement & Population	Growth in number and size of settlements Growth in market areas Influx of squatters

पुनर्वास योजना: कुश्मा- दुर्लुङ - शालिजा सडक उप आयोजना, पर्वत कार्यकारी सारांश

पृष्ठभूमि

नेपाल सरकारले लामो दृष्टिकोणले गर्दा क्षति भएका ग्रामीण पूर्वाधारहरूको पुनःनिर्माण र पुनःस्थापनाको कार्य एसियाली विकास बैंक, स्विस् सरकार (SDC), ब्रिटिस सरकारको अन्तराष्ट्रिय विकास विभाग (DFID) तथा ओपेक फण्ड (OFID)को आर्थिक सहयोगमा **ग्रामीण पूर्वाधार पुनर्निर्माण र पुनर्स्थापना आयोजना** नेपालको बिसवटा जिल्लाहरूमा संचालन गरिरहेको छ । पर्वत जिल्लामा अवस्थित प्रस्तावित **कुश्मा- दुर्लुङ –शालिजा** ग्रामीण सडकको पुनर्स्थापना सोही कार्यक्रम अन्तर्गत संचालन गर्न लागिएको एक उप-आयोजना हो ।

यस पुनर्वास योजनाले ग्रामीण पुनर्निर्माण तथा पुनर्स्थापना आयोजना (RRRSDP) अन्तर्गत संचालित **शिवालय दुर्लुङ शालिजा** ग्रामीण सडक आयोजनाको अस्वैच्छिक पुनर्वास योजनाको नीति तथा प्रकृतिलाई प्रस्तुत गरेको छ । यो पुनर्वास योजना तयार गर्दा जग्गा प्राप्ती ऐन २०३४ लाई आधार मानी एसियाली विकास बैंकको अस्वैच्छिक पुनर्वास नीति १९९५ र ग्रामीण पुनर्निर्माण तथा पुनर्स्थापना आयोजना (RRRSDP) को पुनर्वास प्रारूप अनुरूप तयार पारिएको हो । यसका अतिरिक्त नेपालको अन्तरिम संविधान २०६३, भूमिसुधार ऐन २०२१, जग्गा मालपोत ऐन २०३४, सार्वजनिक सडक ऐन २०३१, गुठी संस्थान ऐन २०३३ तथा अन्य पुनर्वास सम्बन्धि राष्ट्रिय कानून, नीति र नियमावलीहरूलाई पनि ध्यानमा राखिएको थियो ।

प्रस्तावक

प्रस्तावित सडक उप-आयोजना को पुनर्वास योजनाको तयार तथा प्रस्तावक जिल्ला विकास समिति र जिल्ला प्राविधिक कार्यालय/जिल्ला आयोजना कार्यालय, पर्वत रहेका छन् ।

पुनर्वास योजना तयारीको उद्देश्य

पुनर्वास योजनाको मुख्य उद्देश्य प्रस्तावित उप-आयोजना निर्माण गर्दा गरिने स्वैच्छिक तथा अस्वैच्छिक पुनर्वासको कारण बाट प्रभावित व्यक्ति तथा परिवार माथि पर्नजाने भौतिक, सामाजिक, आर्थिक तथा सांस्कृतिक पक्षमा पर्न सक्ने नकारात्मक प्रभावको न्यूनिकरण गर्न के कस्ता सामाजिक सुरक्षा कवजहरूको आवश्यकता पर्दछ, सो को योजना बनाई कार्यान्वयन गराउनु, तथा प्रस्तावित सडक आयोजनाको लागि छोटो पुनर्वास योजनाको तयार गरे पुग्छ भन्ने कुराको यकिन गर्नु हो ।

प्रस्तावको सान्दर्भिकता

प्रस्तावित सडकले पर्वत जिल्लाका शिवालय , दुर्लुङ र क्याङ्ग गा.वि.स.का वासिन्दाहरूलाई र सगै जोडिएका गा.वि.स.हरूलाई सदरमुकाम संगको पहुँच बढाउनेछ भने स्थानीय स्तरमा उत्पादन हुने तरकारी, दुध, तथा यहाँ भएका बाँसका साथै फलफूलहरू तथा कृषिजन्य उत्पादनलाई बजारसंग जोडी आय आर्जनमा अभिवृद्धि गर्नेछ । यसका अलावा पुनर्वासको दृष्टिले नकारात्मक असरहरू नपर्ने र प्रभावित व्यक्तिहरूको जीविकोपार्जनमा समेत नकारात्मक असर नपर्ने हुनाले प्रस्तावित सडक आयोजनाको सान्दर्भिकता देखिन्छ ।

अध्ययन प्रकृया

अक्टुबर २०१० मा प्रभावित परिवार तथा व्यक्तिको आधारभुत सामाजिक आर्थिक सर्वेक्षण, नापी सर्वेक्षण बाट लिइएको तथ्याङ्क तथा अन्य उपलब्ध तथ्याङ्कहरूको साथै जिल्ला कार्यान्वयन सहयोगी टोली तथा प्राविधिक टोलीबाट पुनर्वास कार्यको सर्भेक्षणको सिलसिलामा संकलन गरेका तथ्याङ्कहरू केलाएर पुनर्वास योजना तयार पारिएको छ ।

प्रस्तावित उप-आयोजनाको पुनर्वास योजनाको सारांश विवरण

१. यस सडक आयोजनाको जम्मा लम्वाई २१.०८५ कि.मी रहेको छ । यस आयोजना पर्वत जिल्लाको सदरमुकामको शिवालय गा.वि.स.बाट सुरु भई दुर्लुङ गा.वि.स. र क्याङ्ग गा.वि.स.को लेस्पाङ पुगेर अन्त्य हुन्छ । यो सडक आयोजना अन्तर्गत बाह्रै महिना चल्ने ५ मिटर चौडाई भएको सडक निर्माण गरिने छ भने यस सडकको अधिकार क्षेत्र (ROW) १० मिटर कायम गरिएको छ । ग्रामीण सडकको मापदण्ड अनुरूप यो आयोजनालाई 'क' वर्गमा वर्गीकरण गरिएको छ । यो सडक आयोजना निर्माणको लागि ९.९ हेक्टर व्यक्तिगत जमिन थप आवश्यक पर्ने देखिन्छ ।

२. यस आयोजना क्षेत्रभित्र पर्ने प्रभावित घरधुरीहरूको सामाजिक-आर्थिक सर्भेक्षण तथा प्रभावित सम्पत्तिको क्षति विश्लेषण गरी उनीहरूको सामाजिक आर्थिक अवस्था र क्षतिका बारेमा तथ्याङ्क संकलन गरिएको थियो । कित्ता नापी सर्भेक्षणले देखाए अनुसार यस आयोजनाले जम्मा ३१३ घरधुरीका ४६० व्यक्तिगत त्यटहरू प्रभावित भएको देखिन्छ जसमा २२० घरधुरीको मात्र सामाजिक तथा आर्थिक सर्भेक्षण गर्न सम्भव भएको थियो । क्षतिको विश्लेषण गर्दा १० वटा व्यक्तिगत घरहरू र एक सार्वजनिक विद्यालय गरी जम्मा ११ संरचनाहरू पर्ने देखिन्छ ।

३. सर्भेक्षण गरिएका २२० घरधुरी मध्ये ब्राम्हण/क्षेत्री ११५ घरधुरी, जनजाति ७१ घरधुरी र दलित ३४ घरधुरी रहेका छन् जसमा महिला ६५९ र पुरुष ६८३ गरी जम्मा १३४२ जना व्यक्ति प्रभावित हुने देखिन्छ । आयोजना प्रभावित घरधुरीहरूको आयका विभिन्न स्रोतहरूको विश्लेषण गर्दा कृषि उत्पादनबाट भन्दा गैरकृषिका स्रोतबाट बढी आम्दानी हुने गरेको पाइएको थियो । यो सडक निर्माणका लागि जग्गा दान गरे बापत प्रभावित घरधुरीको कृषिजन्य उत्पादनमा केही कमी हुने अनुमान गरिएपनि उनीहरूको आर्थिक अवस्थामा खासै कमी हुने देखिदैन । गैरकृषिका स्रोतमा पनि कुनै नोक्सानी बेहोर्नु पर्ने छैन । सम्पूर्ण घरधुरीले जग्गा गुमाए पनि बाटो बनेपछिका विभिन्न फाइदा जस्तै सडक बनेपछि जग्गाको मूल्य बढ्ने तथा आयोजना अन्तर्गतका क्षतीलाई आय आर्जन तालिम तथा अन्य सहयोगबाट पूर्ति हुने अपेक्षा राखिएको छ ।

४. यस सडक आयोजनाबाट प्रभावित सम्पूर्ण २२० घरधुरीबाट २० प्रतिशत भन्दा कम मात्र जग्गा प्रभावित भएको देखिन्छ । यस्तै गरी सम्पूर्ण २२० परिवारनै गरीबीको रेखाभन्दा माथि रहेका पाइएको थियो । सो अनुरूप यस आयोजनाले सबै २२० घरधुरीबाट आयोजना निर्माणको लागि स्वैच्छिक जग्गादान स्वीकार गरेपनि केही जग्गाधनीहरू रोजगारीको शिलशिलामा मुलुक बाहिर गएको देखिन्छ भने केही जग्गाधनीहरूको मृत्यु भएको देखिन्छ । यसका साथै केही जग्गा धनीहरू जिल्ला बाहिर बसाइँ सरी गएको देखिन्छ ।

५. जग्गा अधिग्रहण सम्बन्धी उजुरी, गुनासो वा विवाद सुन्न तथा सो को उचित समाधान गर्न जिल्ला तहमा गुनासो निदान समिति (GRC) तथा गाउँ तहमा छ उपसमितिहरू गठन गरिएको छ । यस उपसमितिलाई ३ जना गाउँस्तरीय पूर्वाधार निर्माण समन्वय समिति (VICCC) बाट र २ जना प्रभावित घरधुरी बाट गरी ५ जना भएको गुनासो निदान समिति बनाइएको छ ।

६. प्रमुख जिल्ला अधिकारीको अध्यक्षतामा मुआब्जा निर्धारण समितिको गठन गरिएको छ । यस समितिले आयोजना प्रभावितहरूलाई क्षतिपूर्ति वापत दिइने रकमलाई पनि अनुमोदन गरेको छ । क्षतिपूर्ति, लगत कट्टा, सीप विकास तालिम तथा अन्य विभिन्न शीर्षक गरी जम्मा रु ७३२५५८३०० को पुनर्वास बजेटको प्रस्ताव गरिएको छ ।

७. यो आयोजनाको केन्द्रीय तहमा आयोजना समन्वय एकाई (PCU) रहेकोछ जसलाई केन्द्रीय कार्यान्वयन सहयोग परामर्शदाता (CISC) ले कार्यक्रमको कार्यान्वयनमा सहयोग पुऱ्याइरहेको छ भने जिल्लामा जिल्ला आयोजना कार्यालय (DPO) लाई जिल्ला कार्यान्वयन सहयोग टोली (DIST) ले प्राविधिक सहयोग गर्दछ । सडक आयोजनालाई गाउँ तहमा गाउँ स्तरीय पूर्वाधार निर्माण समन्वय समितिले योजना कार्यान्वयन गर्नमा सहयोग पुऱ्याउँदछ ।

८. यो सडक आयोजना कार्यान्वयन र आन्तरिक अनुगमन गर्ने काम जिल्ला आयोजना कार्यालय (DPO) को हुनेछ । पुनर्वास योजनाको कार्यान्वयन सम्पन्न भएको रुजु गर्ने काम केन्द्रीय कार्यान्वयन सहयोग परामर्शदाता (CISC) का पुनर्वास विज्ञबाट

सम्पन्न भई सो को प्रतिवेदन सहित आयोजना निर्माणकार्य शुरु गर्न आयोजना समन्वय एकाई (PCU) वाट एशियाली विकास बैंकमा प्रस्तावना पठाए पछि मात्र निर्माण कार्य सुरु हुनेछ ।

निष्कर्ष

पुनर्वास योजना अन्तर्गत उल्लेख गरिएको उपायहरुको कार्यान्वयन गरिएमा यस आयोजनाको कार्यान्वयनले आयोजना क्षेत्रका प्रभावित परिवारलाई सामाजिक - आर्थिक तथा जीविकोपार्जनमा उल्लेखनीय सकारात्मक प्रभाव पार्ने देखिन्छ ।

Response Matrix on ADB comments

Kushma- Durlung- Salija Road Sub-Project (21.085 km), Parbat

Comment No	Application
1	Followed APs definition and made correction as follows; 21 households comprising 126 persons will lose more than 10 % of their land holding which is well below threshold of 200 persons as mentioned in Resettlement Framework (RF). Therefore there is no significant impact on project. Hence this sub-project falls under category B of Involuntary Resettlement policy of ADB. That is why; a Short Resettlement Plan is prepared to mitigate the losses due to the implementation of the road subproject.
2	Checked and corrected
3	Updated poverty level calculation. Basis on calculation of poverty level interpreted as follows; Poverty line has been calculated Rs. 15030 based on cumulative sum of Government's CPI inflation rate taking base year 2003.
4	Defined "cut- off-date" as per the RF rewriting the text: The APs whose land was affected by the road was informed through publishing general notice during census survey, which will remain the "cut-off-date" (20-07-2067) for the entitlement and owners (including non-titled) of affected assets till such a date will be eligible to be categorized as APs.
5	Awareness mechanism has been made in RP to address potential impact of subproject construction on women and issues raised by women participants in consultation meetings.
6	Enclosed RP disclosure meeting minutes: please refer appendix 8
7	Verified the information and corrected
8	Reason given for not signed MoU of remaining 47 HHs. Please refer para 47 for assessment of socio-economic condition and compensation arrangements to absentee households.
9	Checked and corrected
10	Checked and corrected
11	Checked and corrected as per Resettlement Framework (RF)
12	Checked and corrected

Note: Para specified in comments sheet would not match with final version of RP as two para have been omitted. Please match changed para in final RP with comments sheet.
