ENVIRONMENT MONITORING REPORT

I. Introduction

1. Asian Development Bank (ADB) has approved a project loan of US\$ 350 Millions in November 2014 for the reconstruction and rehabilitation of about 1600 km of major district roads. The Project was approved by ADB on 19th November 2014. The Loan Agreement signed on 20th February 2015 and declared effective on 27th March 2015. The project is divided into three packages, comprising of 18 civil work contracts i.e. package-1 (Bhopal-1) Package-2 (Jabalpur) and Package-3 (Bhopal-2). Package-1 civil work construction supervision is awarded to Intercontinental Consultant and Technocrats Pvt. Ltd. (ICT), Package-2 Projects is awarded to AECOM Asia Company Ltd. and Package-3 is awarded to Indian Technocrate Ltd.
2. These projects will improve transport efficiency of the State road network which will contribute to expansion of economic opportunities and poverty reduction. All above packages awarded under the project titled Madhya Pradesh District Connectivity Sector Projects (MPDCSP) and Madhya Pradesh Road Development Corporation (MPRDC) is the executing agency for the projects. The total project length is 1530.416 Km.
3. The Package-1 comprising of 7 packages consisting 7 civil work contracts i.e. A, B, C, D, E, F and G, consisting 7 roads, covering 380.58 km length of MDRs. Package-1 Projects awarded under the project titled **“Madhya Pradesh District Connectivity Sector Projects Package-1, Bhopal-1”**.
4. The Package-2, comprising of 4 civil work contract packages H, I, J and K, having 12 roads covering length of 375.59 Kms. Package-2 projects awarded under the project titled **“Madhya Pradesh District Connectivity Sector Projects-Package-2, Jabalpur”**.
5. The Package-3, comprising of 7 civil work contract packages, L, M, N, O, P, Q and R having 22 roads covering length of 774.246 Kms. Package-3 projects awarded under the project titled **“Madhya Pradesh District Connectivity Sector Projects-Package-3, Bhopal-2”**.
6. As per ADB's Safeguard Policy Statement (2009) and environmental assessment guidelines 2003, All the sub projects have been categorized as category B. The project has been divided into 18 packages consisting of 41 roads. Details of Civil work contracts and supervision consultants are given in table-1:-

III. Implementation of Environment Management Plan:

14. The IEE duly showed that the environmental impact would mostly occur during construction due to clearing for widening the carriageway, construction work related to compaction of the embankment and cut and fill, as well as the quarrying and borrowing to support construction activity. The overall environment categorization for the all roads of projects was categorised as category B, which were not expected to have adverse environmental impacts as shown in the findings of the initial environmental examination (IEE). During implementation, MPRDC implemented the overall mitigation measures, Environmental and Social Cell of MPRDC was responsible for monitoring of EMP implementation. MPRDC and Civil works contractors obtained all permissions required from related government agencies according to the applicable statutory environmental regulations to enable them to carry out without abiding country rules and regulations. MPRDC through its environmental expert and environmental specialist of supervision consultants closely monitors the implementation of environmental issues of all packages. Regular site visits and review meetings are being held with the nominated Environmental Officers of Contractor's staff of each project site. In addition to this, for effective day to day supervision of implementation of environmental aspects, the supervision consultants have designated their existing site staff (site engineer) to look after these aspects. The contractors have appointed Accident prevention officer (APO) at their construction sites. Contractors, who have yet to appoint the APO, are advised to designate safety officer for the respective contracts. Structure of Institutional setup to monitor EMP implementation on each project is being shown below:-

INSTITUTIONAL SETUP FOR EMP IMPLEMENTATION

15. The supervision consultants submit Monthly and Quarterly progress report to MPRDC that includes information on implementation of environmental issues. The environmental information captured in these reports includes environmental monitoring status of construction sites, pollution control measure being adopted, and measures for workers safety at construction site and camp site, safety of road user/public etc. Copy of permission/NOCs/Consent obtained during reporting period and site EMP implementation photographs also supplements with these reports. The Supervision Consultants have assessed the implementation of EMMP during the reporting period is satisfactory. However, use of personal protective equipment (PPEs) by the construction workers, safety arrangements, and construction zone traffic safety management of Package-E, M and O are required further up-gradation. Some of the photographs showing EMP implementation on site are provided in **Annexure-II**.
16. HIV/AIDS awareness and health checking campaign organised with the aim to reduce transmission risk of HIV infection among the construction workers and population living along the project roads. Awareness campaigns were conducted by the contractors of **Package-1**, Bhopal-1 on package-E. Contractors of **Package-2**, Jabalpur, pkg-H, I, and J conducted AIDS awareness campaign during reporting period. Contractors of **Package-3**, **Bhopal-2** also organised such programmes at their respective construction sites through designated agencies. Dates and location of conducted HIV/AIDS awareness program are listed in below given table-4 and photographs of campaigns are provided in **Annexure-II**.

17. Public consultations were held at several locations during the site visit of Social Safeguard and Environmental Specialist of supervision consultant for ongoing contract package-E and Completed package-G of **Package-1**, Bhopal-1. Supervision consultant has gathered the participant's views with regards to all

aspects of environment, social, health and safety which may have direct or indirect impact. Public consultant conducted on pkg H,I and J under Package-2 Jabalpur project. Construction packages of **Pacakge-3, Bhopal-2** (pkg-L to R) conducted public consultation in all packages during this reporting period. Issues / problems raised in all the consultation are being addressed with appropriate feasible manner by the project authorities. Summary of public consultation conducted in reporting period are provided in **table-5** and some photographs of public consultations are given in **Annexure-II**. The complaint handling system has been established at each construction site for effective and timely redressal of public grievances. During implantation, MPRDC didn't receive any compliant from the public. The Supervision Consultants and contractors also not received any complaint from the public during this reporting period i.e. from January to June 2017.

IV. Approach and Methodology engaged for environmental monitoring of the project.

18. The Supervision Consultant instructed the civil work contractors to ensure the monitoring of ambient air quality, water quality and noise level as per the agreed monitoring plans. The sampling location for these components have been identified based on environmental sensitive locations like school, hospital, construction sites, pollution sources, discharge points, camp sites, forest area (If any) etc. The details on environmental components, parameters, methodology, duration of monitoring and instruments are described in following table-6.

Table: 6 ADB Approved environmental monitoring plan

Env. Component	Parameters (As given in IEE)	Method of Monitoring	Duration/Frequency of Monitoring	Instrument used
Air	PM _{2.5} , PM ₁₀ , SO ₂ , NO _x , CO.	High volume sampler to be located 50 m from the plant in the downwind direction. Use method specified by CPCB for analysis	24 hrs/ 8 hrs for CO. thrice in a year	High volume sampler
Water	pH, BOD, COD, TDS, TSS, DO, Total coliform, Conductivity, Oil & Grease.	Grab sample collected from source and analyzed as per Standard Methods for Examination of Water and Wastewater	Random sample thrice in a year.	-
Noise	Equivalent Noise levels on dB (A) scale for day and night	By using Noise meter	24 hrs. Thrice in a year.	Noise Meter

V. Environmental Monitoring (e.g. ambient air, surface water, ground water and Noise) status and findings:

19. The contractors hired the services of environmental monitoring laboratories, accredited by NABL/MoEF/SPCB, to monitor air, water and noise parameters. The contract package wise monitoring details are provided in **table-7**.
20. During this reporting period, monitoring of components such as ambient air quality, water quality and noise level was carried out by the civil work contractors. Contractors of **Package-1**, Bhopal-1, Package-C and E conducted environmental monitoring in the month of May at their project road. Rest of Packages of Bhopal-1 pkg-A,B,D,F and G have been completed. Contractors of Package-2, Jabalpur, Package-(H,I and J) conducted environmental monitoring in the month of January, February & May at their project road. All civil work contractors of Package-3, Bhopal-2 of packages (L,M,N,O,P,Q and R) have conducted environmental monitoring during reporting period. Pkg-L in the month of February and May 17, Pkg-M in the month of Feb-17, Pkg-N in the month of March and June 2017, Pkg-O in the month of March-17, Pkg-P in the month of June-17, Pkg-Q in the month of May-17 and Pkg-R in the month of February-17.

VI. Any other environmental aspects, impacts observed during implementation which was not covered earlier.

22. There is no such environmental aspect, which was not covered earlier.

VIII. Details of Redress Committee and complaints received from public and actions taken thereof to resolve.

23. The GRC (Grievance Redress Committee) for both State (MPRDC) and Divisional level (PIU) have been constituted for each road packages. In addition, a register of grievances is also placed in construction camp to register people's grievances, but none of the grievances were received till the end of reporting period neither in the PIU nor the Construction camp.

IX. Follow-up actions and conclusions

24. The Contractors of all packages has been advised to make compliance as per EMP and other contractual provisions. The contractors are continuously reminded to take care of environmental issues emerging by execution of project and strictly adhere to the provisions of EMP and FIDIC (conditions of contract for construction) to minimize negative impact on surroundings. EMP compliance status of all construction packages are satisfactory, though Construction zone safety, construction camp management and rehabilitation and restoration activity after completions of project are those areas which needs more attention. Contractor of Package-A, F, G, L, M, N, O, P, Q and R has been advised to complete plantation activity along the project road as construction of these projects has been already completed. The contractors are advised to obtain NOCs/Permissions those are still pending or applied. Contractors advised to conduct air, water and noise monitoring at their packages as per agreed monitoring plan. All contractors have been advised for timely renewal of labour license, consents/NOCs/Permissions which are nearing expiry date. Contractors who have not yet obtained DEIAA clearances for quarry / borrow area for the extraction of natural resources advised to obtain & submit the clearance at the earliest.
