# Semi-annual Safeguards Monitoring Report (DRAFT)

Monitoring Period Covered: January - June 2016

# Grant 9177-MYA: Pro-Poor Community Infrastructure and Urban Services

This environmental and social monitoring report is a document of the borrower. The views expressed herein do not necessarily represent those of ADB's Board of Directors, Management, or staff, and may be preliminary in nature. In preparing any country program or strategy, financing any project, or by making any designation of or reference to a particular territory or geographic area in this document, the Asian Development Bank does not intend to make any judgments as to the legal or other status of any territory or area.

## **DEFINITION OF TERMS**

Displ	lacec
Pers	ons

In the context of involuntary resettlement, displaced people (DP) are those who are physically displaced (relocation, loss of residential land, or loss of shelter) and/or economically displaced (loss of land, assets, access to assets, income sources, or means of livelihood) as a result of (i) involuntary expropriation of land, or (ii) involuntary restrictions on land use or on access to legally designated parks and protected areas.

## Involuntary Resettlement

It is the displacement of people from their homes, assets, sources of income and employment on account of the project undertaken by the Government of Myanmar. Involuntary resettlement may result in any or a combination of the following: loss of land, abode and other fixed assets, loss of income and/or employment, relocation, separation of family members, disintegration of communities, etc. Unless appropriate and adequate mitigation measures are carried out, involuntary resettlement will result to further hardship and impoverishment among the AHs, especially the marginal sectors of society (see definition of "vulnerable groups"). These adverse social impacts of development projects are often borne by AHs not of their own desire but involuntarily.

## Land acquisition

Refers to the process whereby an individual, household, firm or private institution is compelled by a public agency to alienate all or part of the land it owns or possesses to the ownership and possession of that agency for public purposes.

## Relocation

 This is the physical displacement of project-affected persons(s) from her/his preproject place of residence and/or business.

## Right-of-Way

 The right of way (ROW) is a publicly available and government-owned strip of land following a centerline (such as for roads, canals, etc.) providing an area of access.

## Vulnerable groups

These are distinct groups of people who might suffer disproportionately or face the risk of being further marginalized by the effects of resettlement and specifically include: (i) households headed by women with dependents, (ii) disabled household heads, (iii) households falling under the generally accepted indicator for poverty, (iv) children and the elderly households who are landless and with no other means of support; (v) landless households; (vi) indigenous peoples or ethnic minorities.

## **LIST OF ATTACHMENTS**

Attachment A	YCDC-Issued Certification That All Households Have Legally Recognized Tenure (Land Grant/Permits) In Hlaing Tharyar Township
Attachment B	Samples of draft IR And IP Screening Checklists
Attachment C	Activity Report - community consultation on the environmental impact of the proposed subprojects for (30 June-1 July 2016)
Attachment D	Minutes of Meeting dated 20 May 2016 with Ward Executive Officers and CDC Members of Ward 7 in English and Myanmar languages
Attachment E	Minutes of Meeting dated 20 May 2016 with Ward Executive Officers and CDC Members of Ward 10 in Hlaing Tharyar Township in English and Myanmar languages).

## **EXECUTIVE SUMMARY**

- 1. The Government of Myanmar is currently implementing Grant 9177 MYA: Pro-Poor Community Infrastructure and Basic Services (the Project) aims to reduce poverty and vulnerability in selected underserved areas of Yangon City and Mandalay City<sup>1</sup>. The Project impact will be better living conditions and environment in targeted communities in Mandalay and Yangon. The outcome will be improvement environmental infrastructure for the targeted communities in Mandalay and Yangon.
- 2. The Grant has three (3) major components corresponding to three major outputs as follows:
- Output 1: Multi-agency training structure to support planning, delivery, and maintenance of tertiary level infrastructure piloted and documented.
- Output 2: Improved community infrastructure and basic services demonstrated in four townships in Mandalay and Yangon.
- Output 3: Effective project management, monitoring, and audit delivered.
- 3. Summary of activities carried out during the Monitoring Period. Initial social safeguard screening was undertaken for Involuntary Resettlement (IR) and Indigenous Peoples (IP) impacts and eligibility for grant financing of community tertiary drainage sub-project (prioritized by the 12 CDCs in Mandalay) and five priority subprojects identified by the 11 CDCs in Dala Township, Yangon<sup>2</sup>. Preparation of screening checklists was led by ward executive officer. The National Social Development and Gender Specialis validated the screening checklists. The screening checklists indicated that these subprojects passed social safeguards screening (no involuntary resettlement or indigenous peoples impacts).
- 4. **Summary of monitoring activities carried out.** The project is still in the preparation stage for subprojects and procurement has yet to start. For the environmental aspects, preparation of IEEs/EMPs has just started. Overview of environmental and social safeguards compliance was incorporated as part of overall project progress reports. Additionally, a ADB Safeguards Review Mission was held on 10-12 May 2016.
- 5. **Recommendations.** Key findings from ADB's review mission include the need to examine subproject priorities with respect to safeguards due diligence and limitations of project budget for example, estimated target beneficiaries in Dala Township vis-a-vis budget limitation, and community drainage being the highest priority subproject of 12 communities in Mandalay; Need to urgently address social safeguard starting with evidence of meaningful consultation and safeguards due diligence; need for additional social safeguard support from the implementation consultants; Need to ensure effective communication strategy on social and environmental

<sup>&</sup>lt;sup>1</sup> The Grant is being implemented in one community in Dala Township and two communities in Hlaingtharyar Township for Yangon, and one community in Chanmyathazi Township, and one community in Pyi Gyi Dagon Township for Mandalay.

<sup>&</sup>lt;sup>2</sup> Household sanitation improvement, Water supply access (tertiary water supply infrastructure), Flood mitigation (tertiary drainage), Solid waste management, Tertiary road/footpath without associated drainage)

safeguards work to be undertaken. These and other issues for further action have been identified and updates on implementaiton will be provided in the next semi-annual monitoring report.

## I. INTRODUCTION AND PROJECT OVERVIEW

Project Number and Title:	47187-001 Myanmar: Pro-Poor Community Infrastructure and Basic Services		
	Environment	В	
Safeguards Category	Indigenous Peoples	С	
	Involuntary Resettlement	С	
Reporting period:	1 January – 30 June 2016		
Last report date:	-		
Key sub-project activities since last report:	This is the first semi-annual safeguards monitoring report. Project still in preparation stage for subprojects and procurement has yet to start  During this monitoring period, the following key activities were carried out during the monitoring period:  Environment:  Preparation of IEEs/EMPs has just started Application for ECC with MONREC will be done in parallel with IEEs/EMPs preparation  Social Safeguards:  Initial social safeguards screening activities carried out for preliminary list of sub-projects identified during CDD activities		
Report prepared by:	ADB Social Safeguard Review Mission was held on 10-12 May 2016  Environment Ruel Janolino (Grant Implementation Consultant Environment Specialist)  Maria Cleto, Grant Implementation Consultant Social Safeguards Specialist (Grant Implementation Consultants).  Note: Social Safeguards Specialist was engaged effective 30 July 2016, after this monitoring period. Social safeguards activities described in this report are based on information from the overall project quarterly progress reports.		

## II. ENVIRONMENTAL PERFORMANCE MONITORING

Not yet applicable (preparation of IEEs/EMPs has just started)	Preparation of IEEs/EMPs has just started		

## a. Issues for Further Action

Issue	Required Action	Responsibility and Timing	Resolution
Old Issues from Previous Reports			

Not yet applicable (preparation of IEEs/EMPs has just started)			
New Issues from This Report			
Not yet applicable (preparation of IEEs/EMPs has just started)			

- b. Other activities
- 6. Not yet applicable (preparation of IEEs/EMPs has just started)

### III. INVOLUNTARY RESETTLEMENT and INDIGENOUS PEOPLES PERFORMANCE MONITORING

- 7. The project is Category C for Involuntary Resettlement, which means it has no involuntary resettlement impacts<sup>3</sup>. It is also Category C for Indigenous Peoples, which means it is not expected to have impacts on Indigenous Peoples<sup>4</sup>. Any civil works or infrastructure upgrading that may cause any involuntary resettlement or land acquisition or indigenous people impacts will not be eligible to be financed under the grant. The grant fund cannot be used for purchasing of land for project implementation.
- Initial social safeguard screening was undertaken for Involuntary Resettlement (IR) and 8. Indigenous Peoples (IP) impacts and eligibility for grant financing of community tertiary drainage sub-project (prioritized by the 12 CDCs in Mandalay) and five priority subprojects identified by the 11 CDCs in Dala Township, Yangon<sup>5</sup>. Preparation of screening checklists was led by ward executive officer. The National Social Development and Gender Specialist validated the screening checklists. The screening checklists indicated that these subprojects passed social safeguards screening (no involuntary resettlement or indigenous peoples impacts). During this time, preliminary non-binding agreements with some households to move encroached structures out of the likely corridor of impact were made, involving CDC members and ward officials. As this activity was done without guidance of a safeguards specialist, corrective actions are required.
- ADB Safeguard Review Mission. An ADB Safeguards Review Mission was held on 10-12 May 2016. The purpose of the safeguards mission was to review the following: (1) safeguards status of selected sub-project sites, assess due diligence as per SPS 2009 requirements and GIM screening criteria, identify any corrective measures, as needed; (2) English translation of any (or a representative sample of) Rapid Environmental Assessments (REAs), Environmental Categorizations, and/or IEEs/EMPs that have been conducted; (3) documentation on land tenure arrangements for selected sub-project sites and/or process in formalizing documentation in advance of civil works; combined environmental and social safeguards requirements, reporting format and dates with EAs/las

<sup>&</sup>lt;sup>3</sup> ADB Operations Manual Section F1/OP – Safeguard Review Procedures (issued on 1 October 2016).

<sup>&</sup>lt;sup>4</sup> Ibid.

<sup>&</sup>lt;sup>5</sup> Household sanitation improvement, Water supply access (tertiary water supply infrastructure), Flood mitigation (tertiary drainage), Solid waste management, Tertiary road/footpath without associated drainage)

- Findings from the Review mission were: i) three wards, namely Aunt Gyi West Ward, 10. Ward 6 and Ward 11/14 of Dala Township, were not yet officially under the jurisdiction of YCDC and that in order to conduct work under the project, MOC would hand over jurisdiction to YCDC; ii) need to examine subproject priorities with respect to safeguards due diligence and limitations of project budget for example, estimated target beneficiaries in Dala Township vis-a-vis budget limitation, and community drainage being the highest priority subproject of 12 communities in Mandalay; iii) In both Yangon and Mandalay, there is a need to urgently address social safeguards starting with evidence of meaningful consultation and safeguards due diligence: Consultations conducted were not in line with SPS 2009 requirements and the screening exercise conducted identified no issues at the ward level. Upon ADB spot check review on due diligence performed, it was determined that households did not have land titles and/or that these were complex titles (e.g. joint ownership, titles unchanged, village level documentation only). This was a significant error in due diligence activities which was particularly problematic for Dala township; iv) insufficient resources to ensure that the subprojects are Category C for IR/IP had caused significant delays and created challenges for effective communication. Original safeguard due diligence was incomplete and did not verify documentation with relevant authorities at higher levels; and v) In both Yangon and Mandalay, there is a need to ensure effective communication strategy on social and environmental safeguards work to be conducted, as the issues regarding the communications made by the team inflated expectations and caused misunderstandings
- 11. The Review Mission had the following recommendations: i) screening to be conducted to ensure subprojects are Category C for IR/IP; ii) collection of evidence on land tenure documentation of target beneficiaries; iii) examination of the subproject priorities with respect to safeguards compliance, limitations of the project budget by qualified Social Safeguards Specialist; iv) undertaking safeguards due diligence activities in compliance with ADB SPS; v) mobilization of the International Social Safeguard Specialist; and vi) mobilization of a National Communication Specialist to ensure effective communication strategy for the project and specially on social and environmental safeguards work to be undertaken.
- 12. **Social Safeguards Requirements.** According to the GIM, the following activities are to be carried out as part of safeguards due diligence for the Project.

**Table 1 Social Safeguards Requirements and Status of Compliance** 

Grant Implementation Manual (GIM) Requirements	Compliance status Yes/No/Partial	Comment or Reasons for Compliance, Partial Compliance/Non- Compliance	Issues for Further Action <sup>6</sup>
Grievance Redress	No	GRM was not yet	Development of Grievance
Mechanism - A well-defined grievance redress and resolution mechanism will be established to resolve grievances and complaints in a timely and satisfactory manner. The objective of the grievance redress mechanism is to resolve complaints as quickly as possible and at the local level through a process of conciliation; and, if that is not possible, to provide clear and transparent procedures		established	Mechanism to be done in next quarter

<sup>&</sup>lt;sup>6</sup> To be elaborated further in table 3.b (Issues for Further Action)

Grant Implementation Manual (GIM) Requirements	Compliance status Yes/No/Partial	Comment or Reasons for Compliance, Partial Compliance/Non- Compliance	Issues for Further Action <sup>6</sup>
for appeal. All affected persons will be made fully aware of their rights, and the detailed grievance redress procedures will be publicized through an effective public information campaign. The detailed procedures for this is found in Appendix 11.			
Allocation of required fund and resources (i.e. staff).	No	Need for social safeguards support was flagged during the ADB review mission held on 10-12 May 2016	Mobilize additional support for social safeguards as required
A set of criteria and screening procedures <sup>7</sup> for eligible projects will be established and specific requirements for land or/and assets donations will be set up and implemented by the Implementation Contractor in collaboration with the CDC.	No	While initial social safeguard screening for Involuntary Resettlement (IR) and Indigenous Peoples (IP) impacts and eligibility carried out for grant financing of the top three priority subprojects identified by the 12 CDCs in Mandalay (draft safeguards screening checklists prepared by ward official and validated by SDGS)8, and five priority subprojects identified by the 11 CDCs in Dala Township, Yangon, criteria and screening procedures had not been established and refined for the project	Assessment of adequacy of safeguards due diligence activities to be carried out. Development of detailed screening guidelines and procedures; validate draft screening checklists
Social safeguards compliance monitoring will be included in the regular project progress report and submitted to ADB	Yes	Social Safeguards Status included in quarterly project progress reports	Continue incorporating updates on social safeguards activities, progress in regular project progress reports submitted to ADB.
The CDC shall take the lead in conducting the screening procedures based on an agreed checklist.	No	Screening activity was led by ward executive officer. The National Social Development and Gender Specialis validated the screening checklistst. The screening checklists indicated that	Enhance involvement of CDC members in screening sub-projects based on an agreed checklist.

<sup>&</sup>lt;sup>7</sup> Criteria and screening procedures for social safeguards compliance (IR and IP) shall include the following features: (a) no subproject will cause any IR and IP impacts; (b) voluntary donation will be an act of informed consent and affected people will not be forced to donate land or other assets with coercion or under duress, or misled to believe that they are obliged to do so; (c) owner of the donated lands/assets must complete the land/ assets voluntary contribution consent declaration form with witnesses from independent third party to ensure that the above requirements are met and the owner is free of any kind of social or political pressures; (d) under any circumstances, the grant fund must not be used for purchasing of land for project implementation <sup>8</sup> Refer to Attacgment B for Sample Of IR And IP Screening Checklists

Grant Implementation Manual (GIM) Requirements	Compliance status Yes/No/Partial	Comment or Reasons for Compliance, Partial Compliance/Non-Compliance	Issues for Further Action <sup>6</sup>
		these subprojects passed social safeguards screening (no involuntary resettlement or indigenous peoples impacts); however, these checklists must be considered as drafts to be validated under the guidance of a social safeguards specialist	
the assigned Implementation Contractor and government counterpart staff for safeguards issues will: (a) receive adequate training on ADB's safeguard policy requirements and safeguards screening procedures; (b) conduct required consultations with all the land users and owners of the project beneficiaries including participating community development committees (CDC) members on project activities and safeguards requirements; (c) provide training to the participating CDCs on ADB safeguards principles and subproject screening procedures; (d) regularly monitor the project compliance on safeguards policy and prepare a report for submission to ADB.	No	Social Safeguards Consultant not yet engaged to conduct the training.	Engagement of social safeguards consultant. assessment of adequacy of safeguards overview provided during CDD activities; corrective measures as required. Continue monitoring safeguards compliance and report on this to ADB.
A set of criteria and screening procedures for eligible subprojects will be established and specific requirements for land or/and assets donations will be set up and implemented by the CDC	No	Criteria and screening procedures have not been established and refined for the project. The social Safeguards screening checklist in the Grant Implementation Manual was used to screen proposed subprojects; however, these are still drafts for validation and the understanding of CDC members of social safeguards concepts, terminology and processes still needs to be assessed.  Encroachment has been flagged as potential issue for line drainage and road improvement sub-projects.	Assessment of adequacy of safeguards due diligence activities to be carried out. Development of detailed screening guidelines and procedures; validate draft screening checklists
The CDCs will include representatives from	Partial	Each CDC includes women, as required in the GIM. List	Verify representation of ethnic minorities in CDCs

## V. INFORMATION DISCLOSURE AND SOCIALIZATION INCLUDING CAPABILITY BUILDING

14. Consultation and participation (C&P) activities began early during project implementation – commencing with project orientations, and continuing during activities such as knowledge sharing with CDC members and other community residents who were unable to attend orientation activities, delineation of blocks<sup>9</sup> and selection of CDC members<sup>10</sup>. Social safeguards considerations were incorporated during CDD Activities – including inclusion in presentations and handouts. Documentation of CDD activities and consultations has been relatively efficient,

<sup>&</sup>lt;sup>9</sup> In Yangon, delineation of the boundaries of blocks was jointly undertaken by the CDCs and Ward Administration Officers, verified and validated by YCDC-PIU, YCDC-Infrastructure and Urban Amenities Planning Section Head, Hlaingtharyar Road Division, General Administration Department, and Hlaingtharyar Township Development Committees

<sup>&</sup>lt;sup>10</sup> Each block consists of around 100 households and is represented by 1 CDC (each CDC has a minimum of 10 members). The basis used for establishment of the blocks was a pre-existing ad hoc system whereby "project support groups" (PSGs) are formed as needed (i.e. when there are projects in the area) per 100 households. PSG members are usually those who are considered "respectable members" of the community. One leader is elected for each group of 10 households. This system was adjusted to ensure sectoral representation (e.g. 40% women, representation of senior, youth, ethnic minorities where present). The formation of blocks and establishment of CDCs began in December 2016. The CDC membership went through several iterations before being finalized as the community members had to discuss this amongst themselves.

complete with attendance lists, questions raised and response provided by project team, which were incorporated in the regular quarterly project progress reports.

- 15. The International Environmental Specialist conducted consultation meetings with key stakeholders and government agencies involved in environmental compliance and field work at the sites of the proposed subprojects in Yangon and Mandalay as follows:
  - MoC-PMU Head Daw San San Aye and Deputy Head Daw Htar Htar Soe
  - YCDC-PIU Head Dr. Toe Aung and YCDC-PIU Member Daw Nyein Aye
  - MCDC-PIU Key Person U Tun Kyi and MCDC-PIU Member Ei Ei Phyo
  - YCDC-Pollution Control and Cleansing Department Head Ret-Lt. Col Cho Tun Aung
  - YCDC-Pollution Control and Cleansing Asst. Department Head Dr. Aung Mvint Maw
  - YCDC-Pollution Control and Cleansing Asst. Department Head U Saw Win Maung
  - YCDC-Health Department Officer for Dala Township Dr.Aung Ko Oo
  - YCDC-Health Department Officer for Hlaing Tharyar Officer for Shwe Baw
  - MCDC-Water and Sanitation Department Head U Tun Win
  - MCDC-Cleaning Department Officer U Ye Kyaw Swa
  - MCDC-Staff Officer Daw Theingi Kyaw
  - MCDC-Senior Assistant Engineer Daw Thin Thin Htay
  - MCDC-Pyigyidagon Township U Myint Aung
  - MCDC-Medical Officer for Chanmyathazi Dr. Tin Tin
  - MCDC-Medical Officer for Pyigyidagon Dr. Hinin Zaw Thein
- 16. Community consultation on the environmental impact of the proposed subprojects for the target grant areas in the 12 communities of Myanyinandar Ward in Channyathazi, Sa Ward and Thinpangone Ward of Pyigyidagon was also conducted on 30 June-1 July 2016. The activity report was incorporated in the 2nd Quarterly Project Progress Report for 2016.
- 17. Newly appointed Ward Executive Officers for Ward 7 and Ward 10 in Hlaing Tharyar and key CDC Members were provided Project Orientation and consulted on their perceived problems and proposed solutions to address community infrastructure deficiencies; and selection criteria for grant areas (Attachment D– Minutes of Meeting dated 20 May 2016 with Ward Executive Officers and CDC Members of Ward 7 in English and Myanmar languages and Attachment E Minutes of Meeting dated 20 May 2016 with Ward Executive Officers and CDC Members of Ward 10 in Hlaing Tharyar Township in English and Myanmar languages).

## VI. GRIEVANCE REDRESS MECHANISM

18. The Project Grievance Redress has not yet been established. No complaints/grievances have been recorded as yet.

## VII. CONCLUSIONS

19. The project is still in preparation stage for subprojects and procurement has yet to start. Issues in social safeguards implementation were flagged, and recommendations have been provided. Progress will be reported in the next semi-annual monitoring report.

Project Team Leader ADB-Grant 9177 Pro-poor Community Infrastructure & Basic Services Project

## Subject: Hlaing Thar Yar Township Project Areas Wards Land Tenure Status

Reference: Letter dated 8-6-2016 from the Project Manager/Team Leader Ms. Girlie Labastilla

- Based on the above-referenced letter from the Project Team Leader Ms. Girlie Labastilla requesting for land tenure status certification for the ADB Grant 9177 Pro-Poor Community Infrastructure & Basic Services Project, Sub-Project areas in Hlaing Thar Yar Township specifically, Ward 7 (Blocks 1,4 & 19) and Ward10 (Blocks 1,3 & 9), the ground survey was conducted by the Wards Executive Officers.
- The presented sub-project areas' maps were scrutinized and verified by the City Planning & Land Administration Department from the records of Block Maps, Town Land Roll and Assessment Roll, and found out that the blocks permits and grants were in accordance with the attached table.

### ATTACHMENT C: ACTIVITY REPORT

# Public Consultation on the Environmental Impacts of Subprojects 30 June and 1 July 2016 Chanmyathazi and Pyigyidagon Townships in Mandalay

### **Project Team Members Present:**

International Environment Specialist - Ruel Janolino
Project Manager/Team Leader - Girlie Labastilla
National Social Development and Gender Specialist - U Aung Ngwe
National Assistant Engineer 2 – Mandalay - U Soe Moe Khaing

### **MCDC-PIU Members Present:**

30 June: U Min Min and U Thi Han Htetstaff of Water Supply and

SanitationDepartment (WSSD) from MCDC; U KyawMyintNaing Staff from

Chanmyathazi Township Development Department

1 July U Min Min and U Thi Han Htetstaff of Water Supply and Sanitation Department

(WSSD) form MCDC, U Myint Aung Staff from Pyigyidagon Township

**Development Department** 

### **Ward Officer Present:**

U Htay Aung Thinpangone Ward Administrator

**CDC Present:** Refer to Attendance sheets

Date	CDC Participants	Number of Participants*	Venue
30 June 2016; 10 am	Chanmyathazi, Mandalay: 4 CDCs (Block 22, 23, 24, 25)	Total 27 CDC Members (10 male; 17female or 59%)	24/25 Damayone
1 July 2016; 10 am	Pyigyidagon, Mandalay: 5 CDCs of Sa Ward (Htata 4, Htata 5, Tata 5, Tata 6, Tata 17)	Total- 20CDC members (10 male; 10female or 50%)	Ta Ta 6 Damayone
1 July 2016; 1 pm	Pyigyidagon, Mandalay: 3 CDCs of Thinpangone Ward: (Nyanya 20, Nyanya 31, Nyanya 34)	Total – 12CDC <b>m</b> embers(5 male; 7 female or 71%)	Thinpangone Ward Administration Office

Notes: refer to Appendix 1 for Attendance sheet.

### PROGRAM OF ACTIVITY

Based on the suggestions of the Ward Executive Officers, the schedule of public consultation in Myanyinandar, Saand Thinpangone Wards were set as follows:

- Morning sessions commencing at 10:00 am in MyanyinandarWard and Sa Ward
- Afternoon sessions starting at 1:00p.m. in Thinpangone Ward

Time	Activity / Topic	Responsible Person / Facilitator
10:00-10:30 1:00–1:30	Registration of Stakeholders	Project Team
10:30-10:45 1:30 – 1:45	Welcome Remarks	Ward Executive Officer
10:45-10:55 1:45 –1:55	Objective of the Public Consultation	Project Team
11:00-13:15 2:00–4:15	Views/ Discussions / clarifications	Project Team
13:15-13:30 4:15 – 4:30	Closing Remarks	CDC Head

# **Summary of Public Consultation Proceedings**

The public consultation approach focused on questions and answering the potential problems or issues raised by the community residents represented by the CDC members, women and IPs. **International Environmental Specialist RuelJanolino's discussion** 

- 1. The objective of the public consultation on the environmental impacts of the proposed subprojects is to get the ideas, views, issues and potential problems during project implementation/construction period as identified by the community residents represented by the CDC Members, women, respected community leaders including the indigenous people's groups. The International Environmental Specialist encouraged the community participants to raise their questions and express their ideas on the potential issues or problems that may arise during implementation of the subprojects
- Further explained was that ADB projects ensured compliance with regards to ADB safeguard policy, including environmental safeguard. Issues and problems would be discussed to find solutions that are feasible and acceptable to the affected communities and contractor.
- 3. Before construction, it is proposed to create a Grievance Redress Committee which will consist of representatives from the CDCs (3 members), Ward Administration Office (1), Contractor (1), MCDC-PIU Staff (1). The membership of the Committee will be confirmed by MCDC. The objective of the Grievance Redress Committee will be to solve the problems occurring during construction.

## **SDGS U Aung Ngwe**

1. U Aung Ngwe facilitated the public consultation regarding the potential environmental impacts and risks. He allowed the participants to voluntarily raise questions and ensured that ideas were drawn from all the communities represented by encouraging the participants to speak up one by one to raise possible issues and problems during construction of drainage. International Environmental Specialist RuelJanolino responded to the questions of the consultation participants in English and was translated into Myanmar. 2. Refer to Matrix 1 for the outputs listing the problems and issues on the potential environmental impact of the proposed subproject such as the community drainage construction raised by the community representatives and corresponding response which will be incorporated in the Initial Environmental Examination and Environmental Management Plan to be prepared for each subproject requiring such documentation.

Matrix 1. Outputs for Public Consultation on Environmental Impacts of Subprojects

Name	Block	Issues/ Concerns Raised	Project's Responses
Myanyinandar P	ublic Consulta	ation	
Daw War WarKhine	Va-24	People might find it difficult to use their vehicles due to piles of excavated soil on the road	The contractor will closely coordinate with the Community Development Committee (CDC) to find solutions that will be acceptable to all
Daw Aye	Va-25	During construction, water from the drainage may flow to the houses at elevation lower than the construction area.	The Contractor will be required to implement measures that will avoid inconvenience to the public.
U NyuntHlaing	Va-23	Expressed worry for the loss of unguarded construction materials	The Contractor will closely coordinate with CDCs to prevent this.
DawMoe Moe Aye	Va-24	Road might be slippery for walking due to excavated soil on the road	The contractor will closely coordinate with the Community Development Committee (CDC) to find solutions that will be acceptable to all
U ThetKo	Va-22	Excavated soil placed on the road for a long time may cause accidents	The contractor will closely coordinate with the Community Development Committee (CDC) to find solutions that will be acceptable to all
Daw Mar MarOo	Va 22	It might be difficult for people to walk due to piles of excavated soil.	The contractor will be required to implement measures ensuring public safety. The contractor will closely coordinate/consult with the Community Development Committee (CDC) to find solutions that will be acceptable to all.
Daw Hay Man Oo	Va-22	Construction wastes might contain	The contractor will be required to implement a

Name	Block	Issues/ Concerns Raised	Project's Responses
		dangerous materials such as broken glass	construction waste management plan
Daw San Win	Va-23	Construction vehicles might be too noisy during construction	The contractor will be required to implement measures for reducing construction noise
DawHtweHtwe Chit	Va-23	Limit the length of construction areas in order to avoid traffic problems	The project shall take the suggestion into consideration when planning for the construction activities
U Win Myint	Va 23	Subprojects should be implemented one by one as it may be difficult for CDC to follow through	Construction schedule will be presented to the CDC for proper coordination.
Sa Ward Public			
U Aung NaingHtun	Та Та-5	What will happen to some drainage sections already constructed by some homeowners?	These sections will be removed to conform with the new drainage system designed by engineers using MCDC standards
U Ye Win	Та Та5	Can the people complain if the constructed subproject drainage is not better than those constructed by some homeowners?	This can be avoided since the MCDC standards will be observed are for city drainage systems.
Daw Mar Mar Wai	Та Та5	It might be difficult for homeowners to use their vehicles if the excavated soils are improperly placed on the road.	The Contractor will closely coordinate with the Community Development Committee (CDC) to find solutions that will be acceptable to all. A Traffic Management Plan will be prepared by the Contractor in consultation with the CDCs to find acceptable solution to this concern.
U Shan Lay (IP-Shan)	HtaHta5	Heavy construction equipment might damage the existing pavement	The Contractor will closely coordinate/consult with the Community Development Committee (CDC) to find solutions that will be acceptable to all.
Daw Maw Maw Thin	Та Та5	Excavated soil placed on the road may cause accidents since the roads are narrow	The Contractor will closely coordinate/consult with the Community Development Committee (CDC) to find

Name	Block	Issues/ Concerns Raised	Project's Responses
			solutions that will be feasible and acceptable to all.
U Yaung Tin	Hta Hta 5	What will happen to some trees and beetle shops located at the edge of the drainage line?	As per GIM, any civil works or infrastructure upgrading that may cause any involuntary resettlement (IR) or land acquisition or indigenous people's impacts willnot be eligible to be financed under this Grant. This is the reason why IR is included in the criteria for exclusion of subproject or grant area which has this major consideration.
U Khin Mg Lwin	Та Та 6	The existing concrete drainage constructed by individual households did not follow MCDC standards.	The Contractor will implement the PIT Engineers design approved by MCDC which will be based on topo survey studying the elevation to ensure that waste water will flow and be drained properly. Those existing drainage that does not conform with the design will have to be reconstructed to fit into the design.
Daw Ngai Ngai Moe	Та Та6	Construction materials such as brick piles are dangerous to children	While the contractor will closely coordinate with the Community Development Committee (CDC) to find solutions that will be acceptable to all, homeowners shall also do their part by guiding and controlling their children to avoid accidents
Daw Saw Thidar (IP- Shan)	Та Та-6	It might be difficult during construction for homeowners to move their vehicles in and out of their properties	The Contractor will be required to provide temporary access ramps for vehicles and prepare a Traffic Management Plan in consultation with the community.
Daw Win WinKhine	Та Та-6	Construction materials such as brick piles and stones pose danger to children	The homeowners are exhorted to also do their part by guiding and controlling their children to avoid

Name	Block	Issues/ Concerns Raised	Project's Responses
			accidents. The Contractor will be required to implement measures by putting up barrier and markers for public safety.
U SoeMaung (IP-Shan)	HtaHta5	Excavated soil should be managed properly by the contractor	The Contractor will closely coordinate/consult with the Community Development Committee (CDC) to find solutions that will be feasible and acceptable to all.
Daw Aye Mein (IP-Plaung)	Ta ta 6	Construction materials such as brick piles can pose danger to the children	While Contractors will closely coordinate with CDC to find solution that will be acceptable to all, residents will also take responsibility by guiding and disciplining their children to avoid accidents.
Thinpangone Pu	ublic Consultat	ion	
U Khin Mg Win	Nya Nya-20	excavated soil placed on the road may cause accidents since the roads are narrow	The contractor will closely coordinate/consult with the Community Development Committee (CDC) to find solutions that will be acceptable to all.
U KyawNaing	Nya Nya-20	During construction, water from the drainage may flow to houses at elevations lower than the construction area	The Contractor will be required to implement measures that will avoid inconvenience to the public.
U Htay Aung	Nya Nya-20	Excavated soil may be used to fill lower elevation areas or earth roads	The project will take this suggestion into consideration.
Daw Tin Shwe	Nya Nya-20	It might be difficult during construction for homeowners to move their vehicles in and out of their properties	The contractor be required to provide temporary access ramps for vehicles and prepare a Traffic Management Plan in consultation with the affected communities.
DawThandar Win	Nya Nya-20	Construction materials such as brick piles may pose danger to playing children	While the contractor will closely coordinate with the Community Development Committee (CDC) to find solutions that will be acceptable to all, the

Name	Block	Issues/ Concerns Raised	Project's Responses
			homeowners are exhorted to also do their part by guiding and controlling/disciplining their children to avoid accidents.
Daw Po Po Win	Nya Nya-20	Construction vehicles might be too noisy	The contractor will closely coordinate with the Community Development Committee (CDC) to implement measures that will mitigate the noise impact caused by construction activities.
U Htay Win	Nya Nya-31	Vehicles of homeowners might have difficulty accessing the community road during construction period	The contractor will closely coordinate with the Community Development Committee (CDC) to find solutions that will be acceptable to all such as preparing Traffic Management Plan in consultation with the affected communities.
U Aung Htay	Nya Nya -31	Can the people complain if the constructed community drainage subproject is not better than those by some homeowners?	This can be avoided since the Contractors will implement based on the PIT Engineers will design founded on the topo survey and MCDC standards for city drainage system.
DawPhyu	Nya Nya-34	Will the roadside sellers/vendors move their shops/stalls during construction period?	Prior to construction, the CDC will coordinate with Ward Administrator and TDC to dismantle the stores or any structure illegally encroaching on the drainage lines.
DawNyeinNyein	Nya Nya-34	It might be difficult for people to walk on the road due to piles of excavated soil	The contractor will be required to implement measures for public safety; The contractor will closely coordinate with the Community Development Committee (CDC) to find solutions that will be acceptable to all by providing pedestrian access during construction period.

Name	Block	Issues/ Concerns Raised	Project's Responses
DawThidar Win	Nya Nya-34	Loading and unloading of construction materials might cause accidents to people	The contractor will be required to implement measures for public safety
U Htay Aung	Thinpangone Ward Administrator	There should be a Solid Waste Management Plan to properly manage the waste generated during clearing and construction.	This will be included in the Environmental Management Plan and required to be implemented by the Contractor.

### **Project Manager/Team Leader concluding discussion**

- 1. ADB Grant 9177(MYA) under JFPRmentioned the target schedule to implement by October 2016 and reminded the participants about the budget limitation of US\$1 million for civil works' sub-projects to be divided/distributed among the target grant areas (a total of 12 blocks) in Mandalay, i.e., 4 blocks in Myanyinandar Ward of Chanmyathazi and 8 blocks in Pyigyidagon Township of which 3 blockswere from Thinpangone Ward and 5blocks from Sa Ward.
- 2. The CAP Workshop outputs indicated that the blocks generally selected three priorities: i) tertiary drainage; ii)community road; and iii) household sanitation, except for Nya Nya 34 which put water supply as its second priority and VA 22 indicated solid waste management as third priority. In the 12 blocks in the 3 townships, most of the roads are not footpaths but regular community roads measuring at least 40-60 feet width.
- 3. Based on the project GIM, there is a budget allocated for footpath/streetlightingbut not for secondary community road measuring around 40 feet which will not be sufficient to finance the 12 blocks which indicated community road as their 1<sup>st</sup>, 2<sup>nd</sup> or priority subproject. As such, the small budget may be shifted to high impact subprojects depending on the decision on the communities. The CDC Members will have to consider prioritizing high impact subprojects benefitting more residents given a constrained budget. For instance, the budget allocated for latrine with concrete pit subproject is estimated for 1,000 households. Based on the survey conducted in December 2015, there were 815 households with latrine with bamboo pit in the 12 blocks of the target areas in Chanmyathazi and Pyigyidagon which can be fully implemented being within the budget allocation for 1,000 households. For community drainage, budget allocation is only US\$350,000 to match the 12 blocks which placed community drainage as their top priority. This means that not all 12 communities will be considered for community drainage subproject given a preliminary estimate unit cost of US\$282 per 3-meter length x 1.1 m width as against the limited budget for community drainage at US\$350,000 for Mandalay as per GIM.
- 4. The IC will have to assist the CDCs in rationalizing the selection of the target grant areas for the community drainage. Among the selection criteria which have been discussed included:

no involuntary resettlement issues, proximity to the city drain, most needy/heavily flooded, no other international grants/funding received from other others, to be matched with budget for civil works.

- 5. The PIT Engineers will start survey in preparation for the design and measurement of drainage, including the mobilization of topo surveyors and observation of flooding measurement and extent of affected households during rainy days. After topo survey and preparation of design, they will prepare the cost estimates for civil works. All these will be presented to the communities to finalize which among the blocks deserve to considered for the community drainage subproject. we planned to do drainage effectively and efficiently.
- 6. Noting that most problems raised were during construction period, the IC discussed the potential environmental impact during operational period through the years of infrastructure life. Drainage operation and maintenance entails cost. Cleaning up or declogging community drainage has cost. The community will have to collaborate in saving/creating funds or contributing labor for operation and maintenance (O&M).

# **General Observations and Recommendations Observations**

- 1. Most of issues and problems raised were concerning with solid waste management and construction equipment and material management. Some CDC members cited the potential danger caused by excavated soil such as slippery surface and piles of construction materials that would result to accident among children playingon the streets, traffic accidents and public disturbance caused by loading and unloading of excavated soil and construction materials. construction materials and some are caused by lack of CDC management.
- 2. Participation of CDCs In Myayinandar ward, attendance was generally satisfactory, except for Block 23 with only 3 representatives and Block 24 with only 5 representatives as it was a working day. The moment they heard that the objective of the consultation was raise issues and potential problems that the subproject may bring representatives from different blocks already raised their voices to express their views. Women were the first set to identify potential problems followed by elder men. Many repeated the same issues and some women were reluctant to speak as their concerns were already raised by other attendees.
  - In Sa Ward, attendance and participation in discussion was also generally satisfactory, except that no representative from Tata 17 participated during the consultation. In Thinpangone ward, attendance was of CDC Members of Nyanya 20 was very satisfactory (all CDC members participated) but only 3 representatives from Nyanya 31 and another 3 representatives from Nyanya 34 participated during the consultation.
- 3. Participation of Indigenous people Four representatives of Indigenous Peoples (2-Shan and 2-Palaung) from Sa Ward actively participated duringthe public consultation on the environmental impacts and risks by asking questions that would potentially and directly affect them during construction period. The IP representative (Rakhine group) fromNyanya 20 could not attend because on work travel.

4. The Communities expressed positive response and posed no objection to the suggestion for them to share responsibilities in mitigating the potential social and environmental problems that may arise during project implementation as well as in operating and maintaining a sustainable community infrastructure that will be turned over to them as grant from ADB under JFPR.

### Recommendations

- 1. During construction period, regular coordination and communication among CDC members and contractor(s) is necessary to avoid the unexpected problems.
- 2. Traffic Management Plan, Solid Waste Management Plan and Construction Material Control Plan should be stipulated in the Environmental Management Plan and Contractors' contract.
- 3. Representativeness of the membership of the Grievance Redress Committee shall be ensured by mobilizing the existing and functional CDC Management Committees, Ward Administrators, Township Development Committee, staff from MCDC-Road and Bridge Construction Department which is responsible for drainage aspects and Contractor's representative.
- 4. Before construction, social and environmental safeguard issues should be recorded and reported to concerned Ward Administrators and MCDC.
- 5. To conduct another consultation on Environmental Safeguard for Tata 17 and to invite representative from Rakhine of Nyanya 20 to participate on consultation regarding social and environmental safeguards.

# Photo documentation during the Public Consultation on the Environmental Impacts of Subprojects in Myanyinandar Ward, Chanmyathazi Township

Participants are signing in attendance record

SDGS U Aung Ngwe introduced the International Environmental Specialist RuelJanolino and the PM TL Girlie Labastilla to the participants

International Environmental Specialist Ruel Janolino explained the objectives of Public Consultation and Social Development and Gender Specialist U Aung Ngwe translated into Myanmar language.

PM TL Girlie Labastillaexplained the implementation schedule and budget limitation

Daw War WarKhine(Va 24 CDC Member) cited the potential danger of crossing earth drainage for vehicle owners

Daw Aye (Va 25 CDC Member)raised her concern on excavated waste may over flow the houses at the lower level

Daw Moe Moe Aye (Va 24 CDC Member) mentioned the potential accident due to slippery road caused by excavated soil

U Nyunt Hlaing (Va 23 CDC Member) expressed worry for theloss of unguarded construction materials

U Win Myint (Va 23 CDC Member) expressed worry about the low quality of construction and lack of supervision

MCDC Staff U Thi Han Htet signing the attendance sheet

### ATTACHMENT D

# MINUTES OF MEETING WITH WARD EXECUTIVE OFFICERS AND CDC MEMBERS OF WARD 7 (DATED 20 MAY 2016)

### **MINUTES OF MEETING**

**Location:** Ward 7 EO Office **Date:** 20 May 2016; Friday 9:30 a.m.-12:00 noon

# **Attendance**

- 1. U Kyin Zaw, Ward 7 Executive Officer
- 2. U Mya Nyein Block 1 Leader
- 3. U Win Kyaing Block 4 Leader
- 4. U Aung Than Zaw Block 19 Leader
- 5. U Naing Win, Ward 7 respected person
- 6. U Maung Win, Ward 7 respected person
- 7. U Win Shein, Ward 7 respected person
- 8. Girlie Labastilla, IC-Project Manager/Team Leader, LIDP
- 9. U Tin Sein, PIT Head/Senior Engineer, MMIC
- 10. U Aung Thura Ko Ko, PIT Assistant Engineer, MMIC

## II. Agenda Items

- Project Background
  - PM/TL Labastilla explained the objectives and scope and limitation of Grant 9177 covering 4 townships (2 in Yangon and 2 in Mandalay) with only US\$2 million for civil works.
  - PIT Head U Tin Sein presented the map of the established 23 blocks boundary to the new Ward EO.
- Social and Environmental Safeguards PM TL Labastilla explained that the Grant 9177 Project was aimed at: i) ensuring community-driven development where various stakeholders would have to be consulted including youth, senior citizens, CBOs, women, ethnic groups, and the vulnerable sectors; ii) mainstreaming gender and development (involving/empowering women in the planning and implementation process); iii) environment and social safeguards (assessing and mitigating the potential negative impact of the proposed subprojects on the environment and social impact in terms of involuntary resettlement, land acquisition and indigenous peoples.
- Selection of grant areas
  - Ward 7 Executive Officer and Blocks leaders, respected persons in Ward 7 acknowledging the poor sanitation and environmental condition of communities discussed the selection criteria and agreed on which blocks to prioritize. The selection criteria were: 1) poorest block(s); 2) most flooded; 3) land tenure clear

and firm; 4) linkage to secondary and/or primary infrastructure, etc./nearest to the outlet of the drain. The Ward 7 Executive Officer, Ward 7 group leaders and respected persons present during the meeting agreed to prioritize on Block # 1, 4 and 19.

- Block 1 (with a population of 1,515, 265 households and 145 houses); Block 4 (with a population of 2071; 522 households and 165 houses); Block 19 (with a population of 4,793; 711 households and 650 houses) were recommended to be the grant areas.
- For Household Sanitation Improvement the selected blocks in Ward 7 were Blocks # 4 and #19.
- For water supply access, all the households 23 blocks in Ward 7 ward need to buy drinking water amounting to MMK 300 for 20 litres and MMK 250 MMK for 5 gallon of Thae Phyu water from YCDC. The tube wells water had high iron content and can use only for other purposes. YCDC planned to supply Hlaing Tharyar Township with Koke Ko Wa river water supply in 2018. Therefore the Ward 7 Executive Officer, blocks leaders and respected persons, suggested to transfer the water supply budget of the project to the community in most need for drainage solution by constructing box culverts. They expressed their preference for box culverts than the pipe culverts construction cited the negative experience during the implementation of Hlaing Tharyar new town project where many pipes culverts constructed at the junctions of the roads sank and got damaged due to heavy traffic passers. As a result, the damaged of culverts constrained the flow of the water and became very difficult to clear to allow smooth flow of the drain.
- Tertiary drainage Ward 7 Executive Officer and Blocks leaders, respected persons prefer to construct the drainage system but however, due to budget constraint, and the cost of the construction of drainage system is high, and they prefer to build box culverts as far as the budget allows on the priority blocks and if the budget still permits on the adjacent blocks as well.( To get the higher budget on most needed box culverts construction they suggest to transfer budget from water supply, drainage and roads to box culverts constructions). The consultation meeting participants agreed to prioritize the most needy blocks in terms of community drainage requirement, i.e., Block 1 and Block 4 which were most flooded area among other blocks in Ward 7 during rainy season and which were nearest to the outlet drain (about 200 m) and if budget allows to construct the box culvert to the adjacent blocks for improvement of flow of water in the ward.
- Solid Waste Management System No 7 ward EO, block leaders and ward 7 respected persons said they need Solid Waste Management System in the blocks where Hlaing Tharyar Township waste collection trucks could not enter. They will inform to the PIU the most needs blocks for solid waste management system in the ward. They prefer to get steel waste transfer bins which can load by hook lift truck of Hlaing Tharyar TDC, Cleansing Department had already used in the waste collecting system. The approximate prize of the steel waste transfer bin is about 4.500 USD.
- Survey on Community Infrastructure Deficiency to be undertaken by the CDCs for selected blocks (Block 1, Block 4, and Block 19)
- CDD-GM-CAP Orientation and CAP Workshop to be undertaken PM/TL explained that these activities would have to be conducted in order to ensure that the CDCs

comprising of representatives from different sectors would participate in the planning (identification and prioritization) and implementation of subprojects proposed to improve the existing deficient community infrastructure and basic services.

# **III.** Action Items

- Social and Environmental Safeguards
  - Ward Executive Officer, CDC Members and respected community leaders present ensured that there would be no land tenure issues for target grant areas/beneficiaries in Ward 7 and would assist in providing documentation on land tenure
  - Ward Executive Officer, CDC Members and respected community leaders present also committed that women and IPs will be enjoined to participate in the CDD-GM-CAP Orientation and CAP Workshop
  - To ascertain broader sectoral participation, CDD-GM-CAP activities were proposed to be held on Sunday
- Social and Environmental Safeguards
  - Ward Executive Officer, CDC Members and respected community leaders present ensured that there would be no land tenure issues for target grant areas/beneficiaries in Ward 7 and would assist in providing documentation on land tenure
  - Ward Executive Officer, CDC Members and respected community leaders present also committed that women and IPs will be enjoined to participate in the CDD-GM-CAP Orientation and CAP Workshop
  - To ascertain broader sectoral participation, CDD-GM-CAP activities were proposed to be held on Sunday
- Social and Environmental Safeguards
  - Ward Executive Officer, CDC Members and respected community leaders present ensured that there would be no land tenure issues for target grant areas/beneficiaries in Ward 7 and would assist in providing documentation on land tenure
  - Ward Executive Officer, CDC Members and respected community leaders present also committed that women and IPs will be enjoined to participate in the CDD-GM-CAP Orientation and CAP Workshop
  - To ascertain broader sectoral participation, CDD-GM-CAP activities were proposed to be held on Sunday
- Selection of grant areas
  - Basis for selection (poorest community and linkage to secondary and/or primary infrastructure, etc.) – Minutes of Meeting/Resolution to be prepared by PIT and signed by participants
- Survey on Community Infrastructure Deficiency to be submitted by Ward Administrator on 27 May 2016

 CDD-GM-CAP Orientation and CAP Workshop schedule for CDCs of Block #s. 1,4 and 19 to be finalized

Activities	Tentative (subject to YCDC & MoC Confirmation)	Final date set
CDD-GM-CAP Orientation for Ward 7	29 May 2016	12 June 2016
CAP Workshop for Ward 7	5 June 2016	19 June 2016

### **ATTACHMENT E**

# MINUTES OF MEETING WITH WARD EXECUTIVE OFFICERS AND CDC MEMBERS OF WARD 10 IN HLAING THARYAR TOWNSHIP (20 MAY 2016)

### MINUTES OF MEETING

**Location:** Ward 10 EO Office **Date:** 20 May 2016; Friday **Time:** 11:00 a.m.-12:00 noon

# **Attendance**

- 11. U Tet Sun, Ward 10 Executive Officer
- 12. U Myo Thant Block 1 Leader
- 13. U Pha Way Block 2 Leader
- 14. U Mg Nyo Block 3 Leader
- 15. U Myint Than Block 4 Leader
- 16. U Than Win Block 5 Leader
- 17. U Tin Than Block 6 Leader
- 18. U Aung Thein Block 7 Leader
- 19. U Tin Htey Block 8 Leader
- 20. U Kyaw Htey Block 9 Leader
- 21. U Than Htun Block 10 Leader
- 22. Girlie Labastilla, IC-Project Manager/Team Leader, LIDP
- 23. U Tin Sein, Yangon-PIT Head/Senior Engineer, MMIC
- 24. U Aung Thura Ko Ko, Yangon-PIT Assistant Engineer, MMIC

### II. Agenda Items

- Project Background
  - PM/TL Labastilla explained the objectives and scope and limitation of Grant 9177 covering 4 townships (2 in Yangon and 2 in Mandalay) with only US\$2 million for civil works.
  - Social and Environmental Safeguards PM TL Labastilla explained that the Grant 9177 Project was aimed at: i) ensuring community-driven development where various stakeholders would have to be consulted including youth, senior citizens, CBOs, women, ethnic groups, and the vulnerable sectors; ii) mainstreaming gender and development (involving/empowering women in the planning and implementation process); iii) environment and social safeguards (assessing and mitigating the potential negative impact of the proposed subprojects on the environment and social impact in terms of involuntary resettlement, land acquisition and indigenous peoples).
  - The CDCs ensured that women, indigenous peoples and other vulnerable groups will be engaged in the participatory CAP Workshop and other consultation activities.

 CDC Head of Block 3, Ward 10 namely U Pha Way represents Kayin ethnic groups/nationality; and CDC Head of Block 2, namely U Mg Nyo representing Rhakine ethnic group/nationality were present and agreed to participate in the succeeding CDD-GM-CAP Oreintation, CAP Workshop and other consultation activities.

### Selection of grant areas

- Ward 10 Executive Officer and 10 blocks leaders discussed on which blocks to prioritize for the project with the selection criteria of 1) poorest 2) most flooded 3) land tenure clear and firm 4) nearest to the outlet of the drain. Based on the grant area criteria developed by the Ward 10 EO and CDC leaders present during the consultation meeting, they agreed to prioritize Block Nos. 1, 3 and 9 for the proposed flood mitigation subproject.

# Community Infrastructure

- Household sanitation improvement In Ward 10, household sanitation improvement was identified as the priority needs in Block Nos. 1 and 3. Ward 10 Executive Officer U Tet Sun and CDC leaders of Block 10 promised that they would ask the residents who can afford to do for construction of household sanitary latrine or sucking out of full latrine pits to do their selves and agreed that the households which cannot afford to construct a new latrine or sucking out of full latrine pit given their limited income will be supported by the project. The extra budget that can save from household latrines they wanted to use on the most needs area of their ward i.e., box culverts construction.
- Water supply access All the 10 blocks in Ward 10 purchase drinking water at MMK 300 for 20 litres water bottle and MMK 250 for 5 gallons of The Phyu water from YCDC. The water tube wells could not be used for drinking due to high iron content and only utilized for other purposes. YCDC planned to supply water to Hlaing Tharyar Township by 2018 from the proposed Koke Ko Wa river water supply. Ward 10 EO and 10 blocks leaders wanted reallocate budget for water supply to its proposed priority subproject box culverts construction. They expressed preference for box culverts than the pipe culverts construction due to their experience during the implementation of Hlaing Tharyar new town project where many pipes culverts constructed at the junctions of the roads sunk and got damaged to the heavy vehicle traffic passing on. Due to the damaged pipe culverts, the flow of water stopped and became very difficult to clear.
- Tertiary drainage According to the consulted Ward EO and CDC leaders and representatives, Block 1 was the most needy community being the most heavily flooded area during rainy period and the nearest outlet drain was about 170 m from the community. Given the limited budget allocation for drain construction, they expressed preference for the construction of box culverts.
- Solid Waste Management Ward 10 EO and block leaders said they needed to establish a Solid Waste Management System in the blocks where Hlaing Tharyar Township waste collection trucks could not enter. They will inform the YCDC-PIU in which block a solid waste management system will be established. The CDC representatives present during the consultation meeting expressed preference for steel waste transfer bins which can loaded by Hlaing Tharyar TDC hook lift trucks. Hlaing Tharyar TDC Cleansing Department already has a solid waste collection

system. The approximate cost of the steel waste transfer bin is about US\$4,500 per unit.

- Streetlighting During the Nargis cyclone in 2008, the electric posts erected by the Yangon Electric Supply Board were damaged, but the replacement has been not done to date due to budget constraints. Due to the poor condition of the electric post, an accident happen in June 2004 during which the electric wire drop down and killed three women on the spot.
  - Ward 10 EO and block leaders requested PIT to consider replacement of existing poor streetlighting electric post as one of the subprojects in Ward 10.
- Survey on Community Infrastructure Deficiency to be undertaken by the CDCs for selected blocks (Block 1, Block 3, and Block 9) will be submitted to IC on 27 May 2016.
- CDD-GM-CAP Orientation, Knowledge sharing (if needed) and CAP Workshop to be undertaken – PM/TL explained that these activities would have to be conducted in order to ensure that the CDCs comprising of representatives from different sectors would participate in the planning (identification and prioritization) and implementation of subprojects proposed to improve the existing deficient community infrastructure and basic services.

# III. Action Items

- Selection of grant areas
  - Minutes of Meeting will be prepared in English and Myanmar as documentation to be submitted to YCDC, MoC and ADB.
- Survey on Community Infrastructure Deficiency Ward 10 EOs committed to take pictures of the damaged electric posts in Ward 10 and conduct a survey to be submitted on 27 May 2016.
- Social and Environmental Safeguards
  - CDC Heads declared active participation in future CDD-GM-CAP activities They
    also committed that participation of women, IPs and representatives of vulnerable
    groups in CDD and CAP activities will be ensured.
- CDD-GM-CAP Orientation and CAP Workshop schedule

Activities	Tentative (subject to YCDC & MoC Confirmation)	Final date set
Survey submission	27 May 2016	27 May 2016
CDD-GM-CAP Orientation for Ward 10	30 May 2016	13 June 2016
CAP Workshop for Ward 10	6 June 2016	20 June 2016

This Minutes of Meeting dated 20 May 2016 held at Ward 10 Executive Office is hereby validated by Ward Executive and CDC representatives of Ward 10 affixing their signatures as follows:

# U Tet Sun Ward

Executive
