EXECUTIVE SUMMARY

A. PROJECT DESCRIPTION

1. The SASEC Road Connectivity Investment Program (“SRCIP”) will improve road connectivity and efficiency of the international trade corridor, by expanding about 500 km of roads in the North Bengal and Northeastern Region (NB-NER) of India. The project area under SRCIP is a key strategic thoroughfare integrating South and South East Asia, bordering Bangladesh, Bhutan, Myanmar and Nepal. It will enable efficient and safe transport within India and regionally with other South Asia Sub Regional Economic Cooperation (SASEC) member countries. Ultimately, SRCIP will pave the way from India and other South Asian countries to Myanmar, and further afield to other member countries of the Association of South East Asian Nations (ASEAN).

2. In accordance with ADB’s Multi-tranche Financing Facility (MFF) modality, under Tranche 1 of the investment program, two subprojects totaling about 134 km in West Bengal and one -core subproject in the State of Manipur are taken up considering their significant regional cooperation and integration impacts, economic viability, and social, resettlement and environmental soundness. Another section of Asian Highway (AH-1) from Imphal-Moreh Road in the State of Manipur is being considered for financing as a subproject of Tranche 2. The present study section, Imphal – Moreh is part of Asian Highway AH1 in Manipur state in India. AH 1 is the longest route of the Asian Highway Network, running 12,845 miles (20,557 km) from Tokyo, Japan via Korea, China, Southeast Asia, India, Pakistan, Afghanistan and Iran to the border between Turkey and Bulgaria west of Istanbul where it joins end-on with European route E80. In India AH 1 passes through Numaligarh – Golaghat – Garampani – Barpathar – Naojan – Bokajan – Dimapur – Kohima – Tadubi – Senapati – Kangpokpi – Imphal – Thoubal – Tengnoupal – Moreh (Myanmar border) in Aasam, Nagaland and Manipur states.

3. For the proposed AH-1 section from Imphal-Moreh road the Executing Agency (EA) will be the Ministry of Road Transport and Highways (MORTH) and Implementing Agency (IA) will be the National Highways and Infrastructure Development Corporation Limited (NHIDCL). A Project Implementation Unit (PIU) will be established by NHIDCL which will be responsible for conducting the social assessment and formulating Resettlement Plan (RP) for the subproject, as outlined in the Resettlement Framework (RF). The total length of the project section is 65.68 km.

4. The 95.410 km of Imphal-Moreh road is divided in to three contract packages and during the preparation of Tranche 2, an RP was prepared to address the land acquisition and resettlement impacts that of civil contract package 1 and 2. However, during project implementation, NHIDCL revised the road design by reducing the Right of Way (RoW) of Package 1. Based on the revised design, this updated RP for Package 1 has been prepared accordingly. The RP complies with the applicable State Government, Government of India and ADB policy and legal framework. This subproject is considered as Category-A¹ as per as Involuntary Resettlement (IR) categorization is concerned.

¹ According to ADB Safeguard Policy Statement (SPS-2009), Involuntary Resettlement Category A: Significant means 200 or more affected people will experience major impacts, which are defined as (i) being physically displaced from housing, or (ii) losing 10% or more of their productive assets (income generating). Involuntary Resettlement Category B: Not Significant include involuntary resettlement impacts that are not deemed significant

5. The proposed subproject can be viewed as boosting economic growth and poverty reduction, which will bring substantial social and economic development in the region. The social benefits arising due to the subproject will be triggered off due to improved accessibility to various services such as easy access to markets, health facilities, schools, workplace etc. which in turn increases the income of the locals, and ultimately elevating their standard of living. Adequate attention has been given during the feasibility and detailed design phases of the subproject preparation to minimize the adverse impacts on land acquisition and resettlement impacts. With the available options, best engineering solution have been adopted to avoid land acquisition and resettlement impacts.

B. SCOPE OF LAND ACQUISITION AND RESETTLEMENT

6. As per the Land Acquisition Plan (LAP) prepared for the project, 56.18 acres of land needs to be acquired for the project out of which private land acquisition requirement for the subproject is 34.14 acres. Based on the full census survey carried out for the project, 1193 households with 6507 persons are identified to be displaced due the project intervention. There are 126 households being physically displaced and 1067 households will be economically displaced due to loss of productive land, commercial structures and livelihoods. There are 106 common properties resources (CPR) including religious structures community structures and government structures will be affected by the proposed road widening. The summary findings of the full census survey are presented in the following **Table E-1**.

Table E-1 Summary Subproject Impacts

Sl. No.	Impacts	Number
1	Total number of private structures affected	615
2	Total Area of Land required (in Acres)	56.18
3	Area of private land to be acquired (in Acres)	34.15
4	Total number of displaced households	1193
5	Total number of displaced persons	6507
6	Total number of economically displaced households	1067
7	Total number of physically displaced households	126
8	Significantly affected households ²	517
9	Total number of vulnerable households displaced	524
10	Total number of CPR (structure) affected	106

C. SOCIOECONOMIC INFORMATION AND PROFILE

7. There are 6507 DPs in total being affected by the subproject which includes 3239 (49.78%) males and 3268 (50.22%) females. The social stratification of the subproject area shows that the dominance of other backward caste population with 633 (53.06%) households. The average household size is five and the sex ratio among DPs is 1009. According to subproject census survey there are 524 vulnerable households affected by the subproject. The educational status of DPs reveals that 9.75% DPs are still illiterate in the project area.

as per the ADB Operational manual Involuntary Resettlement Category C: No involuntary resettlement impacts. A resettlement plan is required in case of both category A and B project.

² Includes households being physically displaced and/or losing more than 10% of their productive assets.

8. There are 4 scheduled tribe (ST) households being affected by land acquisition and resettlement. Provision for special assistance is made in the entitlement matrix for the DPs belong to ST community.

D. STAKEHOLDERS CONSULTATION AND PARTICIPATION

9. In addition to meaningful individual consultations held with all affected households or their representatives that were available during the census survey, public focused group discussion (FGD) were conducted at 4 locations attended by 68 persons (55 male and 13 female) in the subproject to ensure peoples' participation during the project census survey. Aiming at promotion of public understanding and fruitful solutions of developmental problems such as local needs and problem and prospects of resettlement, various sections of DPs and other stakeholders were consulted through focus group discussions and individual interviews. Several additional rounds of consultations with APs and communities will form part of the further stages of subproject implementation. The implementing NGO will be entrusted with the task of conducting these consultations during RP implementation, which will involve disclosure on compensation, assistance options, and entitlement package and income restoration measures suggested for the subproject.

10. To keep more transparency in planning and for further active involvement of APs and other stakeholders the subproject information will be disseminated through disclosure of resettlement planning documents. The EA will provide relevant resettlement information in a timely manner, in an accessible place and in a form and language(s) understandable to displaced persons and other stakeholders.

E. LEGAL FRAMEWORK

11. The legal framework and principles adopted for addressing resettlement issues in the Project have been guided by the existing legislation and policies of the GOI, the Government of Manipur, Asian Development Bank and the Resettlement Framework (RF) adopted for the project. Prior to the preparation of the RP, a detailed analysis of the existing national and state policies was undertaken and a RF has been prepared for the entire program. This RP is prepared based on the review and analysis of all applicable legal and policy frameworks of the country and ADB policy requirements. The gaps between the policies such as recognition of non-titleholders, negotiated settlement, consultation and disclosure and monitoring of RP implementation etc. have been identified and addressed to ensure that the RP adheres to the SPS (2009) requirements.

12. All compensation and other assistances will be paid to all DPs prior physical/economic displacement. After payment of compensation, DPs would be allowed to take away the materials salvaged from their dismantled houses and shops and no charges will be levied upon them for the same. The value of salvaged materials will not be deducted from the overall compensation amount due to the DPs. A notice to that effect will be issued intimating that DPs can take away the materials.

13. The IA i.e. NHIDCL has requested the Manipur Government to procure land for the subproject. In response to NHIDCL's request the State Government of Manipur has come up with a cabinet approval for direct purchase of land through negotiation. In case of failure of any negotiation as per state policy, the land acquisition in this subproject context will be accordingly

the process of RFCTLARR – 2013 and therefore the SPS IR requirements and the entitlement matrix provided in the RF will apply accordingly.

F. ENTITLEMENTS, ASSISTANCE AND BENEFITS

14. In case of land acquisition, the date of publication of preliminary notification for acquisition under section Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013 (RFCT in LARR Act – 2013) will be treated as the cut-off date. For non-titleholders, the cut-off date will be the end of the census survey which is 5th February 2019. Land and structures affected under the subproject will be compensated at replacement cost. DPs who settle in the affected areas after the cut-off date will not be eligible for compensation. They, however, will be given sufficient advance notice, requested to vacate premises and dismantle affected structures prior to subproject implementation. Their dismantled structures materials will not be confiscated and they will not pay any fine or suffer any sanction.

G. RELOCATION OF HOUSING AND SETTLEMENTS

15. The EA will provide adequate and appropriate replacement land and structures or cash compensation at full replacement cost for lost land and structures, adequate compensation for partially damaged structures, and relocation assistance, according to the Entitlement Matrix. The EA will compensate to the non-title holders for the loss of assets other than land, such as dwellings, and also for other improvements to the land, at full replacement cost. The entitlements to the non-titleholders will be given only if they occupied the land or structures in the subproject area prior to the cut-off date.

H. INCOME RESTORATION AND REHABILITATION

16. The subproject impact reveals that due to loss of land and commercial structures 912 households (including households losing livelihoods indirectly such as tenants, sharecroppers, and employees) are losing their livelihood due to the subproject. The entitlement proposed for the subproject has adequate provisions for restoration of livelihood of the affected communities. The focus of restoration of livelihoods is to ensure that the DPs are able to at least achieve pre-project level if not improved. To restore and enhance the economic conditions of the DPs, certain income generation and income restoration programs are incorporated in the RP. To begin with providing employment to the local people during the construction phase will enable them to benefit from the subproject, reduce the size of intrusive work forces and keep more of the resources spent on the subproject in the local economy. It will also give the local communities a greater stake and sense of ownership in the subproject.

I. RESETTLEMENT BUDGET AND FINANCING PLAN

17. The resettlement cost estimate for this subproject includes eligible compensation, resettlement assistance and support cost for RP implementation. The support cost, which includes staffing requirement, monitoring and reporting, involvement of NGO in subproject implementation and other administrative expenses are part of the overall subproject cost. Contingency provisions have also been made to take into account variations from this estimate. The total R&R budget for the proposed subproject RP works out to Rs. 2775.05 million.

J. GRIEVANCE REDRESSAL MECHANISM

18. A Grievance Redressal Committee (GRC) has already been established at the district level with the primary objective of providing a mechanism to mediate conflict and cut down on lengthy litigation. The same GRC dealing with Package-2 issues will also deal with Package-1 grievances. Since the implementing NGO will be working closely with the DPs on a day-to-day basis to implement the RP, all Grievances will be routed through the NGO to the GRC. The NGO will act as an in-built grievance redress body. The NGO will first of all register the grievances and take up with VLC for redress and any grievances not redressed at VLC level will be dealt in by the GRC. Grievances will be redressed within two to four weeks from the date of lodging the complaints, depending on severity of problem. The APs, who would not be satisfied with the decision of the GRC, will have the right to take the grievance to the PIU Head Office for its redress. However an aggrieved person will have access to the country's judiciary at any stage of the subproject level grievance redress process. Taking grievances to Judiciary will be avoided as far possible and the NGO will make utmost efforts for reconciliation at the level of GRC.

K. INSTITUTIONAL ARRANGEMENT

19. The Executing Agency (EA) for the Project is Ministry of Road Transport and Highways (MORTH) and the Implementing Agency will be the National Highways and Infrastructural Development Corporation (NHIDCL). The existing NHIDCL has already established a Branch Office (BO) which will be the Project Implementation Unit (PIU) headed by a General Manager (GM), who will be the Project Director (PD). The NHIDCL, headed by MD will have overall responsibility for implementation of loan and will also be responsible for the overall coordination among ADB, MORTH and PIU. For resettlement activities, PIU will do the overall coordination, planning, implementation, and financing. The PIU will appoint a Resettlement Officer (RO) at the rank of Manager and required support staff for the duration of the Subproject to ensure timely and effective planning and implementation of resettlement activities. The RO will be assisted by the respective PIU and NGO for planning and implementation of resettlement activities in the subproject. An experienced and well-qualified NGO in this field will be engaged to assist the PIU in the implementation of the RP. To enhance their capacity, a training/workshop will be conducted under the project involving implementation support agencies.

L. IMPLEMENTATION SCHEDULE

20. Implementation of RP mainly consists of compensation to be paid for affected structures and rehabilitation and resettlement activities. The time for implementation of resettlement plan will be scheduled as per the overall subproject implementation. The civil works contract for each subproject will only be awarded after all compensation and relocation has been completed for subproject and rehabilitation measures are in place. The proposed subproject R&R activities are divided in to three broad categories based on the stages of work and process of implementation such as Subproject Preparation phase, RP Implementation phase and Monitoring and Reporting phase.

M. MONITORING AND REPORTING

21. RP implementation for the subproject by the NGO will be closely monitored by the EA. Keeping in view the significance of resettlement impacts of the overall project, the monitoring mechanism for this project will have both monitoring by PIU and monitoring by an external expert. PIU responsible for supervision and implementation of the RP will prepare monthly progress reports on resettlement activities and submit to PIU. PIU will submit semi-annual reports to ADB. The external expert will submit a semi-annual review reports to PIU to

determine whether resettlement goals have been achieved, more importantly whether livelihoods and living standards have been restored/ enhanced and suggest suitable recommendations compliance.

I. PROJECT DESCRIPTION

A. Introduction

1. The SASEC Road Connectivity Investment Program (“SRCIP”) will improve road connectivity and efficiency of the international trade corridor, by expanding about 500 km of roads in the North Bengal and Northeastern Region (NB-NER) of India. The project area under SRCIP is a key strategic thoroughfare integrating South and South East Asia, bordering Bangladesh, Bhutan, Myanmar and Nepal. It will enable efficient and safe transport within India and regionally with other South Asia Sub Regional Economic Cooperation (SASEC) member countries.³ Ultimately, SRCIP will pave the way from India and other South Asian countries to Myanmar, and further afield to other member countries of the Association of South East Asian Nations (ASEAN).

2. In accordance with ADB's Multi-tranche Financing Facility (MFF) modality, under Tranche 1 of the investment program, two subprojects totaling about 134 km in West Bengal and a subproject in the State of Manipur are taken up considering their significant regional cooperation and integration impacts, economic viability, and social, resettlement and environmental soundness. Another section of Asian Highway (AH-1) from Imphal-Moreh Road in the State of Manipur is being implemented as another subproject of Tranche 2. The road section from Imphal to Moreh is part of Asian Highway AH1 in Manipur state in India. AH 1 is the longest route of the Asian Highway Network, running 12,845 miles (20,557 km) from Tokyo, Japan via Korea, China, Southeast Asia, India, Pakistan, Afghanistan and Iran to the border between Turkey and Bulgaria west of Istanbul where it joins end-on with European route E80. In India AH 1 passes through Numaligarh – Golaghat – Garampani – Barpathar – Naojan – Bokajan – Dimapur – Kohima – Tadubi – Senapati – Kangpokpi – Imphal – Thoubal – Tengnoupal – Moreh (Myanmar border) in XX, XX, XX states.

3. For the proposed AH-1 section from Imphal-Moreh road the Executing Agency (EA) is the Ministry of Road Transport and Highways (MORTH) and Implementing Agency (IA) is the National Highways and Infrastructure Development Corporation Limited (NHIDCL). A Project Implementation Unit (PIU) has been established by NHIDCL; it conducted a social impact assessment and formulated this Resettlement Plan (RP) for the subproject in accordance with provision outlined in the MFF Resettlement Framework (RF).

4. The expansion of Imphal-Moreh road was divided into three civil contract packages:
- Package 1 - Imphal to Wangjing (Km. 330.00 to Km. 350.00)
 - Package 2 - Wangjing to Khongkhang (Km. 350.00 to Km. 395.680)
 - Package 3 - Khongkhang to Moreh (Km. 395.680 to Km. 425.410)

During the preparation of Tranche 2, an RP⁴ was prepared to address the land acquisition and resettlement impacts that of civil contract package 1 and 2. However, during project implementation, NHIDCL revised the road design by reducing the Right of Way (RoW) of Package 1. This RP updates original RP based on the revised design of Package 1. This RP complies with the applicable State Government, Government of India and ADB policy and legal

³ Comprising of Bangladesh, Bhutan, India and Nepal.

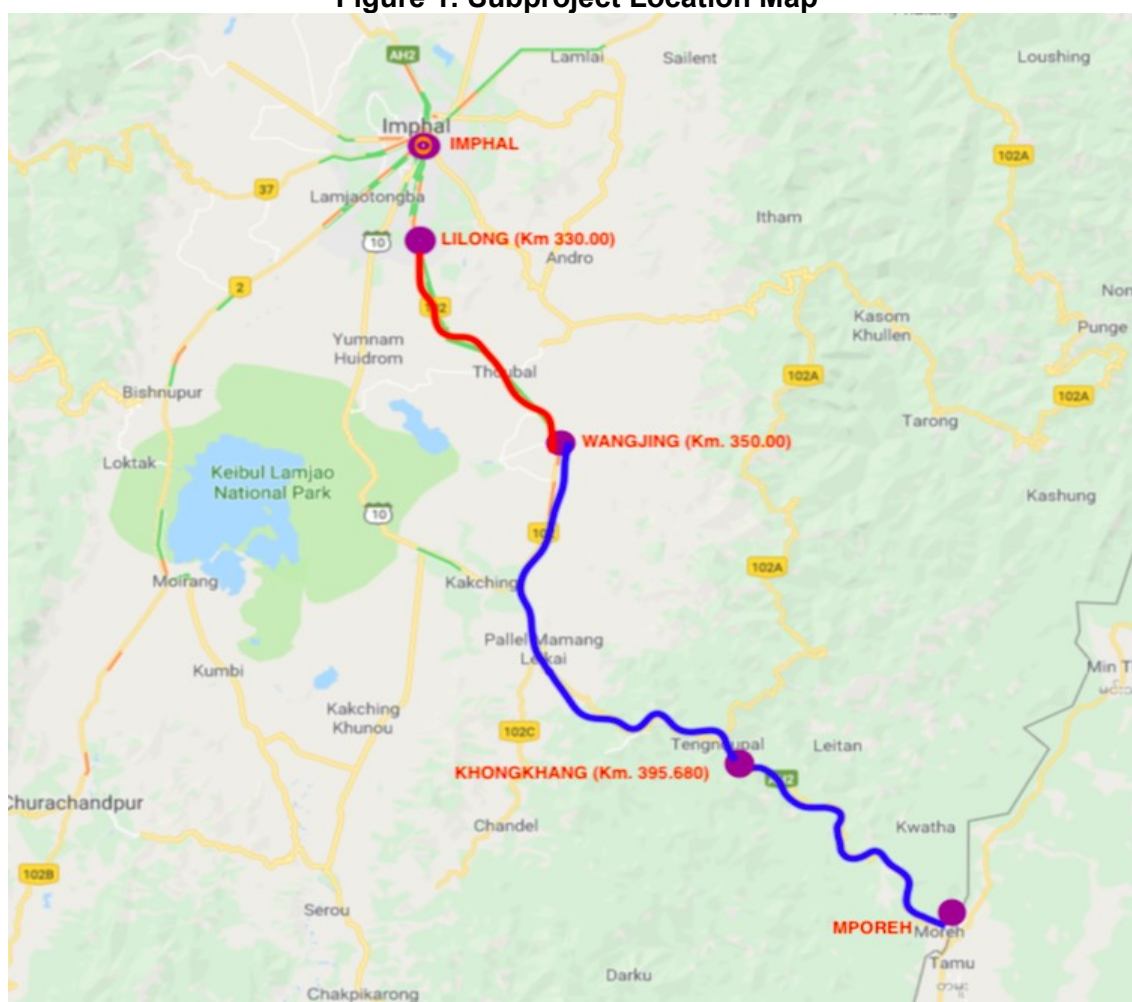

⁴ Visit : <http://122.160.22.108/morthweb/writereaddata/linkimages/4%20SASEC%20Road-7076998008.pdf> or <https://www.adb.org/sites/default/files/project-documents/47341/47341-003-remdp-01.pdf>

framework. This subproject is considered as Category-A⁵ as per as Involuntary Resettlement (IR) categorization is concerned. The RP is prepared by carrying out 100% census survey based on detailed design and land acquisition plan and therefore treated as final RP. However, during the implementation if any design change occurs and results in additional impacts, an updated RP will be prepared and submitted to ADB for approval.

B. Subproject Road

5. The subproject road section is an existing NH connecting Imphal and Indo-Myanmar Boarder at Moreh. The road section traverses through three districts of Manipur i.e. Imphal East, Imphal West and Thoubal. Entire 20 km length of Package-1 falls in plain area falling in Imphal East, Imphal West and Thoubal districts and inhabited by both general and tribal people having private ownership of land.

Figure 1: Subproject Location Map

⁵ According to ADB Safeguard Policy Statement (SPS-2009), Involuntary Resettlement Category A: Significant means 200 or more affected people will experience major impacts, which are defined as (i) being physically displaced from housing, or (ii) losing 10% or more of their productive assets (income generating). Involuntary Resettlement Category B: Not Significant include involuntary resettlement impacts that are not deemed significant as per the ADB Operational manual Involuntary Resettlement Category C: No involuntary resettlement impacts. A resettlement plan is required in case of both category A and B project.

C. General Profile of the Subproject Area

6. The Subproject area consists of three Districts of Manipur i.e. Imphal East, Imphal West and Thoubal. A brief profile of these three districts are summarized below.

7. Imphal East District came into existence on 18-06-1997 with its headquarters at Porompat occupying the eastern part of Imphal District. The District is situated in two separate valleys of the state namely Central Valley and Jiribam Valley. The total area of District is 469.44 sq. Km. Approximately. The District is situated at an altitude 790 metres above the M.S. Level. The climate of the District is salubrious and Monsoon is tropical. It has no rail network and hence communication is entirely dependent on roads except Jiribam Sub-Division bordering Cachar District of Assam where there is a railhead. The District is connected with N.H. 39, N.H. 53 and N.H. 150. The population of District is 456113 according to 2011 census. The rural population is 183207 whereas the urban population of the district is 272906. Literacy in the District is 81.95% as per 2011 census. Sex ratio of the district as per 2011 census is 1017. The population of Scheduled Tribes in the district is 27652 or 3.47% of the total population.

8. The Imphal West District falls in the Category of Manipur valley region. It is a tiny plain at the centre of Manipur surrounded by Plains of other districts. Imphal City, the State Capital is the nodal functional centre of this District. It is surrounded by Senapati District on the north, on the east by Imphal East and Thoubal districts, on the south by Thoubal and Bishnupur Districts, and on the west by Senapati and Bishnupur Districts. The population of District is 517992 according to 2011 census. The rural population is 195113 whereas the urban population of the district is 322879. Literacy in the District is 86.08% as per 2011 census. Sex ratio of the district as per 2011 census is 1013. The population of Scheduled Tribes in the district is 19921 which is 1.49% of the total population.

9. The district of Thoubal, which occupies the bigger portion of the eastern half of the Manipur Valley, takes the shape of an irregular and triangular with its base facing north. It lies between 23° 45' N and 24° 45' N latitude and 93° 45' E and 94° 15' E longitude. It is bounded on the north by Imphal district, on the east by Ukhrul and Chandel districts, on the south by Chandel and Churachandpur districts and on the west by the districts of Imphal and Bishnupur. It has an area of 514 sq. Kms. The district came into existence in May, 1983 through a notification of the Government of Manipur, (Secretariat: Revenue Department Order No.6/1/73-R (Pt.VII) dated May 24, 1983) (Manipur Extraordinary Gazette No. 76 of the same date) under the Manipur Land Revenue and Land Reforms Act.1960. The district has two community development blocks one within each sub-division, each block coinciding with its respective sub-divisional areas minus the statutorily notified urban portion. It has 9 main towns. Namely, Lilong (Thoubal), Thoubal, Yairipok, Shikhong Sekmai, Wangjing, Heirok, Kakching, Kakching Khunou and Sugnu and a part of Samurou whose major portion is in the Imphal District. The population of District is 422168 according to 2011 census. The rural population is 270835 whereas the urban population of the district is 151333. Literacy in the District is 74.47% as per 2011 census. Sex ratio of the district as per 2011 census is 1008. The population of Scheduled Tribes in the district is 1808 which is 0.43% of the total population.

10. The list of 17 villages falling within the Package-1 section of the Imphal-Moreh road are presented below in **Table: 1**.

Table 1: List of Villages in the Alignment

Sl. No.	District	Tehsil	Village Name	Km.
1	Imphal East	Bashikhong	Keyamgei	330+000 to 330+336

2	Imphal West	Wangoi	Chajing	330+000 to 330+410
3	Imphal East	Bashikhong	Lilong Hao	330+335 to 330+410
4	Thoubal	Lilong	Lilong	330+410 to 334+610
5	Thoubal	Lilong	Chaobok	332+760 to 336+310
6	Thoubal	Lilong	Kiyam Shipai	336+310 to 339+440
7	Thoubal	Thoubal	Haokha Maning	339+040 to 339+600
8	Thoubal	Thoubal	Haokha Mamang	339+440 to 340+300
9	Thoubal	Thoubal	Okram Wangmataba	340+180 to 341+215
10	Thoubal	Thoubal	Thoubal Wangmataba	341+215 to 341+780
11	Thoubal	Thoubal	Thoubal Achouba	341+780 to 343+610
12	Thoubal	Thoubal	Athokpam	343+610 to 344+195
13	Thoubal	Thoubal	Khangabok	344+150 to 347+300
14	Thoubal	Thoubal	Wangbal	346+220 to 347+920
15	Thoubal	Khongjom	Cherapur	347+310 to 348+085
16	Thoubal	Khongjom	Wangjing	347+920 to 352+140
17	Thoubal	Khongjom	Lamding	348+150 to 351+370

D. Subproject Impacts and Benefits

11. The proposed subproject can be viewed as boosting economic growth and poverty reduction which will bring substantial social and economic development in the region. The social benefits arising due to the subproject will be triggered off due to improved accessibility to various services such as easy access to markets, health facilities, schools, workplace etc. which in turn increases the income of the locals, and ultimately elevating their standard of living. The possible direct and indirect positive impacts of the subproject are listed below.

- (a) The immediate benefits of road construction and improvement will come in the form of direct employment opportunities for the roadside communities and specially those who are engaged as wage laborers, petty contractors and suppliers of raw materials.
- (b) Improved road network will provide for improved linkages between the village communities and urban center, which provides wider marketing facilities.
- (c) Road network will not only link the village communities to better markets, but also open up wider work opportunities in distant places. People can shuttle to distant work sites and towns and engage in construction, factories, business as well as domestic works.
- (d) Improved road network will encourage urban entrepreneurs to invest in far and remote areas in commercial farming and industrial activities.
- (e) Improved road will also help people building strong institutional network with outside agencies.
- (f) Essential and emergency services like schools, health center, public distribution system etc. can be availed faster.
- (g) Increased frequency of interaction with outsiders will increase the awareness level of the people in the village with regard to their health and nutrition, living style, value of education and proper utilization of available resources.
- (h) Interaction with the government, non-government and other development agents will help people gain new knowledge on improved farming, land development, development and maintenance of natural resources through the formation of various economic and social development groups.

E. Minimizing Resettlement

12. Attention has been given during the feasibility and detailed subproject design phases of the subproject preparation to minimize the adverse impacts on land acquisition and resettlement impacts. However, technical and engineering constraints were one of the major concerns during exploration of various alternative alignments. With the available options, best engineering solution have been adopted to avoid land acquisition and resettlement impacts. Following are the general criteria adopted for the selection of the alignment:

- (a) Follow the existing alignment and adopting concentric widening.
- (b) Restrict the proposed ROW as the same existing ROW and accommodate all proposed proposal within it as far as possible.
- (c) Minimize social impact by restricting design speed and proposing alternative engineering solutions.
- (d) Minimize environment impact by avoiding big trees, ponds etc.
- (e) Incorporate the opinions of local people in selection of alignment and design.

13. During the impact assessment survey public consultation meetings were organized at various places and based on people's concerns and suggestions the alignment was adjusted to minimize the resettlement impacts. The final widening scheme and typical cross sections (TCS) adopted after all minimization of resettlement impacts.

F. Scope and Objective of Resettlement Plan (RP)

14. The aim of this Resettlement Plan (RP) is to mitigate unavoidable adverse impacts of the subproject by rehabilitating displaced persons and restoring their livelihoods. This RP has been prepared on the basis of subproject census survey findings and consultation with various stakeholders. The plan is responsive to relevant GOI laws and regulations and the ADB Safeguard Policy Statement (2009). The issues identified and addressed in this document are as follows:

- (a) Type and extent of loss of land/ non-land assets, loss of livelihood, loss of common property resources and social infrastructure;
- (b) Impacts on indigenous people, vulnerable groups like poor, women and other disadvantaged sections of society including non-titleholder DPs,
- (c) Public consultation and peoples participation in the subproject;
- (d) Existing legal and administrative framework and formulation of resettlement policy for the subproject;
- (e) Preparation of entitlement matrix, formulation of relocation strategy and restoration of businesses/income;
- (f) R&R cost estimate including provision for fund and;
- (g) Institutional framework for the implementation of the plan, including grievance redress mechanism and monitoring & reporting.

G. Methodology for Social Impact Assessment

15. For preparation of resettlement plan, a detailed social impact assessment of the subproject road was carried out including resettlement screening, land acquisition planning, subproject census survey of affected assets and households and public consultation methods. The details of methodology adopted for the social impact assessment is discussed in the following section.

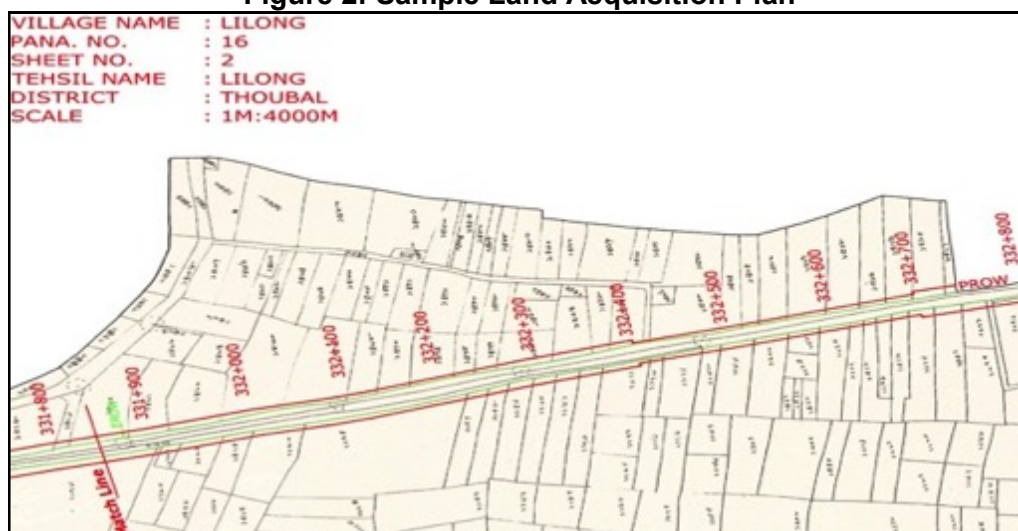

1. Resettlement Screening

16. A social screening exercise was performed through a reconnaissance survey in 2016 to gather firsthand information on impact on land acquisition and resettlement with specific attention on land use, presence of legal and/or illegal housing, traffic patterns, cultural resources, urban settlements and other sensitive areas. The aim of reconnaissance survey was to assess the scope of land acquisition and resettlement study and accordingly the detailed plan of action was prepared for the preparation of land acquisition planning and resettlement plan.

2. Land Acquisition Planning

17. The alignment was finalized as per the detailed engineering design. Initially, the numbers of affected villages were identified as per the alignment and availability of land i.e. Right of Way (ROW) was confirmed from the revenue department. Land Acquisition Plan (LAP) was prepared by superimposing the alignment drawing on cadastral maps for the road section falling in revenue area. The sample LAP for Imphal-Khongkhang section is presented in the Figure 2.

Figure 2: Sample Land Acquisition Plan

18. Following finalization of the road alignment, cross-sections design and land acquisition requirements, census of all displaced persons (DPs) was carried out in the subproject. The objective of the subproject census survey was to identify the persons who would be displaced by the subproject and to make an inventory of their assets that would be lost to the subproject, which would be the basis of calculation of compensation.

19. A structured census questionnaire (**Appendix 1**) was used to collect detailed information on affected households/ properties for a full understanding of impacts in order to develop mitigation measures and resettlement plan for the DPs. The survey team was selected locally including some female familiar with local languages and the team was trained by the resettlement specialist and the survey was closely monitored on a regular basis. Additionally, socio-economic data was also collected as part of the social impact assessment (SIA) study.

20. The census survey includes the following:

- (a) Inventory of the 100% land and non-land assets
- (b) Categorization and measurements of potential loss
- (c) Physical measurements of the affected assets/structures
- (d) Identification of trees and crops
- (e) Collection of information on household characteristics, including social, economic and demographic profile
- (f) Identification of non-titleholders
- (g) Assessment of potential economic and livelihood impact

3. Public Consultation

21. To ensure peoples' participation in the planning phase and aiming at promotion of public understanding and fruitful solutions of developmental problems such as local needs of road users and problem and prospects of resettlement, various sections of displaced persons (DPs) and other stakeholders were consulted through focus group discussions, individual interviews and formal and informal consultations. The vulnerable sections of DPs and women were also included in this consultation process.

22.

II. SCOPE OF LAND ACQUISITION AND RESETTLEMENT

A. Land Acquisition Requirement

23. The available RoW for this road was not sufficient to accommodate the widening proposal and therefore acquisition of additional strip of land is required for the entire section. As per the LAP prepared for this section and the full census survey conducted for the project, 56.18 acres of additional land needs to be acquired. The analysis of land acquisition requirement for the Package-1 shows that 34.15 acres (60.78%) of land is private revenue land, 20.89 acres (37.19%) land is government land, 0.46 acre (0.82%) is religious land and 0.68 acres (1.21%) land is community land which will affect 1098 titleholder households. The land acquisition requirement for the subproject is presented in the **Table: 2**.

Table 2: Land Acquisition Requirements under the Project

Sl. No.	Type of Ownership	Affected Household	Area (in Acre)	%
1	Private Revenue	1098	34.15	60.78
2	Government	0	20.89	37.19
3	Religious	0	0.46	0.82
4	Community	0	0.68	1.21
Total		1098	56.18	100

B. Resettlement Impacts

24. Based on the above requirement, the subproject impact assessed through project census survey includes loss of land, loss of non-land assets, and loss of livelihoods within the proposed RoW. Other than this, both land and non-land assets known as common properties resources (CPR) including religious, community and government ownership are also assessed to be affected by the proposed subproject. The original census survey was carried out in May 2016 and the updated survey was conducted in February 2019. The end date of project census survey i.e. 5th February 2019 will be treated as the cut-off date for non-titleholders under the project. The findings and magnitude of impacts are discussed in the following sections.

C. Loss of Private Land in the Subproject

25. The land acquisition for the subproject will affect 1098 titleholder households and the area of private acquisition will be a total of 34.15 Acres. The use of land to be acquired under the subproject includes 6.91 acres of land being used by 154 households for agriculture, 16.19 acres of land being used by 437 households for residential purpose, 7.79 acres of land being used by 428 households for commercial purpose. Details of land use is shown in the **Table: 3**.

Table 3: Loss of Private Land and impacts

Sl. No.	Use of Land	Affected Household	Area (in Acre)	%
1	Cultivation	154	6.91	14.03
2	Orchard	2	0.07	0.18
3	Residential	437	16.19	39.80
4	Commercial	428	7.79	38.98
6	No Use/Barren	66	2.26	6.01
7	Other	11	0.92	1.00
Total		1098	34.15	100.00

D. Loss of Private Structures in the Subproject

26. Due to the proposed subproject work, 833 structures are going to be affected owned by 670 displaced households. Among these 833 structures, 648 are owned by 505 titleholder DPs, 104 structures are owned by 94 encroachers and rest of the 81 structures are owned by 71 squatter DPs occupying government land. The details of loss of structures are presented in the **Table 4**.

Table 4: Loss of Private Structures in the Subproject

Sl. No.	Ownership Status	Structure	Household	Person	% HH
1	Legal Titleholder	648	505	2971	75.37
2	Encroacher	104	94	532	14.03
3	Squatter	81	71	358	10.60
Total		833	670	3861	100.00

E. Magnitude of Resettlement impacts

27. The census data was analysed to understand the severity of impacts on affected households and found that out of 1193 affected households, 517 are severely affected. Severe impacts are those households physically displaced and/or losing more than 10% of their productive assets. The details of magnitude of impacts on structures are summarized in the **Table 5**. Provisions are made in the Entitlement Matrix that structures will be compensated at replacement cost fully, and partially if it is viable. Engineer from Building Department will assess the viability of structure during verification and valuation in consultation with the affected households.

Table 5: Magnitude of Resettlement Impacts

Sl. No.	Severity of Impact	Households	Persons	% HH
1	Losing >10% of agricultural land	64	369	12.38
2	Losing >10% of commercial land	296	1652	57.25
3	Losing Residential Structure fully	47	265	9.09
4	Losing commercial structures fully	110	628	21.28
Total		517	2914	100

F. Type of Private Structure in the Subproject

28. As per census survey, out of 670 households losing their structures in the subproject, 163 household are losing residential structures, 503 households are losing commercial structures, 83 are losing their residential-cum-commercial structures and 84 are losing other types of structures such as cattle shed, boundary wall, toilet, store room etc. The details of structures and number of displaced households are given in the **Table 6**. The list of DPs is attached as **Appendix-2**.

Table 6: Type of Impacts due to Loss of Private Structure

S. N.	Type of Structure	Structure	Household	Person	%HH
1	Residential Structure	163	126	688	19.57
2	Commercial Structure	503	421	2299	60.38
3	Res + Commercial Structure	83	76	415	9.96
4	Other Private Structure	84	47	257	10.08
Total		833	670	3658	100.00

G. Type of Construction of Affected Structures

29. The structures being affected in the subproject are of various types by construction such as temporary, semi-permanent and permanent nature. Out of 833 structures, 516 (61.94%) structures are of temporary nature, 206 (24.73%) structures are of semi-permanent nature and 111 (13.33%) structures are of permanent nature. The details of type of constructions of the affected structures are summarized in the **Table 7**.

Table 7: Type of Construction of Affected Structure

Sl. No.	Construction Type	Main Structure	%
1	Temporary	516	61.94
2	Semi-Permanent	206	24.73
3	Permanent	111	13.33
Total		833	100.00

H. Loss of Livelihoods in the Subproject

30. As per the census survey, out of 912 DPs losing livelihoods includes 154 (16.89%) owners of agricultural land, 503 (55.15%) owners of commercial structures, 83 (9.10%) owners of residential cum commercial structures, 37 (4.06%) employees in commercial structures, and 135 (14.80%) commercial tenants. The details of impact on livelihoods in the subproject are presented in the **Table 8**.

Table 8: Loss of Livelihoods in the Subproject

Sl. No.	Loss	Households	Person	%
1	Owners of Agricultural Land	154	841	16.89
2	Loss of Commercial Structure	503	2746	55.15
3	Loss of Residential cum Commercial Structure	83	453	9.10
4	Employees in Structures	37	202	4.06
5	Commercial Tenants	135	737	14.80
Total		912	4980	100.00

I. Nature of CPR Loss

31. There are 106 community property resources (CPRs) affected in the subproject, including 78 religious structures, 13 are community structures and rests of 86 are government structures. In addition to the structures, there are 178 community land parcels mostly belong to various Government departments are also affected due to the Project. The types affected CPRs are presented in the **Table: 9** and the list of CPR affected in the subproject is presented in **Appendix: 3**. CPRs will be compensated either by cash compensation at replacement cost to the community (registered trust, society or village committee as appropriate) or reconstruction of the community structure in consultation with the affected community.

Table 9: Type of affected CPR

Sl. No.	Type of CPR	Number of Properties
1	Religious Structure	7
2	Community Structure	13
3	Government Structure	86
Total		106

III. SOCIOECONOMIC INFORMATION AND PROFILE

A. General Socioeconomic Profile of Subproject Area

32. Some of the socio-economic information of DPs was collected through the census survey and its findings are presented in the following sections. The analysis of sample baseline socio-economic information of APs is discussed in length in the Poverty and Social Analysis Report prepared for the project. There are 1193 households affected by the subproject including titleholders, non-titleholders, tenants and employees etc.

B. Social Categories of the DPs

33. The social stratification of the subproject area shows that the dominance of other backward caste (OBC) population with 633 (53.06%) households followed by higher caste population with 550 (46.10%) households. Other categories includes 4 (0.34%) scheduled tribe (ST) households and 6 (0.50%) scheduled caste (SC) community. The detail of social grouping in the subproject area is presented in the **Table 10**.

Table 10: Social Categories of the DPs

Sl. No.	Description of the Caste	No. Of Households	%
1	Scheduled Caste	6	0.50
2	Scheduled Tribe	4	0.34
3	Other Backward Caste	633	53.06
4	Higher Caste	550	46.10
Total		1193	100.00

C. Number of DPs

34. There are 6507 DPs in total being affected by the subproject which includes 3239 (49.78%) males and 3268 (50.22%) females. The average household size is five and the sex ratio among the DPs is 1009. The details of DPs being affected in the subproject are presented in the **Table 11**.

Table 11: Number of DPs

Sl. No.	Categories of DPs	No. Of DPs	%
1	Male	3239	49.78
2	Female	3268	50.22
Total		6507	100.00

D. Vulnerable Households being affected in the Subproject

35. According to subproject census survey there are 524 households enumerated as vulnerable households as per the definition provided in the RF. In this subproject vulnerable group includes 6 SC households, 4 ST households, 82 women headed households, 1 households headed by physically handicapped persons and 264 Below Poverty Line (BPL) households. As per the latest Planning Commission, Government of India estimate, any person having monthly per capita consumption and expenditure (MPCE) of Rs. 1118⁶ in rural area and Rs. 1170 in urban area of Manipur is considered to be living below poverty line. Based on this

⁶ Source: Press Note on Poverty Estimates, 2011-12, Government of India, Planning Commission, July 2013

calculation of poverty line figure, average annual household MPCE in rural Manipur is Rs. 67080. There are 137 households earning less than the average MPCE and another 30 non-titled holder households not falling under any other category are also considered as vulnerable households in the project. The vulnerable household details are presented in the **Table 12**.

Table 12: Vulnerable Households being affected

Sl. No.	Vulnerable Categories	No. Of Households	%
1	Scheduled Caste Households	6	1.15
2	Scheduled Tribe Households	4	0.76
3	Women Headed Households	82	15.65
4	PH Headed Households	1	0.19
5	Below Poverty Line Households	264	50.38
6	Households below Per capita Income	137	26.15
7	Non-title Holder	30	5.73
Total		524	100.00

E. Annual Income Level of the Affected Households

36. There are 276 (23.13%) households earning less than the official poverty level i.e. Rs. 67,080/- per year. There are 229 households (19.20%) having an average monthly income of above Rs. 67080 and Rs. 1.00.000. The survey reveals that 648 (54.32%) households are annually earning more than Rs. 1,000,00 which is a good economic indicator of their standard of living. The average income level of households in the subproject area is summarized in the **Table 13**

Table 13: Annual Income Level of the Affected Households

Sl. No.	Annual Income Categories in (Rs)	No. Of Households	%
1	Up to 10000	2	0.17
2	Above 10000 and Below 20000	9	0.75
3	Above 20000 and Below 30000	21	1.76
4	Above 30000 and Below 40000	50	4.19
5	Above 40000 and Below 50000	88	7.38
6	Above 50000 and Below 67080	106	8.89
7	Above 67080 and Below 100000	229	19.20
8	Above 100000	648	54.32
9	Not Responded	40	3.35
Total		1193	100.00

F. Educational Status of DPs

37. The educational status of DPs reveals that there are 9.75% DPs who are illiterate. Among the DPs, 31.17% are above matric 21.29% are graduate and 3.67 % are above graduate. This data excludes the children below 0 to 6 years. The gender segregated details of educational status of DPs are presented in the **Table 14**.

Table 14: Educational Status of DPs

S. N.	Educational status	Male	%	Female	%	Total	%
1	Illiterate	129	3.75	545	15.70	674	9.75
2	Literate	180	5.23	212	6.11	392	5.67
3	Up to middle	238	6.91	210	6.05	448	6.48
4	Below metric	729	21.17	790	22.76	1519	21.97
5	Metric	1075	31.22	1080	31.11	2155	31.17
6	Graduate	941	27.33	531	15.30	1472	21.29
7	Above graduate	151	4.39	103	2.97	254	3.67
Total		3443	100.00	3471	100.00	6914	100.00

G. Occupational Status of DPs

38. The occupational pattern of DPs excluding the non-working sections such as old persons, children, students and household workers, reveals that 7.75% DPs are working as labourer. Among other categories, 7.39% DPs are engaged in agriculture, 54.76% are involved in various businesses, 27.82% are engaged in service sectors. The employment level is much higher among the female DPs in comparison to male DPs. The details of occupational status of DPs are summarized in the **Table 17**.

Table 15: Occupational Status of DPs

S. N.	Occupational status	Male	%age	Female	%age	Total	%age
1	Service	525	26.92	168	31.05	693	27.82
2	Business	1054	54.05	310	57.30	1364	54.76
3	Agriculture	169	8.67	15	2.77	184	7.39
4	Labor	165	8.46	28	5.18	193	7.75
5	Professional	37	1.90	20	3.70	57	2.29
Total		1950	100	541	100.00	2491	100.00

IV. STAKEHOLDERS CONSULTATION AND PARTICIPATION

A. Stakeholders in the Subproject

39. Consultations with various stakeholders were carried out during various phases of subproject preparation. The stakeholders in the subproject are both primary and secondary. The primary stakeholders are subproject displaced persons (DPs), subproject beneficiaries, Executing Agency, Implementing Agency especially the officials in NHIDCL (PIU). The secondary stakeholder includes district magistrates and the revenue officials village heads, head of Gram Panchayat, village administrative officers, village council, district council, NGO and business communities in the area.

B. Public Consultation in the Subproject

40. Public consultations were arranged at the stage of subproject preparation to ensure peoples' participation in the planning phase of this subproject and to treat public consultation and participation as a continuous two way process beneficial in project planning and implementation. Aiming at promotion of public understanding and fruitful solutions of developmental problems such as local needs and problem and prospects of resettlement, various sections of APs and other stakeholders were consulted through focus group discussions and individual interviews.

C. Methods of Public Consultation

41. Consultations and discussions were held along the subprojects with the affected families and other stakeholders. All displaced households were consulted while interacting with them during the project census survey. Consultation meetings were organized to get wider public input from both the primary and secondary stakeholders. The consultation methods followed to elicit required information (their views & opinions) are detailed below in **Table 16**.

Table 16: Methods of Public Consultations

Stakeholders	Consultation Method
Displaced Persons	Through Census Survey involving head of the household as respondent
Village <i>Head</i> /representative of APs	Through Focus Group Discussions (FGD) at affected villages
Local communities	Through Focus Group Discussions (FGD) at affected villages
Women's groups	Through Focus Group Discussions (FGD) at affected villages
Vulnerable groups (SC, ST, BPL)	Through Focus Group Discussions (FGD) at affected villages
Executing Agency, Implementing Agency	Individual interview, discussion, joint field visit
Line Departments/Agencies	Individual meeting/interview, discussion

D. Scope of Consultation and Issues

42. All the survey and consultation meetings were organised with free and prior information to the displaced persons and participants. Women members of the survey team assisted women to present their views on their particular concerns. During the consultation process efforts were made by the survey teams to:

- (a) Ascertain the views of the DPs, with reference to road alignment and minimization of impacts;
- (b) Understand views of the community on land acquisition, resettlement issues and rehabilitation options;
- (c) Identify and assess the major socio-economic characteristics of the villages to enable effective planning and implementation;
- (d) Obtain opinion of the community on issues related to the impacts on community property and relocation of the same;
- (e) Examine APs' opinion on problems and prospects of road related issues;
- (f) Identify people's expectations from subprojects and their absorbing capacity;
- (g) Finally, to establish an understanding for identification of overall developmental goals and benefits of the subproject.

E. Findings of Focused Group Discussions

43. During the resettlement survey, FGDs were conducted in all major villages along the subproject road. The participants in these FGDs are not limited to the place of meeting or DPs only but also included the local residents from nearby small villages.

44. In addition to the individual consultation with all displaced households during census survey, a total of 68 persons (13 female and 55 male) were attended in these 4 focused group discussions. Some of the major issues that were discussed and feedback received from the villagers during the course of the consultations and measures taken are summarized in the **Table 17**. The list of participants and consultation photographs are presented in the **Appendix-4**. Summary of DP's concerns and preferences toward relocation and resettlement were discussed and are recorded in Chapter VII: Relocation of Housing and Settlements.

Table 17: Summary findings of Consultation

Issue	Discussion/Suggestion	Measures Taken
Existing Road Condition	Road condition is average but, Average business on road side. Accident prone road.	The proposed subproject will provide enhanced connectivity to Moreh. Since this will be a part of trans-Asian highway, more business opportunity will come up. Road design taken care of safety.
Transport and communication problem	Due to bad condition of road, good transportation means are not available, travel time is lengthy.	The subproject road will provide better connectivity and a faster transportation to distance places
Positive subproject impact	The positive subproject impacts perceived by the local people are high quality road, direct access to many facilities, better transportation of their agricultural and forest produce, business and	The alignment is planned to provide maximum connectivity to the area and benefits to the local people

Issue	Discussion/Suggestion	Measures Taken
	employment opportunities, appreciation of land value etc.	
Negative subproject impacts	Negative subproject impacts perceived by the people are loss of land, structures and livelihoods, requirement of skilled workers in construction activity	All loss of land and structure will be compensated market value. Loss of livelihoods will also be compensated and assisted by the subproject including opportunity for laborer in construction work
Rate of compensation	People are very much concern about the rate of compensation as the government rate is very low	The rate of compensation will be decided as per market value and increased value provided by New LA RR Act-2013.
Income Restoration	Low interest loan, free education, job reservation,	NGO will assist in loan from bank, preference will be given to locals in road construction work
Consultation and participation	People want more consultation during subproject implementation and want to participate in the subproject	Public consultation will continue throughout the subproject cycle. Implementing NGO will assist people in participation at various stages.
Road safety	The proposed two lane road may be concern for safety specifically for women and children, accident risk will increase	Proper road safety measures are incorporated in the subproject design. Special measures like signage, speed breakers at schools, hospitals and market places will provided by the subproject.
Transparency in Subproject Implementation	The subproject should ensure transparency in implementation and quality control	There are provisions like GRC, VLC and direct access to Implementation Office for any complain or grievances

F. Consultation with Officials and Other Stakeholders

45. Other stakeholders in the subproject such as Executing Agency especially the officials in NHIDCL, PIU staff and the concerned district magistrates and the revenue officials were also consulted on various issues. The details of some of such consultations are summarized in the **Table 18**.

Table 18: Details of Consultation with Officials and Other Stakeholders

Sl. No.	Name	Designation	Issues Discussed
1	A. Ranjeet	MANDOL, SDC LILONG, IMPHAL WEST	Process of land acquisition, land price etc.
2	Th. Nipamacha Singh	SK, SDC LILONG, HAOREIBI, IMPHAL WEST	Land ownership and traditional rights in Manipur state
3	A. Iboton	SK, AS & SO OFFICE, FIRST FLOOR, DC CAMPUS, THOUBAL	Revenue maps and land records
4	M. Shyam	SK, AS & SO OFFICE, FIRST FLOOR, DC CAMPUS, THOUBAL	Ownerships details of the land affected

Sl. No.	Name	Designation	Issues Discussed
5	Kh. Lal Babu Singh	MANDOL, ASSO/TBL (I)	Land demarcation and land records
6	M. Ghambhir Singh	ASSO, DS & LR, DC OFFICE, THOUBAL	Ownership record
7	Soren	AMIN, DC OFFICE, THOUBAL	Land demarcation and land records
8	A. Surchandra	MANDOL , SDC, THOUBAL	Land demarcation and land records
9	L. Bobi Singh	SDO , THOUBAL	Revenue map and landholder's details
10	Y. Rajen Singh	DEPUTY SECRETARY - REVENUE	Land ownership records
11	O. Nabakishore Singh, las	CHIEF SECRETARY GOVT. OF MANIPUR	Project proposal, alignment, detailed design report, LA and R&R issue,
12	Mr. Benjamin Mate	TMC, IMPHAL	Land issues and division among the families
13	Mr. Mang	TMC, IMPHAL	Land issues, type of land etc.
14	Tampakchao	AEE, PWD, IMPHAL	Project proposal, alignment, detailed design report, LA and R&R issue, site visit,
15	Doren	SK, DC OFFICE, THOUBAL	Land issues, type of land etc.
16	Somorjit Salam	DIRECTOR , DS&LR, GoM	Project proposal, alignment, detailed design report, LA and R&R issue, site visit,
17	T. Hemjit	ASSO, MOREH	Land issues, type of land etc.
18	M. Joy Singh	DC, IMPHAL EAST DISTRICT	Project proposal, alignment, detailed design report, LA and R&R issue, site visit,
19	Ningthoujam Geoffrey	DC, IMPHAL WEST DISTRICT	Project proposal, alignment, detailed design report, LA and R&R issue, site visit,
20	Laishram Delina Devi	SDO, POROMPAT, IMPHAL EAST	Revenue map and landholder's details
21	Mr. David	SDO, WANGOI, IMPHAL WEST	Revenue map and landholder's details
22	Inderjit Singh	SDC, SDC, LILONG CHAJING	Revenue map and landholder's details
23	Md. Ajijur Rahaman	SDO, SDO, LILONG	Revenue map and landholder's details
24	O. Jiten Singh	SDC, SDC, LILONG	Revenue map and landholder's details
25	Th. Nipamacha Singh	SUPERVISOR KANUNGO, SDC, LILONG	Revenue map and landholder's details
24	Nassimuddin	MANDOL, SDC, LILONG	Revenue map and landholder's details
25	Daud Khan	SURVEYOR, SDO, LILONG	Revenue map and landholder's details

Sl. No.	Name	Designation	Issues Discussed
26	Braj Mohan	ASSO, IMPHAL WEST - I	Land ownership and records
27	Laibabu	MANDOL, KIYAM SHIPAI & KHANGABOK	Land issues, type of land etc.
28	Shyam Kesho	SDC, SDC, THOUBAL	Land issues, type of land etc.
29	Surchandra	SUPERVISOR KANUNGO, SDC, THOUBAL	Land ownership
30	Yumnam Nelson	ASSISTANT COMMISSIONER, DC OFFICE, THOUBAL	Project proposal, alignment, detailed design report, LA and R&R issue, site visit,
31	Shantikeshwar	ASSO, IMPHAL WEST - II	Land issues, type of land etc.
32	Gunamani	SK, SDC, KHONGJOM	Land ownership
33	Md. Bashi Rahaman	MANDOL, SDC, KHONGJOM	Revenue map and landholder's details

G. Plan for further Consultation in the Subproject

46. The effectiveness of the R&R program is directly related to the degree of continuing involvement of those affected by the Subproject. Several additional rounds of consultations with APs will form part of the further stages of subproject preparation and implementation. The implementing NGO will be entrusted with the task of conducting these consultations during RP implementation, which will involve disclosure on compensation, assistance options, and entitlement package and income restoration measures suggested for the subproject. The consultation will continue throughout the subproject implementation period. The following set of activities will be undertaken for effective implementation of the RP:

- (a) In case of any change in engineering alignment planning the APs and other stakeholders will be consulted in selection of road alignment for minimization of resettlement impacts, development of mitigation measures etc.
- (b) Together with the NGO, the PIU will conduct information dissemination sessions in the subproject area and solicit the help of the local community/ leaders and encourage the participation of the AP's in Plan implementation.
- (c) During the implementation of RP, NGO will organize public meetings, and will appraise the communities about the progress in the implementation of subproject works, including awareness regarding road construction.
- (d) Consultation and focus group discussions will be conducted with the vulnerable groups like women, SC, ST, and NTHs to ensure that the vulnerable groups understand the process and their needs are specifically taken into consideration.
- (e) To make reasonable representation of women in the subproject planning and implementation they will be specifically involved in consultation.

47. A Public Consultation and Disclosure Plan will be prepared by PIU/NGO for each of the subprojects as per the format below in **Table 19**.

Table 19: Format for Public Consultation and Disclosure Plan

Activity	Task	Agencies
Public Notification	Notify eligibility cut-off date for NTH	PIU/NGO
Disclosure of RP	Translate RP in Hindi and disclose at PIU Office and Village council	PIU /NGO

Distribution of R&R information leaflet	Prepare R&R information leaflet and distribute to APs	PIU/NGO
Internet disclosure of the RP	Post RP on ADB and/or EA website	ADB/PIU
Consultative meetings during joint measurement survey	Face to face meetings with APs	PIU /NGO
Disclosure of updated RP	Disclosure after joint measurement survey	PIU /NGO
Internet disclosure of the updated RP	Updated RP posted on ADB and/or EA website	ADB/PIU

H. Information Disclosure

48. To keep more transparency in planning and for further active involvement of APs and other stakeholders the subproject information will be disseminated through disclosure of resettlement planning documents. The EA will submit the following documents to ADB for disclosure on ADB's website:

- (a) the final resettlement plan endorsed by the EA after the census of displaced persons has been completed;
- (b) a new resettlement plan or an updated resettlement plan, and a corrective action plan prepared during subproject implementation, if required; and
- (c) the resettlement monitoring reports.

49. The EA will provide relevant resettlement information, including information from the above mentioned documents in a timely manner, in accessible places such as PIU office and panchayat/village council office translated in local language. A resettlement information leaflet containing information on compensation, entitlement and resettlement management adopted for the subproject will be made available in Manipuri language and distributed to DPs by the implementing NGO during initial consultation after verification of DPs.

V. LEGAL FRAMEWORK

A. Introduction

50. The legal framework and principles adopted for addressing resettlement issues in the subproject have been guided by the existing legislation and policies of the Government of India (GOI), the Government of Manipur, Asian Development Bank and the Resettlement Framework (RF) adopted for the project. Prior to the preparation of the RP, a detailed analysis of the existing national and state policies was undertaken and a RF has been prepared for the entire program. The section below provides details of the various national and state level legislations studied and their applicability within this framework. This RP is prepared based on the review and analysis of all applicable legal and policy frameworks of the country and ADB policy requirements. A summary of applicable acts and policies is presented in the following paragraphs and the detailed policy analysis is provided in the RF.

B. Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act (RFCT in LARR), 2013

51. The Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013 (RFCT in LARR Act - 2013) has been effective from January 1, 2014 after receiving the assent of the President of Republic of India. This Act extends to the whole of India except the state of Jammu and Kashmir. The Act replaced the Land Acquisition Act, 1894.

52. The aims and objectives of the Act include: (i) to ensure, in consultation with institutions of local self-government and Gram Sabhas established under the constitution of India, a humane, participative, informed and transparent process for land acquisition for industrialization, development of essential infrastructural facilities and urbanization with the least disturbance to the owners of the land and other affected families; (ii) provide just and fair compensation to the affected families whose land has been acquired or proposed to be acquired or are affected by such acquisition; (iii) make adequate provisions for such affected persons for their rehabilitation and resettlement; (iv) ensure that the cumulative outcome of compulsory acquisition should be that affected persons become partners in development leading to an improvement in their post-acquisition social and economic status and for matters connected therewith or incidental thereto.

53. Section 27 of the Act defines the method by which market value of the land shall be computed under the proposed law. Schedule I outlines the proposed minimum compensation based on a multiple of market value. Section 31 of the Act specifies rehabilitation and resettlement award for the affected families and the entitlements are defined in the Schedule II and III. Under Schedule II various R&R assistance like house construction allowance, land development assistance, option for annuity and employment, subsistence grant, transport allowance etc. are made and under Schedule III it specifies various infrastructural facilities and basis minimum amenities to be provided at new resettlement site in case of project based relocation.

C. Legal and Policy Frameworks of Manipur State

54. The gist of the legislations and policy concerning the land acquisition and resettlement for road project are discussed in the following section.

1. The Manipur Municipalities Act, 1994

55. Acquisition of land: The act provides that, when any land, whether within or outside the limits of a municipality is required for the purposes of this Act, the State Government may at the request of the Nagar Panchayat or the Council, proceed to acquire it under the provisions of the land acquisition act, 1894, and on payment by the Nagar Panchayat or the Council, as the case may be, of the compensation awarded under that act and of any other charges incurred in acquiring the land, the land shall vest in the Nagar Panchayat or the council, as the case may be.

56. Encroachments on public lands belonging to the Municipality: The act provides penalty for encroachment on public lands, including upon any public road, public drain, sewer, aqueduct, water course and other public lands. The act provides power to the Municipality for issue of notice to the encroacher to remove obstructions, encroachments on public lands. In the event of non-removal within 48 hours of the notice, the municipality is empowered to remove such obstruction or encroachment.

2. The Manipur Land Revenue & Land Reform Act, 1960 (MLR & LR Act, 1960)

57. The Manipur Land Revenue & Land Reform Act, 1960 (MLR & LR Act, 1960) was enacted by the Parliament to consolidate and amend the law relating to land revenue in the State of Manipur and to provide certain measures of land reform. Prior to the enactment of this act, the Assam Land & Revenue Regulation Act, 1886 was applied to Manipur by a State Durbar Resolution.

58. Section 2 of the Act defines applicability of the act and states that it extends to the whole of the State of Manipur except the hill areas thereof. Hill areas is defined vide Sec 2(j) as such areas in the hill tracts of the State of Manipur as the State Government may, by notification in the official Gazette, declare to be hill areas.

3. The Manipur Public Premises (Eviction of Unauthorized Occupants) Act, 1978

59. The Act provides for the prevention of slums and for the speedy eviction of unauthorized occupants from public premises in the State of Manipur. Section 3 of the act empowers the competent authority, after making such inquiry as he deems fit, and after satisfying that any public premises is in unauthorized occupation, the competent authority may, after recording the reasons thereof, make an order of eviction directing that the public premises shall be vacated by all persons who may be in occupation thereof or any part thereof within ten days from the date of the proclamation referred to in clause (b) of sub-section (2), in the case of buildings, and within three days from the date of such proclamation, in other cases.

4. The Manipur (Hill Areas) District Councils Act, 1971 (Act 76 of 1971)

60. This Act provides for the establishment of District Councils in Hill Areas in the Union territory (State) of Manipur. Further, vide Section 44 of the said act, all public roads which have been constructed or are maintained out of the Council Fund and the stones and other materials thereof and also all trees, erections, materials, implements and things provided for such roads, will be under its direction, management and control.

5. Memorandum of Works Department, Government of Manipur, 1994

61. The Works Department, Government of Manipur has passed the memorandum regarding construction of roads in hilly areas of Manipur and according to this order the department will not acquire any land for construction of roads. The land for road construction will be provided by concerned villages which will be administered through signing of a written agreement.

D. Provisions of the Panchayat (Extension to Scheduled Areas) Act (PESA), 1996

62. The Panchayat (Extension to Scheduled Areas) Act, 1996 is meant to enable tribal society to assume control and to preserve and conserve their traditional rights over natural resources. The provisions of the 73rd Amendment, with some modifications, were extended to the tribal areas under Schedule V States namely, Andhra Pradesh, Chhattisgarh, Gujarat, Himachal Pradesh, Jharkhand, Maharashtra, Madhya Pradesh, Orissa and Rajasthan. One of the important provisions of this act states "the Gram Sabha or the Panchayats at the appropriate level shall be consulted before making the acquisition of land in the Scheduled Areas for development projects and before re-settling or rehabilitating persons affected by such projects in the Scheduled Areas

E. The Constitution (Twenty-seventh Amendment) Act, 1971

63. The amendment act, inserted a new article, Article 371C. The hill areas in the state of Manipur largely inhabited by tribal communities are not covered by the 6th Schedule. The special provision envisages the constitution of Hill Areas Committee of State legislature. The Governor is mandated to report to the President regarding the administration of 'hill areas'

F. The Constitution (Eighty-Ninth Amendment) Act, 2003

64. Article 338A was inserted through this amendment to the constitution, which provides for a separate Commission for the Scheduled Tribes known as the National Commission for the Scheduled Tribe. The commission would address all matters relating to the safeguards provided for the Scheduled Tribes under the Constitution of India, other laws in force, Government orders, and to evaluate the working of such safeguards. One of the duties envisaged is 'to participate and advise on the planning process of socio-economic development of the Scheduled Tribes and to evaluate the progress of their development under the Union and any State'.

G. The Scheduled Tribes and Other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006

65. This law provides for recognition of forest rights to Scheduled Tribes in occupation of the forest land prior to 13 December 2005 and to other traditional forest dwellers who are in occupation of the forest land for at least 3 generations i.e. 75 years, up to maximum of 4 hectares. These rights are heritable but not alienable or transferable.

H. ADB's Safeguard Policy Statement (SPS), 2009

66. The objectives of ADB's SPS (2009) with regard to involuntary resettlement are: (i) to avoid involuntary resettlement wherever possible; (ii) to minimize involuntary resettlement by exploring project and design alternatives; (iii) to enhance, or at least restore, the livelihoods of

all displaced persons in real terms relative to pre-project levels; and (iv) to improve the standards of living of the displaced poor and other vulnerable groups.

67. ADB's SPS (2009) covers physical displacement (relocation, loss of residential land, or loss of shelter) and economic displacement (loss of land, assets, access to assets, income sources, or means of livelihoods) as a result of; (i) involuntary acquisition of land, or (ii) involuntary restrictions on land use or on access to legally designated parks and protected areas. It covers displaced persons whether such losses and involuntary restrictions are full or partial, permanent or temporary.

68. The three important elements of ADB's SPS (2009) are: (i) compensation at replacement cost for lost assets, livelihood, and income prior to displacement; (ii) assistance for relocation, including provision of relocation sites with appropriate facilities and services; and (iii) assistance for rehabilitation to enhance, or at least restore, the livelihoods of all displaced persons relative to pre-project level standard of living.

I. Comparison of Government and ADB Policies

69. The new act 'The Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013', which has integrated provisions of National Rehabilitation and Resettlement Policy (2007) with that of The Land Acquisition Act (LAA) of 1894 (as amended in 1984), recognizes titleholders and non-titleholders affected by land acquisition. Whereby, squatters and encroachers are excluded from the purview of the act.

70. RFCT in LARR Act – 2013 has come into effect from January 1, 2014. This Act is both complement the revision of the NRRP (2007) and decrease significantly the gaps between the LAA and ADB's SPS, 2009. The Act also expands compensation coverage of the principal act by requiring that the value of trees, plants, or standing crops damaged must also be included and solatium being 100% of the all amounts inclusive. The Act furthermore has match ADB requirements for all compensation to be paid prior to project taking possession of any land.

71. Therefore, the RFCT in LARR Act – 2013 has established near equivalence of the government's policies with those of ADB's SPS, 2009. Adoption of the below principles for the project has ensured that both are covered in their application to this project. A comparison of ADB and GoI policy and measures to fill the gaps is presented in the **Table: 20**.

Table: 20 Comparison of ADB and GoI Policy

	Aspect	ADB Safeguard Requirement	Right to Fair Compensation and Transference in Land Acquisition, Rehabilitation and Resettlement Act, 2013	Measures to Bridge the GAP
1	Screen the project	Screen the project to identify past, present, and future involuntary resettlement impacts and risks. Conduct survey and/or census of displaced persons, including a gender analysis, specifically related to resettlement	4 (1) it is obligatory for the appropriate Government intends to acquire land for a public purpose to carry out a Social Impact Assessment study in consultation with concern Panchayat, Municipality or Municipal Corporation, as the case may be, at village level or ward level in the affected area. The Social Impact Assessment study report shall be made available to the public in the manner prescribed under section 6.	Screening of all sub-projects in line with the IR checklist of ADB, towards enabling identification of the potential resettlement impacts and associated risks.

	Aspect	ADB Safeguard Requirement	Right to Fair Compensation and Transference in Land Acquisition, Rehabilitation and Resettlement Act, 2013	Measures to Bridge the GAP
2	Consultation with stake holders and establish grievance redress mechanism	Carryout consultations with displaced persons, host communities and concerned NGOs. Inform all displaced persons of their entitlements and resettlement options	Whenever a Social Impact Assessment is required to be prepared under section 4, the appropriate Government shall ensure that a public hearing is held at the affected area, after giving adequate publicity about the date, time and venue for the public hearing, to ascertain the views of the affected families to be recorded and included in the Social Impact Assessment Report. The Land Acquisition Rehabilitation and Resettlement Authority shall be established in each State by the concerned State Government to hear disputes arising out of projects where land acquisition has been initiated by the State Government or its agencies.	No gap between SPS and RFCTLARR. Given A project level GRM will be included.
3.	Improve, or at least restore, the livelihoods of all displaced, and payment at replacement cost	Improve or restore the livelihoods of all displaced persons through: (i) land-based resettlement strategies; (ii) prompt replacement of assets with access to assets of equal or higher value, (iii) prompt compensation at full replacement cost for assets that cannot be restored, and (iv) additional revenues and services through benefit sharing schemes where possible.	The Collector having determined the market value of the land to be acquired shall calculate the total amount of compensation to be paid to the land owner (whose land has been acquired) by including all assets attached to the land. Livelihood losers are eligible for various rehabilitation grants.	No gap between SPS and RFCTLARR. Assets to be compensated at replacement cost without depreciation and other Livelihood assistances and income restoration measures will be included.
4.	Assistance for displaced persons	Provide physically and economically displaced persons with needed assistance	Schedule I, provides market value of the land and value of the assets attached to land. Schedule II provides R&R package for land owners and for livelihood losers including landless and special provisions for Scheduled Tribes.	No gap between SPS and RFCTLARR. Entitlement Matrix outlines compensation and assistance for DPs.
5.	Improve standard of living of displaced vulnerable	Improve the standards of living of the displaced poor and other vulnerable groups, including	Special provisions are provided for vulnerable groups.	No gap between SPS and RFCTLARR. Entitlement Matrix

	Aspect	ADB Safeguard Requirement	Right to Fair Compensation and Transference in Land Acquisition, Rehabilitation and Resettlement Act, 2013	Measures to Bridge the GAP
	groups	women, to at least national minimum standards		outlines assistance for vulnerable groups.
6.	Negotiated Settlement	Develop procedures in a transparent, consistent, and equitable manner if land acquisition is through negotiated settlement to ensure that those people who enter into negotiated settlements will maintain the same or better income and livelihood status	RFCTLARR only apply in case of land acquired/purchased for PPP projects and for Private Companies. Section: 2. (2), and 46.	Provisions outlined in ADB SPS will be followed for the project because failure of negotiation will result in expropriation.
7.	Compensation For non-title holders	Ensure that displaced persons without titles to land or any recognizable legal rights to land are eligible for resettlement assistance and compensation for loss of non-land assets.	Non-titleholders on acquired land area is only included but not clear about non-titleholders in existing govt. land	Provisions outlined in ADB SPS will be followed for the project.
8.	Requirement of RP	Prepare a resettlement plan / indigenous peoples plan elaborating on displaced persons' entitlements, the income and livelihood restoration strategy, institutional arrangements, monitoring and reporting framework, budget, and time-bound implementation schedule.	Preparation of Rehabilitation and Resettlement Scheme including time line for implementation. <i>Section: 16. (1) and (2).</i> Separate development plans to be prepared. <i>Section 41</i>	No gap between SPS and RFCTLARR. RP will be prepared for subprojects with impact.
9.	Public disclosure	Disclose a draft resettlement plan, including documentation of the consultation process in a timely manner, before project appraisal, in an	Under clause 18, the Commissioner shall cause the approved Rehabilitation and Resettlement Scheme to be made available in the local language to the <i>Panchayat</i> , Municipality or Municipal Corporation. As the case may be, and the offices of the District Collector, the Sub-Divisional Magistrate and the	In addition to the publishing of the approved resettlement plan, the RF includes provision for disclosure of the various

	Aspect	ADB Safeguard Requirement	Right to Fair Compensation and Transference in Land Acquisition, Rehabilitation and Resettlement Act, 2013	Measures to Bridge the GAP
		accessible place and a form and language(s) understandable to displaced persons and other stakeholders. Disclose the final resettlement plan and its updates to displaced persons and other stakeholders	<i>Tehsil</i> , and shall be published in the affected areas, in such manner as may be prescribed and uploaded on the website of the appropriate Government.	documents pertaining to RP implementation.
10.	Cost of resettlement	Include the full costs of measures proposed in the resettlement plan and indigenous peoples plan as part of project's costs and benefits. For a project with significant involuntary resettlement impacts and / or indigenous peoples plan, consider implementing the involuntary resettlement component of the project as a stand-alone operation.	16. (I) Upon the publication of the preliminary notification under sub-section (I) of section 11 by the Collector, the Administrator for Rehabilitation and Resettlement shall conduct a survey and undertake a census of the affected families, in such manner and within such time as may be Prescribed, which shall include: (a) particulars of lands and immovable properties being acquired of each affected family; (b) livelihoods lost in respect of land losers and landless whose livelihoods are primarily dependent on the lands being acquired; (c) a list of public utilities and Government buildings which are affected or likely to be affected, where resettlement of affected families is involved; (d) details of the amenities and infrastructural facilities which are affected or likely to be affected, where resettlement of affected families is involved; and (e) details of any common property resources being acquired'	No gap between SPS and RFCTLARR. Cost of resettlement will be covered by the EA.
11.	Taking over possession before Payment of compensation	Pay compensation and provide other resettlement entitlements before physical or economic displacement. Implement the resettlement plan under close supervision throughout project implementation.	38 (I) The Collector shall take possession of land after ensuring that full payment of compensation as well as rehabilitation and resettlement entitlements are paid or tendered to the entitled persons within a period of three months for the compensation and a period of six months for the monetary part of rehabilitation and resettlement entitlements listed in the Second Schedule commencing from the date of the award made under section 30.	No gap between SPS and RFCTLARR.

	Aspect	ADB Safeguard Requirement	Right to Fair Compensation and Transference in Land Acquisition, Rehabilitation and Resettlement Act, 2013	Measures to Bridge the GAP
12.	Monitoring	Monitor and assess resettlement outcomes, their impacts on the standards of living of displaced persons, and whether the objectives of the resettlement plan have been achieved by taking into account the baseline conditions and the results of resettlement monitoring. Disclose monitoring reports.	48 (I) The Central Government may, whenever necessary for national or inter-State projects, constitute a National Monitoring Committee for reviewing and monitoring the implementation of rehabilitation and resettlement schemes or plans under this Act.	For project, monitoring mechanism and frequency will follow ADB SPS based on categorization.

J. R&R Policy Framework for the Subproject

72. Based on the above analysis of government provisions and ADB policy, the following resettlement principles are adopted for this Project:

- (a) Screen the project early on to identify past, present, and future involuntary resettlement impacts and risks. Determine the scope of resettlement planning through a survey and/or census of displaced persons, including a gender analysis, specifically related to resettlement impacts and risks. Measures to avoid and minimize involuntary resettlement impacts include the following: (i) explore alternative alignments or locations which are less impacting, (ii) ensure the appropriate technology is used to reduce land requirements, (iii) modify the designs, cross sections, and geometrics of components to minimize the ROW and ensure involuntary resettlement is avoided or minimized.
- (b) Carry out meaningful consultations with displaced persons, host communities, and concerned nongovernment organizations. Inform all displaced persons of their entitlements and resettlement options. Ensure their participation in planning, implementation, and monitoring and evaluation of resettlement programs. Pay particular attention to the needs of vulnerable groups, especially those below the poverty line, the landless, the elderly, women and children, and indigenous peoples, and those without legal title to land, and ensure their participation in consultations. Establish a grievance redress mechanism to receive and facilitate resolution of the concerns of displaced persons. Support the social and cultural institutions of displaced persons and their host population. Where involuntary resettlement impacts and risks are highly complex and sensitive, compensation and resettlement decisions should be preceded by a social preparation phase.
- (c) Improve, or at least restore, the livelihoods of all displaced persons through; (i) land-based resettlement strategies when affected livelihoods are land based where possible or cash compensation at replacement cost for land when the loss

of land does not undermine livelihoods, (ii) prompt replacement of assets with access to assets of equal or higher value, (iii) prompt compensation at full replacement cost for assets that cannot be restored, and (iv) additional revenues and services through benefit sharing schemes where possible.

- (d) Provide physically and economically displaced persons with needed assistance, including the following: (i) if there is relocation, secured tenure to relocation land, better housing at resettlement sites with comparable access to employment and production opportunities, integration of resettled persons economically and socially into their host communities, and extension of project benefits to host communities; (ii) transitional support and development assistance, such as land development, credit facilities, training, or employment opportunities; and (iii) civic infrastructure and community services, as required.
- (e) Improve the standards of living of the displaced poor and other vulnerable groups, including women, to at least national minimum standards. In rural areas provide them with legal and affordable access to land and resources, and in urban areas provide them with appropriate income sources and legal and affordable access to adequate housing.
- (f) Develop procedures in a transparent, consistent, and equitable manner if land acquisition is through negotiated settlement⁷ to ensure that those people who enter into negotiated settlements will maintain the same or better income and livelihood status.
- (g) Ensure that displaced persons without titles to land or any recognizable legal rights to land are eligible for all compensation, relocation and rehabilitation measures, except land. .
- (h) Prepare a resettlement plan elaborating on the entitlements of displaced persons, the income and livelihood restoration strategy, institutional arrangements, monitoring and reporting framework, budget, and time-bound implementation schedule. This resettlement plan will be approved by ADB prior to contract award.
- (i) Disclose a draft resettlement plan, including documentation of the consultation process in a timely manner, before project appraisal, in an accessible place and a form and language(s) understandable to displaced persons and other stakeholders. Disclose the final resettlement plan and its updates to displaced persons and other stakeholders.
- (j) Conceive and execute involuntary resettlement as part of a development project

⁷ ADB SPS 2009 (Safeguards Requirements 2) does not apply to negotiated settlements. The policy is encourages acquisition of land and other assets through a negotiated settlement wherever possible, based on meaningful consultation with affected persons, including those without title to assets. A negotiated settlement will offer adequate and fair price for land and/or other assets. Also, an independent external party will be engaged to document the negotiation and settlement processes. In cases where the failure of negotiations would result in expropriation through eminent domain or the buyer could acquire the property regardless of its owner's decision to sell it or not, will trigger ADB's involuntary resettlement policy. The Safeguard Requirements 2 will apply in such cases, including preparing a resettlement plan.

or program. Include the full costs of resettlement in the presentation of project's costs and benefits. For a project with significant involuntary resettlement impacts, consider implementing the involuntary resettlement component of the project as a stand-alone operation.

- (k) Pay compensation and provide other resettlement entitlements before physical or economic displacement. Implement the resettlement plan under close supervision throughout project implementation.
- (l) Monitor and assess resettlement outcomes, their impacts on the standard of living of displaced persons, and whether the objectives of the resettlement plan have been achieved by taking into account the baseline conditions and the results of resettlement monitoring. Disclose monitoring reports.

K. Valuation of Assets

73. The valuation of affected land and structures will be governed by the following process:

74. Land surveys for determining the payment of compensation would be conducted on the basis of updated official records and ground facts. The land records containing information like legal title, and classification of land will be updated expeditiously for ensuring adequate cost compensation and allotment of land to the entitled displaced persons. In cases of areas under the District Council/Village Council in tribal areas, where official land records don't exist, formal land/property boundaries of private property owned by the tribal households can be determined through the process of community consultation and discussion with village head and village council members. Based on such information, land can be classified and land record can be updated and compensation assessment can be made. In the states where the land acquisition is proposed in hill/tribal areas, although the land is notified from the District Collector's/ Deputy Commissioner's office, the verification of ownership is done by the District/Village Council/*Panchayat* in consultation with the village people and the community will be involved in assessment of compensation. After determination of ownership and compensation amount the same is sent to the district collector/ deputy commissioner. If land is donated by any community, it shall be executed through a MoU and compensation for any immovable properties on the donated land shall be compensated as per provision of this RF. Records as they are on the cut-off date will be taken into consideration while determining the current use of land. The uneconomic residual land remaining after land acquisition will be acquired as per the provisions of RFCT in LARR Act, 2013 or National Highway Act, 1956 as the case may be. The owner of such land/property will have the right to seek acquisition of his entire contiguous holding/ property provided the residual land is less than the average land holding of the district.

75. The methodology for verifying the replacement cost for each type of loss will be as per the provision made in the RFCT in LARR Act -2013.

1. Valuation of Land

76. The District Collector/Deputy Commissioner shall determine the market value of the land with assessment of (a) the market value, if any, specified in the Indian Stamp Act, 1899 for the registration of sale deeds or agreements to sell, as the case may be, in the area, where the land is situated; or (b) the average sale price for similar type of land situated in the nearest village or nearest vicinity area; or (c) consented amount of compensation as agreed upon, whichever is higher.

77. Where the market value as per above section (1) cannot be determined for the reason that: (a) the land is situated in such area where the transactions in land are restricted by or under any other law for the time being in force in that area; or (b) the registered sale deeds or agreements to sell for similar land are not available for the immediately preceding three years; or (c) the market value has not been specified under the Indian Stamp Act, 1899; the appropriate authority, the State Government concerned shall specify the floor price or minimum price per unit area of the said land based on the Price calculated in the manner specified in the above section (1) in respect of similar types of land situated in the immediate adjoining areas.

78. The market value calculated as per above section (1) shall be multiplied by a factor of (a) 1 (one) to 2 (two) in rural areas based on the distance of project from Urban Area as notified by the Government of Manipur; and (b) one in urban areas.

79. Solatium amount equivalent to 100% of the market value calculated on the basis of above (1 or 2) x 3.

Hence:

The cost of land in rural areas = $X + 100\%$ of X ,

The cost of land in urban areas = $X + 100\%$ of X

Where X = Market Value as determined above x 1 to 2.

{Example: if the market value of One acre of land is Rs. 1000, the compensation rate in rural area will be $(1000 \times 2) + 100\% = \text{Rs. } 4000$ and for urban area it will be $(1000 \times 1) + 100\% = \text{Rs. } 2000$.}

2. Valuation of Building and Structure

80. The District Collector/Deputy Commissioner in determining the market value of the building and other immovable property or assets attached to the land or building which are to be acquired shall use the services of a competent engineer or any other specialist in the relevant field, as may be considered necessary by him. The cost of buildings will be estimated based on updated Basic Schedule of Rates (BSR) as on date without depreciation. Solatium of 100% will be added to the estimated market value of the structure as per the provision of RFCT in LARR Act -2013. During valuation of structure/building following parameters should be taken in to account:

- (a) From where they use to buy materials
- (b) Type of shops (private or state-owned)
- (c) Distance to be traveled
- (d) Sources (local or foreign) and the cost of various materials
- (e) Who will built the structures (owner or contractor) and whether they will use the hired labor or their own labor (cost of labour will be considered);
- (f) Obtaining cost estimates by meeting at least three contractors/suppliers in order to identify cost of materials and labor
- (g) Identifying the cost of different types of houses of different categories and compare the same with district level prices.

3. Valuation of Trees

81. Compensation for trees will be based on their full replacement cost. The District Collector/Deputy Commissioner for the purpose of determining the market value of trees and plants attached to the land acquired, use the services of experienced persons in the field of agriculture, forestry, Horticulture, Sericulture, or any other field, as may be considered necessary by him.

82. Even after payment of compensation, DPs/PAPs would be allowed to take away the materials salvaged from their dismantled houses and shops and no charges will be levied upon them for the same. In case of any structures not removed by the DPs in stipulated 60 days period, a notice to that effect will be issued intimating that DPs can take away the materials so salvaged within 48 hours of their demolition; otherwise, the same will be disposed by the project authority without giving any further notice.

83. Trees standing on the land owned by the government will be disposed of through open auction by the concerned Revenue Department/ Forest Department. DPs will be provided with an advance notice of three months prior to relocation. Further, all compensation and assistance will be paid to DPs at least 60 days prior to displacement or dispossession of assets.

84. For temporary impact on land and common resources, any land required by the project on a temporary basis will be compensated in consultation with landowners and will be restored to previous or better quality. Implementation issues can be found in the Entitlement Matrix.

L. Procedure for Land Acquisition under the Subproject

85. The IA i.e. NHIDCL has requested the Manipur Government to procure land for the subproject. In response to NHIDCL's request the State Government of Manipur has come up with a cabinet approval (refer **Appendix-5**) for direct purchase of land through negotiation. A committee has been formed with the following officials:

- (i) Deputy Commissioner Concerned (Chairman)
- (ii) Representative of Revenue Department (Member)
- (iii) Representative of Finance Department (Member)
- (iv) Director of Survey, Settlement and Land Record (Member)
- (v) Additional Chief Engineer NH/PWD, Manipur (Member)

86. The Deputy Commissioner (DC) of respective districts is responsible for procurement of land for the subproject. The valuation of land in hilly areas where no revenue records exists, the DC will determine the market value of land as per the provision made in this RP i.e. in consultation with the DPs. As per customary law prevailing in the hill area, ownership of land lies with the Village Head/Chief and the compensation for land will be paid to their account. The compensation and assistance for the non-land assets will be directly paid to the occupier of such assets. However, during the consultation process, all village heads were agreed to share the compensation amount with the occupiers and the implementation NGO and the IA will ensure the same by follow-up consultation during implementation.

87. The RFCTLARR-2013 has specified under section 108 that "where a State law or policy framed by the Government of a State provides a higher compensation than calculated under this Act for the acquisition of land, the affected persons or his family or member of his family may at their option opt to avail such higher compensation and rehabilitation and resettlement under such State Law or such policy of the State".

88. In case of failure of any negotiation, the land acquisition in this subproject context will be accordingly the RFCTLARR – 2013 and the following process will be followed in such case.

- (a) Submission of requisition for land acquisition along with other required document to concerned District Authority.
- (b) Notification by Government for commencement of consultation and SIA.
- (c) Completion of SIA study culminating in SIA report.
- (d) Conduct public hearing for SIA
- (e) Constitution of SIA Group to appraise SIA study report.
- (f) Submission of appraisal of SIA report and recommendations by expert group.
- (g) Preliminary notification for acquisition of land under section 11 of the Act.
- (h) Updating of land records by LA Authority
- (i) Hearing of objection under section 15 of the Act.
- (j) Preparation of R&R Scheme and disclosure
- (k) Declaration that land is required for public purpose u/s 19.
- (l) Hearing of objection under section 23 of the Act.
- (m) Declaration of final award by collector.
- (n) Payment of full amount of compensation
- (o) Payment of monetary part of R&R.
- (p) Taking possession of land acquired.
- (q) Infrastructural component of R&R package to be provided.
- (r) Displacement of affected families.

VI. ENTITLEMENTS, ASSISTANCE AND BENEFITS

A. Introduction

89. The subproject will have three types of displaced persons i.e., (i) persons with formal legal rights to land lost in its entirety or in part; (ii) persons who lost the land they occupy in its entirety or in part who have no formal legal rights to such land, but who have claims to such lands that are recognized or recognizable under national laws; and (iii) persons who lost the land they occupy in its entirety or in part who have neither formal legal rights nor recognized or recognizable claims to such land. The involuntary resettlement requirements apply to all three types of displaced persons and the RP describes provision for all type of DPs and accordingly formulated the entitlement matrix.

B. Cut-off-Date for Entitlement

90. In case of land acquisition, the date of publication of preliminary notification for acquisition under section 11 of the RFCT in LARR Act – 2013 will be treated as the cut-off date. For non-titleholders, the cut-off date will be the end of the census survey which is 5th February 2019. DPs who settle in the affected areas after the cut-off date will not be eligible for compensation. The cut-off date for non-titleholders will be officially declared by the EA along with the disclosure of RP and additionally notified in the project area through newspaper and communicated to DPs by implementing NGO during meaningful consultation. They, however, will be given sufficient advance notice, requested to vacate premises and dismantle affected structures prior to subproject implementation. Their dismantled structures materials will not be confiscated and they will not pay any fine or suffer any sanction.

C. Subproject Entitlement

91. In accordance with the R&R measures outlined in the project Resettlement Framework, all displaced households and persons will be entitled to a combination of compensation packages and resettlement assistance depending on the nature of ownership rights on lost assets and scope of the impacts including socio-economic vulnerability of the displaced persons and measures to support livelihood restoration if livelihood impacts are envisaged. The displaced persons will be entitled to the following five types of compensation and assistance packages:

- (a) Compensation for the loss of land, crops/ trees at their replacement cost;
- (b) Compensation for structures (residential/ commercial) and other immovable assets at their replacement cost;
- (c) Assistance in lieu of the loss of business/ wage income and income restoration assistance;
- (d) Assistance for shifting and provision for the relocation site (if required), and
- (e) Rebuilding and/ or restoration of community resources/facilities.

92. **Loss of land** will be compensated at replacement cost plus refund of transaction cost (including land registration cost, and stamp duties) incurred for purchase of replacement land. If the residual plot(s) is (are) not viable, i.e., the DP becomes a marginal farmer, three options are to be given to the DP, subject to his acceptance which are (i) The DP remains on the plot, and the compensation and assistance paid to the tune of required amount of land to be acquired, (ii) Compensation and assistance are to be provided for the entire plot including residual part, if the

owner of such land wishes that his residual plot should also be acquired by the EA, the EA will acquire the residual plot and pay the compensation for it and (iii) If the DP is from vulnerable group, compensation for the entire land by means of land for land will be provided if AP wishes so, provided that land of equal productive value is available. The replacement of land option will be considered by the District Collector while acquiring land wherever feasible alternate land is available. All fees, stamp duties, taxes and other charges, as applicable under the relevant laws, incurred in the relocation and rehabilitation process, are to be borne by the EA. Each families losing land will be entitled for following assistances.

- (a) One time resettlement allowance of Rs. 50,000.
- (b) One time assistance option from: (i) Where jobs are created through the project, employment for at least one member of the affected family with suitable training and skill development in the required field; or (ii) one-time payment of Rs. 500,000.
- (c) Scheduled Caste (SC) and Scheduled Tribe (ST) families will receive additional one-time Rs. 50,000 as subsistence allowance.

93. The compensation measures suggested in this RP based on the LA Act -2013, which includes, market value, solatium, transition cost, interest in case of delay along with other assistance items aligns with the criteria of replacement cost of the assets.

94. **Loss of Structures** will be compensated at replacement value with other assistance to both titleholders and non-titleholders. All structures will be compensated at replacement cost fully, and partially if it is viable. Engineer from Building Department will assess the viability of structure during verification and valuation in consultation with the affected households. The details of entitlement will be as:

- (a) Compensation for structure at the replacement cost to be calculated as per latest prevailing basic schedules of rates (BSR) without depreciation. 100% solatium on the estimated cost will be added as per provision of made under this RP. In rural area, the displaced family will be provided with the option of constructed house as per *Prime Minister Awaas Yojana* (PMAY) specifications in lieu of cash compensation. In urban area, the displaced family will be provided with the option of constructed house of minimum 50 sq. m. plinth area in lieu of cash compensation. Fees, taxes, and other charges related to replacement structure.
- (b) Right to salvage materials from structure and other assets with no deductions from replacement value.
- (c) One-time Resettlement allowance of Rs. 50,000
- (d) One time financial assistance of Rs. 25,000 to the families losing cattle sheds for reconstruction
- (e) One time shifting assistance of Rs. 50,000 towards transport costs etc.
- (f) Scheduled Caste (SC) and Scheduled Tribe (ST) will receive additional one-time Rs. 50,000 as subsistence allowance.

95. **Loss of livelihood due to loss of primary source of income** will be compensated through rehabilitation assistances. There are various categories of entitled persons under this category which are (i) titleholders losing income through business, (ii) titleholders losing income through agriculture, (iii) non-titleholders losing primary source of income. Details of entitlements for the above categories are described below:

- (a) One time financial assistance of minimum Rs. 25,000.
- (b) Skill up-gradation training to DPs opted for (one member of the affected family) income restoration.
- (c) Preference in employment under the project during construction and implementation.
- (d) Monthly Subsistence allowance of Rs. 3,000 for one year (total Rs. 36,000) from the date of award
- (e) Displaced families belong to Scheduled Caste (SC) and Scheduled Tribe (ST) will receive additional one-time Rs. 50,000 as subsistence allowance.

96. **Loss trees and crops** will be compensated by cash compensation. The entitlements to the DPs losing trees and crops will be:

- (a) Advance notice to harvest crops, fruits, and timbers.
- (b) Compensation for standing crops in case of such loss, based on an annual crop cycle at market value
- (c) Compensation for trees based on timber value at market price, and compensation for perennial crops and fruit trees at annual net product market value multiplied by remaining productive years; to be determined in consultation with the Forest Department for timber trees and the Horticulture Department for other trees/crops.

97. **Additional assistance to vulnerable households** (Vulnerable households includes BPL, SC, ST, WHH, disabled, elderly and non-titleholders) will be paid with special assistance as detailed below.

- (a) One time lump sum assistance of Rs. 25,000 to vulnerable households. This will be paid above and over the other.
- (b) Receive preference in income restoration training program under the project.
- (c) Preference in employment under the project during construction and implementation.
- (d) Access to basic utilities and public services.

98. **Loss of community infrastructure/common property resources** will be compensated either by cash compensation at replacement cost to the community (registered trust, society or village committee as appropriate) or reconstruction of the community structure in consultation with the affected community.

99. **Temporary Impacts** on agricultural land due to plant site for contractor etc will be eligible for cash compensation for loss of income potential including:

- (a) Any land required by the Project on a temporary basis will be compensated in consultation with the landholders.
- (b) Rent at market value for the period of occupation
- (c) Compensation for assets at replacement cost
- (d) Restoration of land to previous or better quality
- (e) Location of construction camps will be fixed by contractors in consultation with Government and local community.
- (f) 60 days advance notice regarding construction activities, including duration and type of temporary loss of livelihood.

- (g) Cash assistance based on the minimum wage/average earnings per month for the loss of income/livelihood for the period of disruption, and contractor's actions to ensure there is no income/access loss consistent with the EMP.
- (h) Assistance to mobile vendors/hawkers to temporarily shift for continued economic activity.

100. **Any unanticipated impacts** due to the subproject will be documented during the implementation phase and mitigated based on provision made in the Entitlement Matrix of this RP.

D. Entitlement Matrix

101. An Entitlement Matrix has been developed, that summarizes the types of losses and the corresponding nature and scope of entitlements; and is in compliance with National Laws and ADB SPS-2009 (refer to **Table 21**).

102. All compensation and other assistances⁸ will be paid to all DPs prior to physical or economic displacement. After payment of compensation, DPs would be allowed to take away the materials salvaged from their dismantled houses and shops and no charges will be levied upon them for the same. The cost of salvaged materials will not be deducted from the overall compensation amount due to the DPs. A notice to that effect will be issued intimating that DPs can take away the materials.

⁸ While compensation is required prior to dispossession or displacement of affected people from their assets, the full resettlement plan implementation, which may require income rehabilitation measures, might be completed only over a longer period of time after civil works have begun. Displaced people will be provided with certain resettlement entitlements, such as land and asset compensation and transfer allowances, prior to their displacement, dispossession, or restricted access.

Table 21: Entitlement Matrix

S.N.	Type of Loss	Application	Definition of Entitled Person	Compensation Policy	Implementation Issues	Responsible Agency
Land						
1-a	Loss of private land	Agricultural land ⁹ , homestead land or vacant plot	Legal titleholders/ Family with traditional titleholders ¹⁰	<ul style="list-style-type: none"> • Compensation at replacement cost or land-for-land where feasible.¹¹ If land-for-land is offered, titles will be in the name of original landowners. • One time Resettlement allowance¹² of Rs. 50,000 per affected family¹³ • Each affected family shall be eligible for choosing one time assistance option from: (i) Where jobs are created through the project, employment for at least one member of the affected family with suitable training and skill development in the required field; or (ii) One-time payment of Rs. 500,000 per affected 	<ul style="list-style-type: none"> • Compensation accounts for all taxes and fees, and does not account for any depreciation. • Vulnerable households will be identified during the census and verification survey. • Re-titling to be completed prior to project completion • For option of choosing job 	District Collector/Deputy Commissioner shall determine the market value of the land and multiply by the factors and add 100% solatium as specified in LARR Act. PIU will ensure provision of notice. PIU will verify the extent of impacts through a 100% survey of APs, determine assistance, and identify vulnerable households.

⁹ The LARR, 2013 Act says no irrigated multi cropped land shall be acquired under this Act, except in exceptional circumstances, as a demonstrable last resort. Wherever such land is acquired, an equivalent area of cultivable wasteland shall be developed for agricultural purposes or an amount equivalent to the value of land acquired shall be deposited with the appropriate Government for investment in agriculture for enhancing food-security. Such costing shall also reflect while preparing Resettlement Budget.

¹⁰ Traditional land rights refer to households with customary rights to land, and shall be treated equivalent to titleholders. The Scheduled Tribes and Other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006 defines "Forest Dwelling Scheduled Tribes" as the members or community of the Scheduled Tribes who primarily reside in and who depend on the forests and forest lands for bona fide livelihood needs and includes the Scheduled Tribe pastoralist communities. The act provides right to in situ rehabilitation including alternative land in cases where the Scheduled Tribes and other traditional forest dwellers have been illegally evicted or displaced from forest land of any description without receiving their legal entitlement or rehabilitation prior to the 13th of December 2005.

¹¹ Including option for compensation for non-viable residual portions.

¹² The LARR Act–2013 specifies that each affected family shall be given one time Resettlement Allowance of Rs.50,000/- only.

¹³ 'Family' includes a person, his or her spouse, minor children, minor brothers and minor sisters dependent on him. Widows, divorcees and women deserted by families shall be considered separate family. An adult of either gender with or without spouse or children or dependents shall be considered as a separate family – as defined under LARR Act–2013.

S.N.	Type of Loss	Application	Definition of Entitled Person	Compensation Policy	Implementation Issues	Responsible Agency
				family. • Displaced families ¹⁴ belong to Scheduled Caste (SC) and Scheduled Tribe (ST) will receive additional one-time Rs. 50,000 as subsistence allowance. • Additional assistance to Vulnerable Households	created through project, job will be paid at living wage and monitored by CSC.	
1-b	Loss of private land	Agricultural land, homestead land or vacant plot	Tenants and leaseholders (whether having written tenancy/lease documents or not / Sharecroppers)	• 60 days advance notice before demolition of structure • Compensation for rental deposit or unexpired lease (such amount will be deducted from the compensation of land owners). • Displaced families belong to Scheduled Caste (SC) and Scheduled Tribe (ST) will receive additional one-time Rs. 50,000 as subsistence allowance • Additional assistance to Vulnerable Households	• Land owners will reimburse tenants and leaseholders land rental deposit or unexpired lease	PIU will confirm land rental and ensure tenants and leaseholders receive reimbursement for land rental deposit or unexpired lease, and report to PIU. PIU will ensure provision of notice.
2-a	Loss of Government land	Vacant plot, Agricultural land, homestead land	Leaseholders	• Compensation for rental deposit or unexpired lease (such amount will be deducted from the compensation of the lessee).		PIU will ensure provision of notice and identify vulnerable households.

¹⁴ Displaced family" as defined by the LARR Act-2013, means any family, who on account of acquisition of land has to be relocated and resettled from the affected area to the resettlement area. According to ADB SPS-2009, displaced persons are those who are physically displaced (relocation, loss of residential land, or loss of shelter) and/or economically displaced (loss of land, assets, access to assets, income sources, or means of livelihoods) as a result of (i) involuntary acquisition of land, or (ii) involuntary restrictions on land use or on access to legally designated parks and protected areas. Thus, under this RF, the subsistence allowance is applicable for all affected families losing land irrespective of their nature of physical or economic displacement.

S.N.	Type of Loss	Application	Definition of Entitled Person	Compensation Policy	Implementation Issues	Responsible Agency
				<ul style="list-style-type: none"> Displaced families belong to Scheduled Caste (SC) and Scheduled Tribe (ST) will receive additional one-time Rs. 50,000 as subsistence allowance. Additional assistance to Vulnerable Households

11	Any other loss not identified		•	• Unanticipated involuntary impacts will be documented during the implementation phase and mitigated based on provision made in the RF.	PIU will finalize the entitlements in line with ADB's SPS, 2009.	

VII. RELOCATION OF HOUSING AND SETTLEMENTS

A. Basic Provision for Relocation

103. The EA will provide adequate and appropriate replacement land and structures or cash compensation at full replacement cost for lost land and structures, adequate compensation for partially damaged structures, and relocation assistance, according to the Entitlement Matrix. The EA will compensate to the non-titleholders for the loss of assets other than land, such as dwellings, and also for other improvements to the land, at full replacement cost. The entitlements to the non-titleholders will be given only if they occupied the land or structures in the subproject area prior to the cut-off date. In the case of physically displaced persons, the EA will provide:

- (a) relocation assistance, secured tenure to relocation land (in case of project based relocation), better housing at resettlement sites with comparable access to employment and production opportunities, and civic infrastructure and community services as required;
- (b) transitional support and development assistance, such as land development, credit facilities, training, or employment opportunities; and
- (c) Opportunities to derive appropriate development benefits from the subproject such as direct employment, engagement as petty contractor, supplying raw materials etc.

B. Need for Relocation

104. Despite being a linear subproject and efforts made to minimize the resettlement impacts, the proposed subproject will affect residential and commercial structures as a result of which both physical and economic displacement will arise and need relocation in the subproject. Efforts are made through various provisions in this resettlement plan to mitigate negative social impacts caused up on displaced persons and communities by supporting relocation of affected households and by restoration of pre-project levels of income.

105. As per the census survey, 65 residential structures owned by 55 households are getting affected significantly and those are considered to be unviable for living will needs to be relocated under the subproject. The unviability of residential structures are assessed as per the census survey and the Engineer from Building Department will further assess the viability of structure during verification and valuation in consultation with the affected households.

C. Relocation and Compensation Option by DPs

106. To understand and know the relocation options, DPs were consulted during the census survey and out of the 55 households needs to be relocated, 45 have opted for self-relocation and only 10 have opted for project based relocation. However, all these 55 households while asked for their choice of compensation, opted for cash compensation against loss of their structure.

D. Relocation Strategy

107. With the scattered nature of resettlement impacts the residential structures affected in the subproject are spread over more than 65 kilometres. Being a liner project and acquisition of small strip of land, in most of the cases people are having additional land to resettle and with the

help of assistances, they will be able to resettle themselves. Most of the DPs preferred for cash compensation and self-relocation. During focused group discussions, while discussing about relocation options people were very much in favour of resettlement within the village to avoid disruption of community life and problem with host community. Therefore cash compensation at market rate along with relocation assistances is adopted as more practical solution for Package 1.

108. All the structures affected in the subproject as per provisions made in the entitlement matrix will be eligible for the following:

- (a) Compensation of structure will be paid at the replacement cost to be calculated as per latest prevailing basic schedules of rates (BSR) without depreciation,
- (b) One-time Resettlement allowance of Rs. 50,000 per affected household
- (c) Shifting assistance to all structures at @ of Rs. 50,000 per structure,
- (d) Right to salvage materials from structure and other assets with no deductions from replacement value, and

109. To help the DPs losing structures in getting all above entitlements and relocating themselves, following relocation strategy will be adopted in the subproject:

- (a) At least 60 days advance notice before demolition of structure.
- (b) Their dismantled structures materials will not be confiscated and they will not pay any fine or suffer any sanction.
- (c) The NGO engaged for RP implementation will assist DPs during verification of assets and will provide necessary counseling on payment of compensation and assistance.
- (d) The NGO will assist the subproject authorities in ensuring a smooth transition (during the part or full relocation of the DPs), helping the DPs to take salvaged materials and shift.
- (e) In close consultation with the DPs, the NGO will fix the shifting dates agreed with the DPs in writing and the arrangements desired by the DPs with respect to their entitlements.
- (f) In case of self-relocation also, the NGO will assist the DPs in finding alternative land within the village if so desired by the DPs in consultation with village committee and other beneficiaries in the villages.
- (g) Demolition would be avoided in cold/rainy seasons as the project area experiences such extreme weather during such seasons.

VIII. INCOME RESTORATION AND REHABILITATION

A. Loss of Livelihoods in the Subproject

110. The subproject impacts reveal that due to loss agricultural land and commercial structures 912 households will be losing livelihoods. As per the findings of census survey, 154 owners of agricultural land, 503 owners of commercial structures, 83 owners of residential-cum-commercial structures, 37 employees in commercial establishment and 135 commercial tenants will be losing their livelihood due to the subproject. The details of impact on livelihoods in the subproject are summarized in the **Table 22**.

Table 22: Loss of Livelihoods in the Subproject

Sl. No.	Loss	Households	Person	%
1	Owners of Agricultural Land	154	841	16.89
2	Loss of Commercial Structure	503	2746	55.15
3	Loss of Residential cum Commercial Structure	83	453	9.10
4	Employees in Structures	37	202	4.06
5	Commercial Tenants	135	737	14.80
Total		912	4980	100.00

B. Provisions for Loss of Livelihood

111. The DPs losing their livelihoods includes titleholders losing land and structures, non-titleholders having commercial structures, commercial tenants, agricultural labourers, employees in affected commercial structures under the subproject. In the case of economically displaced persons, regardless of whether or not they are physically displaced, the EA will promptly compensate for the loss of income or livelihood sources at full replacement cost. The EA will also provide assistance such as credit facilities, training, and employment opportunities so that they can improve, or at least restore, their income-earning capacity, production levels, and standards of living to pre-project level standard of living. The implementing NGO will prepare the micro plan with specific income restoration activities for each DP.

112. In cases where land acquisition affects commercial structures, affected business owners are entitled to:

- (a) the costs of reestablishing commercial activities elsewhere;
- (b) the net income lost during the transition period; and
- (c) the costs of transferring and reinstalling plant, machinery, or other equipment.

113. Business owners with legal rights or recognized or recognizable claims to land where they carry out commercial activities are entitled to replacement property of equal or greater value or cash compensation at full replacement cost. Non-titleholder households losing business structure and livelihood will be compensated for the structure loss and receive transitional assistance as well. The EA will ensure that no physical displacement or economic displacement will occur until:

- (a) compensation at full replacement will paid to each displaced person for subproject components or sections that are ready to be constructed;
- (b) other entitlements listed in the resettlement plan have been provided to displaced persons; and

- (c) a comprehensive income and livelihood rehabilitation program, supported by an adequate budget, is in place to help displaced persons improve, or at least restore, their incomes and livelihoods.

C. Income Restoration Measures

114. The entitlement proposed for the subproject has adequate provisions for restoration of livelihood of the affected communities. The focus of restoration of livelihoods is to ensure that the DPs are able to at least regain pre-project level standard of living. To restore and enhance the economic conditions of the DPs, certain income generation and income restoration programs are incorporated in the RP. To begin with providing employment to the local people during the construction phase will enable them to benefit from the subproject, reduce the size of intrusive work forces and keep more of the resources spent on the subproject in the local economy. It will also give the local communities a greater stake and sense of ownership in the subproject.

115. Among specific rehabilitation measures, capacity building of all the economically displaced persons will be carried out by the subproject authority. The NGO to be engaged for implementation of RP will identify the eligible and most suitable candidate from the family by carry out training need assessment and prepare micro plan for rehabilitation of DPs. The NGO will impart training to the selected/eligible DPs for income restoration and skill up-gradation as per the micro plan. The EA will also provide opportunities to displaced persons to derive appropriate development benefits from the subproject. The vulnerable DPs will be given preference in availing employment opportunities in subproject construction work. The women headed households also will be taken care of in a case to case basis and the NGO will help them in forming Self-help Groups (SHGs), establish linkages to available credit facilities, special trainings, and linking them with ongoing govt. schemes. Budget for training in terms of assistance is provided to DPs losing livelihoods and the NGO will either organize training programs or link the DPs to various ongoing training schemes. Fund for training is provided in the R&R budget keeping in view the average expenditure for ongoing training programs in the subproject area.

116. The objective of the R&R package included in the subproject entitlement matrix is to support the DPs to improve or at least restore the livelihoods. The livelihood loss for land loser is only partial as they are losing a strip of land retaining rest of land to continue their livelihood. In case of business loss will also be easily restored by the DPS with the help of R&R assistance provided under the subproject. The specific measures provided under the entitlement matrix of this RP is listed below.

- One time financial assistance of minimum Rs. 25,000.
- Skill up-gradation training to APs opted for (one member of the affected family) income restoration.
- Preference in employment under the project during construction and implementation.
- Monthly Subsistence allowance of Rs. 3,000 for one year (total Rs. 36,000) from the date of award
- Displaced families belong to Scheduled Caste (SC) and Scheduled Tribe (ST) will receive additional one-time Rs. 50,000 as subsistence allowance.
- Vulnerable households will receive preferential in income restoration training program under the project.

- Vulnerable households will have preference in employment under the project during construction and implementation.
- Project will ensure access to basic utilities and public services by vulnerable households

D. Additional Support from Ongoing Poverty Reduction Programs

117. In addition to subproject-sponsored programs, the implementing NGO will play a proactive role to mobilize DPs to get benefits from various government schemes and ensure their accessibility particularly of vulnerable groups. In India, panchayat government systems at the village, block and district levels are now responsible for planning and implementation of all anti-poverty programs funded by the central and state governments. The implementing NGO will work with the panchayat governments to make available to the DPs benefits of some of the ongoing pro-poor programs for poverty reduction.

IX. RESETTLEMENT BUDGET AND FINANCING PLAN

A. Introduction

118. The resettlement cost estimate for this subproject includes eligible compensation, resettlement assistance and support cost for RP implementation. The support cost, which includes staffing requirement, monitoring and reporting, involvement of NGO in subproject implementation and other administrative expenses are part of the overall subproject cost. The unit cost for land and other assets in this budget has been derived through field survey, consultation with affected families, relevant local authorities and reference from old practices. Contingency provisions have also been made to take into account variations from this estimate. Some of the major items of this R&R cost estimate are outlined below:

- (a) Compensation for agricultural, residential and commercial land at their replacement value
- (b) compensation for structures (residential/ commercial) and other immovable assets at their replacement cost
- (c) Transitional assistance in lieu of the loss of business and livelihood
- (d) Compensation for crops and trees
- (e) Assistance in lieu of the loss of business/ wage income/ employment and livelihood
- (f) Assistance for shifting of the structures
- (g) Resettlement and Rehabilitation Assistance in the form of Training allowance
- (h) Special assistance to vulnerable groups for their livelihood restoration
- (i) Cost for implementation of RP.

B. Compensation

119. Private Land: For the purpose of cost estimate, the unit rate for agricultural land has been estimated on the basis of latest official rate and prevailing market value assessment during census survey. The base cost has been calculated as per the government rate declared in 2016 with annual increment up to 2018. However, the actual compensation for land at replacement cost will be determined by the Land Valuation Committee headed by District Collector as prescribed in the RF. For hilly areas, there is no base cost available since hill lands are generally considered to be inalienable. An average cost estimate done for such land on the basis of public consultation and in comparison with nearby revenue areas

120. Residential/ Commercial and other structures: For the purpose of cost estimate, average rates of various types of structures are estimated on the basis of latest BSR and market assessment. The average rate for permanent structures without land has been calculated at Rs. 20,000/m², semi-permanent structures have been calculated at Rs. 12,000/m², and temporary structures have been calculated at the rate of Rs. 8,000/m². However the actual compensation will be calculated by the professional valuer taking into account the latest BSR without depreciation as prescribed in the RF.

121. Compensation for tree: For cost estimate in RP for affected private trees enumerated during the census survey, a lump sum rate of Rs. 15,000/- for fruit bearing trees and Rs. 10,000/- for non-fruit bearing trees has been considered based on the market assessment. The actual cost of trees will be calculated as per the provision of the RF.

C. Assistance

122. All title-holder DPs losing land and non-titleholder DPs losing structures will be eligible for onetime resettlement allowance of Rs. 50,000/- (Rupees Fifty Thousand Only) per affected family.

123. Titleholder DPs losing land will be eligible for onetime assistance of Rs. 5,00,000/- (Rupees Five Lakh Only) per affected family.

124. Titleholder DPs losing structure, non-titleholder DPs losing structures and tenants will be eligible for onetime shifting assistance of Rs. 50,000/- (Rupees Fifty Thousand Only) towards transport costs.

125. Additional onetime assistance to all DPs belong to Scheduled Caste (SC) and Scheduled Tribe (ST) community @ Rs. 50,000 (Rupees Fifty Thousand Only) per affected family.

126. DPs losing cattle shed will be eligible for Rs. 25,000/- (Rupees Twenty Five Thousand Only) as assistance for reconstruction of cattle shed.

127. All DPs losing livelihood will be eligible for monthly subsistence allowance of Rs. 3,000/- per month for a period of one year from the date of award i.e. Rs. 36,000/- (Rupees Thirty Six Thousand Only) per affected family.

128. All DP losing livelihood will be eligible for onetime financial assistance of minimum Rs. 25,000/- (Rupees Twenty Five Thousand Only) per affected family.

129. Skill up-gradation training to DPs (one member of the affected family) opted for income restoration. Based on the prevailing training expenditure Rs. 10,000/- (Rupees Ten Thousand Only) per families losing livelihood.

130. Additional onetime assistance of Rs. 25,000 (Rupees Twenty Five Thousand Only) per affected vulnerable family.

D. Compensation for Community and Government Property

131. Religious and Community Structure: The unit cost for religious and community structures is calculated as per market value in consultation with APs. The average rate for permanent structures without land has been calculated at Rs. 20,000/m², semi-permanent structures have been calculated at Rs. 12,000/m², and temporary structures have been calculated at the rate of Rs. 8,000/m².

E. RP Implementation and Support Cost

132. The RP implementation support cost for hiring of the implementing NGO, consultation and grievance, hiring of external monitoring agency etc already budgeted under the combined RP for Package-1 and 2 and funds are already allocated accordingly. The implementing NGO has already appointed for this Project. Therefore no cost estimated under this updated Package-1 RP to avoid duplication. A 10% contingency has been added in order to adjust any cost escalation during subproject implementation.

F. Source of Funding and Fund Flow Management

133. The cost related to land acquisition and resettlement will be borne by the EA. The EA will ensure allocation of funds and availability of resources for smooth implementation of the subproject R&R activities. The EA will, in advance, initiate the process and will try to keep the approval for the R&R budget in the fiscal budget through the ministry of finance. In the case of assistance and other rehabilitation measures, the EA will directly pay the money or any other assistance as stated in the RP to DPs. The implementing NGO will be involved in facilitating the disbursement process and rehabilitation program.

G. R&R Budget

134. The total R&R budget for the proposed subproject RP works out to Rs. 2775.05 million. A detailed indicative R&R cost is given in **Table 23**.

Table 23: R&R Budget

Sl. No.	Item	Unit	Rate	Amount
A	Compensation for Land	in Acre		in Rupees

X. GRIEVANCE REDRESS MECHANISM

A. Introduction

135. In the subproject RP implementation there is a need for an efficient grievance redress mechanism that will assist the DPs in resolving their queries and complaints. Therefore, formation of Grievance Redress Committee (GRC) will be most important for grievance redress and it is anticipated that most, if not all grievances, would be settled by the GRC.

B. Grievance Redress Mechanism

136. A project-specific grievance redress mechanism (GRM) will be established to receive, evaluate and facilitate the resolution of displaced people's concerns, complaints and grievances about the social and environmental performance at the level of the Project. The GRM will aim to provide a time-bound and transparent mechanism to voice and resolve social and environmental concerns linked to the project. The project-specific GRM is not intended to bypass the government's own redress process, rather it is intended to address displaced people's concerns and complaints promptly, making it readily accessible to all segments of the displaced people and is scaled to the risks and impacts of the project.

137. During project preparation, information regarding GRCs will be disclosed as part of the public consultation process. Grievances related to the implementation of the project will be acknowledged, evaluated, and responded to the complainant with corrective action proposed. The outcome shall also form part of the semi-annual monitoring report that will be submitted to ADB. The decision of the GRCs is binding, unless vacated by the court of law. The GRC will continue to function, for the benefit of the DPs, during the entire life of the project including the maintenance period.

C. Constitution and Function of the GRC

138. A Grievance Redress Committee (GRCs) will be established at the state level and at the PIU level to assure accessibility for DPs. The GRCs are expected to resolve grievances of the eligible persons within a stipulated time of 3 weeks at the PIU level and 3 weeks at the state level.

139. The State level GRC will comprise of the:

- (a) Additional Chief Engineer (NH) -Chairperson
- (b) General Manager (NHIDCL) – Member Secretary
- (c) Deputy Commissioner (or his representative)
- (d) Resettlement Officer, PIU,
- (e) A representative from IP community or NGO for IP related issue

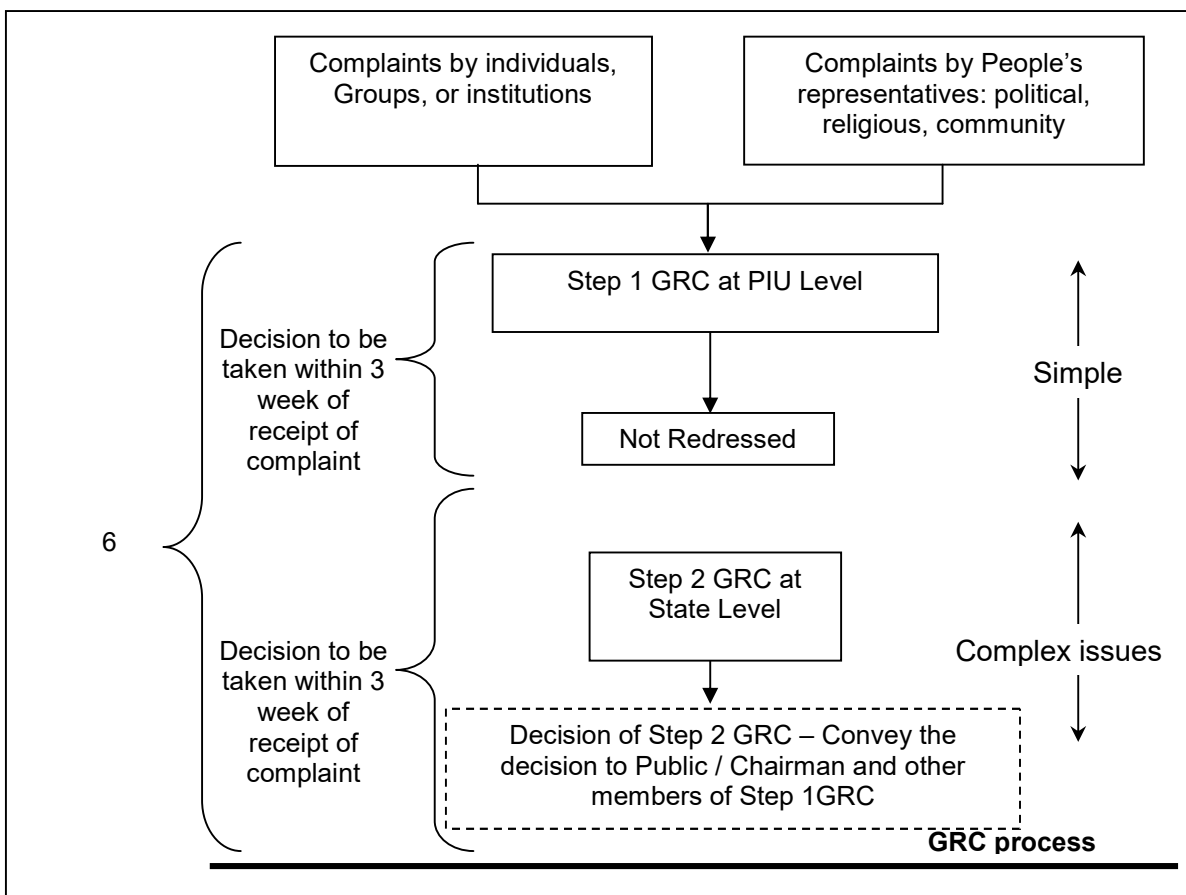

140. The PIU level GRC will comprise of the:

- (a) General Manager (NHIDCL) -Chairperson
- (b) A representative from District Administration
- (c) Resettlement Officer, PIU
- (d) A representative from local NGOs or a local person of repute and standing in the society,
- (e) Elected representative from Zila Parisad /District Council.
- (f) A representative for women from a relevant agency which could be from the

- government, or NGO or local community
 (g) A representative from IP community or NGO for IP related issue.

141. One of the above members in the PIU level GRC will be a woman. The following flow chart (Figure 3) defines the process of the GRM.

Figure 3: Grievance Redress Mechanism

D. Operational Mechanisms of GRC

142. It is proposed that GRC will meet regularly (at least once in a month) on a pre-fixed date. The committee will look into the grievances of the people and will assign the responsibilities to implement the decisions of the committee. The claims will be reviewed and resolved within 15 days from the date of submission to the committee. All grievances will be routed through the NGO to the GRC. Through public consultations, the DPs will be informed that they have a right to grievance redress. The DPs can call upon the support of the NGO to assist them in presenting their grievances or queries to the GRC. The NGO will act as an in-built grievance redress body. The NGO will first of all register the grievances and take up with VLC for redress and any grievances not redressed at VLC level will be dealt in by the GRC. Grievances will be redressed within two to four weeks from the date of lodging the complaints, depending on severity of problem. The DPs, who would not be satisfied with the decision of the GRC, will have the right to take the grievance to the PIU Head Office for its redress. Failing the redressal of grievance at PIU. However an aggrieved person should have access to the country's judiciary at any stage of the subproject level grievance redress process. Taking grievances to Judiciary will

be avoided as far possible and the NGO will make utmost efforts at reconciliation at the level of GRC. All grievances received (written or oral) and their redress will be recorded and documented properly. The EA will ensure that, such records will be made available to the external monitor or ADB review mission on request.

143. People who are, or may in the future be, adversely affected by the project may submit complaints to ADB's Accountability Mechanism. The Accountability Mechanism provides an independent forum and process whereby people adversely affected by ADB-assisted projects can voice, and seek a resolution of their problems, as well as report alleged violations of ADB's operational policies and procedures. Before submitting a complaint to the Accountability Mechanism, affected people should make a good faith effort to solve their problems by working with the concerned ADB operations department. Only after doing that, and if they are still dissatisfied, should they approach the Accountability Mechanism.²⁴

²⁴

For further information see: <http://www.adb.org/Accountability-Mechanism/default.asp>.

144.

XI. INSTITUTIONAL ARRANGEMENT

A. Institutional Requirement

145. For implementation of RP there will be a set of institutions involve at various levels and stages of the subproject. For successful implementation of the RP the proposed institutional arrangement with their role and responsibility has been outlined in this section. The primary institutions, who will be involved in this implementation process, are the following:

- (a) Ministry of Road Transport and Highways
- (b) National Highways and Infrastructural Development Corporation (NHIDCL)
- (c) Project Implementation Unit (PIU)
- (d) Land Valuation Committee (LVC)
- (e) Village Level Committee (VLC)
- (f) State Level Grievance Redress Committee
- (g) PIU Level Grievance Redress Committee
- (h) Construction Supervision Consultant (CSC)
- (i) Non Government Organization (NGO)

B. Executing Agency

146. The Executing Agency (EA) for the Project is Ministry of Road Transport and Highways (MORTH) and the Implementing Agency (IA) is National Highways and Infrastructural Development Corporation (NHIDCL). The existing NHIDCL has already established a Branch Office (BO) which will be the Project Implementation Unit (PIU) headed by a General Manager (GM), who will be the Project Director (PD). This office will be functional for the whole subproject duration. The PD will have overall responsibility for implementation of loan and will also be responsible for the overall coordination among ADB, Government of Manipur and PIU . EAs will be supported by the Construction and Supervision Consultant (CSC) to ensure timely and effective implementation of RP.

C. Resettlement Management at PIU

147. PIU headed by a Project Director (PD) responsible for the overall execution of the subproject. The PD will be responsible for (i) overall implementation of R&R activities according to the RP including responsible for land acquisition and R&R activities in the field; (ii) ensure availability of budget for R&R activities; (iii) liaison with district administration for support for land acquisition and implementation of R&R; (iv) and selection and appointment of the RP implementing agency.

148. The PIU will appoint/depute one full-time Manager level official as the Resettlement Officer (RO) for the entire duration of resettlement activities, with relevant experience in land acquisition and resettlement issues. The PIU will maintain all databases and work closely with DPs and other stakeholders. Based on regularly updated data, a central database will also be maintained by PIU.

149. The PIU officials and RO will require to enhance their capacities in R&R implementation. The staff will undergo an orientation and training in resettlement management at the beginning of the project. The capacity development training inputs would include ADB resettlement policy and principles to be imparted by the R&R expert from CSC. The training activities will focus on

issues concerning (i) principles and procedures of land acquisition, (ii) public consultation and participation, (iii) entitlements and compensation disbursement mechanisms, (iv) grievance redressal, and (v) monitoring of resettlement operation. The training would specifically focus on the differences between provisions of ADB policy and the relevant country laws. The awareness of these differences and the need to follow the provisions of the ADB policy are critical for successful implementation of the RP.

150. The RO will work closely with the District Collector to expedite the payments of compensation for land acquisition and assistance to DPs. The RO will be assisted by the PIU and NGO for planning and implementation of resettlement activities in the subproject. Some of the specific functions of the PIU in regards to resettlement management will include:

- (a) Overall responsibility of implementation and monitoring of R&R activities in the Subproject;
- (b) Ensure availability of budget for R&R activities;
- (c) Liaison lined agencies support implementation of R&R;
- (d) Selection and appointment of the NGOs.
- (e) Coordinating with line Departments, implementing NGO, CSC and CMC.
- (f) Translation of RP in local language;
- (g) Liaison with district administration for dovetailing government's income generating and developmental programs for the DPs;
- (h) Ensure the inclusion of those DPs who may have not been covered during the census survey;
- (i) facilitate the opening of accounts in local banks to transfer assistance to DPs, and organize the disbursement of cheque for assistance in the affected area in public;
- (j) Monitor physical and financial progress on land acquisition and R&R activities;
- (k) Participate in regular meetings in GRC; and
- (l) Organize monthly meetings with the NGO to review the progress on R&R.

D. Nongovernment Organization (NGO)

151. Involuntary resettlement is a sensitive issue and strong experience in R&R matters along with community related skills will be required by the PIU in order to build a good rapport with the affected community and facilitate satisfactory R&R of the DPs. To overcome this deficiency, experienced and well-qualified NGO in this field will be engaged to assist the PIU in the implementation of the RP. The NGO would play the role of a facilitator and will work as a link between the PIU and the affected community. NGO will assist DPs in income restoration by preparing micro plan and guiding to access into various ongoing government development schemes and agencies providing financial assistance and loan. Taking into account the significant role of the NGO in RP implementation, it is extremely important to select NGO that are capable, genuine and committed to the tasks assigned in order to ensure the success of the Plan.

152. The roles and responsibilities of various agencies to be involved in resettlement planning process and implementation of resettlement activities are summarized in **Table 24**.

Table 24: Agencies Responsible for Resettlement Implementation

Key Agency	Responsibility
EA (NHIDCL)	<ul style="list-style-type: none"> • Make final decision on roads to be included under the project • Overall responsibility for project design, feasibility, construction and

Key Agency	Responsibility
	operation and guide PIU <ul style="list-style-type: none"> • Ensure that sufficient funds are available to properly implement all agreed social safeguards measures • Ensure that all subprojects comply with the provisions of ADB's SPS 2009 and Gol's policies and regulations • Submit semi-annual safeguards monitoring reports to ADB
Project Implementation Units	(a) District Level <ul style="list-style-type: none"> • Disseminate project information to the project affected community with assistance from DPR Consultant • Ensure establishment of Grievance Redress Committee at the district level for grievance redress with assistance from DPR Consultant (b) Field Level <ul style="list-style-type: none"> • Disclosure of project information in public spaces and through relevant media. • Disseminate project information to the community in coordination with DPR Consultants • Facilitate the socioeconomic survey and census • Facilitate consultation by the civil works contractor with community throughout implementation • Oversee land acquisition and coordinate with Deputy Commissioner • Supervise the mitigation measures during implementation and its progress • Conduct internal monitoring and prepare reports
Detailed Project Report (DPR) Consultants	<ul style="list-style-type: none"> • Undertake consultations involving community and DPs • Prepare due diligence report if no land acquisition • Encourage community/ DPs to voluntarily participate during the implementation
RP Implementing NGO	<ul style="list-style-type: none"> • Assist in the implementation of the RP if involuntary resettlement is identified.
External Expert	<ul style="list-style-type: none"> • Verify internal monitoring and assist IA to address compliance issues, if any • Provide technical support and advise to the IA in the implementation of the RP specifically for addressing complaints and grievances and participate in resolving issues as a member of the GRC • Monitor and assist the NGO by providing Technical Support and advice during implementation of RP. • Provide technical advice and on the job training to the contractors as necessary • Preparation of semi-annual monitoring reports based on the monitoring checklists and submission to RDA for further submission to ADB •
Contractor	<ul style="list-style-type: none"> • Consult community and PIU regarding location of construction camps • Sign agreement with titleholder for temporary use of land and restore the land to equal or better condition upon completion • Commence construction only when alignment is free of encumbrance • Respond in a timely fashion to recommendations from GRCs
District level officials	<ul style="list-style-type: none"> • Provide any existing socioeconomic information, maps and other related information to DPR Consultant prior to the field data/information collection activities. • Act as the local focal point of information dissemination • Execute land acquisition process
Community Based	<ul style="list-style-type: none"> • Ensure the community participation at various stages of the project • Coordination with stakeholder organizations

Key Agency	Responsibility
Organizations	<ul style="list-style-type: none"> Assist in Monitoring of the project Providing indigenous knowledge as required
Village Level Committee	<ul style="list-style-type: none"> Provide correct and accurate data and information from project formulation stage Assist the project team in redressal of grievances and to implement the project smoothly Arrange proper community participation
ADB	<ul style="list-style-type: none"> Review RF and due diligence/RP and endorse or modify the project classification Review planning documents and disclose the draft and final reports on the ADB's website as required Monitor implementation through review missions Provide assistance to the EA and IA of subprojects, if required, in carrying out its responsibilities and for building capacity for safeguard compliance Monitor overall compliance of the project to ADB SPS

E. Capacity Building on RP in the EA

153. National Highways and Infrastructure Development Corporation is a fully owned company of the Ministry of Road Transport & Highways (MORTH), Government of India. MORTH has enormous experience in planning and managing land acquisition and R&R issues in its own funding and also externally financed projects. NHIDCL is relatively a new initiative by GOI under MORTH but the staffs are basically either from MORTH or its another wing i.e. National Highways Authority of India (NHAI). Since the NHIDCL has limited experience from organizational point of view, it is suggested to have training and orientation program to further enhance their capacity to handle the land acquisition and R&R issue.

154. Close consultations were held with NHIDCL to have an initial level of capacity assessment and capacity building exercise during the preparation of this RP. The NHIDCL has already established a PIU headed by General Manager (GM) who will be acting as the Project Head/Director and a manager level officer from the PIU will be designated as Resettlement Officer (RO) for dealing with the land acquisition and resettlement for the subproject. Also it is recommended that the NHIDCL will hire a retired revenue officer to assist them on LA issue and an experienced NGO on RP implementation.

155. All concerned staff both at head office and field level involved in land acquisition and resettlement activities will undergo an orientation and training in ADB resettlement policy and management. Broadly, the training will cover various topics such as (i) Principles and procedures of land acquisition; (ii) Public consultation and participation; (iii) Entitlements and compensation & assistance disbursement mechanisms; Grievance redress; and (iv) Monitoring of resettlement operations. These will be covered through a formal workshop by the consultant under the ongoing technical assistance program. The specific components under the training will cover the following:

- (a) Understanding of the ADB Policy Guidelines and requirements and differences between country policy and laws
- (b) Understanding of the policy and procedure adopted for the Subproject
- (c) Understanding of the Implementation Schedule activities step-by-step
- (d) Understanding of the Monitoring and reporting mechanism
- (e) Understanding of the economic rehabilitation measures

XII. IMPLEMENTATION SCHEDULE

A. Introduction

156. Implementation of RP mainly consists of compensation to be paid for affected structures and rehabilitation and resettlement activities. The time for implementation of resettlement plan will be scheduled as per the overall subproject implementation. All activities related to the land acquisition and resettlement must be planned to ensure that compensation is paid prior to displacement and commencement of civil works. The EAs and PIU will ensure that no physical or economic displacement of displaced households will occur until: (i) compensation at full replacement cost has been paid to each displaced person for project components or sections that are ready to be constructed; (ii) other entitlements listed in the resettlement plan are provided to the displaced persons; and (iii) a comprehensive income and livelihood rehabilitation program, supported by adequate budget, is in place to help displaced persons, improve, or at least restore, their incomes and livelihoods. Furthermore, all RPs will be revised during detailed design, and the updated RPs will be approved by government and ADB and disclosed prior to implementation. Public consultation, monitoring and grievance redress will be undertaken intermittently throughout the subproject duration. However, the schedule is subject to modification depending on the progress of the subproject activities. The civil works contract for each subproject will only be awarded after all compensation and relocation has been completed for subproject and rehabilitation measures are in place.

B. Schedule for Subproject Implementation

157. The proposed subproject R&R activities are divided into three broad categories based on the stages of work and process of implementation. The details of activities involved in these three phases: subproject preparation phase, RP implementation phase, Monitoring and Reporting period are discussed in the following paragraphs.

C. Subproject Preparation Phase

158. The major activities to be performed in this period include establishment of PIU at subproject level; submission of RP for ADB approval; appointment of NGO and establishment of GRCs etc. The information campaign and community consultation will be a process initiated from this stage and will go on till the end of the subproject.

D. RP Implementation Phase

159. After the subproject preparation phase the next stage is implementation of RP which includes issues like compensation of award by EA; payment of all eligible assistance; relocation of DPs; initiation of economic rehabilitation measures; site preparation for delivering the site to contractors for construction and finally starting civil work.

E. Monitoring and Reporting Period

160. As mentioned earlier the monitoring will be the responsibility of PIU, and implementing NGO and will start early during the subproject when implementation of RP starts and will continue till the completion of the subproject. Keeping in view the significant involuntary resettlement impacts, an external monitoring and reporting expert will be hired for the subproject.

F. R&R Implementation Schedule

161. A composite implementation schedule for R&R activities in the subproject including various sub tasks and time line matching with civil work schedule is prepared and presented in the form of **Table 25**. However, the sequence may change or delays may occur due to circumstances beyond the control of the Subproject and accordingly the time can be adjusted for the implementation of the plan. The implementation schedule can also be structured through package wise. The entire stretch can be divided in to various contract packages and the completion of resettlement implementation for each contract package shall be the pre-condition to start of the civil work at that particular contract package.

Table 25: R&R Implementation Schedule

[illegible]

XIII. MONITORING AND REPORTING

A. Need for Monitoring and Reporting

162. Monitoring and reporting are critical activities in involuntary resettlement management in order to ameliorate problems faced by the DPs and develop solutions immediately. Monitoring is a periodic assessment of planned activities providing midway inputs. It facilitates change and gives necessary feedback of activities and the directions on which they are going. In other words, monitoring apparatus is crucial mechanism for measuring subproject performance and fulfilment of the subproject objectives.

B. Monitoring in the Subproject

163. RP implementation for the subproject by the NGO will be closely monitored by the EA. Keeping in view the significance of resettlement impacts of the project and being categorised overall as 'A', the monitoring mechanism for this project will have both internal monitoring by PIU and external monitoring by an external expert.

C. Monitoring by PIU

164. One of the main roles of PIU will be to see proper and timely implementation of all activities in RP. Monitoring will be a regular activity for PIU and Resettlement Officer at this level will see the timely implementation of R&R activities. Monitoring will be carried out by the PIU and its agents, such as NGOs and will prepare monthly reports on the progress of RP Implementation. PIU will collect information from the subproject site and assimilate in the form of monthly report to assess the progress and results of RP implementation and adjust work program where necessary, in case of delays or any implementation problems as identified. This monitoring will form parts of regular activity and reporting on this will be extremely important in order to undertake mid-way corrective steps. The monitoring by PIU will include:

- (a) **administrative monitoring:** daily planning, implementation, feedback and trouble shooting, individual DP database maintenance, and progress reports;
- (b) **socio-economic monitoring:** case studies, using baseline information for comparing DP socio-economic conditions, evacuation, demolition, salvaging materials, morbidity and mortality, community relationships, dates for consultations, and number of appeals placed; and
- (c) **Impact monitoring:** Income standards restored/improved, and socioeconomic conditions of the displaced persons. Monitoring reports documenting progress on resettlement implementation and RP completion reports will be provided by the PIU for review and approval from ADB.

D. External Expert

165. The external expert will verify internal monitoring of RP, confirm that RP objectives are being met, and support the NHIDCL in compliance issues. The external expert will submit semi-annual reports to determine whether resettlement goals have been achieved, more importantly whether livelihoods and living standards have been restored/ enhanced and suggest suitable recommendations for improvement. The external expert will be mobilized within three months of loan approval and the monitoring will be carried out intermittently during the RP implementation. The external expert will assess resettlement outcomes, their impacts on the standards of living

of displaced persons, and whether the objectives of the resettlement plan have been achieved by taking into account the baseline conditions and the results of resettlement monitoring. The EM will undertake a post-resettlement evaluation of the effectiveness of RP implementation with comparison to baseline information.

166. The key tasks during external expert will include:

- (a) Review and verify the monitoring reports prepared by PIU;
- (b) Review of socio-economic baseline census information of pre-displaced persons and conduct (if necessary) baseline survey;
- (c) Identification and selection of impact indicators;
- (d) Impact assessment through formal and informal surveys with the displaced persons;
- (e) Consultation with APs, officials, community leaders for preparing review report;
- (f) Assess the resettlement efficiency, effectiveness, impact and sustainability, drawing lessons for future resettlement policy formulation and planning.

167. The following should be considered as the basis for indicators in monitoring of the subproject:

- (a) socio-economic conditions of the DPs in the post-resettlement period;
- (b) communication and reactions from DPs on entitlements, compensation, options, alternative developments and relocation timetables etc.;
- (c) changes in housing and income levels;
- (d) rehabilitation of informal settlers;
- (e) valuation of property;
- (f) grievance procedures;
- (g) disbursement of compensation; and
- (h) level of satisfaction of DPs in the post resettlement period.

E. Stages of Monitoring

168. Considering the importance of the various stage of subproject cycle, the EA will handle the monitoring at each stage as stated below:

F. Preparatory Stage

169. During the pre-relocation phase of resettlement operation, monitoring is concerned with administrative issues such as, establishment of resettlement unit, budget, land acquisition, consultation with APs in the preparation of resettlement plan, payments of entitlement due, grievance redresses and so on. The key issue for monitoring will be:

- (a) Conduct baseline survey
- (b) Consultations
- (c) Identification of AP and the numbers
- (d) Identification of different categories of DPs and their entitlements
- (e) Collection of gender disaggregated data
- (f) Inventory and losses survey
- (g) Asset inventory
- (h) Entitlements
- (i) Valuation of different assets

- (j) Budgeting
- (k) Information dissemination
- (l) Institutional arrangements
- (m) Implementation schedule review, budgets and line items expenditure

G. Relocation Stage

170. Monitoring during the relocation phase covers such issues as site selection in consultation with APs, development of relocation sites, assistance to DPs (especially to vulnerable groups) in physically moving to the new site. Likewise aspects such as adjustment of DPs in the new surroundings, attitude of the host population towards the new comers and development of community life are also considered at this stage. The key issue for monitoring will be:

- (a) Payment of compensation
- (b) Delivery of entitlement
- (c) Grievance handling
- (d) Preparation of resettlement site, including civic amenities (water, sanitation, drainage, paved streets, electricity)
- (e) Consultations
- (f) Relocation
- (g) Payment of compensation
- (h) Livelihood restoration assistance and measures

H. Rehabilitation Stage

171. Once DPs have settled down at the new sites, the focus of monitoring will shift to issues of economic recovery programs including income restoration measures, acceptance of these schemes by DPs, impact of income restoration measures on living standards, and the sustainability of the new livelihood patterns. The key issue for monitoring will be:

- (a) Initiation of income generation activities
- (b) Provision of basic civic amenities and essential facilities in the relocated area
- (c) Consultations
- (d) Assistance to enhance livelihood and quality of life

I. Monitoring Indicators

172. The most crucial components/indicators to be monitored are specific contents of the activities and entitlement matrix. The RP contains indicators and benchmarks for achievement of the objectives under the resettlement program. These indicators and benchmarks are of three kinds:

- (a) Process indicators including subproject inputs, expenditures, staff deployment, etc.
- (b) Output indicators indicating results in terms of numbers of affected people compensated and resettled, training held, credit disbursed, etc and
- (c) Impact indicators related to the longer-term effect of the subproject on people's lives.

173. Some of the indicative monitoring indicators are as following and a sample land acquisition planning and monitoring form is presented in the **Annexure: 6**.

1. Delivery of Entitlements

- Entitlements disbursed, compared with number and category of losses set out in the entitlement matrix.
- Disbursements against timelines.
- Identification of the displaced persons losing land temporarily, e.g. through soil disposal, borrow pits, contractors' camps, been included.
- Timely disbursements of the agreed transport costs, relocation costs, income substitution support, and any resettlement allowances, according to schedule.
- Provision of replacement land plots.
- Quality of new plots and issue of land titles.
- Construction of relevant community infrastructure.
- Restoration of social infrastructure and services.
- Progress on income and livelihood restoration activities being implemented as set out in the income restoration plan, for example, utilizing replacement land, commencement of production, the number of the displaced persons trained in employment with jobs, microcredit disbursed, number of income-generating activities assisted.
- Affected businesses receiving entitlements, including transfer and payments for net losses resulting from lost business.

2. Consultation and Grievances

- Consultations organized as scheduled including meetings, groups, and community activities.
- Knowledge of entitlements by the displaced persons.
- Use of the grievance redress mechanism by the displaced persons.
- Information on the resolution of the grievances.
- Information on the implementation of the social preparation phase.
- Implementation of special measures for Indigenous Peoples.

3. Communications and Participation

- Number of general meetings (for both men and women).
- Percentage of women out of total participants.
- Number of meetings exclusively with women.
- Number of meetings exclusively with vulnerable groups.
- Number of meetings at new sites.
- Number of meetings between hosts and the displaced persons.
- Level of participation in meetings (of women, men, and vulnerable groups).
- Level of information communicated—adequate or inadequate.
- Information disclosure.
- Translation of information disclosure in the local languages.

4. Budget and Time Frame

- Land acquisition and resettlement staff appointed and mobilized on schedule for the field and office work.
- Capacity building and training activities completed on schedule.
- Achieving resettlement implementation activities against the agreed implementation plan.
- Funds allocation for resettlement to resettlement agencies on time.
- Receipt of scheduled funds by resettlement offices.
- Funds disbursement according to the resettlement plan.
- Social preparation phase as per schedule.
- Land acquisition and occupation in time for implementation.

5. Livelihood and Income Restoration

- Number of displaced persons under the rehabilitation programs (women, men, and vulnerable groups).
- Number of displaced persons who received vocational training (women, men, and vulnerable groups).
- Types of training and number of participants in each.
- Number and percentage of displaced persons covered under livelihood programs (women, men, and vulnerable groups).
- Number of displaced persons who have restored their income and livelihood patterns (women, men, and vulnerable groups).
- Number of new employment activities.
- Extent of participation in rehabilitation programs.
- Extent of participation in vocational training programs.
- Degree of satisfaction with support received for livelihood programs.
- Percentage of successful enterprises breaking even (women, men, and vulnerable groups).
- Percentage of displaced persons who improved their income (women, men, and vulnerable groups)
- Percentage of displaced persons who improved their standard of living (women, men, and vulnerable groups)
- Number of displaced persons with replacement agriculture land (women, men, and vulnerable groups)
- Quantity of land owned/contracted by displaced persons (women, men and vulnerable groups)
- Number. of households with agricultural equipment
- Number of households with livestock

6. Benefit Monitoring

- Noticeable changes in patterns of occupation, production, and resource use compared to the pre-project situation.
- Noticeable changes in income and expenditure patterns compared to the pre-project situation.
- Changes in cost of living compared to the pre-project situation.
- Changes in key social and cultural parameters relating to living standards.
- Changes occurred for vulnerable groups.
- Benefiting from the project by the displaced persons.

J. Reporting Requirements

174. PIU responsible for supervision and implementation of the RP will prepare monthly progress reports on resettlement activities and submit semi-annual reports to ADB.

175. The external monitoring expert responsible for monitoring of the RP implementation will submit a semi-annual review report to PIU to determine whether resettlement goals have been achieved, more importantly whether livelihoods and living standards have been restored/enhanced and suggest suitable recommendations for improvement.

176. All the resettlement monitoring reports will be disclosed to DPs as per procedure followed for disclosure of resettlement documents by the EA. The monitoring reports will also be disclosed on ADB Website.

APPENDIX 1: CENSUS SURVEY QUESTIONNAIRE

A. Subproject Road Name: B. Questionnaire/Survey No:.....

C. Name of the Village:..... D. Name of Block:.....

E. District: F. Pana No:..... G. Plot No.

No.52/1/2005-W
GOVERNMENT OF MANIPUR
SECRETARIAT: WORKS DEPARTMENT

Imphal, the 20th August, 2016.

To,

1. The Deputy Commissioner, Thoubal.
2. The Deputy Commissioner, Chandel.

Subject:-Widening of NH-39 from (i) Lilong to Moreh and (ii) Wangjing to Khudengthabi via Heirok and Machi.

Sir,

Kindly refer to the subject cited above and I am directed to convey approval for direct purchase of land required for widening of road by giving land compensation based on market value with suitable value of standing properties under latest schedule of rates from the local land owners under the supervision of a Committee chaired by Deputy Commissioner concerned as given below:

- a. Lilong to Wangjing to 4 lane standard (30m) with paved shoulder and also with service lane in built up areas (37.50m) at the following locations:
 - i. Lilong Bazar (Km 330.600 to km 332.300)
 - ii. Lilong Hangam thabi (Km 332.800 to km 333.200)
 - iii. Ushoipokpi (Km 334.000 to km 334.300)
 - iv. Thoubal Town (Km 338.400 to km 339.850)
 - v. Thoubal Town (Km 340.700 to km 342.930)
 - vi. Khangabok Town (Km 343.600 to km 345.100)
 - vii. Wangbal Village (Km 345.600 to km 346.000)
 - viii. Wangjing Town (Km 348.090 to km 349.300)
- b. Wangjing to Moreh will be 2 lane standard (20-24m) with paved shoulder and also with service lane in built-up areas (30m) at the following locations:
 - i. Khongjom Town (Km 352.300 to km 353.300)
 - ii. Sora Village (Km 357.600 to km 358.100)
 - iii. Kakching Lamkhaj (Km 359.610 to km 360.530)
 - iv. Pallel Town (Km 364.600 to 366.200)
- c. Wangjing to Khudengthabi via Heirok and Machi to 2 lane standard (20-24m) with paved shoulder.

Yours faithfully,

(Th. Amalkumar Singh)
Deputy Secretary (Works),
Govt. of Manipur
