SEMI-ANNUAL SOCIAL SAFEGUARD MONITORING REPORT

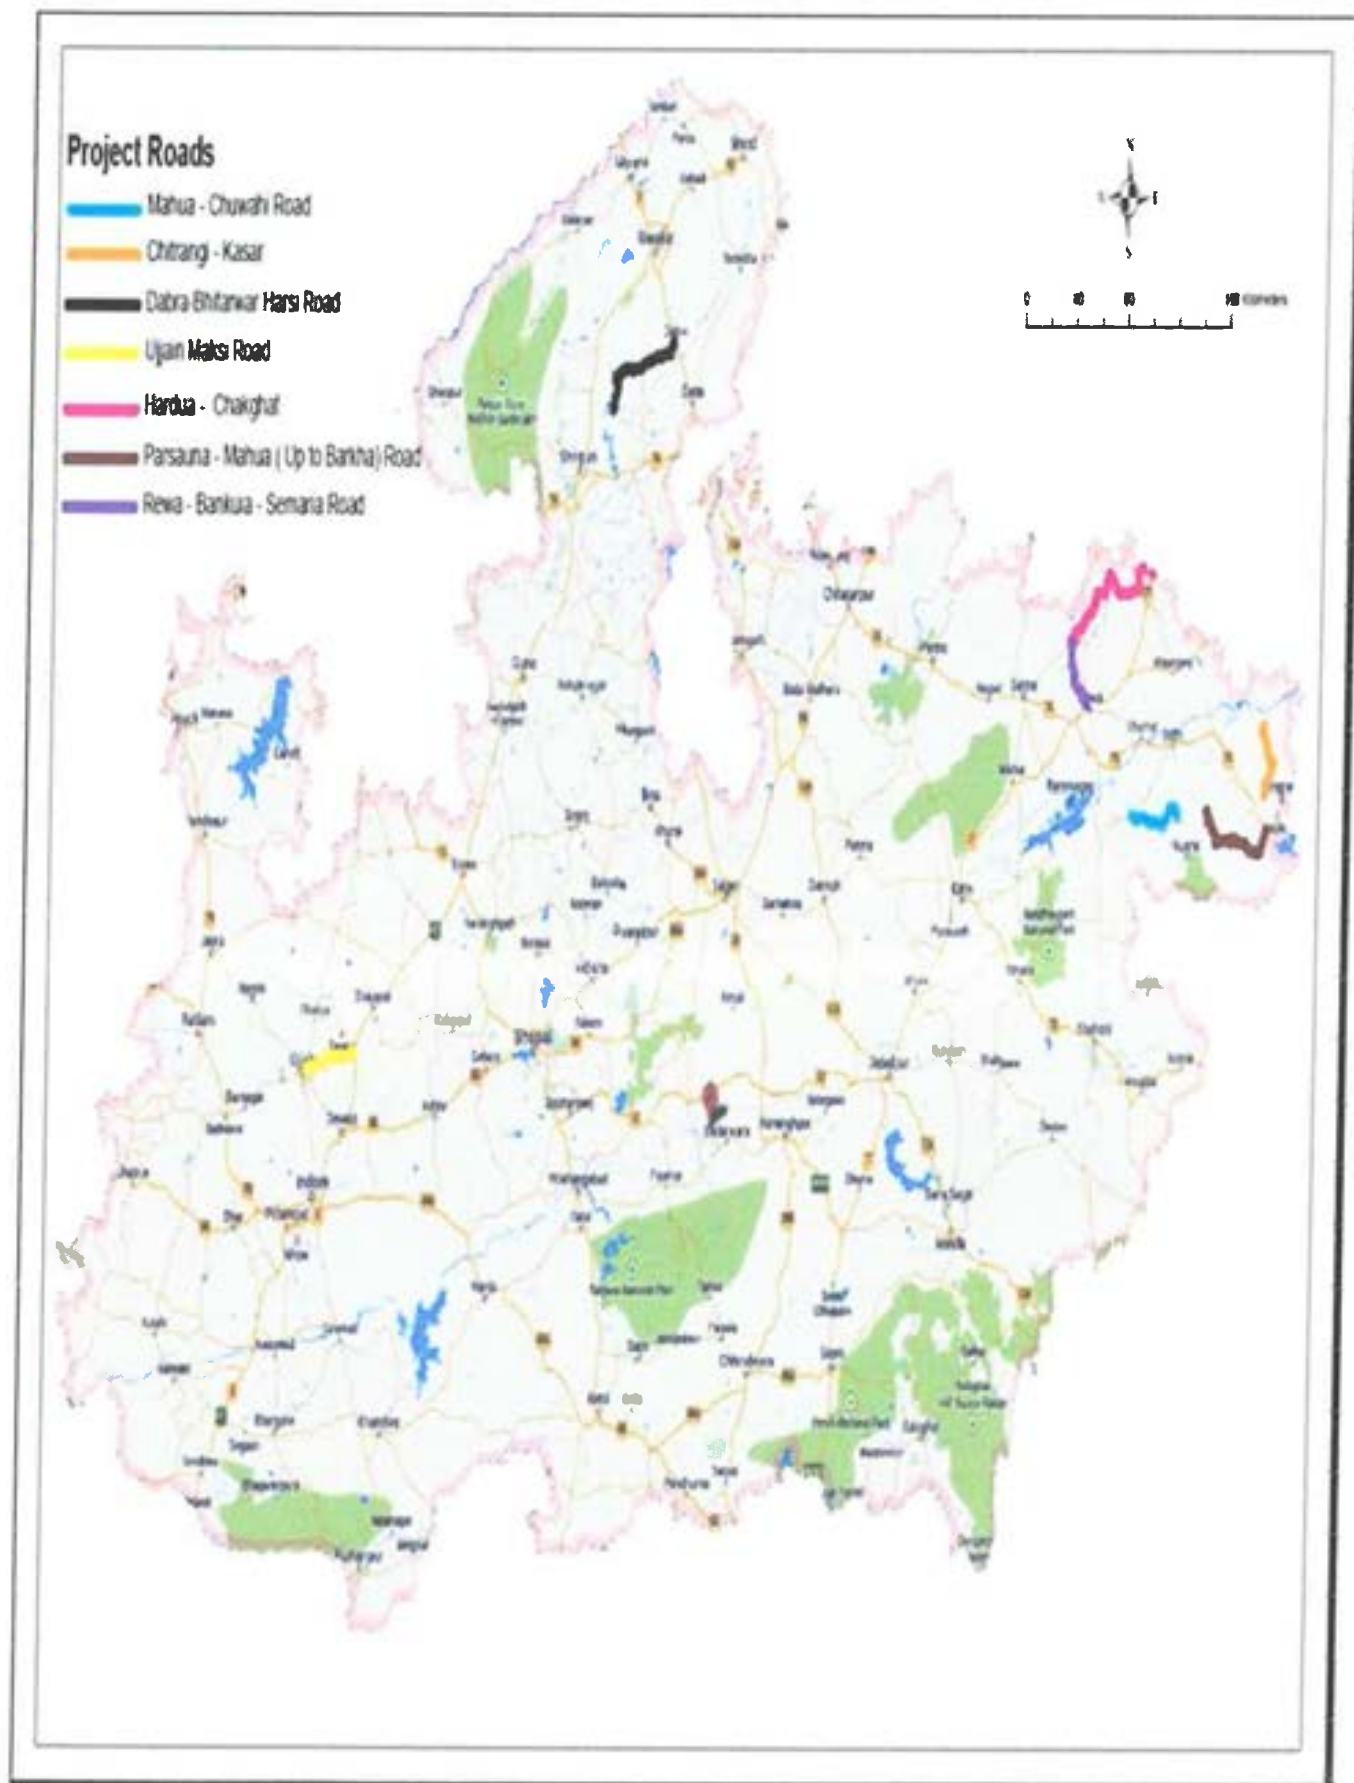

1. INTRODUCTION AND PROJECT BACKGROUND

1.1 Asian Development Bank (ADB) assistance under Madhya Pradesh District Connectivity Sector Project (MPDCSP) project loan 3189-IND has identified, 07 stretches of existing Major District Roads (MDRs) with total length of 380.580 kms for widening and reconstruction in the state of Madhya Pradesh. The 7 identified MDRs are scattered across in the districts of the Ujjain, Gwalior, Shivpuri, Rewa, Singrauli and Sidhi.

1.2 In addition, the project road will enhance and improve the connectivity & speed up the flow of regional and inter-regional traffic and trade thereby strengthening regional economic integration and development. With improved road traffic worthiness, accident reductions lower road user costs, the project road will also facilitate easier access to the local farmers, communities and traders opening vistas for harnessing local resources and development in general ;upgrading social and economic avenues to markets within the corridor that will help generate more income to augment the Government's effort in achieving social development and poverty reduction in the region.

1.3 The proposed program for widening and reconstruction of MDRs, from single lane/intermediate lane/two lane carriageway to two lane road, the MPRDC aimed at improving the major district roads to provide reliable road transport services in the state of Madhya Pradesh. An Index map showing the project roads is provided in **Figure 1.**

Figure 1: Index Map

2. BRIEF DESCRIPTION OF SUB-PROJECTS

2.1 All the sub projects have been assessed to be of Social Safeguard Category 'C' as per ADB's Safeguard Policy Statement (2009). Civil work of Package-A and Package-D has been completed by December 2015, Package-B and Package-G completed by June and July 2016, Package-F and Package-C by January and March 2017 respectively and all the social safeguard issues have been addressed in previous report. Social Safeguard Monitoring Report is concerned with the one sub-project road (Package-E) for the period from July to December 2017. The details of all 7 nos. sub-projects are as under in Table 1.

Table 1: Details of Civil Works Contract Packages

S. No	Contract Package for Civil Works	Name of Road	Length in K.M	Name of Contractor	Contract Agreement No. Date	Date of Commencement	Work Completed on
							Date
1	Package-A	Mahua-Chuwahi Road	48.900	M/s Dilip Buildcon Ltd.	119/2014 dt. 11.12.2014	01.01.15	07.12.2015
2	Package-B	Chitrangi-Kesar Road	39.930	M/s Madhav Infra Projects Limited	122/2014 dt. 15.12.2014	14.01.15	20.06.2016
3	Package-C	Dabra-Bhitarwa-Harsi Road	62.400	M/s KNR - TBCPL (JV)	123/2014 dt. 15.12.2014	08.01.15	14.03.2017
4	Package-D	Ujjain-Makshi Road	36.494	M/s Dilip Buildcon Ltd.	120/2014 dt. 11.12.2014	08.01.15	28.12.2015
5	Package-E	Hardua - Chakghat Road	92.250	M/s Gangotri Enterprises Ltd.	136/2015 dt. 11.05.2015	01.09.15	-
6	Package-F	Persaun-Mahua (via Barkha Road)	67.200	M/s Montecarlo Ltd/ Shreeji Infrastructure India Pvt Ltd.	135/2015 dt. 01.05.2015	01.09.15	16.01.2017

Total					380.580		

2.2 The Supervision Consultancy Contract under Projects Package-1 (Bhopal) is awarded to ICT Pvt. Ltd., New Delhi. The details are as under:

Package No./Name of Contract	Name of Supervision Consultant	Contract Signing	Civil Work Contract Package No.	Total Length (in Km.)
Supervision Consultancy for Package-1 (Bhopal)	ICT Pvt. Ltd. New Delhi	01-May-2015	A to G	380.480
Grand Total Civil Works Packages				380.480

3. RESETTLEMENT IMPACTS IN THE SUB-PROJECTS

3.1 No involuntary land acquisition will be required under any subproject; however, there would be temporary disruption of livelihood on roadside vendors during construction period as indicated in the due diligence report (DDR). Accordingly, the Consultant has conducted ground verification in the light of DDR and found that the sub-project does not involve any land acquisition and involuntary resettlement. All road construction work is being undertaken within the available RoW. Also, Contractor has clearly instructed to construct the road without affecting any built up private/public property/house boundary etc. Moreover, the Contractor has provided adequate access without any disruption of their livelihoods as people have revealed during public consultations and group discussions with local communities. The summary of socio-economic and resettlement impacts is provided in Table 2.

Table 2: Socio-Economic and Resettlement Impacts

Sl. No.	Type of Impact	Number
1	<i>Permanent Loss</i>	
1.1	Titleholder/Land Owner	Nil
1.2	Total Loss of land (sq.mts)	Nil
1.3	Loss of private trees	Nil
1.4	Total land holding in that particular plot (sq.mts)	Nil
1.5	Occupation	NA
1.6	Vulnerability	NA
1.7	Annual Income (INR)	NA
2	<i>Temporary Loss</i>	
2.1	Temporary Loss/Disruption of Business (Nos)	Nil
3	<i>Encroacher in ROW</i>	
3.1	Encroacher in ROW (Nos)	Nil
4	<i>Impact on Common Property Resources (CPRs)</i>	
4.1	Affected CPRs as per DDR	123
4.2	Affected CPRs as per Actual	95

4. SOCIAL SAFEGUARD ACTIVITIES DURING THE REPORTING PERIOD

4.1 *Social Issues.* In order to identify any social impact, due to the project implementation, the client and the Consultants have carried out several site visits and consultations in the project areas during the reporting period of this document. Based on site visit and discussions held with the local residents in the project areas, it has been confirmed that the implementation of the concerned subproject will not have any negative social impact. However, public consultation shall be continued throughout the project implementation period to ensure that no social/resettlement issues remain unaddressed.

4.2 *Impact on Land, Structure and Livelihood.* It has been stated earlier in the DDRs that these subprojects are classified as category 'C' for involuntary resettlement in consideration of the ADB's Safeguards Policy Statement. The resettlement monitoring review is being done periodically and it has been found that there is no resettlement impact; all construction activities are being undertaken within the available RoW of subproject road. No land acquisition will be required under any subproject. There will be no loss of people's livelihood. However, the Consultant has conducted ground verification in the light of DDR and found that the project does not involve any land acquisition and involuntary resettlement. All road construction work is being undertaken within the available RoW. Also, the Contractor has provided adequate access without any disruption of their livelihoods as people have revealed during community consultations. ✓

4.3 *Verification of Community Structures (CPRs).* Impact on CPRs is critical from the point of view of community. In terms of CPRs, only hand pumps will be impacted. The hand pump list recorded in the DDR has been verified on ground in accordance with the detailed design. Also, efforts have been made to avoid impact on the hand pumps along the subproject road and a revised list has been prepared. The provision of shifting of hand pumps have been incorporated in the civil contract and the hand pumps are being relocated in consultation with the community and Sarpanch of the concerned village. List of Hand pumps affected are provided in Table 3 and the details of the same are attached in Annexure 1.

Table 3: Community Structures as per DDR and during Implementation

Project Road	Impact on Community Structures (CPRs)	
	As per DDR	Verified List
Hardua-Chakghat Road	123	95

5. CONSULTATION WITH THE STAKEHOLDERS

5.1 Public consultations were organized with local communities including local residents, road side vendors, shop owners, women groups as well as construction workers where people were seen happy and appreciated the project. Location/village wise, a list of participants is presented in subsequent section. The responses that emerged during consultations with local people/communities are outlined below:

- The majority of the people have appreciated the project road construction work;
- People expect that the improved project road will provide accessibility to markets and agriculture operations;
- Reduction in travel time, traffic congestion and vehicle operating cost;
- Better access to health care, education, market and other social services;
- Positive impact of improved project road in terms of better quality of life and living standards;
- For road safety measures, there is requirement of rumble strips in settlement areas/market areas to avoid the accidents;
- Shifting of Hand pumps at appropriate locations; and
- Construction of appropriate and effective drainage system in residential areas/market areas.

5.2 The Public consultation were conducted to comprehend expectation from proposed project and also to understand the need and concerns of the local people including vulnerable groups and elderly population. The list of the participants were documented and photographed during consultation are attached as *Annexure 2*. The list of community consultations held with date, location and number of participants are presented in Table 4.

Table 4: Details of Public Consultations

S. No	Date	Village/Location	Number of Participants
Package-E (Hardua-Chakghat Road)			
1	20.11.2017	Hardua (Ch. 0.000)	16
2	20.11.2017	Atraila (Ch.39.100)	13
3	20.11.2017	Ram Bagh (Ch.46.500)	13
4	20.11.2017	Jawa (Ch.57.800)	12
5	20.11.2017	Kushmaida (Ch.65.400)	14
6	20.11.2017	Dendarh (Ch.72.400)	18

6. STATUS OF CONTRACTOR SOCIAL ASPECT COMPLIANCE

6.1 *Contractor's Safeguard Compliance.* Contractors are maintaining compliance by following the social safeguard norms set by the Project. Contractors have been instructed to avoid loss of assets, livelihood of the people and safety of construction workers. The supervision consultant is responsible for ensuring the same.

6.2 *HIV/AIDS Awareness and Prevention Program.* In order to make the people aware about the diseases, the HIV/AIDS awareness and prevention programs have been organized at different locations on sub-project road. Awareness programs have been organized for construction workers' to provide counseling/advisory on HIV/AIDS and provision of free condoms. Approximately 42 sets of condoms have been distributed in the program. Additionally, to promote and ensure healthy living, workers have been made aware about cleanliness, garbage disposal etc. The details of HIV/AIDS awareness programs along with photographs and a list of participants are attached as *Annexure 3*.

7. GRIEVANCE REDRESS MECHANISM

7.1 It would be pertinent here to refer the Asian Development Bank's policy, which requires proper mechanisms for resolution of disputes that may arise from any aspect of the compensation and development process. The mechanisms should be affordable and accessible, and third parties independent of the implementers should be available at the appropriate point in the process. The grievance procedure need to be simple, administered in the first instance at the local level to facilitate access, flexibility and open to various proofs taking into account the need for speedy, just and fair resolution of their grievances.

7.2 Grievances Redress Mechanism of the subproject is an integral part of Resettlement Framework. Resettlement Framework insists forming of a Grievance Redress Committee (GRC) at the PIU level to deal with the disputes, complaints, receiving suggestions and facilitate timely implementation of the sub-project. Grievance Redress Mechanism has been established in two levels firstly Grievance Redress Committee (State Level) at MPRDC, Bhopal and secondly Grievance Redress Committee (Divisional Level) in each Division set up to monitor project implementation. The Details of State level and divisional level GRCs are attached in *Annexure 4*.

7.3 A complaint register is maintained at each division and contractor camps for recording of complaints of local public and other stakeholders. During this reporting period, we asked most of the people during public consultation and no grievances were received from any of the community. When asked, most of the people told that they are not having any serious grievances against the project, while few grievances demure in nature are settled by supervision consultant team and Divisional Manager in the beginning itself like providing access to dwellings, water pumps & cattle/pedestrian movement.

8. COMPLIANCE STATUS WITH RESPECT TO LOAN COVENANT

8.1 The compliance status with respect to loan covenant is presented in the Table 5 below:

Table 5: Compliance Status

S. No.	Loan Covenant	Agency	Status of Compliance
1	GOI and the State will ensure that all land and right of way required for Investment Program are made available in timely manner	GoI and GoMP	No land acquisition and resettlement issues are involved in this project
2	Adequate compensation are provided prior to the signing of relevant civil works contracts, and involuntary resettlement is carried out in accordance with the resettlement framework (RF) and resettlement plans (RPs) agreed upon between the Government and ADB. An RP will be prepared for each subproject involving land acquisition and resettlement and shall be submitted to ADB for review and approval prior to award of any related civil works contracts, if any.	GoI and GoMP	No land acquisition and resettlement issues are involved in this project
3	GOI and the State will ensure that subprojects will not negatively impact on vulnerable groups such as indigenous people. In the event of their involvement in any of subprojects, the GOI and the states will ensure that the subprojects are carried out in accordance with the Indigenous People Development frameworks (IPDF) agreed up on between GOI and the states and the ADB and comply with ADBs policy on Indigenous People (1998).	GoI and GoMP	No negative Impact on any groups
4	In the event any issues related to indigenous people arises in course of project implementation, the borrower and the State shall ensure to address those issues in accordance with the applicable laws and policies of the borrower, ADB's policy on indigenous peoples (1998) and the Indigenous People Development Framework for the facility as agreed between the borrower, the State and ADB. In the case of any discrepancy between the borrower's legislation and ADB's policy shall prevail.	GoI and GoMP	Agreed. No issue related to indigenous people is anticipated.

S. No.	Loan Covenant	Agency	Status of Compliance
5	GOI and State will ensure that all civil works contractors comply with all applicable labour laws, including those on occupational health and safety and do not employ child labour as defined in national legislation for construction and maintenance activities. Priority work will be given to people from the area where the works are implemented and men and women will receive equal pay for work of equal value.	GoI and GoMP	Being complied
6	Within six months of the Effective Date, the State shall have established a grievance redress mechanism	GoMP	GRC has been Constituted

9. CONCLUSION

9.1 The project does not involve any land acquisition and involuntary resettlement. All road construction work is being undertaken within the available RoW. Also, Contractors have been clearly instructed to construct the road without affecting any boundary/ fencing of built up property. In event of any conflict, the contractors were advised to get such incidents to the knowledge of supervision consultant and the local MPRDC office well in advance to find out alternate solutions. In case any complaints are submitted, an effective and efficient Grievance Redress Mechanism is already in place for timely and sensible hearings and facilitates solutions.

9.2 Also, through effective consultation, the participation of the community in the process will be ensured. This in turn will certify that a sustainable growth model is put into action benefitting the local residents and the road users after the completion of the Project. The report confirms that the project does not have adverse social impacts associated with land acquisition and resettlement and it is expected that the project will benefit entire population after the completion of the project.

SEMI-ANNUAL SOCIAL SAFEGUARD MONITORING REPORT

1 INTRODUCTION AND PROJECT BACKGROUND

Asian Development Bank (ADB) assistance under Madhya Pradesh District Connectivity Sector Project (MPDCSP) project loan 3189-IND has identified, 12 stretches of existing Major District Roads (MDRs) with total length of 375.430 kms for widening and reconstruction in the state of Madhya Pradesh. The 12 identified MDRs are scattered across in the districts of the Rewa, Sidhi, Jabalpur, Katni, Sagar, Damoh, Tikamgarh, Panna and Chhatarpur.

The proposed program for widening and reconstruction of MDRs, from single lane/ intermediate lane/ two lane carriageway to two lane road. The MPRDC aimed at improving the major district roads to provide reliable road transport services in the state of Madhya Pradesh.

2 BRIEF DESCRIPTION OF SUB-PROJECTS

All the sub projects have been assessed to be of Social Safeguard Category 'C' as per ADB's Safeguard Policy Statement (2009). Civil work of Package-K has been completed by September-2016 and Package-H has been completed by April-2017. Social Safeguard Monitoring Report is concerned with the 02 Packages (Package-I and Package-J) for the period from July-2017 to December-2017. The details of all concerned sub-projects are as under in Table-1.

Table-1: Details of Civil Works Contract Packages

S. No.	Contract Package for Civil Works	Name of Road	Length in K.M	Name of Contractor	Contract Agreement No. Date	Date of Commencement	Work Completed on Date
1	Package-H	Durgawati Samadhi Road (MDR-36-19)	21.125	M/s Gannon Dunkerley & Co. Ltd.	179/2015, 10 th Nov. 2015	02-12-2015	23-04-2017
2		Tilwara- Chargaon (DR-36-05) & Gotegaon (MDR-41-01)	46.175	M/s Gannon Dunkerley & Co. Ltd.	179/2015, 10 th Nov. 2015	02-12-2015	23-04-2017

Grand Total Civil Works Packages				375.430

3 RESETTLEMENT IMPACTS IN THE SUB-PROJECTS

No involuntary land acquisition required under any subproject; however, there would be temporary disruption of livelihood on roadside vendors during construction period. The affected households have willingly signed MOUs during the DPR stage that they are willingly forgo small assistance in favor of better roads and based on that their business and income will increase. However, the Consultant has conducted ground verification in the light of DDR and found that the project does not involve any land acquisition and involuntary resettlement. All road construction work is being undertaken within the available RoW. Also, Contractor has clearly instructed to construct the road without affecting any built up private/public property/house boundary etc. Also, the Contractor has provided adequate access without any disruption of their livelihoods as people have revealed during consultations and group discussions with local communities. The summary of socio-economic and resettlement impacts is provided in Table-2.

Table-2: Summary of Resettlement Impacts and Socio-Economic Details

Type of Impact	Package #2	Remark

4. Impact on CPRs		
Affected CPRs as per BOQ	244	
Affected CPRs as per SDDR	150	
Affected CPRs during Construction	104	

4 SOCIAL SAFEGUARD ACTIVITIES DURING THE REPORTING PERIOD

4.1 Social Issues

In order to identify any social impact, due to the project implementations, the client and the consultants have carried out several site visits and consultations in the project areas during the reporting period. Based on site visit and discussions held with the local residents in the project areas, it has been confirmed that the implementation of the concerned project have no any negative social impact. However, public consultation shall be continued throughout the project implementation period to ensure that no social/ resettlement issues remain unaddressed.

4.2 Impact on Land, Structure and Livelihood

It has been stated earlier in the Due Diligence Report that these subprojects are classified as category 'C' for involuntary resettlement in considerations of the ADB's Safeguards Policy Statement.

The resettlement monitoring review has been done periodically and it has found that there is no negative impact, which required mitigation measures as the construction activities are being done within the available RoW of roads. No additional land acquisition required under any subproject. There is no loss of livelihood permanently but there is temporarily disruption of livelihood mainly roadside vendors/ shop keepers during civil work activity.

Based on the signed MOUs during DPR, again verified and consulted with the vendors/ shop keepers after the construction of the project road for their willingness about the project, they stated their assistance for the better roads and based on that their business and income have increased and again obtained signed consent after completion of the construction work of shop keepers. The signed MOUs are attached in **Semi-Annual Social Safeguard Monitoring Report for the period January 2016 - June 2016**.

4.3 Verification and Relocation of Community Structures (CPRs)

Impact on CPRs is critical from the point of view of community. In terms of CPR, only hand pumps are affected. The hand pump list recorded in the SDDR has been verified on ground in accordance with the detailed design. Also, efforts have been made to avoid impact on the hand pumps along the road. Summary of affected Hand pumps are provided in **Table-3**.

The provision of shifting of hand pumps have been incorporated in the civil contract and the hand pumps are being relocated in consultation with the community and Sarpanch of the concerned village. The consent from the Nagar Parishad and Sarpanch of the concerned village has taken during and after shifting of hand pumps in this reporting period are attached in **Annexure-1**.

Table-3: Community Structures as per Contract Agreement/ SDDR and during Implementation

S. No	Project Road	Impact on Community Structures (CPRs)

* Enhancement/rise the level of Handpump

5 CONSULTATION WITH THE STAKEHOLDERS

Public consultation/ meetings were organized with local communities including construction workers as well as women about the importance of the project for their betterment. In the meetings people were made aware about social issues, road safety, shifting of hand pumps, redressal of grievances, if any, advantages of the project and documented their suggestion regarding project. The responses that emerged during consultations with local people/communities are outlined below:

- The majority of the people have appreciated the project road construction work and benefit of the project road.
- People express their views, the improved project road provide better accessibility to markets, hospitals, community centres and agriculture operations;
- Grievance Redressal Mechanism for lodging the complaints if any.
- For road safety measures, there is requirement of rumble strips in settlement areas/market areas to avoid the accidents;
- Shifting of hand pumps at appropriate locations; and
- Construction of appropriate and effective drainage system in residential areas/market areas.

The public consultation were conducted to comprehend expectation from project and also to understand the need and concerns of the local people including vulnerable and elderly population. The list of the participants were documented and photographed during consultation are attached as **Annexure-2**.

The list of consultations held with date, location and number of participants are presented in **Table-4**.

Table-4: Details of Public Consultations

Sl. No	Date	Village	Number of Participants
1	17/08/2017	Sarkhari	08

6 STATUS OF CONTRACTOR SOCIAL ASPECT COMPLIANCE

Contractors are maintaining compliance by following the social safeguards norms set by the Project. Contractors have been instructed to avoid the loss of assets, livelihood of the people and safety of construction workers. The supervision consultant is responsible for ensuring the same.

6.1 Action on HIV/AIDS Awareness Prevention Campaigns

In order to make the people aware about the diseases, the HIV/AIDS Awareness and Prevention Campaign has been conducted at different locations on sub-project roads. Awareness programs have been organised for construction workers and local public to provide counselling/ advisory on HIV/AIDS and provision of distribution of free condoms. Approximately 240 sets of condoms along with booklet and pamphlets have been distributed during the awareness program. Additionally, to promote and ensure healthy living, workers have been made aware about cleanliness, garbage disposal etc.

The details of HIV/AIDS Awareness Programme are reported in **Table-5**, attendance list is attached in **Annexure-3**, Photographs of HIV/AIDS awareness is attached in **Annexure-4** and sample of HIV/AIDS awareness pamphlets distributed during the program is attached in **Annexure-5**.

7 GRIEVANCE REDRESS

It would be pertinent here to refer the Asian Development Bank's policy, which requires proper mechanisms for resolution of disputes that may arise from any aspect of the compensation and development process. The mechanisms should be "affordable and accessible," and third parties independent of the implementers should be available at the appropriate point in the process. The grievance procedure need to be simple, administered in the first instance at the local level to facilitate access, flexibility and open to various proofs taking into account the need for speedy, just and fair resolution of their grievances.

Grievances Redress Mechanism of the subproject is an integral part of Resettlement Framework. Resettlement Framework insists forming of a Grievance Redressal Committee (GRC) at the PIU level to deal with the disputes, complaints, receiving suggestions and facilitate timely implementation of the sub-project. Grievance Redress Mechanism has been established in two levels firstly Grievance Redress Committee (State Level) at MPRDC, Bhopal and secondly Grievance Redress Committee (Divisional Level) in each Division set up to monitor project implementation. The Details of State level and divisional level GRCs are attached in **Annexure-6**.

A complaint register is maintaining at each divisions and contractor camp for recording of complaints of local public and other stakeholders. During this reporting period, asked the people during public consultation and no any grievances were received from the community. When asked, the people told that they are not having any serious grievances against the project, while few grievances are settled by Consultant Team and Divisional Manager during their visit.

8 COMPLIANCE STATUS WITH RESPECT TO LOAN COVENANT

The compliance status with respect to loan covenant is presented in the **Table-7** below:

Table-7: Compliance Status

S. No.	Loan Covenant	Agency	Status of Compliance
1	GOI and the State will ensure that all land and right of way required for Investment Program are made available in timely manner	GoI and GoMP	No land acquisition and resettlement issues are involved in this project

S. No.	Loan Covenant	Agency	Status of Compliance
2	Adequate compensation are provided prior to the signing of relevant civil works contracts, and involuntary resettlement is carried out in accordance with the resettlement framework (RF) and resettlement plans (RPs) agreed upon between the Government and ADB. An RP will be prepared for each subproject involving land acquisition and resettlement and shall be submitted to ADB for review and approval prior to award of any related civil works contracts, if any.	GoI and GoMP	No land acquisition and resettlement issues are involved in this project
3	GOI and the State will ensure that subprojects will not negatively impact on vulnerable groups such as indigenous people. In the event of their involvement in any of subprojects, the GOI and the states will ensure that the subprojects are carried out in accordance with the Indigenous People Development frameworks (IPDF) agreed up on between GOI and the states and the ADB and comply with ADBs policy on Indigenous People (1998).	GoI and GoMP	No negative Impact on any groups
4	In the event any issues related to indigenous people arises in course of project implementation, the borrower and the State shall ensure to address those issues in accordance with the applicable laws and policies of the borrower, ADB's policy on indigenous peoples (1998) and the Indigenous People Development Framework for the facility as agreed between the borrower, the State and ADB. In the case of any discrepancy between the borrower's legislation and ADB's policy shall prevail.	GoI and GoMP	Agreed. No issue related to indigenous people is anticipated.
5	GOI and State will ensure that all civil works contractors comply with all applicable labour laws, including those on occupational health and safety and do not employ child labour as defined in national legislation for construction and maintenance activities. Priority work will be given to people from the area where the	GoI and GoMP	Complied

S. No.	Loan Covenant	Agency	Status of Compliance
	works are implemented and men and women will receive equal pay for work of equal value.		
6	Within six months of the Effective Date, the State shall have established a grievance redressal mechanism	GoMP	GRC has been Constituted

9 CONCLUSIONS

The project does not involve any land acquisition and involuntary resettlement. All road construction work is being undertaken within the available RoW. Also, Contractors have been clearly instructed to construct the road without affecting any boundary/ fencing of built up property. In event of any conflict, the contractors were advised to get such incidents to the knowledge of supervision consultant and the local MPRDC office well in advance to find out alternate solutions. In case any complaints are submitted, an effective and efficient Grievance Redress Mechanism is already in place for timely and sensible hearings and facilitates solutions. Also through effective consultation the participation of the community ensured, in the process. This in turn has certified that a sustainable growth model is put into action benefitting the local residents and the users of the road after the completion of the Project.

The report confirms that the project does not have adverse social impacts associated with land acquisition and resettlement (LAR) and it is expected that the project benefit entire population along the project road.

 के सौजन्य से दिनांक 13.09.2017 को स्थान सम.आई
 पी. एल. धुव्हीपुर - निवाडी सार्ड ऑफिस धुव्हीपुर में आयोजन
 किया गया। जिसमें श्री आर.के. नागले जी (एम.जी.एम.)
 एम.पी.आर.जी.सी., श्री शिवराम सिंह कुशवाहा (ए.ई.सी.ओ.एम.)
 Consultant, श्री नितिन चौरसिया, श्री एस.वी. द्विवेदी,
 श्री अजीत चौबे, श्री हरिशंकर साहू, श्री सचिन गुर्जर,
 श्री प्रदीप गुप्ता, श्री भोला वर्मा, श्री वी.के. क्षीरास्त्व
 आदि कि इस कार्यक्रम में महत्वपूर्ण भूमिका
 रही।

इस कार्यक्रम में श्री आर.के. नागले
 जी. श्री सुरेन्द्र शर्मा की उपस्थिति में सम. आई. वी.
 एड्स जागरूकता शिविर का आयोजन किया गया।
 इसमें सम. आई. पी. एल. के सभी मैनेजिकल
 स्टाफ और मजदूर भाईयो की महत्वपूर्ण
 भागीदारी रही।

दिनांक 13.09.2017

इस कार्यक्रम में उपस्थित सभी लोगों के नाम
 और हस्ताक्षर नीचे दिए गए हैं

SEMI-ANNUAL SOCIAL SAFEGUARD MONITORING REPORT

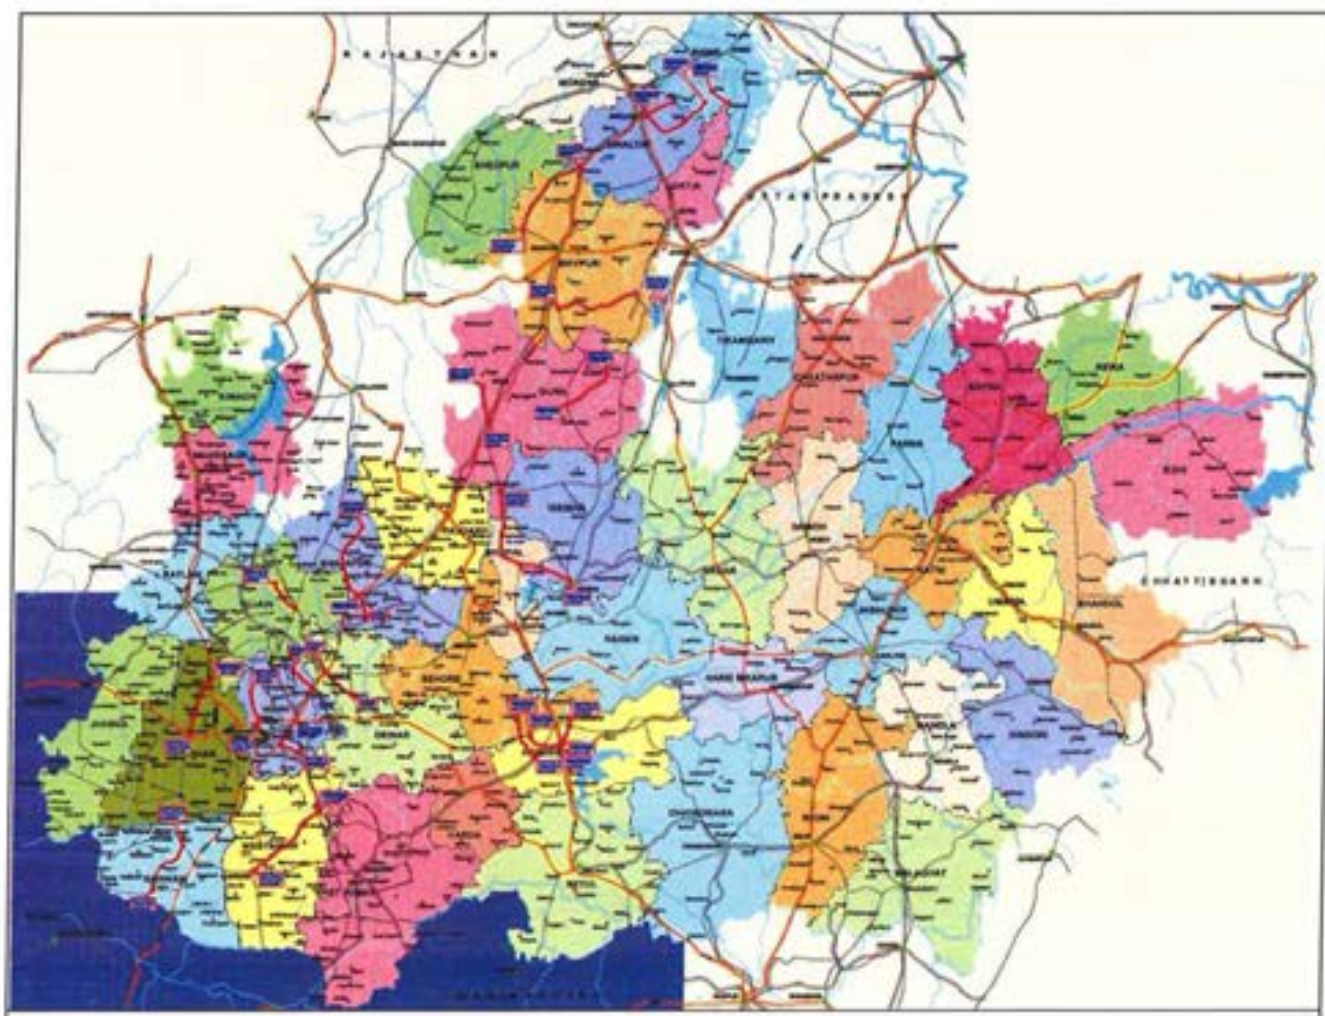

1. INTRODUCTION AND PROJECT BACKGROUND

1.1 The Government of Madhya Pradesh (GoMP) has proposed to improve the major highway roads through the Madhya Pradesh District Connectivity Sector Project (MPDCSP) financed by Asian Development Bank (ADB). Madhya Pradesh Road Development Corporation Ltd. (MPRDC), fully owned by the GoMP has been designated as the Executing Agency for the Project. Under the ADB assistance loan No. 3189-IND, the project MPDCSP has identified 07 locations of existing Major District Roads (MDRs) with total length of 774.786 km for widening and reconstruction in the state of Madhya Pradesh. The proposed program for widening and reconstruction of MDRs, from single lane/ intermediate lane/ two lane carriageway to two lane road.

1.2 Additionally, the improved project road will enhance the flow of regional and inter-regional traffic and trade, accident reductions due to improved road and also reduce road user costs, thereby strengthening regional economic integration. In addition, the project road will also facilitate easier access by farmers, local communities and traders to social services and markets within the corridor that will help generate more income to augment the Government's effort in achieving social development and poverty reduction in the region.

1.3 The MPRDC aimed at improving the major district roads to provide reliable road transport services in the state of Madhya Pradesh and awarded the work of consultancy services for the supervision and quality control of the Civil Works Contracts for MPDCSP (Package3, Bhopal-2), comprising widening and reconstruction of 22 road corridors (MDRs). The 22 identified MDRs are scattered across in the districts of the Bhopal, Hoshangabad, Indore, Ujjain, Gwalior, Guna and Shivpuri. An Index map showing the project roads is provided in **Figure 1**.

Figure 1: Index Map

2. BRIEF DESCRIPTION OF SUB-PROJECTS

2.1 All the sub projects have been assessed to be of Social Safeguard Category 'C' as per ADB's Safeguard Policy Statement (2009). Civil work of Package-M, Package-N, Package-O and Package-Q had been completed in August 2017, June 2017, October 2017 and May 2017 respectively, and all the social safeguard issues have been addressed in previous report. Social Safeguard Monitoring Report is concerned with the 22 sub-project roads of Package-L, Package-M, Package-N, Package-O, Package-P, Package-Q and Package-R for the period from July 2017 to December 2017. The details of all 22 nos. sub-projects are as under in **Table 1**.

Table-1

Civil Work Contracts Under Package -3 (Bhopal-2) (Total Length 774.786 Km.)					
Pkg -L	1. Mohanpur Behat Mau (MDR-01 -01) & Behat Mau (MDR-02-03) – 51.651 Km	KNR Construction Ltd. (159.82) Km	06-Aug-2015	10-Apr-18	Ongoing 92% of construction work completed
	2. Murar - Chitora (MDR-01 -08) , Murar-Chitora (MDR-02-08) & Gatha Amayani (MDR-02-06)- 45.670 Km				Ongoing 76% of construction work completed
	3. Mohana Pohri (MDR-07-06) (Length 159.82 Km)- 62.36 Km				Ongoing 89.68% of construction work completed
Pkg -M	1.Pachawali-Rannod(MDR-07-10) & Rannod Pichhore (MDR-07-04) - 60.62 Km	Path-Wagad (J.V.) (110.62) Km	09-Nov-2015	24-Aug-17	Project Completed
	2.Bhasula Chainpur VijaypurDhanrawad (MDR-06-09)- 20 Km				Project Completed
	3.Ashoknagar-Thubon (i/c Kolua Road) (MDR-08-11) – 30 Km				Project Completed
Pkg -N	1.Masudanganj Najeerabad (MDR-06-03) & Najeerabad Maksudangarh (MDR-23-08)- 31.225 Km	KCC Buildcon Pvt. Ltd. (98.75) Km	06-Aug-2015	10-June-17	Project Completed
	2.Berasia Najeerabad (MDR-23-06)- 30.67 Km				Project Completed
	3.Vidisha Berasia (MDR-23-10) & Vidisha Berasia (MDR-27-01)- 36.850 Km				Project Completed
Pkg -O	1.Dewas Newari (MDR-10-02)- 26.775 Km	Gannon Dunkerly & Co. Ltd	01-Nov-2015	03-Dec-17	Project Completed

	2.Mahidpur Panvihar Jeevaji Nagar (MDR-09-04) – 31.935 Km	(129.14) Km			Project Completed
	3.Shajapur Bercha (MDR-11-02)– 16.435 Km				Project Completed
	4.Shajapur Dupada Kanad Pachlana Pilvas Nalkhed (MDR-11-13)- 53.990 Km				Project Completed
Pkg -P	1.Sanver Khipra (MDR-15-18)- 19.619 Km	Ranjeet Buildcon Ltd. (102.71) Km	07-Aug-2015	31-Mar-18	Ongoing 95% of construction work completed
	2.Kanvan Mangod (MDR-16-11)- 47.434 Km				Ongoing 95% of construction work completed
	3.Mahu Simrol (MDR-15-02)- 15.542 Km				Ongoing 85% of construction work completed
	4.Depalpur Betama (MDR-15-07)- 20.117 Km				Ongoing 88% of construction work completed
Pkg -Q	1.Sanawad Khargone (MDR-20-01) - 66 Km	GHV (INDIA) Pvt. Ltd. (108.71) Km	04-Aug-2015	21-May-17	Project Completed
	2.Rajpur Khetiya (MDR-22-05)- 42.18 Km				Project Completed
Pkg -R	1.Hathnapur Anwalighat Salkanpur (MDR-30-19)- 28.180 Km	Sorathia Velji Ratna & Co. (65.03) Km	02-Aug-2015	31-Jan-18	Project Completed Miscellaneous works pending
	2.Tawa Bridge Itarasi Mandi (MDR-30-06)- 11.150 Km				Project Completed Miscellaneous works pending
	3.Itarasi Dulariya Tigariya (MDR-30-04) – 25.700 Km				Project Completed Miscellaneous works pending
Total Length of all packages-774.78 Km.					

2.2 The Supervision Consultancy Contract under Projects Package-3 (Bhopal-2) is awarded to M/s Indian Technocrats Ltd., New Delhi. The details are as under:

Package No./Name of Contract	Name of Supervision Consultant	Contract Signing	Civil Work Contract Package No.	Total Length (in Km.)
Supervision Consultancy for Package-3 (Bhopal-2)	M/s Indian Technocrats Ltd.	14-Sept 2015	Package-L to Package-M	774.78
Grand Total Civil Works Packages (in Kms)				774.78

3. RESETTLEMENT IMPACTS IN THE SUB-PROJECTS

3.1 No involuntary land acquisition will be required under any subproject; however, there would be temporary disruption of livelihood on roadside vendors during construction period as indicated in the Due Diligence reports (DDR). The affected households have willingly signed memorandum of understandings (MoUs) during the DPR stage that they willingly forgo small assistance in favor of better roads and based on that their business and income will increase. However, the Consultant has conducted ground verification in the light of DDR and found that the project does not involve any land acquisition and involuntary resettlement. All road construction work is being undertaken within the available RoW. Also, Contractor has clearly instructed to construct the road without affecting any built up private/public property/house boundary etc. Also, the Contractor has provided adequate access without any disruption of their livelihoods as people have revealed during consultations and group discussions with local communities. The summary of socio-economic and resettlement impacts is provided in **Table 2**.

Table 2: Socio-Economic and Resettlement Impacts

Sl. No.	Type of Impact	Number
1	<i>Permanent Loss</i>	
1.1	Title Holder/Land Owner	Nil
1.2	Total Loss of land (sq.mts)	Nil
1.3	Loss of private trees	Nil
1.4	Total land holding in that particular plot (sq.mts)	Nil
1.5	Occupation	NA
1.6	Vulnerability	NA
1.7	Annual Income (INR)	NA
2	<i>Temporary Loss</i>	
2.1	Temporary Loss/ Disruption of Business during Construction (Nos)	25
3	<i>Encroacher in ROW</i>	
3.1	Encroacher in ROW (Nos)	Nil
4	<i>Impact on CPRs</i>	
4.1	Affected CPRs as per DDR	220
4.2	Affected CPRs as per Actual	15

4. SOCIAL SAFEGUARD ACTIVITIES DURING THE REPORTING PERIOD

4.1 Social issues: In order to identify any social impact, due to the project implementation, the client and the Consultants have carried out several site visits and consultations in the project areas during the reporting period of this document. Based on site visit and discussions held with the local residents and representatives of Nagar Palika and Gram Panchayat in the project areas, it has been confirmed that the implementation of the concerned project will not have any negative social impact. However, public consultation shall be continued throughout the project implementation period to ensure that no social/ resettlement issues remain unaddressed during the reporting period.

4.2 Impact on Land, Structure and Livelihood: It has been stated earlier in the DDRs that these subprojects are classified as category 'C' for involuntary resettlement in consideration of the ADB's Safeguards Policy Statement. The resettlement monitoring review is being done periodically and it has been found that there is no resettlement impact; all construction activities are being undertaken within the available ROW of roads. No land acquisition will be required under any subproject. There will be no loss of livelihood permanently but there will be temporarily disruption of livelihood of mainly roadside vendors/shop keepers during civil work as mentioned in the DDR reports. Accordingly, the Consultant has conducted ground verification in the light of DDR and found that the project does not involve any land acquisition and involuntary resettlement. All road construction work is being undertaken within the available ROW. Also, the Contractor has provided adequate access and proper diversions, without any disruption of their livelihoods as people have revealed during community consultation.

Based on the signed MoUs during DPR, again verified and consulted with the vendors/shop keepers after the construction of the project road for their willingness about the project, they stated their assistance for the better roads and based on that their business and income have increased and again obtained signed consent after completion of the construction work of few shop keepers.

4.4 Verification of Community Structures (CPRs). Impact on CPRs is critical from the point of view of community. In terms of CPR, only hand pumps will be impacted. The hand pump list recorded in the DDR has been verified on ground in accordance with the detailed design. Also, efforts have been made to avoid impact on the hand pumps along the road and a revised list has been prepared. The provision of shifting of hand pumps have been incorporated in the civil contract and the hand pumps are being relocated in consultation with the community and Sarpanch of the concerned village. List of Hindrances affected are provided in **Table 3** and the details of the same are attached in **Annexure 1**.

5. CONSULTATION WITH THE STAKEHOLDERS

5.1 Public consultations were organized with local communities including local residents, road side vendors, shop owners, women groups as well as construction workers where people were seen satisfied and appreciated the project. Location/village wise, a list of participants is presented in subsequent section. The responses that emerged during consultations with local people/communities are outlined below:

- Better connectivity to the day to day amenities and villages to towns.
- Easy access to the road accident survivors from the highways to the hospitals. Quick pick up and drop through the ambulance. Hence increased the rate of survivals.
- The majority of the people have appreciated the project road construction work;
- Reduction in travel time, traffic congestion and vehicle operating cost;
- Better access to health care, education, market and other social services;
- People expect that the improved project road will provide better accessibility to hospitals, markets and agriculture operations;
- Better opportunities for students, better roads provide easy access to school and collages.

- Positive impact of improved project road in terms of better quality of life and living standards;
- Better Road safety, although there is requirement of speed breakers, zebra crossings, Traffic signals and rumble strips in settlement areas/market areas to avoid the accidents;
- Construction of appropriate and effective drainage system in residential areas/market areas and field areas.

5.2 The Public consultation were conducted to comprehend expectation from proposed project and also to understand the need and concerns of the local people including vulnerable groups and elderly population. The list of the participants were documented and photographed during consultation are attached in **Annexure 2**. The list of community consultations held with date, location and number of participants are presented in **Table 4**.

6. STATUS OF CONTRACTOR SOCIAL ASPECT COMPLIANCE

6.1 Contractors are maintaining compliance by following the social safeguard norms set by the funding agency. Contractors have been instructed to avoid loss of assets, livelihood and health of the people and safety of construction workers and local resident at the work site.

6.2 HIV/AIDS Awareness and Prevention Program and medical camps have also been arranged at regular intervals in order to make the people aware about the diseases like HIV/AIDS and other physically transmitted diseases and their preventions at different locations on sub-project of the packages. Awareness programs have been organized for construction workers' to provide counseling/advisory on HIV/AIDS and provision of free condoms. Approximately anonymous number of condoms and other medicines has been distributed during the programs arranged at labour camp sites. Additionally, to promote and ensure healthy living, workers have been made aware about cleanliness, garbage disposal, Proper sanitation etc along with maintaining proper balance between health and safety during construction works. The details of HIV/AIDS awareness programs, distributing free condoms and medicines with photographs are attached as **Annexure 3**.

7. GRIEVANCE REDRESS MECHANISM

7.1 It would be pertinent here to refer the Asian Development Bank's policy, which requires proper mechanisms for resolution of disputes that may arise from any aspect of the compensation and development process. The mechanisms should be affordable and accessible, and third parties independent of the implementers should be available at the appropriate point in the process. The grievance procedure need to be simple, administered in the first instance at the local level to facilitate access, flexibility and open to various proofs taking into account the need for quick and fair resolution of their grievances.

7.2 Grievances Redress Mechanism of the subproject is an integral part of Resettlement Framework. Resettlement Framework insists forming of a Grievance Redress Committee (GRC) at the PIU level to deal with the disputes, complaints, receiving suggestions and facilitate timely implementation of the sub-project. Grievance Redress Mechanism has been established in two levels firstly Grievance Redress Committee (State Level) at MPRDC, Bhopal and secondly Grievance Redress Committee (Divisional Level) in each Division set up to monitor project implementation. The Details of State level and divisional level GRCs are attached in **Annexure 4**.

7.3 A complaint register is maintaining at each contractor camp site for recording of complaints of local public and other stakeholders. During this reporting period, asked most of the people during public consultation and no any other grievances were received from any of the community. When asked, most of the people told that they are not having any serious grievances against the project, while few grievances demure in nature are settled by supervision consultant team and divisional manager in the beginning itself.

8. COMPLIANCE STATUS WITH RESPECT TO LOAN COVENANT

8.1 The compliance status with respect to loan covenant is presented in the **Table 5** below:

Table 5: Compliance Status

S. No.	Loan Covenant	Agency	Status of Compliance
1	GOI and the State will ensure that all land and right of way required for Investment Program are made available in timely manner	GoI and GoMP	No land acquisition and resettlement issues are involved in this project
2	Adequate compensation are provided prior to the signing of relevant civil works contracts, and involuntary resettlement is carried out in accordance with the resettlement framework (RF) and resettlement plans (RPs) agreed upon between the Government and ADB. An RP will be prepared for each subproject involving land acquisition and resettlement and shall be submitted to ADB for review and approval prior to award of any related civil works contracts, if any.	GoI and GoMP	No land acquisition and resettlement issues are involved in this project
3	GOI and the State will ensure that subprojects will not negatively impact on vulnerable groups such as indigenous people. In the event of their involvement in any of subprojects, the GOI and the states will ensure that the subprojects are carried out in accordance with the Indigenous People Development frameworks (IPDF) agreed up on between GOI and the states and the ADB and comply with ADBs policy on Indigenous People (1998).	GoI and GoMP	No negative Impact on any groups
4	In the event any issues related to indigenous people arises in course of project implementation, the borrower and the State shall ensure to address those issues in accordance with the applicable laws and policies of the borrower, ADB's policy on indigenous peoples (1998) and the Indigenous People Development Framework for the facility as agreed between the borrower, the State and ADB. In the case of any discrepancy between the borrower's legislation and ADB's policy shall prevail.	GoI and GoMP	Agreed. No issue related to indigenous people is anticipated.
5	GOI and State will ensure that all civil works contractors comply with all applicable labour laws, including those on occupational health and safety and do not employ child labour as defined in national legislation for construction and maintenance activities. Priority work will be given to people from the area where the works are	GoI and GoMP	Being complied

S. No.	Loan Covenant	Agency	Status of Compliance
	implemented and men and women will receive equal pay for work of equal value.		
6	Within six months of the Effective Date, the State shall have established a grievance redress mechanism	GoMP	GRC has been Constituted

9. CONCLUSION

9.1 The project does not involve any land acquisition and involuntary resettlement. All road construction work is being undertaken within the available RoW. Also, Contractors have been clearly instructed to construct the road without affecting any boundary/ fencing of built up private property. In event of any conflict, the contractors were advised to get such incidents to the knowledge of supervision consultant and the local MPRDC officials at AGMs and DM level, well in advance to find out alternate solutions. In case any complaints are submitted, an effective and efficient Grievance Redress Mechanism is already in place for timely and sensible hearings and facilitates solutions.

9.2 Also, through effective consultation, the participation of the community in the process will be ensured. This in turn will certify that a sustainable growth model is put into action benefitting the local residents and the road users after the completion of the Project. The report confirms that the project does not have adverse social impacts associated with land acquisition and resettlement and it is expected that the project will benefited entire population after the completion of the project.
