

Resettlement Plan

Project Number: 55205-001

Date: September 2022

Document Stage: Draft

Lao People's Democratic Republic: Monsoon Wind Power Project

Appendix K: Summary of local EIA stakeholder engagement

This Draft Resettlement Plan is a document of the borrower. The views expressed herein do not necessarily represent those of ADB's Board of Directors, Management, or staff, and may be preliminary in nature. Your attention is directed to the “terms of use” section of this website.

In preparing any country program or strategy, financing any project, or by making any designation of or reference to a particular territory or geographic area in this document, the Asian Development Bank does not intend to make any judgments as to the legal or other status of any territory or area.

Summary of Past Engagement Activities for the Project

Table 1: Engagement with Affected Communities during EIA

No.	Date	Meeting Location and Communities	Number of Attendees			Methods of Engagement	Key Topics Discussed and Stakeholder Feedback	Relevant ESIA Considerations
			Male	Female	Total			
2 nd Consultation for EIA Preparation, 7-23 September 2020 (18 villages)								
1	9 September 2020	Ban Dak Tiem, Dakcheung District				<p>Disseminate the information about the project to the village peoples by giving the explanations on the change of locations, boundaries of the project, benefits, and potential impacts of the project.</p> <p>Provides the opportunity to participants from all parties to ask questions and give comments.</p> <p>Interviews were conducted to collection data on viewpoint, socio-economic data, data on population, ethnic groups, living style, land use and forest data that are related to the livelihoods of the people and other social data in the villages.</p>	<ul style="list-style-type: none">■ Provide funding assistance for improving clean water system to the village.■ Provide funding assistance for building the village administration office.■ Provide promotion fund to create vocation for the people in the village, such as: recruit village labor force to work with the project.■ Help to improve access road to the village and the road within the village.■ Request the project to provide a new transformer to the village, because the existing transformer is out of use.	<ul style="list-style-type: none">■ Information dissemination will be considered in the ESIA and SEP. A SEP will be prepared for the Project including future and on-going engagement required to ensure stakeholders are provided sufficient information on the potential impacts.■ The impact assessment including information on mitigation measures for the social receptors is provided in Section 8.5 of the ESIA Report.
2	10 September 2020	Ban Dak Seng, Dakcheung District				As above	In general, the village Administration Authority and the people agree with the project which will come to undertake development in the vicinity area of the village. As the village is not affected from the installation of wind turbine towers and the construction of road in this village area, it has no request to the project.	<ul style="list-style-type: none">■ Impacts to livelihoods and land use, including rice paddies, is included in Section 8.5.3 of the ESIA Report. This includes proposed mitigation measures.■ Impacts to community health and safety are assessed in Section 8.5.4 of the ESIA Report. This includes proposed mitigation measures.■ Village heads will be informed prior to construction, this commitment is included in Section 9 (ESMP) of the ESIA Report.
3	12 September 2020	Ban Dak Yang, Dakcheung District				As above	<ul style="list-style-type: none">■ Help to build dispensary (health center), gravity-fed water system, toilets for the village.	<ul style="list-style-type: none">■ The impact assessment including information on mitigation measures for the social receptors is provided in Section 8.5 of the ESIA Report.

No.	Date	Meeting Location and Communities	Number of Attendees			Methods of Engagement	Key Topics Discussed and Stakeholder Feedback	Relevant ESIA Considerations
			Male	Female	Total			
							<ul style="list-style-type: none"> Help to provide water pipes or build and install irrigation system to supply water for rice cultivation for the village in order to increase rice production and achieve rice sufficiency for consumption in the village. Help to provide fund for improving road from Ban Dak Yang to Ban Dak King to allow travel on vehicle more convenient. Help to build school for the village. 	<ul style="list-style-type: none"> The impact assessment including information on mitigation measures for the social receptors is provided in Section 8.5 of the ESIA Report. Impacts to livelihoods and land use, including rice paddies, is included in Section 8.5.3 of the ESIA Report. This includes proposed mitigation measures.
4	12 September 2020	Ban Sieng Ar, Dakcheung District				As above	<ul style="list-style-type: none"> Help to clear the access road to Ban Xieng Mai and to Ban Sieng Ar and road within the village to each production area of the people according to the suitability of the village area. Help to provide fund for sufficient supply of gravity-fed water system and toilets to the poor people or to each family in the village. Help to build bridge crossing Houay Air stream to facilitate the travel in the village. Help to build a permanent primary school for the village to assist inclusive education in the village. Help to build a dispensary to provide facilities to the village in case of sickness or emergency in the village area. After the construction of the project, the village shall be able to use the electricity widely. 	<ul style="list-style-type: none"> The impact assessment including information on mitigation measures for the social receptors is provided in Section 8.5 of the ESIA Report. Reliable and affordable electricity will be provided to the affected villages. Priority will be given to the households affected by the Project's land acquisition, then poor households within the Project's affected communities, and finally the entire the affected villages if possible. Refer to Section 8.5.2 for more details.
5	14 September 2020	Ban Dak Treb, Dakcheung District				As above	<ul style="list-style-type: none"> If the land (crop cultivation land, paddy field land, construction land, etc.) of the village people is affected, the project must give reasonable compensation. Request to undertake the village settlement planning along the sides of Road 16A. Help for vocation allocation, provide fund for animal raising to each family in the village. Help to provide fund for building the village administration office (size:10 x 20 m), expand the electricity network, build large irrigation system-scale, build complete secondary school and sport field, build dispensary, provide toilet seats and fruit- roofing sheets and tree saplings to the village. Help to provide fund for building bridge crossing Houay Ang stream at 3 points. Provide fund for buying 5 motorcycles and full set of community radio with 4 loud speakers for the village. When the project is launched, request to adopt the policy to recruit village labour force to work with the project. 	<ul style="list-style-type: none"> Impacts to livelihoods and land use, including rice paddies, is included in Section 8.5.3 of the ESIA Report. This includes proposed mitigation measures. The impact assessment including information on mitigation measures for the social receptors is provided in Section 8.5 of the ESIA Report. Land and economic displacement is assessed in Section 8.5.3 of the ESIA Report. This includes proposed mitigation measures. The Project will ensure all required processes for land acquisition are conducted in conjunction with relevant stakeholders. Impacts and processes for land acquisition are provided in Section 8.5.3 of the ESIA Report. Note that this is based on preliminary land and asset registration undertaken by Innogreen in November and December 2021.
6	14 September 2020	Ban Dak Dern (Dak Yand), Dakcheung District				As above	<ul style="list-style-type: none"> If the land (crop cultivation land, paddy field land, construction land, etc.) of the village people is affected, the project must give reasonable compensation. Help to provide fund for the construction and improvement of road within the village and road to the agricultural areas, and help the clearing of areas for lowland paddy cultivation to the people in order to decrease the slash-and-burn cultivation practice in the village. Provide fund for building the village administration office, 2 complete secondary schools and build water closets and provide toilet seats, teaching & learning equipment to all schools in the village. Provide rice to poor families in the village. 	<ul style="list-style-type: none"> Impacts and processes for land acquisition are provided in Section 8.5.3 of the ESIA Report. Note that this is based on preliminary land and asset registration undertaken by Innogreen in November and December 2021. The impact assessment including information on mitigation measures for the social receptors is provided in Section 8.5 of the ESIA Report.
7	15 September 2020	Ban Xieng Luang, Dakcheung District				As above	<ul style="list-style-type: none"> Help the clearing of additional areas for lowland paddy cultivation for the people within the village. Help the area clearing for road and livelihood place for the people in the village. In case of occurrence of land impact, request to avoid the impact on paddy field land, crops cultivation land and construction land of the people in the village. Avoid selecting the wind turbine tower site which is located near the village area. In case the project is required to clear the paddy field land and coffee plantation land of the people, the project must give reasonable compensation. Request to provide assistance to poor families in the village. If the project is constructed, request the project to pay financial obligation to the village at the rate of 1 million Kip per 1 tower which shall be considered as the funding assistance to the village land which is affected by the project. 	<ul style="list-style-type: none"> Impacts to livelihoods and land use, including rice paddies, is included in Section 8.5.3 of the ESIA Report. This includes proposed mitigation measures. Impacts and processes for land acquisition are provided in Section 8.5.3 of the ESIA Report. Note that this is based on preliminary land and asset registration undertaken by Innogreen in November and December 2021 The impact assessment including information on mitigation measures for the social receptors is provided in Section 8.5 of the ESIA Report. Land and economic displacement is assessed in Section 8.5.3 of the ESIA Report. This includes proposed mitigation measures. The Project will ensure all required processes

								for land acquisition are conducted in conjunction with relevant stakeholders.
8	16 September 2020	Ban Dak Dor, Dakcheung District				As above	<ul style="list-style-type: none"> Request for help to build irrigation to supply water to the rice field for the village. Request for help to improve the road within the village and the school area. Request for help to build the village administration office. 	<ul style="list-style-type: none"> Impacts to livelihoods and land use, including rice paddies, is included in Section 8.5.3 of the ESIA Report. This includes proposed mitigation measures. Village heads will be informed prior to construction, this commitment is included in Section 9 (ESMP) of the ESIA Report.
9	16 September 2020	Ban Dak Yoin				As above	<ul style="list-style-type: none"> Before carrying out any activity during the pre construction phase, the project shall contact or coordinate with the village first. In case there is any area of the village which is affected, it is requested that compensation for damage shall be made for each household including for the collective forest area of the village based on the laws and regulations and on the suitability of the compensation. Request for help to make new village area planning. Request for help to provide fund for building new school. Request for help to clear the area for rice field area and build the water channel to supply water to rice field conveniently. Request for help to build gravity-fed water system with clean water for the village. Request for help to provide fund for the construction of fish pond and fish breed to make the collective fish pond of the village. Request for help to provide medicines for general and collective use in the village 	<ul style="list-style-type: none"> Village heads will be informed prior to construction, this commitment is included in Section 9 (ESMP) of the ESIA Report. Impacts to livelihoods and land use, including rice paddies, is included in Section 8.5.3 of the ESIA Report. This includes proposed mitigation measures. Impacts and processes for land acquisition are provided in Section 8.5.3 of the ESIA Report. Note that this is based on preliminary land and asset registration undertaken by Innogreen in November and December 2021.
10	16 September 2020	Ban Dak Run, Dakcheung District				As above	<ul style="list-style-type: none"> Provide fund for building school (size: 32 m x 28 m with 4 classrooms), including the supply of educational equipment, tables and chairs for students. Request for help to build the village administration office (size: 8 m x 7 m), including the furniture which are necessary for use at the office. If there is the construction of towers in the village area, request to give the priority of hiring to the workforce of the village. 	<ul style="list-style-type: none"> The impact assessment including information on mitigation measures for the social receptors is provided in Section 8.5 of the ESIA Report. Impacts to livelihoods and land use, including rice paddies, is included in Section 8.5.3 of the ESIA Report. This includes proposed mitigation measures.
11	19 September 2020	Ban Dak Kang, Dakcheung District				As above	<ul style="list-style-type: none"> Request for help to improve the road within the village, including the production area of the village (with the length of about 9 km). Request for help to provide taps of gravity- fed water system for the whole village. Request for help to make new rice field area planning to the people in the village. Request for help to build water closets and provide the toilet seats for the village. Request for help to improve the canal or to build the irrigation system and install the pipe to drain and supply water for rice cultivation better than before. Request for help to improve and make village area planning to allow it to become orderly. Request for help to provide rice to poor families in the village. 	<ul style="list-style-type: none"> The impact assessment including information on mitigation measures for the social receptors is provided in Section 8.5 of the ESIA Report. Impacts to livelihoods and land use, including rice paddies, is included in Section 8.5.3 of the ESIA Report. This includes proposed mitigation measures.
12	9 September 2020	Ban Dak Dor, Sanxay District				As above	<ul style="list-style-type: none"> Request to give reasonable compensation for the land area affected by the project based on actual situation. The village have worried about the impact on natural livestock raising. Request to make village area planning to allow it to become more orderly. Before commencing the construction, the project must perform the ceremony of offerings in accordance with the tradition and belief of the people in the villages Request to build the village administration office and improve the access road to the village to allow convenient travel; and build the bridge crossing Houay Ang stream. Request the project to help to pay the obligation to the village for using as budget for village Fund and provide 1 motorcycle for serving the work of the village administration office. Request the project to hire the people in the village to work as workers in the project and help to reduce the problem of unemployment 	<ul style="list-style-type: none"> Impacts and processes for land acquisition are provided in Section 8.5.3 of the ESIA Report. Note that this is based on preliminary land and asset registration undertaken by Innogreen in November and December 2021. Impacts to livelihoods and land use, including rice paddies, is included in Section 8.5.3 of the ESIA Report. This includes proposed mitigation measures. Impacts to cemeteries and other cultural heritage are assessed in Section 8.5.8 of the ESIA Report. This includes proposed mitigation measures. Land and economic displacement is assessed in Section 8.5.3 of the ESIA Report. This includes proposed mitigation measures. The Project will ensure all required processes
