Second Shanxi Highway Development Project

Supervision Report of Poverty Alleviation in Project Influence Area

(No. 2)

I. Brief introduction

The second Shanxi Highway Development Project, namely the Houma –Yumenkou Expressway project, is one of components of National Trunk Highway GZ40. It will run in southern Shanxi province, connecting at the west the Yumenkou – Yianliang (Xi'an) Expressway in Shaanxi province. It is a 66.84 km long Highway financed by the loan from the Asia Development Bank. As one of infrastructure projects contributing the west development strategy in China, the project's implementation is significant to balance the development of economy between west and east China and to alleviate the poverty in project area. According to the Asia Bank, periodic supervision of poverty existing in the area shall be conducted during project implementation. The HouYu Expressway Construction Limited Company of Shanxi Province consigned the Shaanxi Kexin Consulting Ltd. to do the supervising. Represented below is the supervision report on poverty alleviation in 2006.

II. Poverty status in 2005

The project influence area consists of 3 counties, i.e. Xingjiang County, Jishan County and Hejing County.

In 2000, there was only 1 township and 35 villages stricken by poverty in three counties with 33965 persons living below poverty line. After five years' social and economic development including the effort to alleviate poverty, the net income of the most of poor people are raised to a level above 1000 RMB Y. As of 2005, all poor townships were eliminated from three counties and the number of poor villages was cut down to 19. The number of the poor people decreased by 58.5% to 14106.

Table 1 Poverty Status in Project Influence Area

County	2001				2005			
	Poor Township	Poor village	Poor household	Poor people	Poor Township	Poor village	Poor household	Poor people
Xingjiang	1	14	2227	9260	0	0	1763	8109
Jishan	0	19	5200	23070	0	0	1156	5317
Hejing	0	2	390	1635	0	0	170	680
Total	1	35	7817	33965	0	0	3089	14106

III. Projects for poverty alleviation

In the aide-memoire of the Asia Bank's Fact Finding Mission for Pre-appraisal of the

Second Shanxi Highway Development Project, it is pointed out that in order to alleviate poverty in project area, (i) the construction of all sectors of the roads involved into the scope of the project and loaned by the Shanxi Provincial Transport Department shall use pay laborers and the wage level shall be determined by market (20 RMB Y per day for non-skilled laborers at the moment); (ii) the contractors participating the construction of the civil work of the expressway and Yellow River Bridge as well as the roads pertaining to the project shall consent to use to the most rate the laborers from the villages. Based on such agreement, the HouYu Expressway Construction Limited Company of Shanxi Province put the clause in the contracts signed with the contractors, requiring definitely the use of the poor villagers. Work has been done to supervise the contractors in terms of the use of labor since last April and survey results indicated both employer and contractors have been performing earnestly the Aide-memoire. During a period from April,2004 through Dec,2006 through June of all 78863 man-month laborers put into 7 contract sections, 47020 man-month were the non-skilled, and poor laborer making up 74% of the total non-skilled laborers. The average wage level for the non-skilled laborer was 817 RMB Y/man-month (27.23 Y per day). Both the rate of non-skilled laborer and the wage level for the non-skilled are higher than those proposed in the Aide-memoire.

Table 3 Use of Poor Laborers (April,2004 – Dec, 2005)

Contract section	Totally used (man-mont)	The non-skilled used (man-mont)	Poor laborer			
			Man-month	Percentage of non-skilled	Monthly Average Wage (Y)	Total Wage (Y)
1	8458	6562	3810	58	880.0	335.28
2	10483	9260	6500	70	600.0	390.00
3	7522	4915	4350	89	775.0	337.13
4	16470	7630	5874	77	715.5	420.28
5	15690	10029	7820	78	925.0	723.35
6	7846	3494	2620	75	875.0	229.25
7	12394	5130	3870	75	950.0	367.65
Total	78863	47020	34844	74	817.7	2802.94

IV. Survey of poor villages

In June,2006,work was done to survey the 35 poor villages of 6 poor townships in 3 counties of Xingjiang, Jishan and Hejing. 41 survey tables based on the model provide by the Asia Bank's expert were collected. For the data in the tables, see annex.
