Table of Contents

1. INTRODUCTION	1
1.1 Background of the Project	1
1.2 Consulting Services Contract	4
1.3 Scope of the PIC Services	5
1.4 Overview of Institutional Framework	5
1.5 Context and Purpose of this Report	6
2. COMPLIANCE ON SOCIAL SAFEGUARDS REQUIREMENTS	7
2.1 Compliance on Social Safeguards Provisions of the Loan Covenant	8
2.2 Compliance with Requirements in the Resettlement Framework (RF)	12
2.3 Compliance to the Social Requirements under the Project Facility Administration Manual (FAM)	12
3. COMPLIANCE WITH RESPECT TO GENDER ACTION PLAN	17
3.1 Gender involvement in Cooperate Social Responsibility (CSR) Programs	17
3.2 Staff and labour involvement	17
3.3 Women Participate actively at PBM training workshops	20
3.4 Elderly- Women- Children- Disabled (EWCD) Friendly Design	20
4. SOCIAL SAFEGUARDS ISSUES AND MITIGATION MEASURES IMPLEMENTED	20
4.1 Status of Civil Work Implementation in project 1 (PIC-01), Southern Province	20
4.2 Issues and Mitigation Measures Implemented	22
4.2.1 Introduction of concept of Context Sensitive Design (CSD)	22
4.2.2 Grievance Redress Mechanism	22
4.2.2.1 Establishment of GRCs at Grama Niladhari Division (GND) Level & Divisional Secretariat Division (DSD) level	22
4.2.2.2 Grievance Redress Committees (GRCs)	22
4.2.2.3 Receiving Grievances	23
4.2.2.4 Number of GRC meetings held during January to June, 2019	27
4.2.3 Addressing Complaints (Complaints, Grievances, Requests and Suggestions) at Four (4) levels;	28
4.2.4 Design Changes made due to Public Requests;	29
4.2.4.1. Cost invested to respond Public Requests	29
4.3 HIV/AIDS Prevention and Health awareness programmes-Step 1 and 2	32
4.4 Road Safety Awareness Programmes for school community	32
4.5 Corporate Social Responsibility (CSR) Implemented by Contractors and PIC	32
4.6 Workshops conducted	34
5. LAND DONATION	35
5.1 Status of Land Donation	36
6. STAKEHOLDER COORDINATION	37
7. MONITORING	39
7.1 Monitoring – By Consultants (PIC-01)	39
7.2 Monitoring – By Environment and Social Development Division (ESDD), RDA	41
7.3 Monitoring – By TA consultant on safeguards, ADB	41
7.4 ADB monitoring visits	42
8. CONCLUSION AND RECOMMENDATIONS	44
8.1 Conclusion	44
8.2 Recommendations	46

1. INTRODUCTION

1.1 Background of the Project

The ADB's Multi- Tranche Financing Facility (MFF) for the Integrated Road Investment Program (iRoad), provides loans to Sri Lanka in an aggregate amount of up to \$ 800 million equivalents. The GOSL will provide counterpart financing of \$106 million for feasibility study and engineering, tax and duties, and part of the contingency. The MFF will comprise a series of loans, to improve the access routes between rural areas and socioeconomic centers, in tranches. The investment program comprises five projects to be implemented between 2014 and 2024. Project 1 is in Southern Province with an estimated cost of \$235 million. Tranche 1 financed the first slice of Project 1 in Southern Province amounting to \$118 million, with ADB financing \$100 million and GOSL providing the balance \$18 million in counterpart funds. Subsequence loan slices provided funds for continuation of the civil works in SP.

Project scope under iRoad in Southern Province (SP) include improvement and maintenance of 560 km of rural roads and 20 km of national roads under Conventional Road Contracts (CRC). The rural access roads will be improved to all-weather standards, and be maintained for three years. The national roads will connect the rural access roads to adjacent socioeconomic centers. Under a separate Slice of Project 1 about 110 km of national road corridor will be improved and maintained under RMCs based on OPRC for seven years.

Part of the funds from the MFF will be used for providing consulting services for project implementation including construction supervision, supervision of post construction maintenance work, contract management, and other implementation activities.

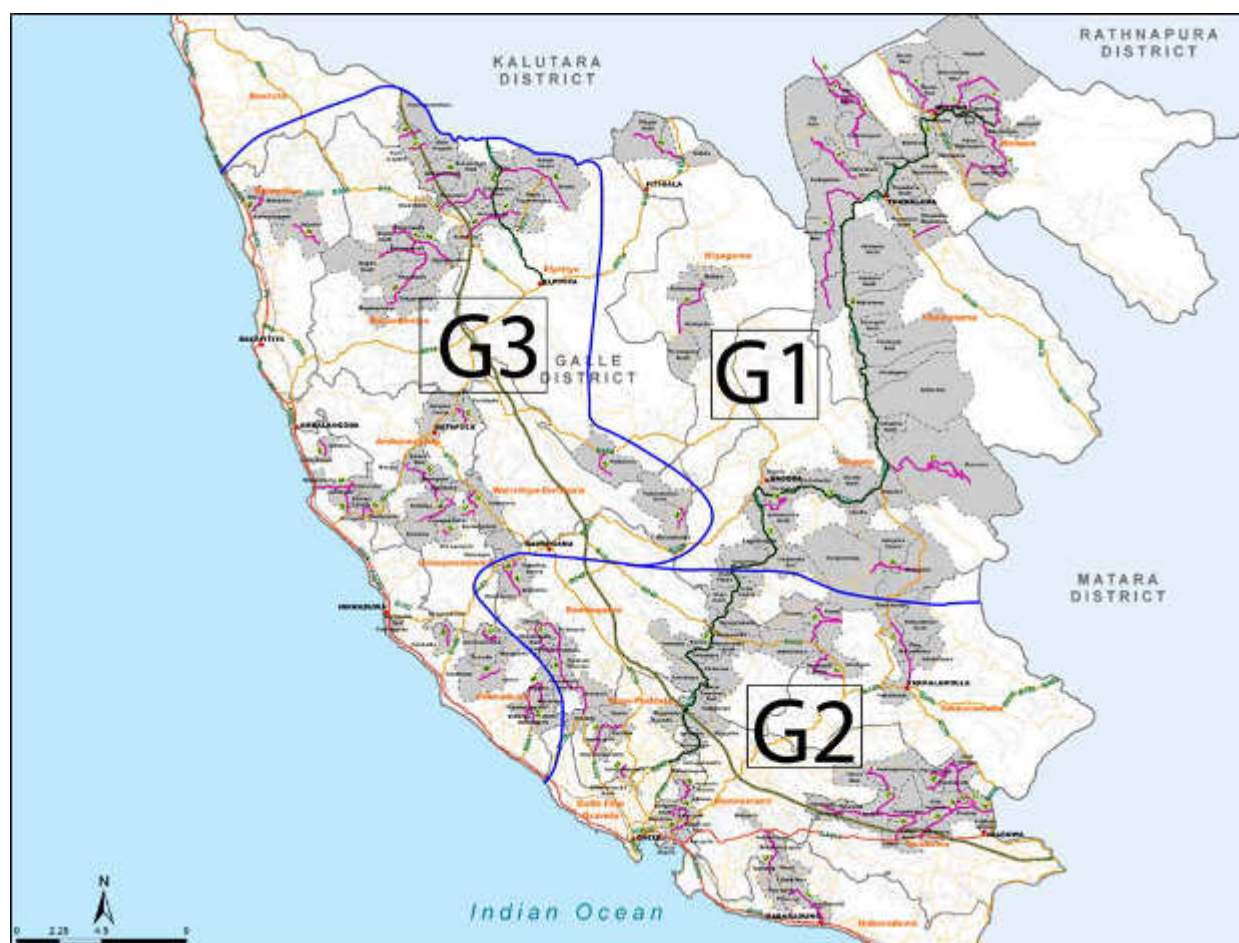

The Executing Agency of the Integrated Road Investment Program (iRoad) is Ministry of Highways & Road Development and Petroleum Resources Development and the Implementing Agency is the Road Development Authority.

The three (3) CRCs in Galle District are listed in Table 1.1

1.2 Consulting Services Contract

MGC- ECL JV is the Project Implementing Consultants (PIC) for Southern Province.

Mobilization of PIC – 01 since 5th June 2015.

The total numbers of roads under the project is 183, out of which 164 nos. of roads have been formally handed over by the Contractors as at 30 June 2019 as per table below;

Table 1.4 :Summary of handed over roads

District	Contract Package	Total No. of Roads	Total No. of handed over roads	Balance to be handed over roads
Galle	G1	15	00	15
	G2	22	22	00
	G3	29	29	00
Matara	M1	22	22	00
	M2	19	15	04
	M3	25	25	00
Hambantota	H1	19	19	00
	H2	18	18	00
	H3	14	14	00
TOTAL		183	164	19

Special concerns of the Contractors: G1 – K.D. Ebert & Son Holdings (pvt) Ltd.

The progress of Contract Package G1 is not reported since the employer has issued a Notice of Termination to the Contractor concerned. The employer issued Notice of Termination under S. Cl 15.2 of the Conditions of Contract (COC) on 12 February 2019, after receipt of concurrence from the Donor ADB.

1.3 Scope of the PIC services

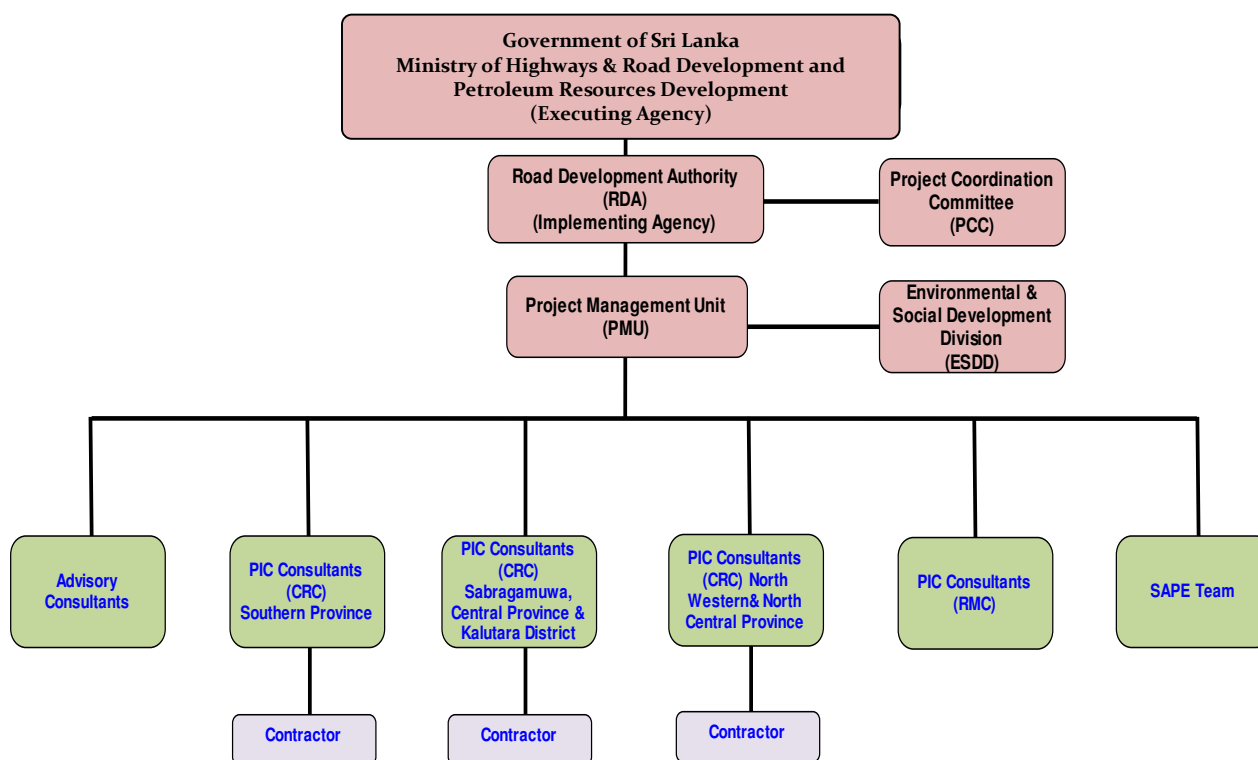

The main task of PIC-01 (CRC) is to assist RDA in supervising and/or implementing the civil works in the CRC component of the iRoad investment program:

The scope of the PIC services and resulting tasks in the TOR fall under the following six broad components:

- Contract Administration based on the FIDIC Conditions of Contract MDB Harmonized Edition (June 2010)
- Review and approve contractors detailed designs and the cost for each civil work contract
- Safeguard Compliance Monitoring
- Project Performance and Monitoring Survey
- Prepare and Implement local and overseas capacity development program for IA Staff
- Reporting Requirements

1.4 Overview of Institutional Framework

The Executing Agency (EA) of the Integrated Road Investment Program (iRoad) is Ministry of Highways & Road Development and Petroleum Resources Development (MOHRDPRD), and the Implementing Agency (IA) is the Road Development Authority (RDA). Three Project Implementation Consultants (PIC) are to be engaged for the CRC component and one PIC for the RMC component. The overall project organization chart is shown below;

PIC(CRC) - Project Implementation Consultants for Conventional Road Contracts

PIC(RMC) - Project Implementation Consultants for Road Management Contracts

SAPE - Survey and Preliminary Engineering

Figure 1. 1 Institutional Framework of iRoad

MGC-ECL JV being the PIC-01 services provider has selected a well-qualified and experienced team of professionals to assist the RDA in the successful delivery of iRoad Southern Province.

The consultancy services comprise as follows;

- Team Leader: 30 Staff-Month input of an international Team Leader,
- FIDIC Contracts & Claims Specialist: Six month input of an international on an as required basis,
- 3 x Resident Engineers: 81 national Staff-Month inputs during construction period,
- 2 x Rural Road Design & Safety Engineers: 56 national Staff-Month inputs during construction period
- Structural Engineer: Six national Staff-Month inputs during construction period
- 3 x Materials Engineers: 72 national Staff-Month inputs during construction period
- 3 x Quantity Surveyors: 81 national Staff-Month inputs during construction period
- Environmental Specialist: 30 national Staff-Month inputs during construction period,
- Social/Gender/Resettlement Specialist: 30 national Staff-Month inputs during construction period,
- 3 x Land Surveyors: 72 national Staff-Month inputs during construction period,
- Contracts & Claims Engineer: 30 national Staff-Month inputs during construction period,
- 3 x Assistant Resident Engineers: 72 national Staff-Month inputs during construction period,
- Resident Engineer: 36 Staff-Month during the maintenance period
- Quantity Surveyor: 36 Staff-Month during the maintenance period
- 10 x Engineers: 240 national Staff-Month inputs of non-key experts
- 18 x Technical Officers: 432 national Staff-Month inputs of non-key experts

Further support staff to the Engineer (PIC-01) is provided through the respective CRC Packages, being Administration Manager, Secretary, 2xLab Technician and 2xSurvey Assistant for each CRC Package.

As indicated in the scope of work of each expert in the PIC team, the inputs of SGRS is now nearing completion. In compliance with the process of demobilization of expert staff the SGRS is to complete his input by end August 2019. Therefore, this shall be the final semi-annual monitoring on social safeguards prepared by the PIC-01.

The overall organization chart for the PIC staff including the linkages with RDA PMU counterpart staff is shown in *Annexure 01 - Overall Organization Chart for PIC*.

1.5 Context and purpose of this report

Resettlement Framework (RF) which has been prepared during the Project Preparatory Technical Assistance (PPTA) sets out guidelines and procedures that need to be complied under social safeguards of the project. As per section 10 of RF on “Monitoring and Reporting” it is required to prepare semi-annual monitoring report on the progress of social safeguards compliance of the project on a semi- annual basis.

This report is prepared to serve as the semi- annual monitoring report on social safeguards and the progress of implementing GAP. The reporting period is from **January to June 2019** for PIC-01, Southern Province.

Total length of 588.5 km of 183 roads are being rehabilitated/improved under PIC-01 and out of which civil works completed in 164 roads as at 30 June, 2019

2 COMPLIANCE ON SOCIAL SAFEGUARDS REQUIREMENTS

As indicated above the Resettlement Framework (RF) which includes guidance in Social Safeguard has been developed during the Survey and Preliminary Engineering (SAPE) works of the project. The RF provides guidance in selection, screening, categorization, impact assessment, project implementation and monitoring of social safeguards according to requirements of the Government of Sri Lanka as well as the ADB Safeguard Policy Statement (SPS, 2009) for the investment program. As per the guidelines given in RF tranches one, two or any succeeding tranches of iRoad program should adopt the following key social safeguards requirements;

- Selection of roads that fulfill the minimum Right of Way (ROW) requirement, there by avoid land acquisition and involuntary resettlement.
- Avoid acquisition of land and involuntary resettlement through alignment shifts, and modifications in cross-sections to the extent required from safety considerations.
- Carry out meaningful consultations with the public from preliminary design stage so as to make public aware of the project and to obtain inputs from the public/ community to be incorporated in to road designs.
- Ensure that due consultations are carried out with individuals or community and obtain their written agreements in case there is a requirement of additional land for road improvements (as identified during detail design and construction stages).
- Ensure that such land is obtained only through a well-documented “Land Donation Process” as stipulated in the Resettlement Framework for the project.
- Ensure that a Grievance Redress Mechanism (GRM) is in place to address any grievance.
- Ensure gender participation in the project from preliminary design stage through construction and maintenance period.

Picture 01. Public consultation at Contract Package H1, Hambantota District

2.1 Compliance on Social Safeguards Provisions of the Loan Covenant

The requirements stipulated in the loan conditions of PIC-01 have been or are being complied with as detailed in the below table.

Table 2.1 Compliance with Loan Conditions (Social Safeguards and Gender)

Item/ Section/ Schedule	Description	Status of Compliance
Schedule 5 – Execution of the project; Financial matters	<p><u>Safeguards</u></p> <p>3. The Borrower shall ensure, or cause RDA to ensure, that the Project does not have any Indigenous Peoples Safeguards and Involuntary Resettlement Safeguards impacts, both within the meaning of SPS. In the event that the Project does have any such impact, the Borrower shall take all steps required to ensure that the Project complies with the RF and IPPF, applicable laws and regulations of the Borrower and with SPS.</p> <p>4. The Borrower shall ensure, or cause RDA to ensure, that any voluntary donation of land by beneficiaries for any provincial or rural road is implemented in accordance with the procedures laid out in Appendix 3 of the RF after free, prior and informed consultation and consent of the affected persons, provided that there shall be no voluntary land donation for national roads.</p>	<p>Complied with PIC-01, SP</p> <p>Roads selected for CRC packages (or rural roads) have minimum Right of Way (ROW) not less than 2.5 m. Road improvement works have been carried out within the available road corridors and no widening of existing ROW has been done. Voluntary land donation process as indicated under Appendix 3 of RF has been utilized only at locations where additional strips of land was required to improve road user safety.</p> <p>No any road passing through or close to settlements of indigenous people have been selected in projects appraised under tranche one and two.</p> <p>Road improvement works of CRC packages had been carried out mainly within the available road corridors. However, at certain locations additional small strips of lands from adjacent land lots have been required to improve the road user safety and to develop lead away drains.</p> <p>No incident has been recorded of eminent domain or other state power used for taking of additional land strips.</p>

Item/ Section/ Schedule	Description	Status of Compliance
Schedule 5 – Execution of the project; Financial matters	<p><u>Human and financial resources to implement safeguards requirements</u></p> <p>5. The Borrower shall make available, or cause RDA to make available, necessary budgetary and human resources to fully implement the SPS, IEE, EMP and any safeguard documents which may be prepared for the Project.</p> <p><u>Safeguards – Related provinces in Bidding documents and works contracts</u></p> <p>6. The Borrower shall ensure, or cause RDA to ensure, that all bidding documents contain provisions that require contractors to: (a) comply with the measures relevant to the contractor set forth in any safeguards document, and any corrective or preventative actions set forth in the Safeguards Monitoring Report;</p>	<p>The road works have been carried out mainly within the available road corridor and voluntary land donation process has been duly followed at locations where additional land strips has been required. No incident has been recorded of eminent domain or other state power used for taking of additional land strips.</p> <p>Being complied with PIC-01, SP</p> <p>Budgetary allocations are found in the contract documents. A Social Safeguards Officer (SSO) who was attached to PIU (SP) has been transferred to PIU, Colombo. SSO position remains vacant. However, in addition to the Assistant SSO a new Environmental Assistant has been appointed to the PIU, SP</p> <p>A Social, Gender and Resettlement Specialist (SGRS) has been appointed in PIC-01. SGRS of PIC-01 has been assigned with a Social Assistant who is stationed at Team Leader's office.</p> <p>Complied with PIC-01, SP</p> <p>PIC-01 has been categorized as 'Category B' on Involuntary Resettlement and 'Category C' on Indigenous Peoples safeguards in accordance with SPS.</p>

Item/ Section/ Schedule	Description	Status of Compliance
	<p>(b) make available a budget for all such safeguard measures; and (c) provide the Borrower with a written notice of any unanticipated environmental, resettlement or small ethnic community peoples' risks or impacts that arise during construction, implementation or operation of the Project that were not considered in the IEE, EMP and any other safeguard plans.</p> <p><u>Safeguards monitoring and reporting</u></p> <p>7. The Borrower shall do the following or cause RDA to do the following: (a) submit annual Safeguards Monitoring Reports to ADB and disclose relevant information from such reports to affected persons promptly upon submission; (b) if any unanticipated environmental and/or social risks and impacts arise during construction, implementation or operation of the Project that were not considered in the IEE, EMP, and any safeguard documents, promptly inform ADB of the occurrence of such risks or impacts, with detailed description of the event and proposed corrective action plan; and (c) report any actual or potential breach of compliance with the measures and requirements set forth in the IEE, EMP and any safeguard Documents promptly after becoming aware of the breach.</p> <p><u>Prohibited List of Investments</u></p> <p>8. The Borrower shall ensure, or cause RDA to ensure, that no proceeds of the Loan are used to finance any activity included in the list of prohibited investment activities provided in Appendix 5 of the SPS.</p>	<p>No incident of physical or economical displacement has been reported during civil works (during this reporting period) of CRC packages under PIC-01</p> <p>Being complied with PIC-01, SP The PIC-01 has prepared and submitted Semi-annual progress reports on social safeguards compliance as follows; So far PIC-01 has compiled seven reports as: July – December, 2015, January – June, 2016, July – December, 2016, January – June, 2017, July – December, 2017, January – June, 2018, July – December, 2018; No any unanticipated social risks and impacts or cases of physical/ economic displacement including involuntary resettlement have arisen during construction, implementation or operation of the projects. No any actual or potential breach of compliance on social safeguards were observed or reported during the reporting period under PIC-01</p> <p>Being complied with PIC-01, SP No incident was observed or reported where any proceeds of the loan has been used for any activity listed under the list of prohibited</p>

Item/ Section/ Schedule	Description	Status of Compliance
Schedule 5 – Execution of the project; Financial matters	<p><u>Labour standards</u></p> <p>9. The Borrower shall ensure that</p> <p>(a) all contractors under the Project comply with all applicable labour laws and regulations, do not allow employment of child labour for Project activities, encourage the employment of the poor, particularly women, and provide appropriate facilities for women and children in work sites;</p> <p>(b) people directly affected by the Project are given priority to be employed by the Project;</p> <p>(c) contractors do not differentiate wages between men and women for work of equal value; and</p> <p>(d) Specific clauses ensuring these shall be included in the contracts.</p> <p><u>Performance monitoring (Loan agreement PIC-01)</u></p> <p>18. The Borrower shall cause, within 3 months of effectiveness of the first loan under the Facility, MOHRD and RDA to establish baseline for performance indicators to be used for monitoring implementation of each project under the Facility.</p>	<p>investment activities during the reporting period.</p> <p>Being complied with PIC-01, SP</p> <p>Specific contract clauses have been included in Bidding documents of all CRC packages to avoid discrimination of labour, employment of child labour and to encourage women labour.</p> <p>Complied with PIC-01, SP</p> <p>PIC-01 has compiled the baseline standards (including baseline standards on socioeconomic aspects) as required in the Project Performance Monitoring System (PPMS). The TA consultant for CSD and Safeguards and Environment and Social Development Division (ESDD) of RDA assisted the PICs in completing this tasks. The documents have been submitted to ADB.</p>

2.2 Compliance with Requirements in the Resettlement Framework (RF)

Initial selection of rural and truck roads has been carried out based on the information gathered through district secretariats, divisional secretaries and civil societies. These roads have been then inspected to verify the availability of land (i.e. Right of Way). Other requirements stipulated in the RF have been or are being complied with as detailed in the below table.

Table 2.2 Compliance with RF

Item/ Section/ Schedule	Description	Status of Compliance
A. Background	<p>Rural Roads</p> <p>Paragraph 4: For the rural roads there will be three contract packages per district. The contractor will be responsible for construction of the road over 2 years and performance based maintenance for another 3 years. For the rural roads the improvements will be undertaken completely within the existing right of way (ROW) which is between 2.5m to 5.5m. Rehabilitation works will include improving pavements/road surface, construction of side drains and embankments, and improvement of culverts, cause ways and bridges.</p>	<p>Complied with PIC-01, SP</p> <p>No road having an average ROW less than 2.5 m was selected. Locations where improvements to road structures and safety needs have been highlighted in transect walk records.</p> <p>All road improvement works are being carried within the available ROW. Voluntary land donation process has been duly followed to obtain small strips of land from adjoining lots where required (for the purposes of road safety).</p>

2.3 Compliance to the Social Requirements under the Project Facility Administration Manual (FAM)

The requirements stipulated in the updated Facility Administration Manual (FAM) of 15 March 2018 of iRoad program have been or are being fulfilled. Details of each item is summarized in below table.

Table 2.3 - Compliance with FAM (Social Safeguards)

Item/ Section/ Schedule	Description	Status of Compliance
VII Safeguards	B. Involuntary Resettlement	Complied with for all projects appraised under PIC-01.
	Paragraph 57. Tranches 1 and 2. Both tranches are classified as category B in accordance with ADB's SPS. The improvement of all project roads will be carried out within the existing alignment with no widening. However, for the 7-year road management contract of selected national roads, the resettlement impact might be encountered at a late stage.	A land acquisition due diligence was undertaken for all roads and did not identify any significant and permanent impact on land, structures, private trees, or community resource properties. Social impact assessment comprising at least 20% households and focused group discussions were also conducted during Survey and Preliminary Engineering works of roads selected under PIC-01
	Paragraph 58. Tranches 3 and 4. Both tranches are classified as category B in accordance with ADB's SPS following the same categorization as the previous tranches.	
	Pre-construction Paragraph 59: The RDA, supported by its ESDD and context-sensitive design (CSD) consultants, will be responsible for conducting a transect walk for each rural road, during which the community will be consulted on how to (i) minimize construction impact, (ii) identify and minimize social and environment impacts, and (iii) integrate road safety design. The community will also be briefed about the grievance redresses mechanism. The results from the transect walk (report and map) will be submitted to the civil works contractor who will reconfirm the ground realities and integrate feasible features into the Level-1 final design. The PIC will review the final design.	All improvements of rural roads under CRC packages are carried out within the available road corridor or ROW. No permanent physical or economic displacement leading to involuntary resettlement has NOT occurred during implementation of PIC-01
	Construction and maintenance Paragraph 60: During the construction phase, the PICs will be responsible for conducting semi-annual onsite social safeguard monitoring. During the maintenance phase, the PICs will be responsible for conducting annual onsite social safeguard monitoring. The PICs should pay close attention to	Complied in with during SAPE works of roads appraised under PIC-01 Transect walk surveys and public consultations were conducted in all rural roads selected under PIC-01. This information has been submitted to respective civil works contractors, who has reconfirmed the ground realities and

Item/ Section/ Schedule	Description	Status of Compliance
VII Safeguards	<p>ensuring that all grievances are addressed in a timely manner. Reporting templates can be found in the resettlement framework.</p> <p>Preparation of subsequent tranches or unanticipated impact Paragraph 61: A resettlement framework has been prepared to guide the preparation of all tranches. For the preparation of the subsequent tranche, the PICs will carry out due diligence on the ongoing tranches.</p>	<p>integrated feasible features in to level 1 design. PIC-01 has reviewed and approved such designs.</p> <p>PIC-01 with respective PIU, Contractor staff are conducting regular onsite monitoring of social safeguards compliance. ESDD of RDA and the TA consultant also conduct periodic onsite visits to monitor the implementation of social safeguards practices by PIU, PIC and contractors.</p> <p>PIC-01 on behalf of PIU has prepared and submitted semi-annual monitoring reports on safeguards compliance. Summary of the reports submitted up to December, 2018 is as follows;</p> <p>PIC-01 has compiled seven reports as:</p> <p>July – December, 2015, January – June, 2016, July – December, 2016, January –June, 2017, July – December, 2017, January –June, 2018 July – December, 2018;</p>
	<p>C. Indigenous Peoples</p> <p>Paragraph 63: For tranches 1 and 2, no indigenous people were identified during due diligence, and both tranches are accordingly categorized as C per ADB's SPS. Tranches 3 and 4 will continue to finance the subprojects identified in the two earlier tranches; therefore, both tranches will follow the categorization of C. In case any adverse impacts are identified during implementation, the RDA will ensure that the indigenous peoples plan (IPP)</p>	<p>During the implementation stage (i.e. during civil works of the five projects) no settlements or activities of Indigenous Peoples (IP) were observed or reported near any road considered under PIC-01.</p>

Item/ Section/ Schedule	Description	Status of Compliance
VII Safeguards	is prepared in accordance with the IPPF, and the IPP is reviewed and approved by ADB before commencement of the relevant section of the civil works contract.	
	<p>D. Grievance Redress Mechanism</p> <p>Paragraph 64: The Grievance Redress Mechanism (GRM) will be established consistent with the requirements of the EARF. Grievances from the affected people on social and environmental issues during project implementation will be addressed mainly through the existing local administrative system. Depending on the nature and significance of the grievances or complaints, grievances will be addressed at three levels: (i) at the grassroots level where complaints will be directly received and addressed by the contractor, the PIC or PIU representative onsite; (ii) grievances that are simple but still cannot be addressed at the grassroots level will be addressed at the Grama Niladhari division level; and (iii) more complex grievances that cannot be addressed at the Grama Niladhari division level will be addressed at the Divisional Secretariat level. There will be a grievance redress committee at both the Grama Niladhari division and Divisional Secretariat levels.</p>	<p>PIC-01: Southern Province Grievance Redress Committees (GRCs) at DS level and GN level have been established for all CRC packages.</p>
VIII Gender and social dimensions	<p>A. Gender and Development</p> <p>Paragraph 65: Tranches 1, 2, 3, and 4 are categorized as effective gender mainstreaming (EGM). During the preparation of tranches 1 and 2, separate gender action plans (GAP) were formulated since the two tranches cover different geographical areas. During the preparation of tranches 3 and 4, the GAP for the entire investment program was formulated (Table 17) since the entire scope of the investment program is now defined, and subsequent tranches will finance the subprojects that were appraised in the first two tranches.</p> <p>Paragraph 66: To ensure that all gender issues are addressed, a social development and gender expert will be engaged by each of the two project implementation consultants, with a total input of 57 person-months of</p>	<p>One consolidated GAP has been prepared for the entire investment program</p> <p>PIC-01 has appointed a full time Social, Gender and Resettlement Specialist (SGRS). SGRS of PIC-01 has been assigned with a Social Assistant who is stationed at Team Leader's office.</p> <p>ESDD/ RDA is monitoring the implementation of requirements of the GAP in each province.</p>

Item/ Section/ Schedule	Description	Status of Compliance
VIII Gender and social dimensions	services, to implement and monitor the GAP. A gender focal officer will be assigned in each of the project implementation units. Semi-annual monitoring of the GAP shall be prepared and submitted to ADB for disclosure.	The semi-annual report prepared on social safeguards by PIC-01 has included a separate section on implementation of GAP.
	B. HIV and AIDS Paragraph 68: The RDA will ensure that all civil works contractors complete the following: (i) carry out awareness programs for labor on the risks of sexually transmitted diseases/AIDS and human trafficking, and (ii) disseminate information at worksites on the risks of sexually transmitted diseases and HIV/AIDS as part of health and safety measures for those employed during construction. Contracts for all subprojects will include specific clauses on these undertakings and compliance will be strictly monitored by the RDA, with the support of construction supervision consultants during project implementation.	CRC package contractors with the assistance of PIC-01 has conducted HIV /AIDs prevention and Health awareness programs. Details of the progress of these workshops are discussed separately.
	C. Health Paragraph 69: The RDA shall ensure that contractors provide adequately for the health and safety of construction workers and further ensure that bidding documents include measures on how contractors will address this, including an information and awareness raising campaign for construction workers on sexually transmitted diseases, HIV/AIDS, and human trafficking.	Awareness programs on safety including use of Personal Protective Equipment (PPE) are being held at field staff level.
	D. Labor Paragraph 70: The project construction is expected to generate employment opportunities for local communities during the construction and maintenance phases. Men and women will be paid equally for equal work. Provisions are in the bidding documents for the contractors to ensure that all the civil works comply with core labor standards (e.g. no child labor; no bonded labor; no work discrimination regardless of gender, race, and ethnicity; and freedom of association and collective bargaining). Targets for employing women for construction and maintenance have been established in the GAP. The project implementation consultant will monitor the provisions.	Details of implementing labour laws and requirements are discussed separately.

3 COMPLIANCE WITH RESPECT TO GENDER ACTION PLAN

Integrated Road Investment Program has been categorized as Effective Gender Mainstreaming (EGM) project. Thus a Gender Action Plan (GAP) has been developed for the program. Gender mainstreaming activities include (i) ensuring that at least 40% women are consulted in the final design of rural access roads, (ii) integrating safety and elderly-women-children-disabled friendly features, (iii) employing at least 30% local women for road maintenance and ensure equal wages for equal work, (iv) providing training in routine road maintenance to all employed women, and (v) encourage women's participation in road safety, STI and human trafficking awareness campaigns. To ensure that these and other gender issues are addressed and complied with, the PIC team is included with a full time Social, Gender and Resettlement (SGR) Specialist. ESDD of RDA has the overall responsibility in implementing the GAP, while the PIC support in monitoring the implementation.

3.1 Gender involvement in Cooperate Social Responsibility (CSR) programs

The total number of CSR program conducted was 01 tree planting program during the period under review in the Southern Province. The number of female beneficiaries were 10 out of the total number of 32 beneficiaries attended for the above program conducted during January to June, 2019. The average percentage of 31 beneficiaries were female from the total participants attended to the Cooperate Social Responsibility (CSR) programs conducted in Galle, Matara and Hambantota during the period under review.

3.2 Staff and labour involvement

Complying with other requirements of GAP during construction stage include training and participation of women labour. Below section discusses the actions taken by Contractor and PIC on this matter.

Due to the completion of constructions, number of women workers involved in civil work at the sites have been reduced during this reporting period.

Table 3.1 - Status of gender composition of staff of the Consultants, Contactors' staff and labour crew in PIC-01 Southern province as at 30 June, 2019.

Working Location		Gender		Total Nos.	Female Percentage %
		Male	Female

Total		119	33	152	21.71

Picture 02. Women at office work, Contractor's office, Contract Package M2, Matara District

As per the status of gender composition of the Consultants and Contractors' staff & labour crew in PIC-01 Southern Province, it was happened to reduce the female contribution to the construction and office works by 1.31% with compared to the previous period due to the completion of civil works in most of the Contract Packages of the project.

The staff of Contractors and Consultants has been gradually reduced proportionately based on the progress of construction works in all districts.

In terms of the employment of female employees/workers during maintenance, the number of female workers were 10 out of the total number of 82 employees and average percentage of 12 employees from all the Contract Packages where maintenance works have been started (as at June 30, 2019).

Table 3.2- Comparison of gender composition in previous and current review periods

Working Location	As at	Male	Female	Total Nos.	Female Percentage
Consultant's staff	31.12.2018	48	26	74	35.14%
	30.06.2019	34	22	56	39.28%

3.3 Women participate actively at PBM training workshops

Picture 04. Women participate actively at PBM safety workshop in Galle District

3.4 Elderly- Women- Children- Disabled (EWCD) Friendly Design

Section VIII of Facility Administration Manual (FAM) is on gender and social dimensions. Paragraphs 65, 66 and 67 of this section describes the gender aspects related to the project. Table 25 under this section presents the Gender Action Plan (GAP) developed for iRoad program. Items 1.1 and 1.2 of this GAP is on addressing road safety and EWCD friendly features in detailed design. Through the design process, it was able to build up close relationship with communities in the project area by identifying the need of vulnerable groups and serving them with benefits.

More details are appeared in Annexure 02 - Gender Action Plan (GAP)

4 SOCIAL SAFEGUARDS ISSUES AND MITIGATION MEASURES IMPLEMENTED

4.1 Status of civil work implementation in PIC-01, Southern Province

Total length of 588.5 km of 183 roads are being rehabilitated/improved under PIC-01 and out of which civil works completed in 164 roads as at 30 June, 2019. Details of overall progress of civil works are shown in the table below;

Table 4.1 Status of civil work implementation as at 30 June, 2019

Contract Package	Contractor	Accepted Contract Amount/ (Rs. Million)	No. of Roads	Road Length/ (Km)	No. of Roads; Civil Works in Progress	Asphalt Completed /(Km)	No. of roads handed over for PBM	Physical Progress as at 30 June 2019 Actual (%)

Picture 06. Completed Road; Kumbalgoda Seelarathana Mawatha, Road ID 47 Contract Package M3, Matara District

4.2 Issues and mitigation measures implemented

4.2.1 Adopting the concept of Context Sensitive Design (CSD).

As per to the ADB's Safeguards Policy Statement (SPS 2009), national laws and policies, any development for the country should not leave a set of people negatively affected in economic or physical terms. As this project is linked with the rural population, it is best to develop a system where participation of community is considered at various stages of the project. Such approach enables to ensure the sustainability of the project facilities provided. In considering the fact that the involvement of all relevant stakeholders is of prime necessity, the project has adopted the concept of Context Sensitive Design (CSD) which provides a basis for shared vision and work to achieve early consensus. CSD recognizes that roadways must be carefully engineered to move traffic efficiently and safely; it asserts that these goals can be achieved without sacrificing the unique qualities of the community they intend to serve. All the designs have been completed and CSD was considered where possible.

4.2.2. Grievance Redress Mechanism

Grievance Redress Mechanism (GRM) has been established as per the guidelines stipulated in the RF. And the due process had been followed when revising, recording and resolving any issue

4.2.2.1 Establishment of GRCs at Grama Niladhari Division (GND) Level & Divisional Secretariat Division (DSD) level

Establishment of all GRCs at GN and DS level was completed during the previous reporting period.

4.2.2.2 Grievance Redress Committees (GRCs)

As shown in the below table 4.2 all GRCs at 45 GRCs at Divisional Secretary (DS) level and 228 GRCs at Grama Niladhari (GN) level have been established and had continued up to 30 June, 2019.

Table 4.2 Establishment of Grievance Redress Committees (GRCs)

District	Contract Package	Total No. of DSDs	GRCs Established during the previous reporting period	Total No. of GNDs	GRCs Established during the previous reporting period

	H2	04	04	18	18
	H3	03	03	14	14
<i>Sub total</i>		12	12	51	51
Total		45	45	228	228

4.2.2.3 Receiving Grievances

Public grievances are received from the general public in the form of grievances, requests, suggestions, and complaints by the project during the implementation of project activities

(a) Public Awareness;

In addition to the community awareness meetings held at the commencement of the project, a public notice developed in local language is being displayed at community attracted places including Grama Niladhari (GN) offices and Divisional Secretariats (DS) in the project area. The main purpose of the notice is to create awareness among communities on the project, understand to what extent the community can involve in project activities and how to make complaints, suggestions, grievances and requests to the project. The public notice gives the key information about the project and contact numbers of relevant officers of the project who are to be contacted regarding social and environment issues.

(b). Channels of Receiving Public Grievances

A system of channels has been established to receive public suggestions, requests, complaints and grievances by the project. The public is clearly informed that they can choose any of the following channels in submitting their complaints/ grievances/ suggestions or requests to the project.

i. Complaint & Suggestion Box

Availability of Complaint & Suggestion box at the site has been identified as one of the effective methods to get views of communities prior to the finalizing of road designs. Complaint & Suggestion boxes are installed at Contractor's site offices in all Contract Packages and the public are expected to tender their written grievances to the Contractors Offices through Complaint & Suggestion box. Complaints/ Suggestions are being collected from the Complaint & Suggestion box at the end of each day.

Picture 07. Complaint box installed at Contractor's office. Contract Package H2, Hambantota District

ii. Office of Grama Niladhari (GN)

Grama Niladhari (GN) is the village level government representative of the administrative set up of Sri Lanka. Therefore, the project has made arrangements to officially appoint GN as the Chairman of the Grievance Redress Committee (GRC) established under the project at Grama Niladhari Division (GND) level. A public notice is also displayed at each GND offices in the project area and the public can submit their written grievances to the GN office.

Picture 08. Office of Grama Niladhari, Thalawa - South, Contract Package H3, Hambantota District

iii. Office of the Divisional Secretary

Divisional Secretary (DS) is the divisional level government representative of the administrative set up of Sri Lanka. Therefore, the project has made arrangements to officially appoint DS as the Chairman of the Grievance Redress Committee (GRC) established under the project at Divisional Secretary (DS) level. A public notice is also displayed at each DS offices in the project area and the public can submit their written grievances to the DS office.

iv. Field staff

In addition to the above channels, all the field staff of the project is instructed to accept public grievances and hand them over to the Project Engineer (PE)/ Environment Officer (EO) /Social Safeguard Officer (SSO) on the same day or in failing which the following day for necessary action.

v. Online system

The iRoad Project Management Unit (PMU) Information Centre maintains a comprehensive data base on project activities at its office in Sethsiripaya, Batteramulla. The public are now able to forward their complaints to PMU through website, www.iroadinfo.rda.gov.lk/publiccontact.

(c). Maintenance of records for public complaints

Maintenance of relevant records is considered as a prime requirement. All the received grievances are being registered at the Project Manager's office of each Contractor. The grievances received by the project are being prompt attended to.

All the grievances received are classified according to the nature of grievance. Classified grievances and the status of action taken are summarized in the table below;

Table 4.3 Classified summary of Public Grievances, Requests, Suggestions and Complaints during the reporting period

District	Contract Package	No. of Roads	No. of Grievances	No. of Requests	No. of Suggestions	No. of Complaints	Total	No. Attended	No. Unattended	No. Completely settled	Solution in progress

During the period under review (January – June, 2019), 06 grievances (grievances, requests, suggestions and complaints) received in nine (9) Contract Packages in the three districts and all complaints have been completely settled to the satisfaction of the complainers.

Graphical presentation of status of Public Grievances, Requests, Suggestions and Complaints

Graph 4.1 Status of Public Grievances, Requests, Suggestions and Complaints – Matara District

Graph 4.2 Status of public Grievances, Requests, Suggestions and Complaints – Hambantota District

Graph 4.3 Status of Public Grievances, Requests, Suggestions and Complaints – Southern Province

4.2.2.4 Number of GRC meetings held during January to June, 2019

The prime objective of forming GRCs is to accomplish the purpose of establishing grievance redress mechanism in the project. Hence, the functions of GRCs are confined to discuss only the project related public issues, requests, grievances, suggestions, complaints, proposals etc. Thereby, it is expected to find collective best solutions for such issues & arrive at decisions. GRC meets only when there is a public issue to be settled. The number of meetings of GRC depend on the number of issues to be settled and the complexity of those issues.

Table 4.4 Number of GRC meetings held (January – June, 2019)

District	Contract Package	No. of roads where GRCs held	No. of GRC meetings held

4.2.3 Addressing Grievances (Complaints, Grievances, Requests and Suggestions) at four (4) levels;

In order to address the public grievances efficiently and to the satisfaction of complainers, iRoad (SP) has established a mechanism to address those complaints at grassroots level, GND level GRCs, DSD level GRCs PC level. The table 4.5 shows the solutions given for public complaints at different levels during the period under review.

Table 4.5 – Solutions given for Complaints at grassroots, GND, DSD and PC levels

District	Contract Package	No. of Complaints (Grievances, Requests, Suggestions, Complaints)	Solution in progress	No. settled	No. Unattended	Settled at grass root level (1)	Settled at GND level (2)	Settled at DSD level (3)	Settled at PC level (4)

The total number of public complaints received during the period under review is 06 and all the complaints have been attended and settled as depicted in the above table.

4.2.4 Design Changes made due to Public Requests;

In establishing the concept of Context Sensitive Design (CSD), the project has responded the public voices and accommodate their requests/grievances in to the road designs within the provisions of Loan Covenant.

None of the design changes made to the original designs due to public requests during the period from January to June 2019.

4.2.4.1 Cost invested to accommodate Public Requests

A total amount of Rs. 389,700,175 has been invested to accommodate the public requests to the road designs in the three districts up to 30 June, 2019.

Details of cost invested to accommodate public requests are in the following Tables 4.6, 4.7 and 4.8

Table 4.6 Cost invested to accommodate Public Requests– Galle District

4.3 HIV/AIDS prevention and Health awareness programs –Step 1 & 2

As per the Contract Document Volume 3 S.Cl.108.3 and Volume 5A BOQ pay item 108.3 (1) the contractors have to conduct HIV/AIDS prevention and Health programs to all site staff, labourers and the immediate local communities via an approved service provider, in accordance with the S.Cl.6.7 of Conditions of Contract and the need of providing awareness on STD including HIV/ AIDS and human trafficking for civil works employees and communities is also specified under item 1.6 of GAP. The project has made arrangements to implement the programs in two steps at each Contract Package:

Eighteen (18) HIV/AIDS prevention and Health awareness programs have been already conducted in each Contract Package before the period under review.

4.4 Road Safety Awareness Programs (RSA for school community)

Road Safety Awareness (RSA) programs for community focusing on the school children, their parents and the communities in the project area who are the prime road users, have been conducted in selected nine schools in all Contract Packages of Galle, Matara and Hambantota districts in Southern Province as per instructions on Road Safety Awareness Campaigns under Appendix 3 of the Resettlement Framework (RF) and item 1.5 of the GAP in the FAM.

Nine (09) RSA programs have been already conducted in each Contract Package before the period under review.

4.5 Cooperate Social Responsibility (CSR) implemented by Contractors and PIC

In addition to the civil work construction, the Contractors have organized and conducted substantial number of CSR programmes with the support of PIC. The main objectives of conducting CSR programmes are;

- To identify the felt need of vulnerable groups in the project area and to serve them with tangible or/and intangible (knowledge, awareness etc.) benefits.
- Build up close relationship with communities in the project area
- Enhance the goodwill about the project and the Contractors

The number of CSR programmes are declined since the project is at the closing stage.

Table 4.9 Cooperate Social Responsibility (CSR) Programmes conducted during the period under review

District	Contract Package	S/N	CSR Programs conducted	Objective/s	No. of participants / Beneficiaries			
					Male	Female	Total	Female %
Galle	G1			None				
	G2			None				
	G3			None				
Matara	M1			None				
	M2	1	Tree planting program at Rathanapala Maha Vidyalaya	To make pleasant surroundings at the temple & encourage people for the tree planting	22	10	32	31
	M3			None				
Hambantota	H1			None				
	H2			None				
	H3			None				
Total					22	10	32	31

It is noteworthy that the average percentage of 31 beneficiaries were female from the total participants attended to the CSR programme.

5. LAND DONATION

Paragraph four (4) of the Resettlement Framework (RF) for the Integrated Road Investment Programme (iRoad) states that “for the rural roads improvements will be undertaken completely within the existing Right of Way (ROW) which is between 2.5m to 5.5m. However, in paragraph eight (8) it states that voluntary land donation will be used if additional strip of private land is required. Appendix 3 of the RF further explains that land donation will be method if private land is required for the iRoad. Voluntary donation of land involves the contribution by individuals of land for the project that has the community benefits including rural roads that are part of the community driven development. The basic principles are the following:

- that the project benefits will realistically offset the size of the donated land;
- in case negotiations for voluntary land donation fail, eminent domain or other powers of the state will not be used;
- a maximum of 5% of land can be donated, particularly for the vulnerable households; and for households donating land, no physical displacement will take place

As per Appendix 3 of the Resettlement Framework (RF), written confirmation is required for the donation made by the land owners.

Written Confirmation of Land Donation

If any land owner is willing to donate a strip of his/her land for the improvement of roads that should be confirmed by a written document. As illustrated in the above diagram, if the width of such land strip is more than 01 meter, relevant Project Engineer (PE) shall have to enter in to a **Memorandum of Understanding (MOU)** with the land owner. In this regard, PE shall ensure that the donated land strip is less than 5% of the owner’s entire land as per Resettlement Framework (RF).

If the width of such land strip is less than 01 meter, PE shall obtain a duly signed **letter of consent** from the land owner.

The above system has been adopted to avoid confusions as to what level the agreements will be signed. This system is currently practicing in other PICs also.

Figure 5. 1 Written confirmation of land donation

5.1 Status of Land Donation

In the implementation of the iRoad, it was identified that there had been occasions where additional land strips were needed to carry out the road improvement works.

Hence, the project has followed the procedure as per guidelines stipulated in the RF for land donation as follows;

- Disseminate information to all relevant agencies on project information and the land donation concept. Continuous public awareness on land donation process has encouraged people to involve in project activities positively. Methods that are being used to create awareness among public and other stakeholders are one on one discussions, Focus Group Discussions (FGD) and GRC meetings. A Public Notice has been developed in local language in accordance with the guidelines laid down under Appendix 3 of the Resettlement Framework (RF). The public notices are being displayed at notice boards of every Grama Niladhari offices located in the project area. As a result, land owner having understand the value of donating their pieces of lands for the purpose of improving/rehabilitation of roads.
- Raise awareness and undertake meaningful consultation and negotiation with APs.
- Signing of Memorandums of Understanding (MOUs) by the land owners and the relevant Project Engineers. (This activity ensures the transparency through written confirmation.)

Memorandums of Understanding (MOUs): The project has introduced two types of MOUs and translated in to local language.

- MOU to be signed by a single private owner
and
- MOU to be signed by group of private land owners.

In addition, if the donated land is less than one meter, consent letters have been obtained from the land owners.

There had not been signed any MOU or any consent letter during the period under review since the construction works of the project at nearing completion.

6. STAKEHOLDER COORDINATION

The project has made successful effort to involve relevant stakeholders in the project activities. In addition to the involvement of Divisional Secretaries (DSS) and Grama Niladharies (GNN) through Grievance Redress Mechanism (GRM), the project has taken measures to maintain an effective coordination with stakeholders. It was evident that a better coordination among stakeholders leads to facilitate field activities efficiently

7. MONITORING

Project Implementation Consultants (PIC) has closely monitored the Social Safeguard process of the project through:

- Making site visits,
- Holding review meetings,

In addition, Project Implementation Consultants (PIC) and Environment and Social Development Division (ESDD) of Road Development Authority (RDA) have made joint field visits together with the relevant staff of the Contractors to monitor the social and environment progress in each district and held progress review meetings. Field observations were mainly discussed at these meetings and arrived at collective decisions to mitigate the issues identified at the time of field visit.

Furthermore, TA consultant on safeguards, ADB has made several visits to the sites and held review meetings and supported with providing guidance to implement the social safeguards process in high standards.

The team of experts of ADB, Sri Lanka Resident Mission (SLRM) also visited the project areas during the period under review, and made an invaluable contribution to the successful implementation of social safeguards process of PIC-01, Southern Province.

7.4 ADB monitoring visits

The iRoad program in SP is considered as the flagship project for projects in iRoad as well as iRoad 2. Therefore, the Sri Lanka Resident Mission formulated a special program jointly with the Ministry to conduct a tour for media personnel, to have a hands-on experience about the iRoad program. This media tour was organized during the month of June but the field tour commenced only in July. Details of this media tour is included in this monitoring report as this shall be the final report on social safeguards which shall be developed by PIC-01.

8. CONCLUSION AND RECOMMENDATIONS

8.1 Conclusion

This Semi-annual Social Monitoring Report for the period from January to June, 2019 has been compiled as per section 10 of Resettlement Framework (RF) in which includes the social safeguards activities carried out by iRoad, PIC-01, Southern Province (SP). The report consists of the status of compliance with the Social Safeguard requirements of Resettlement Framework (RF), Loan Conditions (social safeguards) and Facility Administration Manual (FAM) updated March, 2018.

Civil works of all Contract Packages except package G1 has been completed and handed over to the client and the project is now in PBM period. In accordance with the project formulation the PIC of SP has already started the demobilization of expert staff. As indicated in the “institutional framework” the SGRS is to complete his inputs by end August 2019. PIC-01 had so far prepared and submitted seven monitoring reports and this shall be the last report due to demobilization of expert staff of PIC.

Under the Social Safeguard issues and mitigation measures, it mainly discusses the gender involvement in project activities, integrating EWCD friendly design, practical application of Grievance Redress Mechanism (GRM), establishment of Grievance Redress Committees (GRCs), addressing public grievances, and land donation process. Further, implementation of socio economic impact (mid-term) survey also discusses in this report. Moreover, stakeholder co-ordination and monitoring process of social safety process are also discussed. In compliance with the loan conditions (Social Safeguards) and the Resettlement Framework (RF); recruitment of individual consultants for activities laid down in the Procurement Plan has already been completed. In relation to employment, Contractors were instructed and encouraged to follow the conditions laid down in the Schedule 5 – labour standards in the Loan Conditions.

As per Gender Action Plan (GAP) under the section VIII Gender and Social Dimensions of Facility Administration Manual (FAM), Elderly- Women- Children- Disabled (EWCD) friendly design has also been attended where requested.

Women involvement is encouraged and monitored while the implementation of the project activities and the female labour contribution for the construction work, office work, for CSR activities and other workshops conducted by the project during the period under review:

As per the status of gender composition of the Consultants and Contactors' staff & labour crew in PIC-01 Southern Province, it was happened to reduce the female contribution to the construction and office works by 1.31% with compared to the previous period due to the decrease of major activities of the project.

- Women involvement is ensured in conducting Cooperate Social Responsibility (CSR) programmes by the Contractors under the patronage of iRoad PIC-01 (female participation was 31%)
- Women participation was encouraged in conducting workshops by the PIC-01 (female participation was 09%)
- The Contactors were instructed and encouraged to employ, poor local women in particular. They were also instructed to pay similar wage for similar work for all.
- All the gender related issues have been effectively addressed and complied by the Social, Gender and Resettlement Specialist of PIC-01 together with other relevant officers of the project.

None of the Contractors have assigned child labour for the project activities during the period under review.

Effective strategies have been applied to address social safeguard issues confronting during the period. As a result of establishment of GRM, the project could get the maximum cooperation of state authorities and other stakeholders in addressing social issues through Grievance Redress Committees (GRCs) formed at Grama Niladhari Division (GND) level as well as Divisional Secretary Division (DSD) level.

During the period under review, a total of 06 Public Complaints have been received in three districts and all the complaints were attended and settled to the satisfaction of the complainers.

It is noteworthy, that a total amount of Rs. 389,700,175 has been invested to accommodate the public requests to the road designs in the three districts in Southern Province up to 30 June, 2019.

In addition to the civil construction work, one Contractor has also conducted one (01) Cooperate Social Responsibility (CSR) programme specially targeting at vulnerable groups in the project area. The total number of beneficiaries were 32, in which 10 were female at this CSR programme conducted during the period under review. The number of CSR programmes were declined since the project is at closing stage.

Since, PIC-01, SP is reaching its completion, requirement of land donation was not occurred. It is resulted, none of the land strip was donated during the period under review.

PIC-01, SP is able to establish strong coordination mechanism among stakeholders such as Political Authority, Divisional Secretaries, Assistant Directors of Planning, health staff, Provincial Road Development Authority (PRDA), Local Government Department, Pradeshiya Sabhas, Department of Education, Police Department, Non-Government Organizations (NGOs) etc. in the Southern Province.

PIC-01 (SP) has given a pivotal attention to monitor the social safeguard process of the project. In addition to the frequent site visits, held substantial number of review meetings to monitor the progress at TL, RE, ARE levels and to identify the strengths and weaknesses of the process and taken remedial actions by the PIC-01, SP.

In addition, TA consultant on safeguards, ADB have made several visits to the sites and held review meetings and supported with providing guidance to implement the social safeguards process in high standards.

Staff of the ESDD of RDA also made visits to the project sites and review the progress and guided the staff to operate the system properly.

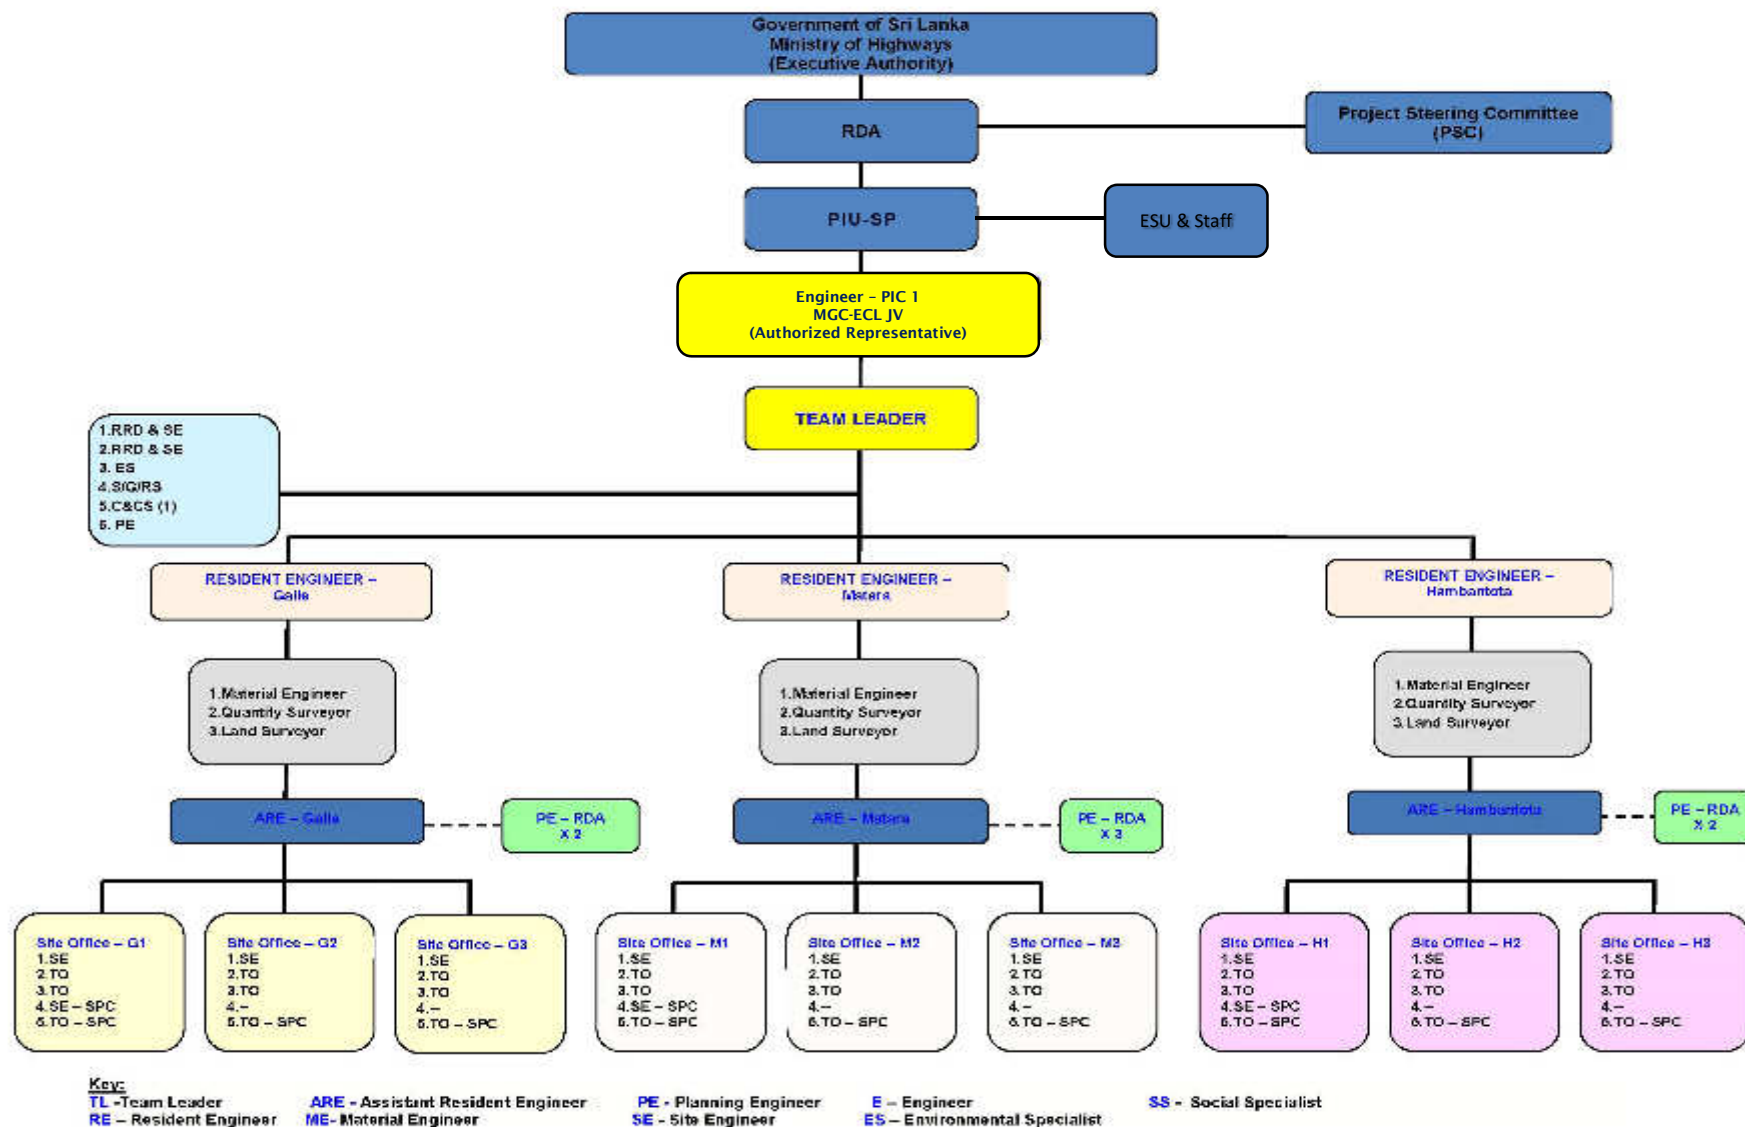

ADB mission members also paid visits to monitor the project performances.

The total number of roads under the project is 183, out of which 164 nos. of roads have been formally handed over by the Contractors as at 30 June 2019.

8.2 Recommendations

- It is more effective, if orientation programs on project process could be conducted for the relevant key state officials and NGOs functioning in the project area, prior to the commencement of the project.
- It is proposed to make adequate financial provision in the upcoming projects to implement gender related special programs for the achievement of better results as per the GAP.
- It is suggested to make provision to conduct community attracted activities such as lively hood programs etc. to enable to ensure the active community involvement towards the project implementation.
- Through the experience gained during the period under review, it was observed, if field officers qualified in social science could have been assigned at Contract Package level to address social issues and to implement mitigation measures that would have been more beneficial to the communities as well as to achieve the project targets more effectively in respect of social safeguard component. Hence, it is recommended to assign field based social officers in upcoming similar projects.
- It is suggested that if GRM could pursue even during the maintenance period would be more effective.

Output 2: Enhanced capacity of RDA and provincial roads executing agencies																																																																													
Activity 2.1: Institutionalize sex-disaggregated database and conduct gender analysis during preparatory surveys for all rural roads projects in Sri Lanka.																																																																													
2.1.a. Poverty and social assessment study include gender assessment with sex-disaggregated data for relevant indicators.	N/A					Being complied with in phase 1 of iRoad program.																																																																							
						Socioeconomic profile reports were prepared during Survey and Preliminary Engineering (SAPE) works for SP, CP, Sab, NWP, NCP and Kalutara. These reports included gender segregated information.																																																																							

		Each PIC has now developed their Project Performance Management System (PPMS) with baseline standards of poverty and other social related parameters with assistance from TA consultant and ESDD/ RDA.																									
Activity 2.2: Appoint a social and gender focal at the PIU level and trained by Specialist in PIC.																											
2.2.a. Effective social and gender officer engaged.	N/A	PIUs for SP, CP, Sab, NWP, NCP and Kalutara districts have appointed qualified persons as Social Safeguard Officers (SSOs). These SSOs act as the gender focal point at PIU level and are trained by Social/ Gender/ Resettlement Specialists (SGRSs) of PIC 1, 2 and 3.																									
Activity 2.3: Build the capacity of RDA and provincial road agencies on gender-inclusive design and mainstreaming gender in project preparation, consultation; road construction; and maintenance.																											
2.3.a. At least 20 RDA staff at the national level and 20 staff of provincial road agency trained in mainstreaming gender in road construction and maintenance.		<p>Three (3) gender programs were conducted in the PIC-01, Southern Province to create awareness on integrating gender perspectives into analysis and planning in the transport sector. The overall objective of the workshops was to improve the knowledge and change the attitudes of participants on gender issues that could be better promoted and secured in the transport sector. The programs were conducted by Foundation for Innovative Social Development (FISD) under the purview of ADB. Coordination of the workshops were attended by the Consultant. Details of the participants are appeared in the table below.</p> <table border="1"> <tr> <th></th><th>F</th><th>M</th><th>T</th></tr> <tr> <td>No. of staff participated from RDA ESDD/ PIU</td><td>6</td><td>12</td><td>18</td></tr> <tr> <td>No. of staff participated from PIC 01,02 & 03</td><td>18</td><td>42</td><td>60</td></tr> <tr> <td>Total</td><td>24</td><td>54</td><td>78</td></tr> </table> <table border="1"> <tr> <th></th><th>F</th><th>M</th><th>T</th></tr> <tr> <td>No. of trainings programs conducted</td><td></td><td></td><td>3</td></tr> </table>		F	M	T	No. of staff participated from RDA ESDD/ PIU	6	12	18	No. of staff participated from PIC 01,02 & 03	18	42	60	Total	24	54	78		F	M	T	No. of trainings programs conducted			3

Activity 2.4: Conduct impact assessment for sample roads with sex-disaggregated indicators.																			
2.4.a. Socioeconomic impact assessment conducted for sample roads with a focus on time-use study of women road users.		Socio – Economic Impact Assessments (mid-term) Survey has started in July, 2018. The Sample selected for the Survey is 1023 HHs. (Galle – 402HHs, Matara – 307HHs, Hambantota – 314HHs). The implementation of survey was completed on 10 th October, 2018 and submitted all the documents pertaining to the Survey (Data entered formats(hard & soft copies) , filled questionnaires (hard & soft copies) together with the status report) to the Project Management Unit on 13 th December,2018.	<p>Survey was completed on 10th October, 2018.</p> <p>Submitted the documents to PMU on 13th December, 2018.</p>																
Output 3: Project preparation of the following tranches																			
Activity 3.1: Collect sex-disaggregated data and conduct a gender analysis during preparatory surveys, feasibility studies, assessments and reports.																			
3.1.a. Poverty and social assessment study include gender assessment with sex-disaggregated data for relevant indicators.	N/A	Socioeconomic profile reports were prepared during Survey and Preliminary Engineering (SAPE) works for SP, CP, Sab, NWP, NCP and Kalutara. These reports included gender segregated information.																	
Activity 3.2: Integrate gender-inclusive features into final design and formulate gender-mainstreaming activities.																			
3.2.a. At least 50% of outputs for subsequent tranches include gender-related targets.	Achieved / complete	100% of outputs of tranches 2 and 3 had gender related targeted
