1. Introduction

The University of Science and Technology of Hanoi Development (New Model University) Project sponsored by Asian Development Bank (ADB) was approved on April 25, 2011 with total fund of 213 million USD (210 million USD for the Project and 03 million USD for resettlement). The loan agreement was signed on November 10, 2011 and became effective on March 01, 2012.

The project seeks to establish a new model university (NMU) focused on international standard teaching and research in science and technology. This NMU—the University of Science and Technology of Hanoi (USTH)—will demonstrate a new policy framework for the governance, financing, and quality assurance of universities in Viet Nam. The Government of France will provide about €100 million to support development and operating costs until at least 2020, including provision of curricula, research capacity, the rector, academic staff, and scholarships. The USTH opened in October 2010 using facilities at Viet Nam Academy of Science and Technology (VAST). The USTH will migrate to its new campus at Hoa Lac High Tech Park (HHTP), which is being developed in cooperation with the Japan International Cooperation Agency (JICA), once it is ready.

The project will deliver four outputs: (i) an effective management and governance system for the USTH will be developed and implemented, (ii) systems to promote high-quality and relevant academic programs at the USTH will be developed and implemented, (iii) physical facilities at the USTH will be constructed and outfitted, and (iv) effective project management and implementation.

According to loan agreement, within 16 months since the effective date of the loan package (June 2013), the Borrower will be allowed to use the land lot to construct the University of Science and Technology of Hanoi and implement construction activities according to the agreed construction plan framework. The compensation, assistance and resettlement have lagged behind the plan; however, the implementation progress has obtained remarkable achievement in comparison with 2012.

According to the loan agreement, the Lender, through Project Executing Agency, within 16 months since the effective date of the loan (June 01, 2013), shall provide the Project Management Unit: (i) decision which ensures that the University of Science and Technology Hanoi has the legal right to the land lot for the construction of university campus; and (ii) the right to start the construction of the university campus in accordance with agreed construction timeframe.

According to the plan, the Project will be constructed on the land area of 65ha within the Education and Training Zone (108ha) of the Hoa Lac High Tech Park (1,586ha)¹. The locations of land lots for the University of Science and Technology of Hanoi and Hoa Lac High Tech Park are illustrated in Figure 1 of the next page.

The compensation, assistance and land acquisition to develop the Hoa Lac High Tech Park have been implemented since 1998. The Management Unit of Hoa Lac High Tech Park is the Executing Agency which is responsible for collaborating with relevant agencies in land management, land use, land acquisition for the implementation of the Project on the Development of Hoa Lac High Tech Park². The resettlement compensation and assistance Council of Thach That District is the unit implementing the resettlement compensation and assistance of land lots in the HHTP.

The implementation of construction of Project items would lead to the impacts of involuntary resettlement in terms of land, crops and plants of households, agencies and organizations in this area. The resettlement plan of the Project was made in 2010. The updated resettlement plan of the Project was approved by ADB in September 2013. Total affected land area by the Project is 117.7ha and

¹ The total area of planned HHTP is 1,586ha, including land area of communes namely Thach Hoa, Tan Xa, Ha Bang, Dong Truc of Thach That District and Phu Cat commune, Quoc Oai, Hanoi City. The HHTP was established according to the Decision No. 198/1998/QĐ-TTg by the Prime Minister of the establishment of the HHTP in Thach That District, Ha Tay Province (old), Hanoi City.

² Decision on the establishment of HHTP.

number of affected households is 426 households. Estimated cost for the resettlement of the Project is approximately \$24.4 million.

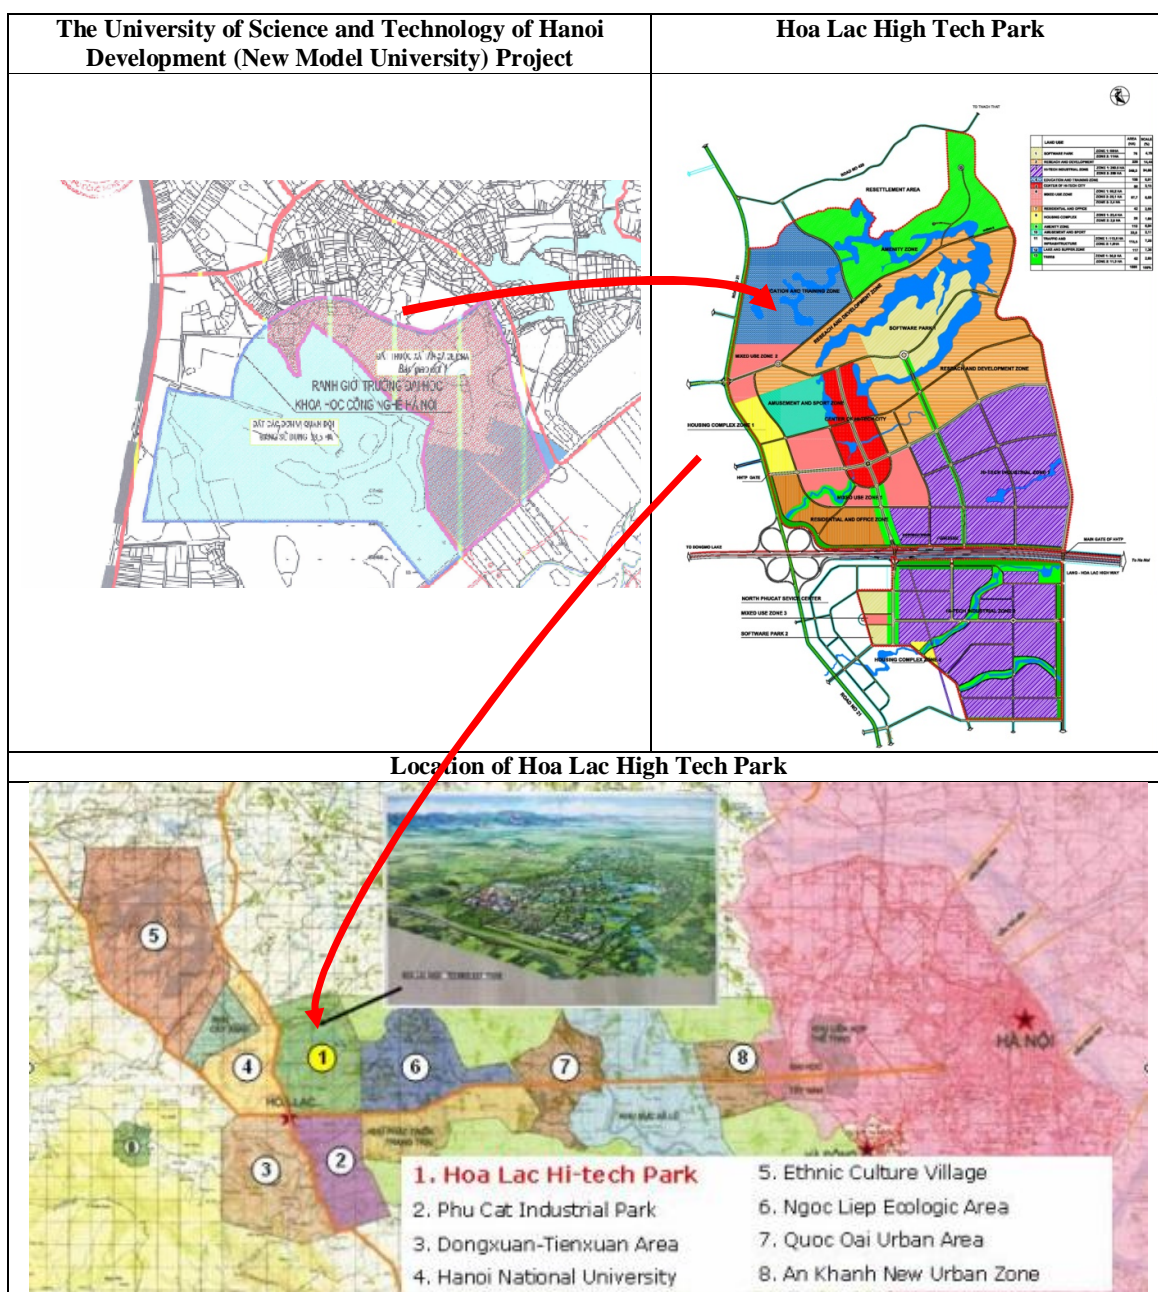

Figure 1: Map of Location of the University of Science and Technology of Hanoi Development (New Model University) Project

The resettlement compensation for some land lots in the 26ha zone has been implemented during 2008-2012, before the Project Agreement was signed (November 2011). The Internal Monitoring Report on Resettlement in Quarter 4/2103 presents the results of resettlement compensation which has been done in the reporting quarter with some major contents including information related to the implementation of following contents:

- Updated resettlement scale
- Information popularization
- Payment of resettlement compensation;
- Method of livelihood restoration, supporting and migration;
- Transferral of resettlement land;
- Construction of resettlement area and infrastructure;

- Settlement of claim; and
- Implementation plan of upcoming activities.

2. Resettlement Impact Scale of the Project

The project will make an impact of involuntary resettlement on 117.7ha of land in communes namely Tan Xa, Thach Hoa and Binh Yen in Thach That District – Hanoi city, specifically:

- 65ha land lot the Project, including:
 - + The land area of 26ha in Tan Xa Commune, including agricultural land, forestry land and residential land of households and public land, is under the management of the People's Committee of Tan Xa Commune.
 - + The land area of 39ha in Thach Hoa Commune managed and used by 02 artillery units
- The resettlement land lot of 52.7ha in Binh Yen Commune, including agricultural land, forestry land and residential land and public land, which is under the management of the People's Committee of Binh Yen Commune is saved for the 02 military units.

Total number of affected households is 426 households (1,902 people). In which, 118 affected households are in the site of the University of Science and Technology of Hanoi and 308 affected households are in the relocation site of the Artillery Unit; 913 people (49.6%) are male and 959 people (50.4%) are female. All of the heads of 426 households are male and average number of households' members is 4.4 people.

Among 426 households, 373 households (1,635 people) are affected due to the loss of residential land, agricultural land (forest land, gardens, rice cultivation land), 54 households (267 people) suffer from the loss of residential land and architecture objects, 373 households suffer from the loss of plants and crops in Tan Xa Commune and Binh Yen Commune. Following table shows the resettlement impact of the Project

Table 1: Summary of resettlement impact of the Project

No	Description	Unit	65-ha zone		Military management zone	Total
			26 ha	39 ha		
1	Residential land	m ² (household)	200 (1)	-	10,521 (52)	10,721 (53)
2	Agricultural land of affected households	m ² (household)

Source: Internal consultant on resettlement summarized from Resettlement plan updated in September 2013.

Note: * 01 household that has house on forest land; ** and *** the data includes compensated properties and to-be-compensated properties; (-) The compensation for land and properties of two military units is excluded in the project compensation scope. They will be compensated by other projects sponsored by the Government. In item 8, all the graves have been relocated in 2010.

In order to accept affected households due to land acquisition for the implementation of Hoa Lac High Tech Park Project, during 2008-2012, the Hanoi City People's Committee has implemented 02 resettlement areas in Binh Yen Commune with total land area of 60ha, ensuring adequate land for the arrangement of relocated households from component projects in the Hoa Lac High Tech Park. These two resettlement zones are located in a convenient area which is near roads, service facilities such as markets, schools and quite independent from existing residential zones. The impact of involuntary resettlement due to resettlement zone development for the Hoa Lac High Tech Park is excluded in the resettlement impact scale of the USTH Project.

3. Consultation and information dissemination

Because the Project is located in the Hoa Lac High Tech Park, the information dissemination to residents living in the areas affected by the Hoa Lac High Tech Park Development Project has impacts on the residents living in the University of Science and Technology of Hanoi Project. The information dissemination to residents in recent time is as follows:

- After the Prime Minister had made decision on the development of Hoa Lac High Tech Park (1998), the information provision and dissemination to residents were implemented. The information provided to residents includes project scale, objectives and scale of land acquisition, legal basis, policies on compensation, assistance and resettlement. Information about the development of HHTP has been disseminated to residents in the project area since 1998 by relevant agencies of Ha Tay Province (currently, Hanoi City) and especially of Thach That District People's Committee through mass media (newspapers, radio, poster...)
- During the preparation of Resettlement Plan for the Project (2010), 01 socio-economic survey was carried out in March, 2010. 10% of affected households in village 1, 2 and 8 in Tan Xa

Commune were surveyed. The content of Resettlement Plan for the Project was publicized on the website of ADB and disseminated to affected people and People's Committee of Tan Xa Commune, Women Association, Farmer Association of the commune, etc.

- The updated Resettlement Plan of the Project was implemented since December, 2012. The consultant responsible for making Resettlement Plan conducted socio-economic survey on 100% of affected households in the affected area of the project, including affected households in 26-ha zone (Tan Xa commune), military resettlement area (52.7ha – Binh Yen commune). Information about the project; content of policies on involuntary resettlement by ADB, policies on resettlement compensation and assistance of the project; mechanism on claim and claim arrangement, ... have been informed to residents in public consultation meetings organized in Tan Xa and Binh Yen communes.
- The Resettlement Action Plan of the HHTP (May, 2011) for the HHTP Infrastructure Development project. The HHTP Infrastructure Development Project with total area of 1,036ha funded by Japan's ODA is located in the administrative boundary of Tan Xa commune, Thach Hoa commune, Ha Bang commune in Thach That District, Hanoi. During the formulation of Resettlement Action Plan, consultants have made socio-economic survey on affected people in Tan Xa commune, Thach Hoa commune, Ha Bang commune in Thach That District, Hanoi. The content of Resettlement Action Plan has also been announced to affected people by the Project.
- The council of resettlement compensation, assistance of Thach That District and People's Committees of communes namely Tan Xa and Binh Yen have collaborated in organizing public meeting to inform the policies and rights of affected people. Specifically, affected households participated in public meetings at commune People's Committee to get information about the Project, Government's policies on compensation, assistance and land acquisition; plan and procedure of land acquisition, mechanism and policies on claim and claim arrangement. In addition, residents were informed and involved in surveys, measurement; they considered and had comments on the resettlement compensation and assistance options formulated by the council of resettlement compensation, assistance of Thach That District.

4. Payment of compensation/assistance to affected households

The payment of compensation/assistance to affected households was implemented basing on the following documents:

- Decision No.108/2009/QĐ-UBND dated September 29, 2009 by the Hanoi City People's Committee on the compensation, assistance and resettlement during land acquisition by the government in Hanoi City.
- Decision No. 02/2013/QĐ-UBND (Decision 02) dated January 7, 2013 by the Hanoi City People's Committee on the modification, amendment of some articles of the regulations promulgated together with Decision No. 108/2009/QĐ-UBND (Decision 108) dated September 19, 2009 by the Hanoi City People's Committee on the compensation, assistance and resettlement during land acquisition by the government in Hanoi City.
- Document No.11056/UBND-TNMT dated November 16, 2009 by the Hanoi City People's Committee.
- Document No.3081/UBND-TNMT dated April 27, 2011 by the Hanoi City People's Committee.

- Document No.7331/UBND-TNMT dated August 31, 2011 by the Hanoi City People's Committee on the amendments of policy on resettlement compensation and assistance in order to solve difficulties of several projects in Thach That District.
- Document No. 6323/STC-BG (Document No. 6323) dated December 29, 2011 by the Department of Finance of Hanoi on the information of unit price for the compensation and assistance of plants, crops, animal on the water surface in order to serve the land acquisition in Hanoi City in 2012.
- Decision No.50/2011/QĐ-UBND (Decision No.50) dated December 30, 2011 by the Hanoi City People's Committee on the promulgation of regulations on price of land types in Hanoi City in 2012.
- Decision No.51/2012/QĐ-UBND Decision No. 51) dated December 30, 2012 by the Hanoi City People's Committee on the promulgation of regulations on price of land types in Hanoi City in 2013

In general, regulations and policies on compensation and assistance to affected residents have satisfied requirements stipulated in the update Resettlement Plan of the Project. Residents are compensated according to the price equivalent to replacement price at the compensation time.

In Quarter 3, 2013, no compensation and assistance activity was done to affected households. The Council of resettlement compensation and assistance of Thach That District, Division of Natural Resources and Environment and People's Committees of communes carried out the measurement, inventory and formulated compensation plan for households.

5. Solutions of livelihood restoration, assistance and relocation

According to the regulations applied in the project, affected people will be given supported in terms of livelihood restoration and relocation as follows:

- Subsidy of life stabilization (income subsidy) from 6-24 months
- Subsidy of livelihood restoration (3-5 times as much as the value of affected land)
- Free vocational training, job introduction

The solutions of livelihood restoration, assistance and relocation of residents have implemented through financial subsidy with maximum amount of 05 times as much as the amount compensated to households suffering from the loss of agricultural land.

Additionally, People's Committee of communes, through programs of the Government according to the Decision No. 52/2012/QĐ-TTg, Decision No. 1956/QĐ-TTg, will collaborate with Division of Labour, War Invalids and Social Affairs of Thach That District and organization agencies in organization vocational training courses and job introduction for residents, especially affected household by the project due to land loss.

In Quarter 3, 2013, neither compensation/assistance nor vocational training course/job introduction was implemented.

6. Arrangement of resettlement land

Until the end of Quarter 3, 2013, the Council of resettlement compensation and assistance just paid the resettlement compensation, assistance to affected households due to the loss of agricultural land, plants and crops. The households which suffer from land loss and relocation haven't received compensation and relocation amount.

The resettlement area at Road 84 in Binh Yen Commune has developed with infrastructure such as: internal roads, primary schools, cultural hall and market. This land area is the resettlement area for households in the Hoa Lac High Tech Park (including USTH area). In the resettlement package for households resettled from the Hoa Lac High Tech Park, there is a land lot of this area. Thach That District is now dealing with requirements of water supply and power supply for this resettlement area. The power wires have been installed. Regrading water supply, it is proposed to have connection with rural water supply program of the District. In short term, two options are under consideration to satisfy all the requirements: (i) to dig centralized deep well system for the whole area; and (ii) provide financial support for each household so that they can dig their own shallow wells (as in existing living area). Resettled households can start constructing their houses from January 2014.

7. Construction of resettlement area and infrastructure

The resettlement area at Road 84, Binh Yen Commune was constructed since 2008-2012 with components of internal roads, primary schools, cultural hall and market. The infrastructure works namely water supply and power supply will be constructed and installed as soon as those households receive land and start constructing. Land area of the resettlement area is 36 ha and it is divided in 653 land lots. Area of each land lot is 200 m².

8. Claim arrangement

According to the information by PMU of HHTP; Council of resettlement compensation and assistance of Thach That District and People Committees of Tan Xa and Binh Yen communes, in Quarter 3, 2013, there was no claim related to compensation, assistance and land acquisition. During the detailed measurement and formulation of compensation options, several households had direct meeting with officers of Council of resettlement compensation and assistance or cadastral officers of the commune People's Committee to question and they got satisfactory answer and solutions.

9. Land transferral to the PMU-USTH

In Quarter 3, 2013, the Artillery Unit transferred 20ha of land out of 39ha managed by two Artillery Units to PMU-USTH. The location of land is shown in the following figure:

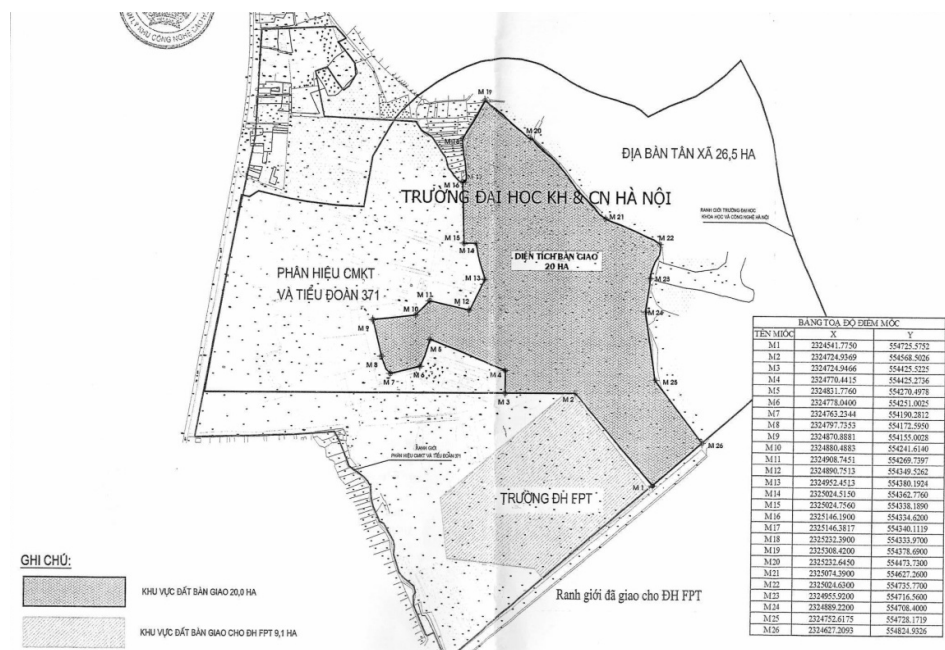

Figure 2: 20-ha land lot (in grey) transferred to the PMU-USTH by the Artillery Unit (July, 2013)

10. Implementation Plan of upcoming activities

- It is expected that in Quarter 4/2013, the compensation for 3.5ha of 26ha in Tan Xa Commune will be paid.
- 12.4ha/26ha of land is acquired from Management Board of Hoa Lac High Tech Park.
- It is expected that in Quarter 4/2012, the compensation for 12ha of 52.7ha of Military land will be paid.
- People's Committee of Thach That District will hand over 40ha of 52.7ha replacement land for the Artillery Unit.
