| F. RECOMMENDATIONS..... | 11 |

A. INTRODUCTION

1. To mitigate risks associated with inappropriate land selection an independent review of the HIRD safeguard due diligence process was commissioned for HIRD 2012 new housing sites (*massifs*).¹ While the review was initially planned to be undertaken on a sample basis, it was determined that a 100% due diligence review would improve implementation of HIRD safeguard requirements nationwide, strengthen capacity of participating technical agencies, and better ensure compliance.

B. SUMMARY FINDINGS

2. Of the 656 *massifs* proposed and considered for HIRD 2012, 272 *massifs* were approved for new construction of HIRD 2012 rural houses. For each of the approved *massifs*, a safeguard due diligence review was undertaken and compliance with national and ADB environmental and social safeguard requirements confirmed. The safeguard review process was undertaken in close coordination with the PIU and relevant technical agencies to ensure timely briefing and immediate corrective action on all GOU and ADB safeguard issues.

3. The safeguard due diligence review encompassed:

- a. A review of ADB and GOU safeguards requirements.
- b. An initial screening of *massifs* based on information provided by GOU.
- c. Field assessment of environmental and social risks and land acquisition or resettlement issues.

4. A desk review was undertaken of land selection documents and assessments and certifications required from technical agencies for each of the 272 *massifs*. The documentation review was undertaken over a six month period from October 2011 to mid April 2012.

5. Site inspections were scheduled by region, and coordinated with the rollout of the HIRD 2012 tender and procurement process. Regional site inspections included a briefing on safeguard issues and ADB and GOU safeguards requirements for participating staff of regional and district local governments and technical agencies. Site inspections were undertaken starting mid March 2012 to end April 2012.

6. Findings of the safeguard due diligence review, were presented at a two-day training of the trainers session on 10-11 August 2012, attended by HIRD PIU, safeguard staff from QQB, QQI, and participating staff from regional and district local governments and technical agencies.

C. SAFEGUARD STANDARDS

7. **ADB Safeguard Policy Statement.** The safeguard review was conducted on the basis of policy guidance provided by the ADB Safeguard Policy Statement (SPS) (2009) under three key areas: environment, involuntary resettlement, and indigenous peoples.

8. For safeguard purposes, HIRD is classified as FI category C. HIRD land selection criteria as specified by Tranche 1 loan and project agreements were used as a basis for the safeguard review. Criteria applied are:

- a. The site of the house plot must be on land approved by the District *Hokimiyat* for residential use.
- b. The site of the house plot must be on land that was classified as reserved land by the local government or administered by state agencies not later than 31 December 2009 for Tranche 1.

¹ For HIRD 2012 this review was commissioned by ADB URM.

- c. The activities financed under the mortgage will not cause involuntary resettlement or have an adverse effect on Indigenous People, including any adverse effect on any third party land user of site where the house plot is located.
- d. The site of the house plot must not be situated in or near an area that has been classified as an environmentally sensitive area by the Regional Nature Protection Committee or the State Committee for Geodesy and Mineral Resources.
- e. The site must have an environmental clearance from the Regional Nature Protection Committee.
- f. ADB's prohibited investment activity list applies as appended to the Loan Agreement.

9. **GOU Safeguards.** The safeguard review was conducted based on government safeguards regulations implemented by mandated technical agencies and state committees.² The safeguard review confirmed that the following assessments and certifications were completed:

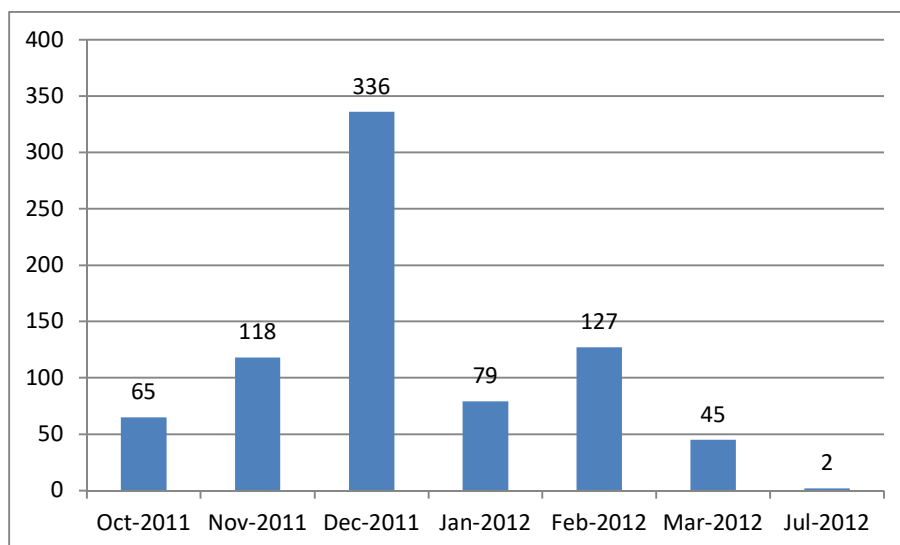

- a. Soil, geology, hydrology, groundwater, and sanitation assessments as undertaken by regional and district branches of responsible technical agencies.
- b. Certification of infrastructure requirements, i.e., access to water supply, gas and electricity networks, and fire safety arrangements issued by district branches of relevant agencies.
- c. Environmental assessments as approved by NPC, which includes: (i) confirmation by NPC that the proposed housing site is not located in an environmentally sensitive area, (ii) an environmental impact proposal prepared by QQI, and (iii) an environmental impact assessment (EIA) carried out by the NPC regional department of the NPC.

D. DUE DILIGENCE PROCESS

10. **Scope of Work.** The first list of proposed *massifs* was prepared in October 2011, and subject to numerous revision prior to being finalized in July 2012. Chart 1 illustrates the extensive changes made. High – December 2011 – 336 changes, low – July 2012 – 2 changes, Average – 110 changes per month.

² Attachment 1: List of agencies and mandates involved in the GOU Safeguard process.

Chart 1: Summary of Amendments Made to the List of Housing Sites

| | Total No. of Massifs | Final Approved | Total Changes |
|-----------------|----------------------|----------------|---------------|
| National | 656 | 272 | 772 |
| Karakalpakstan | 42 | 18 | 51 |
| Andijan | 79 | 27 | 129 |
| Bukhara | 77 | 32 | 99 |
| Jizzakh | 31 | 14 | 36 |
| Kashkadarya | 59 | 22 | 74 |
| Navoi | 46 | 20 | 45 |
| Namangan | 48 | 20 | 45 |
| Samarkand | 35 | 19 | 43 |
| Surkhandarya | 42 | 21 | 44 |
| Sirdarya | 12 | 4 | 14 |
| Tashkent | 62 | 27 | 62 |
| Fergana | 53 | 28 | 69 |
| Khorezm | 70 | 20 | 61 |

11. **Desk Review.** A two phased desk review was undertaken. Phase 1 comprised a review of (i) ADB Safeguard Policy Statement (SPS) (2009), and (ii) all relevant government legislation and regulations on national social and environmental safeguard requirements.

12. **Regulation of Land Acquisition and Resettlement.** In Uzbekistan all land acquisition and/or resettlement is subject to the following laws and regulations:

- i. Law on "State Cadastre", N171-II, December 2000.
- ii. Law on "State Land Cadastre", N666-I, August 1998, amended 2002-2004.
- iii. Cabinet of Ministers Resolution on "Approval of the Regulation on the order of adjudication of land disputes in the Republic of Uzbekistan", №246, May 1992.

- iv. Cabinet of Minister Resolution on “Order of realization into private property of objects of trade and public services together with land plots, where they are located, and land plots into life inherit tenure”, №126, April 1995, amended CoM Resolution № 202, April 1999.
- v. Cabinet of Ministers Resolution on “Land Acquisition and Compensation for State and public needs” № 97, May 2006
- vi. Cabinet of Ministers Resolution on “Procedure for granting land for urban development and other non-agricultural activities”, № 146, May 2011.

13. **Regulation of Environmental Issues.** In accordance with national environmental legislation³, an environmental assessment must be conducted for all types of construction activities. The scope of the environmental assessment is defined in the Appendix to the Resolution of CoM No.491, dated 31.12.2001. Based on this Resolution, HIRD rural house construction activity is categorized as Class 4, having a low environmental impact.⁴ As a Class 4 activity,⁵ an environmental impact statement (EIS) must be prepared, and environmental clearance for each *massif* obtained from the regional NPC, prior to commencing construction works. During construction, the district NPC is required to monitor compliance with national legislation. Applicable environmental laws include:

- i. Law on Nature Protection, 09.12.1992
- ii. Law on Water and Water Use, 06.05.1993.
- iii. Law on Atmosphere Air Protection, 27.12.1996
- iv. Law on Flora Protection and Management, 26.12.1997.
- v. Law on Wildlife Protection and Management. 26.12.1997.
- vi. Law on Forest, 15.04.1999.
- vii. Law on Mineral Resources, 23.09.1994.
- viii. Law on Waste, 2002.
- ix. Law on Protection of Archeological Monuments, 13.10.2009.
- x. Law on Environmental Control (Supervision), 12.12.2013

14. Phase 2 comprised a desk review of land selection documentation and social and environmental safeguard documentation specific to each proposed HIRD 2012 new housing site. Phase 2 of the desk review was initiated in October 2011 and conducted in parallel to the rollout of the field inspection and site validation process. Finalization of Phase 2 of the desk review of documentation for all 272 HIRD 2012 *massifs*, was completed mid April 2012. For each of 272 *massifs* the documentation review encompassed a review of: (i) the Order of the *Hokim* on land selection; (ii) assessments and clearances from district and regional departments of the SCAC, the State Committee for Land Resources, Geodesy, Cartography, and State Cadastre, the State Committee for Geology and Mineral Resources; and (iii) EIA reports from the NPC. For each *massif* documents reviewed totaled 40 to 77 pages whereby information was compiled in a table format on each *massif* that included: the *massif* location, the proposed number of houses in each *massif*, and the issues noted during the desk review. A list of documents reviewed for each *massif* is presented in Table 2.

³ Law on Nature Protection (1992) and Environmental Expertise (2000)

⁴ In accordance with Resolution of Cabinet Ministries #491 dated from 31.12.2001 all activities are classified into 4 categories depending on level of activity impact on environment. Category I is the highest impact and category IV is the lowest. .

⁵ Class 4 requires a project description and confirmation that the project will have only local impacts.

Table 1: Land Selection and Safeguard Documents Reviewed⁶

| No | Issuing Agency | Document | No. of Pages |
|-----|--|---|--------------|
| 1. | Regional or district <i>Hokimiyat</i> | <i>Hokimiyat</i> Decree on Site Selection | 1-3 |
| 2. | Regional or district <i>Hokimiyat</i> | <i>Hokimiyat</i> Decree on Land Plot Allocation | 1-3 |
| 3. | Regional or district <i>Hokimiyat</i> | <i>Hokimiyat</i> Decree on Land Reservation (if relevant) | 1-3 |
| 4. | Regional committee composed of regional/district representatives of <i>Hokimiyat</i> and relevant technical agencies | "Dalolatnoma" Committee Document on Site Selection | 1-6 |
| 5. | Regional or district department of State Committee of Land Resources, Geodesy, Cartography and Cadastre Agency | Site Selection Conclusion | 1-4 |
| 6. | Regional or district department of State Committee of Land Resources, Geodesy, Cartography and Cadastre Agency | Site Map | 1 |
| 7. | Regional or district department of State Committee of Land Resources, Geodesy, Cartography and Cadastre Agency | Land Book Extract (detailing type and quantity of land) | 3 |
| 8. | Regional or district department of State Committee of Land Resources, Geodesy, Cartography and Cadastre Agency | Land Inventory Extract (if relevant) | 10 |
| 9. | SCAC | ADA parts 1 and 2 | 10-30 |
| 10. | NPC | Environmental Conclusion (EIA) | 3-6 |
| 11. | District Sanitary Epidemiology agency of Ministry of Health | Sanitary Epidemiology Conclusion (if requested) | 2 |
| 12. | QQL and District Office of State Committee of Architecture and Construction | Masterplan | 1 |
| 13. | District <i>Hokimiyat</i> or QQL | Photos | 5 |

15. **Field Inspection and Site Validation.** Regional visits of the safeguard review team were organized with logistical and technical support provided by SCAC and QQL. In addition to site visits to each of 272 HIRD 2012 *massifs*, each regional visit involved consultation and briefings held with regional and district *Hokimiyat* staff and regional and district representatives of the SCAC and State Committee of Land Resources, Geodesy, Cartography and Cadastre Agencies, and regional and district staff of QQL and QQL. Table 3 provides a list of agencies and staff met in each of 13 regions visited.

Table 2: List of HIRD Regional/District Safeguard Stakeholders

| Agency | Title |
|---|--|
| Regional | |
| Local Government | Deputy <i>Hokim</i> of Province for Construction |
| SCAC | Regional Chief Architect /Head of Department |
| State Committee for Land Resources, Geodesy, Cartography and State Cadastre | Regional Head of Department |
| Qishloq Qurilish Invest | Regional Head |
| District | |
| Local Government | District Deputy <i>Hokim</i> for Construction |
| SCAC | District Chief Architect/ Head of Department |
| State Committee for Land Resources, Geodesy, Cartography and State Cadastre | District Head of Department |
| Qishloq Qurilish Invest | Technical Inspectors (2-5 per region) |

⁶ Appendix 2 provides a description of all key documents reviewed.

16. Regional visits of the safeguard review team were scheduled prior to the roll out of HIRD 2012 tender and procurement process in each region. Table 4 outlines the schedule of regional visits made by each safeguard reviewer.

Table 3: Field Inspection and Site Validation Schedule

| Field Visit | Regions Visited by Safeguard Reviewer 1: Odil Akbarov | Regions Visited by Safeguard Reviewer 2: Tolmas Boltayev |
|---------------|--|---|
| 12 March 2012 | Samarkand | - |
| 13 March 2012 | Samarkand | - |
| 23 March 2012 | Tashkent | - |
| 24 March 2012 | Jizzakh | - |
| 25 March 2012 | Jizzakh | - |

| 14 April 2012 | - | Jizzakh |
| 15 April 2012 | - | Jizzakh |
| 16 April 2012 | - | - |
| 17 April 2012 | Andijan | Kashkadarya |
| 18 April 2012 | Andijan | Kashkadarya |
| 19 April 2012 | Andijan | Kashkadarya and Surkhandarya |
| 20 April 2012 | Andijan | Surkhandarya |
| 21 April 2012 | - | Surkhandarya |
| 22 April 2012 | - | Sirdarya |
| 23 April 2012 | - | Sirdarya |
| 24 April 2012 | - | Sirdarya |
| 25 April 2012 | Namangan | Tashkent |
| 26 April 2012 | Namangan | Tashkent |
| 27 April 2012 | Namangan | Tashkent |
| 28 April 2012 | Namangan | Tashkent |
| 29 April 2012 | Namangan and Tashkent | - |

17. A field inspection and site validation visit was made to each of 272 HIRD *massifs* to confirm the following:

- a. The site must be on land approved by the District *Hokimiyat* for residential use.
- b. The site has been classified as state-owned/state-reserve land for residential use by the District *Hokimiyat* since 31 December 2009 (for HIRD 2012), and will not cause

any involuntary resettlement or have any adverse effect on any third-party land users.

- c. The site must not be situated in or near an area that has been classified as an environmentally sensitive area by the Regional NPC or the State Committee for Land Resources, Geodesy, Cartography and State Cadastre.
- d. An EIA has been undertaken of the site and the site has been cleared for new residential construction and has an environmental clearance by the Regional Nature Protection Committee.

18. The table prepared for the desk review stage was updated to reflect findings in the field, and also to track follow up actions by the safeguard team to discuss and resolve social and environmental safeguard issues identified during the desk review and during site visits.⁷ Field findings were regularly communicated to the MOE PIU and to ADB to support timely coordination of HIRD 2012 tender and procurement process. The table with information by *massif* is attached as Appendix 3.

19. **On-site Advisory Support.** Follow up discussions and debriefing sessions were held with regional and district officials to resolve issues identified during the desk review and the field inspection and site validation visits to each *massif*. These discussions supported timely resolution of social and environmental safeguard issues identified during the safeguard review process.

E. FINDINGS

20. Compliance with ADB and GOU safeguard requirements was confirmed for 272 *massifs* located in 146 rural districts across 13 regions, based on a safeguard review of review of key site documents and a site inspection visit to each *massif*. Of the 656 sites proposed, GOU safeguard issues were identified in 73 sites, ADB safeguard issues were identified in 39 sites, and a range of other issues were identified in 271 sites. In total 383 sites were subsequently dropped. Table 5 provides a regional breakdown of sites in which GOU or ADB issues were identified or were subsequently dropped.

Table 4: Safeguard Review Findings by Region

| Region | Sites Proposed | Sites with GOU Safeguard Issues | Sites with ADB Safeguard Issues | Sites with Other Issues | Sites Dropped | Sites Approved | Sites Approved as % of Sites Proposed |
|----------------|----------------|---------------------------------|---------------------------------|-------------------------|---------------|----------------|---------------------------------------|
| National | 656 | 73 | 39 | 271 | 383 | 272 | 41% |
| Karakalpakstan | 42 | 11 | 1 | 12 | 24 | 18 | 43% |
| Andijan | 79 | 0 | 10 | 42 | 52 | 27 | 34% |
| Bukhara | 77 | 7 | 10 | 28 | 45 | 32 | 42% |
| Fergana | 53 | 0 | 5 | 20 | 25 | 28 | 53% |
| Jizzakh | 31 | 7 | 2 | 8 | 17 | 14 | 45% |
| Kashkadarya | 59 | 15 | 0 | 22 | 37 | 22 | 37% |
| Khorezm | 70 | 0 | 3 | 47 | 50 | 20 | 29% |
| Namangan | 48 | 2 | 3 | 23 | 28 | 20 | 42% |
| Navoi | 46 | 8 | 1 | 17 | 26 | 20 | 43% |
| Samarkand | 35 | 1 | 0 | 15 | 16 | 19 | 54% |
| Sirdarya | 12 | 3 | 0 | 5 | 8 | 4 | 33% |
| Surkhandarya | 42 | 5 | 2 | 14 | 21 | 21 | 50% |

⁷ This table served as a starting point for the development of an HIRD site inspection form. The HIRD site inspection form supports data collection and serves as a checklist for each *massif* to document site conditions, to confirm site assessments and certifications, and to confirm infrastructure access.

| | | | | | | | |
|----------|----|----|---|----|----|----|-----|
| Tashkent | 62 | 14 | 2 | 18 | 34 | 27 | 44% |
|----------|----|----|---|----|----|----|-----|

21. **GOU Safeguard Issues.** The following GOU safeguard issues were noted and acted upon: (i) the *massif* was located on agricultural land; (ii) environmental and sanitary-epidemiology issues.

22. **Environmental Assessment.** Due diligence identified two issues of an environmental and sanitary nature, with a *massif* in Salar-Bobur village, Kibray district, Tashkent province. The 9 ha selected *massif* was the former site of a tuberculosis clinic and a number of trees were growing on the land. The issues were reported by the national safeguard specialist on the basis that the *massif* did not meet ADB or GOU environmental and sanitation safeguard standards, and the *massif* was later rejected by the NPC.

23. **ADB Safeguard Issues.** Issues with involuntary resettlement and the land not being State Reserve for more than 2 years, were noted in the safeguards review and appropriate action taken.

24. **Land Acquisition and Resettlement.** A significant number of *massifs* checked were not sufficiently documented regarding land acquisition and resettlement. It was necessary in many cases, to further explain the requirements and to request resubmission of documentation. A full list of examined sites with remarks is provided in Appendix 1.

25. **Indigenous peoples.** No adverse impact was noted as the national population does not include people defined by ADB SPS 2009 as Indigenous Peoples.

26. **Other Safeguard Issues:** (i) changes in *massif*; (ii) land plot number differs to the number in the records. Table 6 provides a breakdown of sites by issues and details follow up actions taken.

Table 5: Safeguard Review Issues by Type⁸

| No. of Sites | Issues | Action Taken to Resolve |
|--------------|---|--|
| | GOU Safeguard Issue | |
| 73 | Possible agricultural land | Documents provided to confirm site is classified as non-agricultural land Change of land category to non-agricultural Site design changed to eliminate impact on agricultural land |
| | ADB Safeguard Issue | |
| 35 | Possible land acquisition issues | Land acquisition date meets requirements Site plan altered to eliminate land acquisition issue |
| 4 | Possible demolition of structures | Site plan altered to eliminate demolition issue. |
| | Other Safeguard Issue | |
| 12 | Number of housing plots differ from that approved | Number of housing plots corrected |
| 259 | Proposed change of <i>massif</i> | New documents provided |

F. CONCLUSIONS AND RECOMMENDATIONS

27. **Selection of *Massifs*.** The first list of proposed *massifs* was prepared in October 2011 and subject to numerous revision prior to being finalized in July 2012.

Recommendation: The list of *massifs* should be finalized and safeguard due diligence reviews completed at least one year prior to planned construction starts to enable sufficient time to advertise and confirm HIRD homebuyers and complete the HIRD tender and procurement processes.

⁸ Of the 272 selected *massifs*

28. **Scope of Review.** Initially, the safeguard review targeted a 10% sample of *massifs* across 13 regions for site inspection. With extensive amendments to the list of *massifs*, and the type of issues that arose at the start of the review process, the target for site visits was increased to 30%. In consultation with the PIU and ADB, it was decided that a 100% due diligence review would better ensure compliance, in addition to strengthening the capacity of participating technical agencies, and improving the implementation of HIRD safeguard requirements nationwide.

Recommendation: With nationwide coverage, capacity gaps and high turnover among technical agencies responsible for land selection and safeguard due diligence processes, 100% site visits should be continued for the next phase of HIRD to mitigate safeguard risks and ensure appropriate compliance with GOU and ADB safeguard requirements.

29. **EIA Requirements.** The EIA of selected *massifs* should be performed as soon as possible after site selection in case of non-compliance. This will enable sufficient time to consider changes to the existing *massif* plan that will meet EIA requirements or identify an alternative *massif*.

Recommendation: Increased monitoring of site selection and closer coordination with NPC is required to ensure compliance with NPC environmental requirements.

30. **Capacity Building.** Extensive on-site advisory support was provided by the safeguard review team on ADB land selection requirements, and ADB/GOU land acquisition and environmental issues to regional and district HIRD stakeholders such as *Hokimiyats*, the State Committee for Land Resources, Cartography and State Cadastre, and the SCAC. Review findings were presented at a training of trainers workshop delivered by the safeguard review team on 10-11 August 2012 to over 40 participants. The session was held in Tashkent with participation of PIU trainers and staff responsible for HIRD safeguards from QQB, QQI and participating technical agencies.

Recommendation: Training, regional advisory support, and debriefings on issues and follow up action required should be rolled out nationwide to strengthen the capacity of participating technical agencies, and improve the implementation of HIRD safeguard requirements nationwide. Safeguard capacity building of local government and key technical agencies should be offered prior to the start of the site selection process, with onsite advisory support and debriefings held in each region.

APPENDIXES

Appendix 1: Safeguard Technical Agencies

| Agency | Safeguard Mandate |
|---|---|
| The State Committee on Land Resources, Geodesy, Cartography and State Cadastre | <ul style="list-style-type: none"> • Ensure implementation of unified state policy on land management • Regulate land issues • Manage and monitor land use and land protection • Oversee preservation, improvement and restoration of soil fertility, and develop and implement government programs to improve soil fertility • Manage geodetic and cartographic activities, and supervise coordination of public cadastre activities • Maintain state land cadastre and unified system of state cadastres, state cartography, and state inventory of buildings |
| Hydrogeology Institute (HYDROENGEО) | <ul style="list-style-type: none"> • study and use of water resources • study and use of minerals in water resources • groundwater monitoring • study of the processes of pollution and depletion of water • study of hydrogeological and geotechnical conditions of mineral deposits • development of groundwater exploration technologies and their rational usage • development of technology of artificial recharge of fresh groundwater and preventing pollution |
| Ministry of Health | <ul style="list-style-type: none"> • Ensure sanitary and epidemiological welfare of the population. |
| State Committee for Nature Protection (NPC) | <ul style="list-style-type: none"> • State control over environmental protection, use and reproduction of natural resources • implementation of cross-sectoral integrated environmental management • development and implementation of a unified environment and resource policy • ensure a favorable ecological environment • environmental improvement |
| Regional Design Institute (SCAC Institute- GASHK-LITI) | <ul style="list-style-type: none"> • undertake survey work on design |
| “Uzkommunxizmat” Agency of Uzbekistan Suvoqava (Communal Water Utility) | <ul style="list-style-type: none"> • introduction of advanced modern technology, machinery, equipment for control of consumption of water and heat energy • coordination of activities of the inter-regional pipelines, ensuring their effective usage, reliable and stable operation |
| Uztransgaz (National Gas Company) | <ul style="list-style-type: none"> • Manage rational use, transportation and sale of natural gas to consumers within the Republic of Uzbekistan |
| Uzbekenergo Joint Stock Company (National Electricity Company) | <ul style="list-style-type: none"> • Manage nationwide electric power supply |
| Ministry of Emergency Situations | <ul style="list-style-type: none"> • Develop and implement state policy in the field of disaster prevention, the protection of life and health • Establish and manage state emergency warning system |
| Ministry of Internal Affairs, Fire Safety Department | <ul style="list-style-type: none"> • Manage and supervise fire safety standards |
| State Committee for Architecture and Construction (SCAC) | <ul style="list-style-type: none"> • monitoring the quality of design and construction works, • compliance with legislation, regulations and standards in the planning and development of rural settlements • coordinating and monitoring the progress of economic reforms in capital construction • improving the pricing system in construction • facilitate the future development of a competitive environment in the markets and project works, construction materials, the development of construction market infrastructure • monitoring the performance of contractual obligations entered into by the results of competitive bidding, overseeing quality and terms of construction |
| Qishloq Qurilish Loyiha (QQL) | <ul style="list-style-type: none"> • undertake survey work on design • ensure national design standards are met |

Appendix 2: Land Selection and Safeguard Documents

| Agency | Official Document Name | Purpose of Document |
|---|--|--|
| The State Committee on Land Resources, Geodesy, Cartography and State Cadastre | Primary conclusion, topography and information on land allocated for construction of houses of standard design | Map location of proposed site and relevant infrastructure and social facilities, |
| SCAC's Institute-GASHK-LITI | Primary conclusion on land allocated for construction of houses of standard design | Soil assessment of proposed site (to be included in specifications for detailed design, such as necessary foundation depth, soil subsidence, depth of soil freeze, loam depth) |
| Hydrogeology Institute | Primary conclusion on land allocated for construction of houses of standard design | Groundwater assessment of proposed site, |
| Ministry of Health | Primary conclusion on land allocated for construction of houses of standard design | Sanitation assessment of proposed site |
| State Committee for Nature Protection (NPC) | Primary conclusion on environmental effects | Environmental impact assessment of proposed site |
| “Uzkommunxizmat” Agency of Uzbekistan Suvoqava (Communal Water Utility) | Technical assessment | Confirmation and specification of source of drinking water for proposed site |
| Uztransgaz (National Gas Company) | Technical assessment | Confirmation and specification of access to gas network for proposed site |
| Uzbekenergo Joint Stock Company (National Electricity Company) | Technical assessment | Confirmation and specification of access to electricity network for proposed site |
| Ministry of Emergency Situations | Technical assessment | Confirmation of safety and evacuation arrangements for proposed site |
| Ministry of Internal Affairs, Fire Safety | Technical assessment | Confirmation of fire safety arrangements for proposed site |
| Qishloq Qurilish Loyiha (QQL) | Master plan | Site master plan with housing lots specified, Location of houses in <i>massifs</i> , road master plan, gas pipeline, electric power supply, and infrastructure |
