## 1.0 INTRODUCTION

- 1 The improvement of the 32 kilometers long Tibar – Gleno Road from Sta. 14+080 to Sta. 45+855 is a project of the Government of Timor-Leste under the Timor Leste Road Network Upgrading Project (RNUP) funded by the Asian Development Bank. The Ministry of Public Works (MPW) is implementing the project through the Project Management Office (PMU) with the support of Katahira Engineers International as consultant for the construction supervision. The Indonesian construction company PT.PP (PERSERO) Tbk was engaged by the Government to undertake the construction works.

## 2.0 PROJECT BACKGROUND

- 2 The project starts at the junction of Gleno – Liquiça - Dili Road in Tibar (Sta. 14 +080) and runs south to Gleno with a length of 32 km. The road corridor will pass through the mountainous area of Ulmera and Railaco towards the plains of Gleno as shown in *Figure 1*. The project will be part of an important road link between Dili and the inland districts, providing improved road connectivity to the primary coffee growing region of the country. Once completed the road is envisioned to support the economic development of the country, help reduce poverty, and improve access to the markets and social services for the residents of the districts served by the road.
- 3 The project will include the widening and improvement of the existing road. On flat terrain, the average width of the corridor will be 8 meters with 3 meters wide carriageway and 1 meter wide shoulders with lined drainage at both sides of the center line. On the mountain section, the carriage way will be 2.5 to 3 meters wide with 1 meter shoulder on each side of the center line. When needed by the design, the existing natural slope will be trimmed to accommodate the designed road width. Lined ditches will be installed at the toe of the cut slopes to convey surface water flow towards the natural drainage lines. This will negate erosion and retard the deterioration of road surface due to water saturation. Surface of the road carriage way will be line with bituminous concrete. Angle of slope cut will be influenced by the physical properties of the materials on site.

**Figure 1 Location Map of the Tibar – Gleno Road**

### **3.0 Monitoring Activities**

- 4 This Social Safeguard Monitoring Report is the second of a series of quarterly monitoring work planned for the project starting June 2014 and will end in December 2015. The quarterly monitoring is part of the Consultants' activities to monitor actions taken to address resettlement issue that arise in the compliance of the approved Resettlement

Plan of the Project. The Deputy Resident Engineer assisted by a Resettlement Assistant, were tasked to handle direct negotiations with all the AP's along the road corridor. Once the negotiations are completed, payment of compensation to the AP's is done in public with the representative from PMU, the Consultant and the Contractor and witnessed by the Suco Chief. In addition, they also undertake regular visits to the project area to coordinate with the AP's, touch base with the Local Leaders (suco, aldea, and district etc), and community to address issues, grievances and other concerns related to resettlement, disturbance and compensation concerns. Public Meeting involving the affected persons were also held prior to actual direct negotiations with the assistance of the suco chief with administrative responsibility on areas where the road section is located.

- 5 The Social Safeguard Monitoring activities remains focused on the direct negotiation and compensation payment. Public Consultations were held at various suco's along the road corridor prior to negotiation. These public consultations served as the venue for the representatives of the Consultants and PMU to explain the project, the mechanics of, computation for affected trees, land and structures together with how the AP's will be paid (*Figure 2*).
- 6 The summary of road sections whose affected persons had been paid and negotiated are in (*Appendix A*).

Figure 2 Public Consultation in Suco Liho, District of Ermera, Sub-District of Railaco where the AP's aired their issues and Concerns to the Representatives of the Consultant and PMU.

## 4.0 MONITORING RESULTS AND ACTIONS REQUIRED

- 7 Thus far, the project was able to fully compensation a total of 68 AP's who were paid in the amount of US\$ 77,880.00 covering Sta. 14+520 to Sta. 18+750 and Sta. 19+500 to Sta. 24+300 for a total of 9.03 kilometers.
- 8 The project also had completed negotiation with a total of 249 Affected Persons from Sta. 24+500 to Sta. 45+700, the end of the project. Total amount payable to the Affected Persons based on the negotiation is US\$ 324,007.00. In effect, the project was able to complete the negotiation for the entire length of the project. What remains is the payment of the completed negotiated amount to the remaining Affected Person's to complete the compensation process of the project. (*Table 1*).

**Table 1 Summary of Result of Negotiation, Payment and Road Sections Covered by Resettlement Activities**

Status	Station	Length (km)	Number of AP's	Amount (US\$)
Fully Paid	14+520 to 18+750	4.23	36	9,845.00
Fully Paid	19+500 to 24+300	4.8	32	68,035.00
<i>Sum A</i>		<i>9.03</i>	<i>68</i>	<i>77,880.00</i>
Negotiated Pending Payment	24+500 to 27+460	2.96	26	48,389.25
	27+480 to 32+540	5.06	52	49,629.00
	32+700 to 40+320 (Left Side Only)	7.62	56	54,363.00
	32+820 to 40+320 (Right Side Only)		52	49,522.00
	40+640 to 45+240 (Left Side Only)	4.6	30	18,923.75
	40+400 to 44+500 (Right Side Only)	4.1	25	97,815.00
	45+180 to 45 + 700	0.52	8	5,365.00
<i>Sum B</i>		<i>24.86</i>	<i>249</i>	<i>324,007.00</i>
Total Amount Paid and to be Paid (as of Sept 2014)				401,887.00
<i>Total (Fully Paid and Negotiated Compensation Awaiting Payment)</i>		<i>17.05</i>	<i>148</i>	<i>183,703.25</i>
<i>Total Road Length Paid and Negotiated</i>		<i>33.89</i>		

## 5.0 SUMMARY AND CONCLUSIONS

- 9 The concept of negotiated settlement was followed to meet an agreed amount between the Project and AP' to compensate at replacement cost of assets affected by the project. This approach was adopted since the draft law on land expropriation and compensation is still awaiting approval by Parliament.

- 10 Initially, after paying compensation for the first 9.03 kilometers (US\$ 77,880.00), it was thought that the project will be run out of fund to meet the budgetary obligation to meet the compensation cost for the remaining 23 kilometers. Additional request for additional funds were made in the amount +/- US\$ 805,355.25 to supplement the original budget.
- 11 Efforts exerted by the resettlement personnel of the project to cut cost and reduce the compensation through skillful negotiation with the affected persons paid well and handsomely saving substantial amount in the process. Based on record, the project will only need about US\$ 324,007.00 or just 40.23% of the estimated US\$ 805,355.25 requested supplemental budget to complete the compensation. What remains to be the done is the actual payment to complete the compensation process.
- 12 So far, the project resettlement personnel were also able to complete the negotiation without the use of the grievance mechanism embedded in the Resettlement Plan of the project which will help avoid delay in implementation of the project,
- 13 The next Quarterly Monitoring Report will be on December 2014.

## Appendix A

List of Affected Persons that had been fully Compensated

**LIST OF AFFECTED PERSONS WITH IMPACT ON LAND AND TREES BY THE PROJECT RNUP/-4A, FROM Sta (14+500-19+000)**
