

Resettlement Plan

25 July 2019

PAK: Hydropower Development Investment Project

Appendixes A - D

Prepared by Pakhtunkhwa Energy Development Organization (PEDO), with support from Hagler Bailly Pakistan for the Asian Development Bank.

This resettlement plan is a document of the borrower. The views expressed herein do not necessarily represent those of ADB's Board of Directors, Management, or staff, and may be preliminary in nature. Your attention is directed to the "terms of use" section of this website.

In preparing any country program or strategy, financing any project, or by making any designation of or reference to a particular territory or geographic area in this document, the Asian Development Bank does not intend to make any judgments as to the legal or other status of any territory or area.

APPENDIX A: BACKGROUND INFORMATION DOCUMENT IN URDU

بالاکوٹ ہائیڈرو پاور پراجیکٹ ماحول پر اثرات کا جائزہ بنیادی معلومات

تعارف:

پختونخوا انرجی ڈویلپمنٹ آرگنائزیشن (پی ای ڈی او) (Pakhtunkhwa Energy Development Organization) (PEDO)، خیبر پختونخوا، پاکستان کے ضلع مانسہرہ میں بالا کوٹ کے مقام پر ایک 300 میگا واٹ کابن بجلی گھر (پروجیکٹ) کی تعمیر کرنے کا ارادہ رکھتی ہے۔ پروجیکٹ کنہار دریا پر بنے گا اس پروجیکٹ کی وجہ سے موجودہ شارٹ فال پورا کرنے میں اور بجلی کی بڑھتی ہوئی مانگ پورا کرنے میں مدد ملے گی اور خطے میں اقتصادی پائیداری بڑھے گی۔

پیڈو جس کا اس وقت کا نام سرحد ہائیڈل ڈویلپمنٹ آرگنائزیشن (SHYDO) تھا جرمن ایجنسی (GTZ) کے تکنیکی تعاون سے 1995 میں ایک سٹڈی کی اور 190 میگاواٹ کے 5 وادی کاغان میں شناخت کیے۔

اس منصوبے کے ایک امکانات 5 سٹڈی اکتوبر 2013ء میں کی گئی۔ جس میں ماحولیاتی اور سماجی اثرات ہیں۔ اس پروجیکٹ کے لئے ایشیائی ترقیاتی بینک (ADB) کی طرف سے مالی مدد کی جا رہی ہے۔ ADB نے اس پراجیکٹ کی وجہ سے ماحول پر اثرات کا جائزہ اور زمین کے حصول اور لوگوں کی منتقلی کا پلان بنانے کے لئے ہیگلر بیل پاکستان (Hagler Bailly Pakistan) (HBP) کی خدمات حاصل کی ہیں۔ HBP یہ کام ایشیائی ترقیاتی بینک (Asian Development Bank-ADB) کے اصولوں اور معیار کے مطابق اور خیبر پختونخوا (کے پی) کی ماحولیاتی قانون سازی کے مطابق کر رہا ہے

حیاتیاتی ماحول پر اثرات کے جائزے کا ایک جزو منصوبے سے ممکنہ طور پر متاثر ہونے والے اور منصوبے میں دلچسپی رکھنے والے افراد (یعنی اسٹیک ہولڈرز) سے مشاورت کرنا، ان کے خدشات کو قلمبند کرنا اور ان کو حل کرنا ہے۔ یہ دستاویز مشاورت کے لئے اسٹیک ہولڈرز کو معلومات دینے کے لئے تیار کی گئی ہے۔ پچھلے جائزے (EIA) میں اسٹیک ہولڈرز سے مشاورت بھی شامل تھی تاہم پراجیکٹ کے ڈیزائن میں تبدیلی اور ADB کے اصولوں کو مد نظر رکھ کر دوبارہ تجزیہ کرنے کی ضرورت محسوس کی گئی ہے۔

اسٹیک ہولڈرز کے ساتھ متعلقہ مشاورت کے لئے، یہ تفصیلی معلومات (Basic Information Document) بنیادی معلومات کی دستاویز تیار کی گئی ہے۔ اس دستاویز میں پراجیکٹ کا ڈیزائن، ممکنہ ماحولیاتی اثرات اور ماحولیاتی جائزہ کا طریقہ کار واضح کیا گیا ہے تجزیے کے عمل کے دوران پراجیکٹ کے کسی پہلو سے متعلق مزید معلومات حاصل ہونے یا تبدیلی کی صورت میں اس دستاویز میں تبدیلی بھی کی جاسکتی ہے۔

پروجیکٹ کا محل وقوع

یہ پراجیکٹ پاکستان کے صوبہ خیبر پختونخوا میں دریائے کنہار پر۔ پارس اور سنگر گاؤں کے درمیان 12 کلومیٹر پر لگایا جا رہا ہے۔

20 کلومیٹر طویل مین موجودہ نالے ممکنہ منصوبے کے لئے استعمال کئی جائیں گی۔

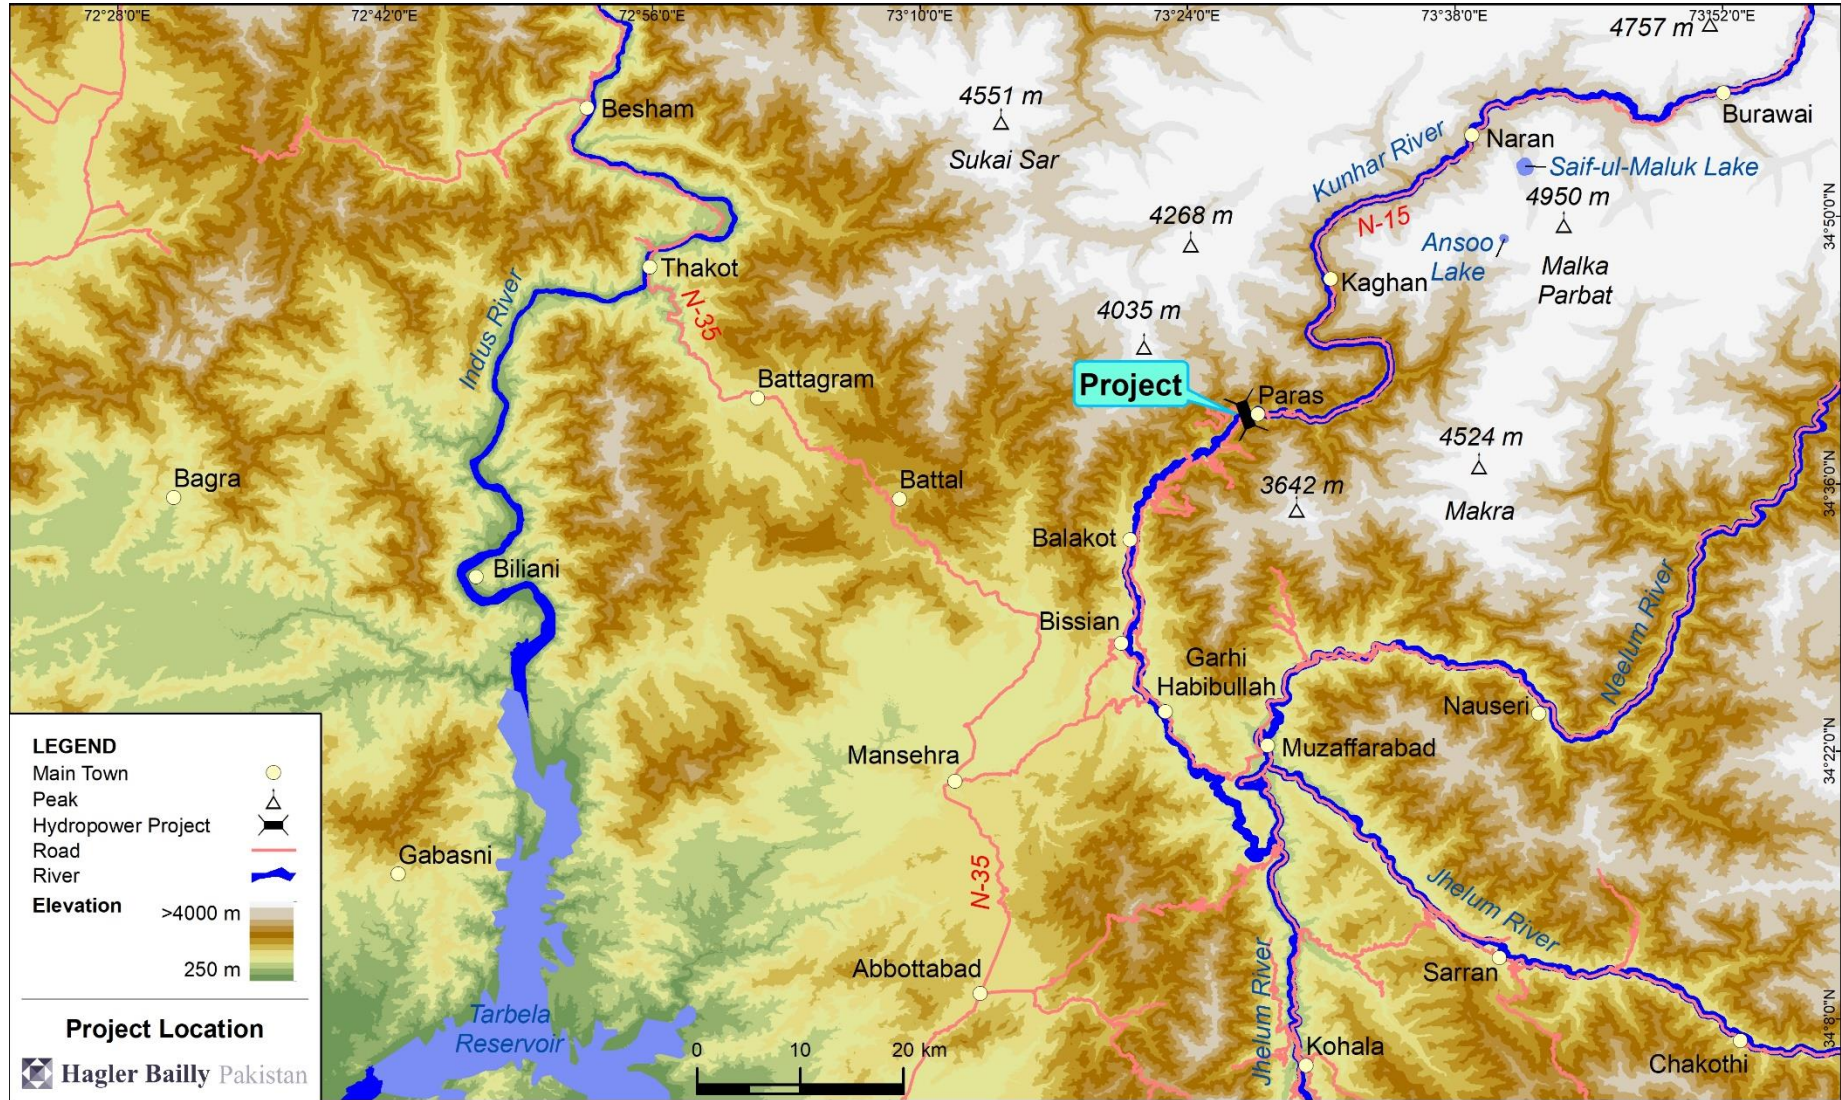

پراجیکٹ کا علاقہ شکل نمبر 1 میں دکھایا گیا ہے۔

منصوبے کی تمام تعمیرات کنہار دریا کے بائیں کنارے پر واقع ہیں۔ ڈیم سائٹ (34° 38' 59"N, 73° 26' 19"E) بالا کوٹ شہر سے اوپر 17 کلومیٹر کے فاصلے پر اور پاور ہاؤس (34° 36' 14"N, 73° 22' 50"E) 10 کلومیٹر کے فاصلے پر کی گئی گاؤں کے قریب واقع ہے

پراجیکٹ کا خاکہ

پراجیکٹ کی تنصیبات شکل نمبر 2 میں دکھائی گئی ہیں اس پراجیکٹ کی تنصیبات کی تفصیل شکل نمبر 3 میں دی گئی ہے۔

شکل نمبر 1: منصوبے کا محل وقوع

شکل نمبر 3: تنصیبات پر تفصیلی معلومات

ڈیم

یہ ڈیم کنکریٹ سے بنے گاجس کی اونچائی دریا کے بیڈ سے 78 میٹر ہوگی اس میں نیچلی طرف صفائی کی لینے آؤٹ لیٹ ہو نگیے اور اوپر کی طرف اسپل وے ہونگے۔ سیلاب کے پانی کے اخراج کے لیے اس میں پانچ دروازے ہونگے جو کہ ہائیڈرولیکل طریقے سے کھلیں گے یہ دروازے سطح سمندر سے 1276 میٹر کی بلندی پر ہونگے۔ پانچ میٹر گولائی کے تین آؤٹ لیٹ دریا کے بیڈ کے پاس ریت کے اخراج کے لئے بنائے جائیں گے۔

لٹرل پاور انٹیک اسٹکچر

یہ دریا کے بائیں کنارے پر بنایا جائے گا یہ تین انٹیکس پر مشتمل ہوگا جو کہ مطلوبہ مقدار میں پانی کو خارج کرے گا اس میں ایک 8 میٹر اونچائی اور چوڑائی کا گیٹ دیا جائے گا۔

کم دباؤ کی بیڈریس سرنگ

یہ 8 میٹر گولائی کی سرنگ ہوگی جس کی لمبائی 8420 میٹر ہوگی یہ پانی کی مختلف مقدار کے اخراج کے لیے بنائی جائے گی

پاور کمپلیکس

ایک زیر زمین پاور کمپلیکس تجویز کیا گیا ہے جو کہ ایک پاور ہاؤس، ایک جی آئی ایس ٹرانسفارمر، ایک رسائی کے لئے سرنگ اور ایک سوئچ یارڈ پر مشتمل ہو گا۔ پاور ہاؤس کی لمبائی 2.83 میٹر ہوگی، چوڑائی 16.2 میٹر ہوگی اور یہ آرچ روف کرائون کی طرف مین انلیٹ والو کے فرش سے 25 میٹر اونچا ہوگا۔

کچھ خاص خصوصیات

جھیل میں پانی کی زیادہ سے زیادہ اونچائی سطح سمندر سے 1288 میٹر ہوگی اور کم سے کم اونچائی سطح سمندر 1283 ہوگی اس پراجیکٹ کے نصب کرنے کے بعد 300 میگاواٹ توانائی پیدا کرنے کی صلاحیت ہوگی۔ 51 سال میں اوسط 1187 GWh سالانہ توانائی پیدا کی جائے گی جھیل سے ریت کا اخراج موسم گرما کے مہینوں میں دوران ہر سال کیا جائے گا جب ڈسچارج فی سیکنڈ 154 کیوبک میٹر سے اوپر ہوگا۔ جب پانی کا کم بہاؤ ہو گا تو اس وقت جمع کیا ہوا پانی، بجلی کی پیداوار اور پانی کا بہاؤ برقرار رکھنے کے لئے استعمال کیا جائے گا اندازے کے مطابق چار گھنٹے میں اضافی بہاؤ فراہم کرنے کے لئے 2.566 ملین کیوب جمع پانی درکار ہوگا۔

زمین کا حصول

اس پراجیکٹ کے لئے تقریباً 137.5 ایکڑ زمین کی ضرورت ہوگی۔ جس میں سے 127.5 ایکڑ پاور ہاؤس اور جھیل کے لئے، 10 ایکڑ پروجیکٹ کے دیگر تعمیرات (اسٹاف کالونی سمیت) کے لئے اور 10 ایکڑ کیمپوں اور ٹھیکیدار کے دفاتر کے لئے عارضی طور پر حاصل کی جائے گی۔

تعمیراتی کام اور فضلہ

تعمیراتی کام کے لئے پانچ سال (60 ماہ) لگیں گے تعمیراتی کام کے لئے کنکریٹ، ایگریگیٹ، سیمنٹ، پزولان، بھرائی کے مختلف مواد، کیمیائے مواد اور اسٹیل کی مصنوعات وغیرہ کی ضرورت ہوگی، کورس ایگریگیٹ کے ذخائر ڈیم سائٹ سے اوپر اور نیچی مہندری اور پارس گاؤں میں شناخت کئے گئے ہیں۔ فائن ایگریگیٹ کے ذخائر پارس، چٹاکٹھا اور گڑھی حبیب اللہ میں قائم کئے جائیں گے۔ ان جگہوں پر فائن ایگریگیٹ مقامی استعمال کے لئے نکالا جارہا ہے یہ اس قابل ہے کہ فائ ایگریگیٹ کا قابل عمل ذریعہ بن سکے۔

مجوزہ ڈیم سے ناراض کے طرف سفر کرتے ہوئے ماربل اور چونے کا پتھر نظر آتا ہے، اسے راک کیونری بنانے کے لئے سوچا جا رہا ہے۔ جس سے کورس ایگریگیٹ حاصل کیا جائیگا۔

ماحولیاتی تجزیے کا طریقہ کار اور منتقلی کا منصوبہ

یہ منصوبہ متعلقہ ملکی ماحولیاتی قوانین اور ایشیائی ترقیاتی بینک کے معیار کے مطابق تیار کیا جائے گا۔ اس منصوبے کے اہم جزو مندرجہ ذیل ہیں۔

◀ منصوبے کے ارد گرد موجود ماحول کا ایک جامع مطالعہ

- ◀ مشاورت کا عمل تا کہ لوگوں اور اداروں کو منصوبے کے بارے میں آگاہ کیا جا سکے اور ان کو اپنے تاثرات بیان کرنے کا موقع دیا جا سکے
- ◀ منصوبے کے منفی اور مثبت حیاتیاتی ماحول پر اثرات کا تجزیہ
- ◀ شناخت شدہ مضر اثرات سے نمٹنے کے لئے تجویز کردہ اقدامات
- ◀ زمین مالکان اور گھرانوں کے مالکان کے ساتھ مشاورت کر کے سروے کیا جائے گا گھروں اور زمین کے مالکان کے لئے زمین کی نشاندہی کی جائے گی اور PEDO نئی ضروریات کے مطابق دوبارہ منتقلی کا منصوبہ بنا لیا جائے گی۔
- ◀ EIA کے پاکستانی اور بین الاقوامی معیار کے مطابق مطالعہ کے طریقہ کار کو شکل نمبر 4 میں دکھایا گیا ہے۔ جبکہ حیاتیاتی اثرات کے تفصیلی طریقہ کار کو شکل نمبر 5 میں دکھایا گیا ہے مندرجہ ذیل فہرست ممکنہ سماجی، ماحولیاتی اور حیاتیاتی اثرات کی نشاندہی کرتی ہے۔

ممکنہ ماحولیاتی اور سماجی اثرات کی فہرست

- ◀ لوگوں کو ملازمت کی فراہمی
- ◀ تعمیراتی کام کے اثرات مثلاً شور اور دھول
- ◀ لوڈ شیڈنگ میں کمی اور ملک کی متاثرہ معیشت کی بحالی
- ◀ پراجیکٹ سے متعلقہ نقل و حمل کی وجہ سے ٹریفک میں اضافہ
- ◀ بلاسٹنگ سے پیدا ہونے والا خلل، شور، دھول، vibration، سڑکوں پر بھیڑ اور زیادہ ٹریفک کی وجہ سے حادثات کا خطرہ
- ◀ بلاسٹنگ سے عمارات کو نقصان اور دھماکے، ڈرلنگ اور batching plant کی وجہ سے شور
- ◀ موجودہ ثقافتی اور سماجی طور طریقوں میں ردوبدل
- ◀ موجودہ سہولیات پر کام کرنے کے لئے علاقے میں آنے والوں کا بوجھ
- ◀ دریا سے ریت اور پتھر حاصل کرنے میں ممکنہ مشکلات
- ◀ گرد سے آلودگی
- ◀ دریا میں پانی کم ہونے سے قدرتی نظارے میں تبدیلی
- ◀ گھروں کی منتقلی سے معاشی اور سماجی نظام پر اثرات

حیاتیاتی اثرات کی فہرست

- ◀ ڈیم کے بعد دریا میں پانی کی مقدار میں کمی
- ◀ پانی میں موجود ریت میں کمی
- ◀ دریا کی شکل اور راستے میں ممکنہ تبدیلی
- ◀ دریا میں مچھلیوں پر منفی اثرات
- ◀ پانی کے قدرتی ماحول اور آبی حیات کو نقصان
- ◀ خطرے سے دو چار (Endangered) حیات اور دریا سے آنے والے آبی پرندوں پر اثرات
- ◀ HBP آبی حیات پر ممکنہ اثرات کے تجزیے کے لئے DRIFT طریقہ اپنائے گا۔ جس میں بین الاقوامی ماہرین کی ٹیم تمام ممکنہ اثرات کا جائزہ لے گی۔ اور یہ طریقہ کا ہمالیہ کے دریاؤں پر آزمایا جا چکا ہے۔ اس کا بنیادی مقصد دریا میں پانی کے بہاؤ میں تبدیلی کی وجہ سے آبی حیات اور دریا سے منسلک لوگوں کی گزر بسر پر ہونے والے اثرات کا جائزہ لینا ہو گا۔ DRIFT کا عمل شکل نمبر 6 میں دکھایا گیا ہے۔

DRIFT کے چار اہم مقاصد درج ذیل ہیں۔

دریائی ماحول کی موجودہ معلومات فراہم کرنا

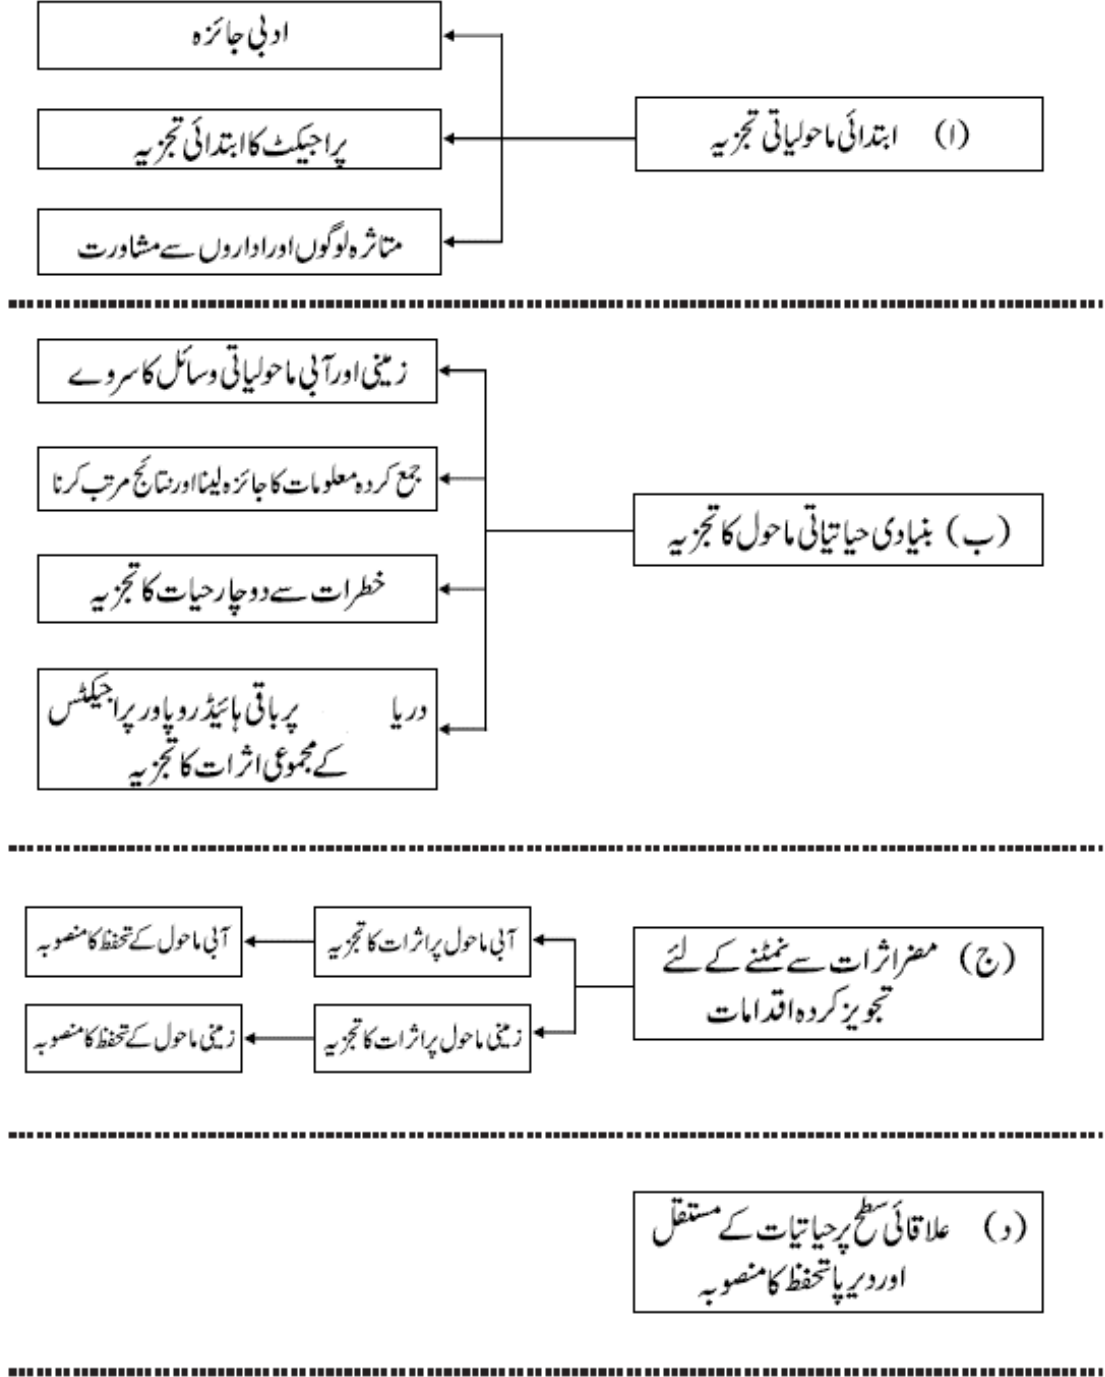

دریا کے موجودہ استعمال کی معلومات فراہم کرنا
دریا کی تبدیلیوں کے ساتھ دریائی ماحول کی تبدیلی کی پیشین گوئی کرنا
دریائی تبدیلیوں سے لوگوں اور معیشت پر اثرات کی پیشین گوئی کرنا

شکل نمبر 4: EIA کا عمل کے ممکنہ اجزاء

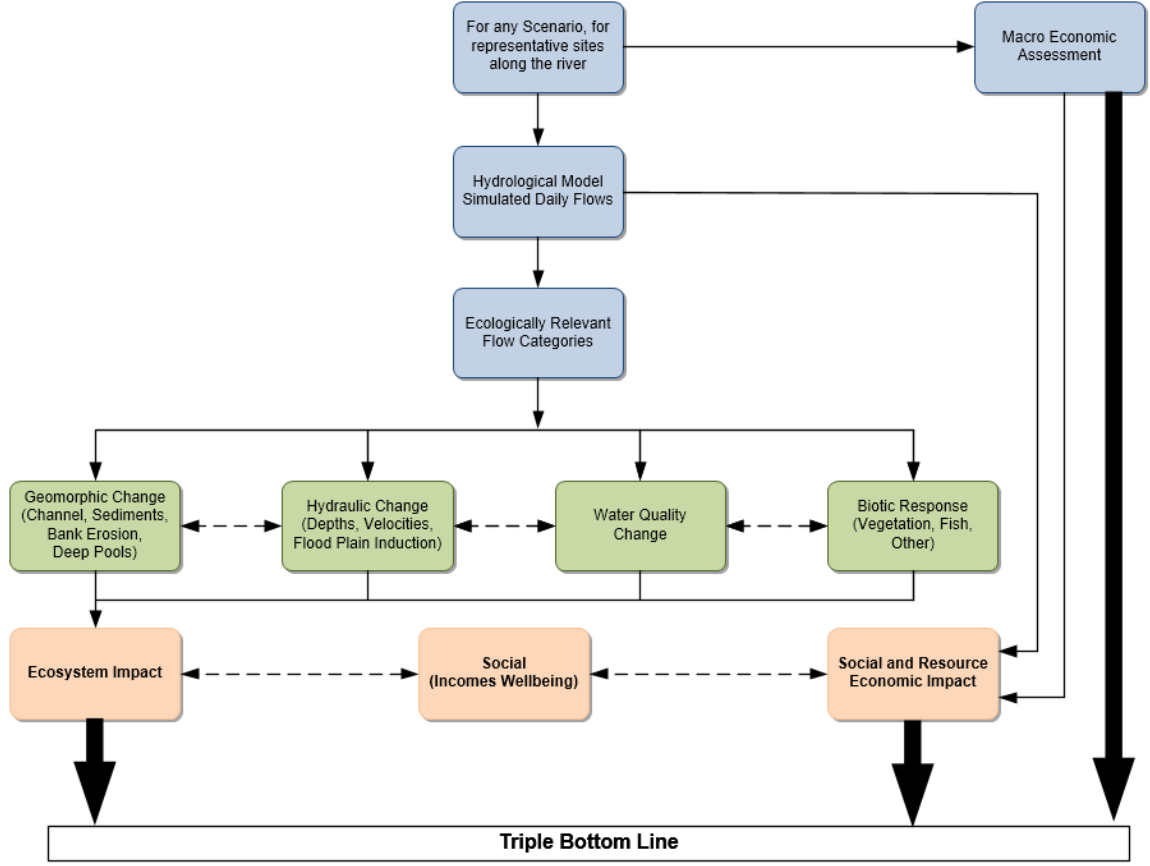

جزو	بنیادی مقصد	اسٹیک ہولڈرز سے مشاورت کی سرگرمیاں
	<ul style="list-style-type: none"> ان مسائل کا تعین کرنا جن پر EIA میں خصوصی توجہ مرکوز کرنے کی ضرورت ہے پراجیکٹ کے متبادلات کا تعین جن کا جائزہ EIA کے عمل کے دوران لیا جائے گا۔ 	<ul style="list-style-type: none"> پراجیکٹ سے متاثر ہونے والے افراد اور اداروں (اسٹیک ہولڈرز) کا تعین اسٹیک ہولڈرز سے رابطہ کرنا اور ان کی طرف سے اٹھائے گئے مسائل کا اندراج کرنا EIA ٹیم کو اس ردعمل سے آگاہ کرنا تا کہ بنیادی تحقیقی سرگرمیوں اور اثرات کے جائزے میں ان آراء کو شامل کیا جا سکے
سرگرمیاں	<ul style="list-style-type: none"> پراجیکٹ کے ماحولیاتی اور معاشرتی محل وقوع سے متعلق پس منظری معلومات کی جمع آوری 	<ul style="list-style-type: none"> بنیادی سروے کے دوران سامنے آنے والے مسائل کو شامل کیا جائے
مطالعات	<ul style="list-style-type: none"> پراجیکٹ کے ممکنہ اثرات کا تعین جو کہ اسٹیک ہولڈرز نے مشاورت کے دوران اٹھائے ممکنہ اثرات کی اہمیت کا تعین اور اثرات سے حل کے لیے اقدامات کی شناخت انتظامیہ کے ساتھ یا انتظامیہ کے بغیر ممکنہ اثرات کی اہمیت کا تعین کرنا پراجیکٹ کے (ماحولیاتی اور معاشرتی لحاظ سے) مجموعی طور پر قابل قبول ہونے کا جائزہ لینا 	<ul style="list-style-type: none"> اسٹیک ہولڈرز کی طرف سے سامنے لائے گئے مسائل کا جائزہ
اثرات کو کم کرنے کے اقدامات اور ان کی منصوبہ بندی	<ul style="list-style-type: none"> اثرات کے جائزے کے دوران ان کو کم کرنے کے اقدامات کا تعین اور ان پر عمل درآمد کو یقینی بنانے کے لیے مجوزہ اقدامات کی تفصیل ماحولیاتی اثرات سے نمٹنے اور ان کی نگرانی کے منصوبے میں دی جائے گی اور پلانٹ کو ایشیا نی ترقیاتی بینک کے SPS 2009 اور قومی قوانین و ضوابط کے مطابق لا نا۔ مثال کے طور پر اس میں مخصوص ڈیزائنز اور منصوبے، تربیتی تقاضے، ذرائع کی فراہمی کے تقاضے، نگرانی کی تفصیلات (محل وقوع کی نمونہ بندی، طریقہ کار اور تعدد وغیرہ)، جائزے اور رپورٹس کے تقاضے اور بجٹ 	<ul style="list-style-type: none"> مخصوص طریقہ کار یا تخفیف کے اقدامات پر بحث جو اثرات کے جائزے کے دوران ظاہر ہوتے ہیں

جزو	بنیادی مقصد	اسٹیک ہولڈرز سے مشاورت کی سرگرمیاں
تیاری	◀ جائزے کے عمل کی تکمیل کے بعد EIA ٹیم اثرات اور تخفیف کے اقدامات کی تفصیلی تشخیص کرے گی۔ اس میں معلومات کی درست تشریح کو یقینی بنانے کے لیے مختلف ماہرین کے ساتھ رابطہ اور EIA کی رپورٹ مرتب کرنا ہے	◀ اسٹیک ہولڈرز کو EIA کی طرف سے جواباً بتایا جائے کہ منصوبے کے تجویز کار کس طرح ان کی طرف سے سامنے لائے گئے مسائل کا حل تلاش کریں گے۔
اداروں کو پیش کیا جانا اور فیصلہ سازی	◀ EIA رپورٹ کا انتظامی اداروں، اور دیگر دلچسپی رکھنے والے افراد یا اداروں کو پیش کیا جانا۔ جائزہ لینے والے افراد اور ادارے بتائیں گے کہ ماحولیاتی اور معاشرتی لحاظ سے پراجیکٹ کے قابل قبول ہونے سے متعلق ان کا فیصلہ کیا ہے اور منظوری کن شرائط پر دی جا رہی ہے۔	◀ ادارہ ماحولیات تحفظ ایک عوامی اجتماع منعقد کرے گا جس میں دیکھا جائے گا کہ اسٹیک ہولڈرز کے کوئی ایسے خدشات تو باقی نہیں رہ گئے جن کو فیصلہ لینے سے پہلے نہ پرکھا گیا ہو

شکل نمبر 5: حیاتیاتی ماحول پر اثرات کے جائزے کا تفصیلی عمل

شکل نمبر 6: آبی حیات پر اثرات کے تجزیے کے لئے DRIFT ماڈل کا طریقہ کار

APPENDIX B: MAPS SHOWING AFFECTED ASSETS

See following pages.

APPENDIX C: QUESTIONNAIRES USED FOR FIELD SURVEY

See following pages.

BASELINE SOCIOECONOMIC CONDITIONS

Questionnaire for Household Profile

A. Investigator Information

Name of Investigator(s): _____

Date: _ Start Time: _ End Time: _

1. Note any pause in interview shall be noted in the Comments section on Page 10

B. Location Information

Primary Structure ID: _ Settlement: _ Mauza: _____

Other Structures (with explanation): _

UC: _ Tehsil: _____ District: _____

GPS Coordinate: ____° ____' ____" N, ____° ____' ____" E

1. Structure ID should be the same as that on the area map. If the family has more than one structures, list the remaining IDs in the second row with explanation in brackets.
2. GPS coordinate to be provided only where GPS is available
3. Settlement is the name by which the village is identified by the residents
4. Mauza is the revenue village

C. Respondent and Head of Household (HHH) Information

	Respondent	Head of Household
Name		
Father/Husband Name		
NIC Number		
Mobile Number		
Gender	<input type="checkbox"/> Male <input type="checkbox"/> Female	<input type="checkbox"/> Male <input type="checkbox"/> Female
Age (Response)		
Year of Birth (as in NIC)		
Relation to HHH	<input type="checkbox"/> Self <input type="checkbox"/> Father <input type="checkbox"/> Brother <input type="checkbox"/> Son <input type="checkbox"/> _____ Other	

	Respondent	Head of Household
Education	<input type="checkbox"/> Illiterate <input type="checkbox"/> Madrassah <input type="checkbox"/> No or less than Primary <input type="checkbox"/> Primary (Class 5 to Class 9) <input type="checkbox"/> Matric (Class 10) <input type="checkbox"/> Intermediate (FA/FSc) <input type="checkbox"/> Graduate (BA/BSc) <input type="checkbox"/> Other _____	<input type="checkbox"/> Illiterate <input type="checkbox"/> Madrassah <input type="checkbox"/> No or less than Primary <input type="checkbox"/> Primary (Class 5 to Class 9) <input type="checkbox"/> Matric (Class 10) <input type="checkbox"/> Intermediate (FA/FSc) <input type="checkbox"/> Graduate (BA/BSc) <input type="checkbox"/> Other _____
If respondent is the head of household, the third column should be left blank		

D. Demographic Profile

Total Number of Persons in the Family (including HHH) ____

No.	Name (Including HHH)	Relation-ship with HHH	Name of Father /Husband	Age (Yrs)	Gender (M/F)	Marital Status	Education Level	Class (School going child)	Primary Occu- pation	Second- ary Occu- pation	Special Person (Give Detail)
1.		Self									
2.											
3.											
4.											
5.											
6.											
7.											

Note: Go to Next Page if HH members are more than 8.

Occupational Codes (See Additional Notes for further explanation):

Income Generating **E-GOV** = Employed in government Sector **E-PVT** = Employed in private Sector **S-ART** = Self-employed, working as artisans
S-LAB = Working as skilled or unskilled laborer **S-STB** = Self owned trade and business **I-FAR** = Income generating farming

Non-income generating **N-FAR** = non income generating subsistence farming **N-LIV** = non income generating livestock rearing

For those not working **UNE** = Unemployed and seeking jobs **NEM** = Not employed willingly **STU** = Student against those still studying and not working

Education Codes **Ill** = Illiterate **Mdr** = Madrassah **No** = No or less than Primary **Prim** = Primary (Class 5 to Class 9)
10 = Matric (Class 10) **Int** = Intermediate (FA/FSc) **Grad** = Graduate (BA/BSc) Other _____

Relationship Self-Father Mother Husband Wife Brother Sister Son Daughter Grandson Granddaughter Daughter-in-law Other

Marital Status Married Unmarried Widowed Divorced

Age Enter whole number only. Round off, where needed; Enter Zero "0" for infants less than 6 months and "1" for infants between 6 months and a year.

No.	Name (Including HHH)	Relation- ship with HHH	Name of Father /Husband	Age (Yrs)	Gender (M/F)	Marital Status	Education Level	Class (School going child)	Primary Occu- pation	Second- ary Occu- pation	Special Person (Give Detail)
8.		Self									
9.											
10.											
11.											
12.											
13.											
14.											
15.											

Do you have servants, tenants, or other workers living with you? If yes please provide the details

No.	Name	Job	Age (Yrs)	Gender (M/F)	Marital Status	Education Level	Is he/she paid in cash or in kind or both?
1.							
2.							
3.							

If the respondent is not part of the household (as listed in Demographic Profile Table) what is his place of residence?

Settlement: ___ Mauza: _____

E. Housing

Ownership Status? ☐ Owned ☐ Rented ☐ Free ☐ Others _____

Construction ☐ Pucca (Bricks/blocks/stones) ☐ Semi Pucca ☐ Katcha ☐ Others _____

Storeys _____ Number of rooms in the house (including bedrooms) _____

Number of bedrooms _____ Number of bathrooms/toilets _____

Number of kitchens _____ Number of rooms/sheds for animals? _____

Approximate plot size of the house (State units) _____

Approximate covered area (State units) _____

When was the house constructed? _____

Covered area is the area of all floors in the house. Plot size is the size of land on which the house is built and includes the court yard, out houses, driveway etc.

F. Available Facilities in the House

Do you have Telephone Connection (landline)? ☐ Yes ☐ No If "Yes", when connected (Year)? _____

Do you have electricity connection? ☐ Yes ☐ No If "Yes", when connected (Year)? _____

Do you have Sewerage System? ☐ Yes ☐ No

Sewerage system includes constructed septic tanks and soak pit

Drinking Water Source

☐ Spring ☐ Groundwater ☐ River/Stream ☐ Open Pond

Water Supply System from the source

☐ Pipe ☐ Electric Pump ☐ Hand pump ☐ Carried on Animals
☐ Carried by Family ☐ Tankers ☐ Open channel ☐ Other _____

G. Fuel Sources and Consumption

Type	Y/N	Average Bill/expense (per month)		Units Consumed per Month (mention units)		Source (For LPG, Purchased wood, and Kerosene, the Location of Market; For Gathered Wood, Area where gathered)	Uses			
		Winter	Summer	Winter	Summer		L	SH	WH	C
Electricity						X				
Fuel wood (Gathered)		X	X							
Fuel wood (Market)										
LPG										
Kerosene										
Other										

L: Lighting SH: Space heating WH: Water heating C: Cooking

H. Social Profile

Religion _____ Caste _____ Mother Tongue _____

Do you marry children outside your tribe/clan? ☐ Yes ☐ No

How many of the married members of the HH are married to their first cousins? _____

I. Decision Making

Who takes decision in the family on the following issues, and how?

Issue	How the decision is taken	If unilateral who takes the decision? (Indicate member i.e. HH, spouse, elder son etc.) If consultative, list the members consulted (i.e. HH, spouse, elder son etc.)
Household budget management	<input type="checkbox"/> Unilateral <input type="checkbox"/> Consultative	
Family conflicts	<input type="checkbox"/> Unilateral <input type="checkbox"/> Consultative	
Matrimonial decisions	<input type="checkbox"/> Unilateral <input type="checkbox"/> Consultative	Are daughters consulted in their marriage? <input type="checkbox"/> Yes <input type="checkbox"/> No
Property and asset management and inheritance	<input type="checkbox"/> Unilateral <input type="checkbox"/> Consultative	

J. Migration Patterns

Years since settled in settlement: _____

If less than 10 years, then previous location: _____

Purpose of relocation from previous place: _____

K. Family Health

Births and Deaths

Number of births in the family in last 2 years Live _____ Stillbirth _____

Deaths in the family in the last 2 years

No	Age	Cause
1		
2		
3		
4		

Serious illnesses

Did any of your family members suffered from any serious illnesses during the past 2 years?

<i>Person</i>	<i>Illness</i>	<i>Outcome</i>	<i>Treatment Type</i>	<i>Treatment Location</i>	<i>Estimated cost of treatment</i>	<i>Who paid for treatment?</i>

Illness: Tuberculosis, Hepatitis, Asthma, Jaundice, Tetanus, Paralysis, Diabetes, Cancer, Heart disease, Others (specify)
Outcome: Treated, Persisting, Disability, Lost job or occupation, Death
Treatment type: Hospitalization, OPD/Clinic, Herbal/Hakeem, Faith healer, Homeopath, Other (specify)

Accidents

Did any of your family members suffered met an accident during the past 2 years?

<i>Person</i>	<i>Accident</i>	<i>Outcome</i>	<i>Treatment Type</i>	<i>Treatment Location</i>	<i>Estimated cost of treatment</i>	<i>Who paid for treatment?</i>

Accidents: Fall from height, Snake bite, Road accident, Burns, Electrocution, Accident at work, Other (specify)
Outcome: Treated, Persisting, Disability, Lost job or occupation, Death
Treatment type: Hospitalization, OPD/Clinic, Herbal/Hakeem, Faith healer, Homeopath, Other (specify)

Common illnesses

Are the following illnesses common in your family in the specified category (Yes/ No)

Common Diseases (عام بیماریاں)		Men (مرد)	Women (خواتین)	Adult-Children (6 to 14) (بالغیجے)	Children (0 to 5) (بچے)
Tuberculosis	تپ دق				
Diarrhea	اسہال				
Breathing problems	دمہ				
Jaundice	پیلیا				
Skin diseases	جلد کے امراض				
Cold and flu	بخار اور فلو				
Stomach diseases	پیٹ کے امراض				
Joint aches	جوڑوں کا درد				
Tetanus	تشنج				
Paralysis	فالج				
Diabetes	ذیابیطس				
Cancer	کینسر				
Heart problems	دل کے مسائل				
Other (specify)	دیگر				

L. Family Assets

Appliances

If you own any of the following in your house, Please give the quantity.
(Write quantity in figures in front of each item)

Television _____ Radio _____ Elec Room Heater ____ Elec water heater____
Refrigerator _____ Freezer _____ Washing Machine ____ Elec Iron _____
Electric Fan _____ Sewing Machine ____ Generator _____ Computer _____

Vehicles

If you own any vehicles, please provide the details:

Type	Make (Year)	Model	Year Purchased	Current Value	Use (Commercial/ Personal)

Include cars, motorcycles, trucks, pick-up, etc.

Livestock

Number of Livestock heads of each type owned by you.

Type	Buffalo	Cow	Calf	Goat/ Sheep	Lamb	Oxen	Donkey	Horse	Chicken	Others (specify)
Number										
Use										
Purpose										
Value Rs./Unit										
Income (State monthly or annual)										

Number: If the family does not own any animal, enter "Nil". Do not leave blank.
 Use: **S:** Self **C:** Commercial **B:** Both
 Purpose: **Egg** Production, **Milk** Production, Rearing for **Meat**, Carrying **Load**, **Riding**, etc.
 Note: Annual Income should be zero if the livestock is only for self-use.

Are the animals sent for grazing? ☐ Yes ☐ No. If yes, where _____

Are the animals given fodder? ☐ Yes ☐ No. If yes, what is the monthly cost? _____

Estimated monthly expenses on grazing, feed, fodder and medicine _____

Land holding

Serial	Land Use	In this village (mention units)	Overall Land (mention units)
1	Cultivated area		
2	Uncultivated area		
3	Banjar jadeed (بنجر جدید)		
4	Banjar qadeem (بنجر قدیم)		
5	Ghair mumkin (غیر ممکن)		
6	Fruit orchard area		
7	Other _____		
8	Other _____		
	Total		

Farming implements

Do you own any farming implements? ☐ Yes ☐ No. If yes,

☐ Plough for oxen ☐ Plough for tractor ☐ Spray machine
☐ Tractor ☐ Thresher ☐ Other _____

M. Farming

Agriculture

No.	Crop	Season	Area under Cultivation (Specify units)	Yield / Units	Percent Sold in market	Percent Self consumed
1	Wheat					
2	Maize					
4	Vegetables					
5	Fodder					
6	Other _____					
7	Other _____					

What is the annual expenditures to grow crops in your land? Rabi _____ Kharif _____

What is your average seasonal earning (PKR/Season)? Rabi _____ Kharif _____

Fruit Trees

No.	Tree	Number of trees	Annual Production (Specify units)	Percent Sold in market	Percent Self consumed
1	Banana (کیلا)				
2	Mulberry (شہتوت)				
3	Apple (سیب)				
4	Persimmon (املوک)				
5	Loquat (لوکاٹ)				
6	Walnut (اخرٹ)				
7	Apricot (خوبانی)				
8	Peach (آڑو)				
9	Orange (مالٹا)				
10	Plum (الوجہ الوبخارا)				
11	Other _____				
12	Other _____				

What is annual expenditures to grow fruits? _____

What is your average annual earnings from fruits? _____

N. Comments and Notes

[illegible]

Additional Notes

Table D. Demographic Profile

Column 9 — Class (In case of School going): For all children (15 years or less) either enter the class in which the child is studying or “Nil” in case the child is not going to school.

Special persons	Persons with physical or mental disabilities
------------------------	--

Occupational Codes:

For income generating occupations

E-GOV = Employed in **government** Sector—Person employed for a salary by the government. Includes, for example, armed forces, school teachers, forest guards, and service in the municipal and tehsil administration

E-PVT = Employed in **private** Sector— Person employed for a salary by a non-governmental organization on any kind of job. Includes, for example, working for NGOs, private schools, and private clinics

S-ART = Self-employed, working as **artisans**. Earning depends on output of work. Includes, for example, carpet weaving, handicraft making.

S-LAB = Working as skilled or unskilled **laborer**. Includes, for example, farm labors, off-farm labors, electricians, plumbers, mechanics, mason, and bricklayers, well-diggers

S-STB = Self owned **trade and business**. Includes, for example, doctors, all shop owners, barbers, livestock traders, tailors, ...

For non-income generating activities

N-FAR = non income generating subsistence farming

N-LIV = non income generating livestock rearing

For those not working

UNE = Unemployed and seeking jobs

NEM = Not employed willingly i.e., of their own choice (can include elderly)

STU = Student against those still studying and not working

This section should be filled for each household

	Mubarik Shah		0346-9623654
	Mir Hussain		
	Irshad Ali		0341-3279197
	Abdul Hamid		
	Sajid Hussain		0345-9630376
	Jaffar Shah		
Conducted by:	Anwar Fazal Ahmad, Yasir Asad, Muhammad Arshad		
Recorded by:	Muhammad Arshad		
Language:	Urdu and Hinko where required for Local understanding and better communication		
Issues Concerns and Suggestions	<ul style="list-style-type: none"> ♦ We do not allow anyone to conduct survey because we have a very miserable Lesson from Sukki Kanair project about affectives of land. Usually it was found that after survey all construction activities would bane by enforcement of section 4 of land Acquisition act 1874 and many of our under construction house being left without compensation. Tanvir Hussain Shah ♦ Change the design of project to minimize the effects on land and houses. Azhar Shah ♦ As this village has very important economic position due to tourism so the rate of land and house should be reasonable with respect to other places. Tanvir Awan ♦ Name of Balakot Hydro power project should be change with Paras Hydro Power Project. Jaffar Shah ♦ Due to this project our culture will badly influenced due to coming of outsiders workers and foreigners. Mir Hussain ♦ We have very limited places for our houses and for subsistence agriculture with joint family structure so we don't want to left this place at any cost. Javaid Shah 		

- ♦ Administration could not resettle us as we have bad experience of 2005 earthquake affecties in Bakrayal city in Balakot. 12 years has passed and affecties are still homeless and leading very miserable life. Let us to survive here and do not shift or if possible do change the design to save our houses and land. **Mubarak Shah**
- ♦ We are all willing to take reasonable high market rate of our effected lands, houses and tree with respect to other places as this Paras is the heart of Kaghan Valley. **Tanvir Hussain Shah**
- ♦ We need high priority in Employment opportunities in the project activites and no outsider is allowed to work in the project unless local would not found. **Sajid Hussain**
- ♦ What would happened regarding community assets like school, health clinic, post office Masque, drinking water supply scheme, graveyard and Islamic institutes? **Mir Hussain**
- ♦ Due to outsiders/ workers privacy of locals especially women will be disturbed. **Tanvir Awan**
- ♦ Free electricity should be provided to the local communities including the some long term benefits in project like share in project income. **Tanvir Awan**

Preamble:	Dr Jamil introduced the consultation team and stated the purpose of consultation. He provided a brief description of the Project. They were informed about the different sites and activities of the proposed project and there state of affairs in the proposed plan. The reservoir site, the tunnel range and other activities like labour colony were disseminated. Later, the participants were requested to share their views on the information shared as per the Basic Information Document or if they heard anything else prior to this visit.		
No.	Issues, Concerns and Suggestions	Response by	<i>Response Provided</i>
1	Agricultural land will be affected due to an increase in the water level in reservoir which will affect incomes.	Abdul Rasheed	
2	Change the design of project to minimize the effects on land and houses.	Nadeem	
3	All the decisions which are related to community land ownership should be displayed in DC office accordingly. Although government is not considering our concerns in behalf of our land ownership.	Saraj Ahmed	
4	We never sell property but given it on dowry.	Abdul Rasheed	
5	We have very bad experience regarding Suki Kanari project regarding land and house compensation so we are requesting to treat us leniently in Balakot Hydro Power Project.	Abdul Rasheed	
6	Villagers will not be happy with resettlement. However, if resettlement is necessary then alternative village or houses should be built for them.	Abdul Rasheed	
7	Appropriate negotiation is required between affected people and government to resettle the affecties of the project.	Abdul Rasheed	
8	Land record should be updated according to latest market rate as 50 years back land record was develop but it is not updated yet.	Abdul Rasheed	
9	As this village has very important economic position due to tourism so the rate of land and house should be reasonable with respect to other places.	Nadeem	
10	We have very limited land for subsistence agriculture so no one of us able to sale land.	Abdul Rasheed	
11	We need high priority in Employment opportunities in the project activites and no outsider is allowed to work in the project unless local would not found.	Saraj Ahmed

1.	This village has no relevance to the river but is fully dependent on spring water for drinking purpose. Both human and animals are fed through this natural resource. There is only one spring from where we have constructed our drinking water supply scheme. According to the information provided our vital spring is definitely to be abolished. What you will do for us?	M.Safdar	If the drinking resource is vanished, the concerned department will definitely provide for alternative and better resource but we have taken your Point and the same is noted for our report.
2.	Water supply from the springs and streams may dry out as result of project construction.	M.Zaman	Point noted, this is the same as raised by Muhammad Safdar.
3.	Government should provide free electricity to local communities. Our village is to be benefited from the state development like poor kids taken care by parents	M.Naeem	Point noted. This is a demand of your community as you all supported.
4.	Our primary occupation is driving. If required any vehicle or driver give us high priority in Employment opportunities in the project activities.	M.Yousaf	Point noted
5.	We need basic amenities like any other citizen of Pakistan i.e. health, education, safe drinking water etc	Aizi Ur Rehman	Point noted
6.	Land sliding may increase due to cutting and excavation in quarry areas. We are already suffered in last earthquake, why we are been put into trouble again, now by the state.	Muhammad Khursheed	Point noted but there are multiple surveys being conducted to safeguard any such issue. This is the responsibility of technical teams deployed.
7.	The vibrations created by blasting for tunnels will damage house walls and make land unstable.	Imdad Hussain	Point noted. You are raising almost the same point taken by Muhammad Khursheed
8.	As we are taking fish for refreshment but due to low flow of water fish would reduce that directly impact our livelihood. We have to purchase fish from market which will certainly increase our household expenditure. We don't have additional sources of income.	Muhammad Zakar	Point noted. This project will certainly generate job opportunities for locals.

Issues, Concerns and Suggestions:	<ul style="list-style-type: none"> ♦ Women said they also demand jobs for their educated youth and local labor used for the construction of the Dam. ♦ Women also feel fear about their children education and want better schooling system in relocated site. ♦ Women also said they get many benefits from river like catching fish, washing clothes, and gathering woods but after the construction of Dam they will not avail these facilities. ♦ Women strongly condemned for the construction of BHPP because they were also affectees of earthquakes 2005 and floods 2010. These two major incidents destroyed their lives, houses and lands. They said that they were not happy to leave their houses, land, and fruit orchards. And if government force them to leave that place then they expects not only the good price of their property but on the other hand government will also provide them the same weather, cool breeze, fresh environment that they have.

Language:	Urdu and Hinko where required for Local understanding and better communication		
Issues Concerns and Suggestions	<ul style="list-style-type: none"> ♦ Most of the women were not aware about the benefits of the Project. So, their first response regarding Dam construction was very poor and they did not agree to leave their houses and lands for it. Their immediate response was that first Earthquake 2005 and floods 2010 hit them badly and destroyed their lives, houses, lands and goods. People of the area are still trying to overcome the effects of these 		

	disasters and on the other hand government is planning to construct this dam in their area.
	♦ Women also added that government has no jobs for their educated and skilled youth, and now they want to destroy the business that they start by using their own resources or through taking loan.
	♦ They said that Dam construction news in their area was disturbing for them and they feel fear about losing their houses, lands and goods for ever. They will not ready to leave their beautiful place and atmosphere.
	♦ Women suggested if government wants to construct this dam government should select any other place without disturbing the residential settlements.
	♦ Women also quoted the example of payment problem with the people of Sukkhi Kinari HPP that people are not satisfied with the payments that government offered as resettlement cost.

Issues Concerns and Suggestions	<ul style="list-style-type: none"> ♦ Women strongly condemned for the construction of the Project because they are also affectees of earthquakes 2005 and floods 2010. These two major incidents destroyed their lives, houses and lands. They said that they were not happy to leave their houses, land, and fruit orchards. And if government force them to leave that place then they expect not only the good price of their property but on the other hand government will also provide them the same weather, cool breeze, fresh environment that they have. ♦ People of the area also demand jobs for their educated youth and local labor used for the construction of the Dam. ♦ Women also feel fear about their children education and want better schooling system in relocated site. ♦ There was also a major fear factor among the community that government did not fulfil their promises in land acquisition case with the mess as they have seen in other projects like Sukki Kineri. ♦ Women also said they get many benefits from river like catching fish, washing clothes, and gathering woods but after the construction of Dam they will not avail these facilities.

Issues Concerns and Suggestions	♦ Women of Dhub did not accept the idea of relocation cite in their settlement. They said there was no need of Dam construction, as		

	<p>“Sukhi Kinari” Dam was under construction close to their settlement and most of their land already acquired for sukhi Kinari Dam.</p> <ul style="list-style-type: none"> ♦ They said that local residents of Paras were not ready to leave that place at any cost because paras is the most beautiful place in Kaghan Valley. ♦ If land acquisition is unavoidable then all basic facilities like electricity, road, school, college, Masque and hospital should be provided at resettled place. ♦ They said government should provide jobs to local people on priority basics. ♦ They said as they came to know that labor camp was constructed in Dhub, they expressed their unhappiness regarding labor camp because it will create social issues due to migration of outsiders in their area.

Issues Concerns and Suggestions	<ul style="list-style-type: none"> ♦ Women said that the construction of dam will not only disturbed and destroy their houses, agriculture and livestock system but also affect their family businesses. ♦ Women of the affected area expressed their unhappiness regarding Dam construction, and reluctant to reply. They said that they were not willing to leave their houses and land for any purpose or activity will be held under dam construction because river water is the main source of their livelihood like catching fishes, sand mining, wash clothes and getting woods. ♦ Most of the females, head of the households were involved in dry fruit business, agriculture and livestock rearing for livelihood. So due to Dam construction they failed to run their business and fulfill their basic needs. Some of them earn from sewing/stitching of clothes at village level. ♦ Women said that they were not interested in cash compensation against their houses and to resettle at any other place is also impossible for them. ♦ According to the women they were not interested in relocation and they were not interested to know the benefits of the project or dam construction. ♦ Women also requested to Government, not to push them to leave their places. ♦ Link between right and left bank of the river will be broken due to the submergence of the suspension bridges. ♦ If land acquisition is unavoidable they must be compensated at market price so that they can relocate somewhere easily. ♦ Due to this project their culture will be badly influenced because of outsider workers and foreigner coming to their area. So labor and other jobs should be provided to the locals during Dam construction. ♦ Environmental issues will be increased due to excavation, vehicles, and operation of other heavy machinery which will be used in the project.

Issues Concerns and Suggestions	<ul style="list-style-type: none"> ♦ Woman said this village has no relevance to the river but is fully dependent on spring water for drinking purpose. Both human and 												

animals were fed through this natural resource. There was only one spring from where they have constructed their drinking water supply scheme. According to the information provided that their vital spring is definitely to be abolished. So they were unhappy about the Dam construction.

- ♦ Woman said that their houses were totally destroyed in EQ 2005, still not completed. They said that first EQ 2005 destroyed their lives, houses, lands and goods, still they are trying to overcome the effects of these disasters and now government is planning to construct this dam in their area.
 - ♦ Water supply from the springs and streams may dry out as result of Dam construction.
 - ♦ Women added that all the residents are relatives, belong to same family and living in close in knit also help each other in happiness and sorrows, quite helpful in grieves so they do not want to split out.
 - ♦ Women expressed their fear that due to crushing of tunnel their houses can be affected, land slide will increase and there will be more earthquake.
 - ♦ They said primary occupation of their men is driving. If project require any vehicle or driver give them high priority in employment opportunities in the project activities.

Stakeholder/s:	Forest Department, Khyber Pakhtunkhwa	
Consultation	Stakeholder Consultation for the EIA of Hydropower Development Investment Project	
Date:	April 27, 2017	
Time:	10am	
Meeting Venue:	Forest Department Office, Mansehra, Khyber Pakhtunkhwa	
Attended By:	Sardar Tamor Ilyas, Divisional Forest Officer, Mansehra	+92 (997) 410 020, +92 (331) 800 2000
	Azhar Ali Khan, Conservator of Forests, Lower Hazara	+92 (091) 931 0232
	Kamran Minai (KM)	+92 (316) 298 8319
HBP Representatives:	KM	
Stakeholder Representatives:	Sardar Tamor Ilyas	
Conducted by:	KM	
Recorded by:	KM	
Language:	Urdu	
Preamble:	The stakeholder representatives were briefed about the Project and its impacts. They were familiar with the area and the trends of behavior of the locals.	

Concerns

Relocation of people: People will be relocated and are likely to want to move downward. This is expected based on past observations and trends in behavior of the locals; in this area people with the means to move, for example, due to improved economic status, generally choose to move to lower areas. From the perspective of the Department, this is positive as it leaves more forested area untouched at higher elevations.

Existing disturbance: The habitat in this area is already fragmented due to human activity. The locals have modified the forest area and there is a high level of disturbance.

Project footprint: The forested area in the Project footprint is not of concern because Project-related activities will not result in degradation of large forested areas.

Reserve Forests: There are no concerns with Reserve Forests as these will not be affected by the Project. Areas further away from the Project infrastructure have Reserve Forests but these will not be affected by the Project.

Size of the Project: The Department supports this development because it will generate much-needed electricity for the country. It is viewed as a positive development in addressing national needs.

Recommendation

Replantation: Compensatory replantation should be done for any loss of trees due to Project-related activities. The Department will use any funds provided for this purpose.

Ratio of replantation: The Forest Department does not have any specific ratio of replantation in mind. The Department has not yet decided whether replantation should be done in a 1:3, 1:5 or 1:10 ratio.

Stakeholder/s:	Social Welfare Department, KP	
Consultation	Stakeholder Consultation for the EIA of Hydropower Development Investment Project	
Date:	May 19, 2017	
Time:	10:30am	
Meeting Venue:	Office of District Officer Social Welfare, Mansehra	
Attended By	Abdul Rasheed, Social Welfare Officer, Mansehra	0301-8137172
	Yasmeen Saeed, Social Welfare Officer	NA
	Anwar Fazal Ahmad (AN)	0312 979 1658
	Ms. Rizwana Waraich (RW)	0331-539-6334
HBP Representatives	AN, RW	
Stakeholder Representatives	Abdul Rasheed, Social Welfare Officer, Mansehra, and Yasmeen Saeed, Social Welfare Officer	
Conducted by:	AN, RW	
Recorded by:	AN	
Language:	Urdu	

Preamble: The Background Information Document (BID) had been shared with the organization. They were also briefed about the Project before obtaining their views.

Concerns

Impacts on Communities: The Project will have significant impacts on local communities. A number of households will be displaced. The following will be submerged:

- ♦ Boys and girls schools.
- ♦ Basic Health Unit (BHU).
- ♦ Graves of the relatives of the affected households.

Recommendations

All the displaced households should be rehabilitated.

Public infrastructure like schools and BHUs should be relocated.

Graves should be managed with the consent of the communities

Project should provide special assistance to vulnerable households.

Households affected by livelihood should be provided with vocational trainings to get benefits from the project

Stakeholder:	District Agriculture Office, Mansehra	
Consultation:	Stakeholder Consultation for the EIA of Hydropower Development Investment Project	
Date:	Jan 23, 2019	
Time:	01:15pm
