Established in 1966, ADB has committed $323.17 billion in loans toward the vision of an Asia and Pacific region free of poverty. Brunei Darussalam joined ADB in 2006.

From 1 January 2016 to 31 December 2020, ADB's annual lending volume averaged $19.69 billion. Investment grants and technical assistance funded by ADB and Special Funds resources averaged $805.5 million and $230.81 million, respectively, over the same period.

As of 31 December 2020, cumulative commitments (excluding cofinancing) were $323.17 billion in loans for 3,369 investment projects in 44 countries, $11.3 billion in 495 grants, and $5.01 billion in technical assistance grants, including regional technical assistance grants.

In addition to loans, grants, and technical assistance, ADB uses guarantees and equity investments to help its developing member countries (DMCs).

With its headquarters in Manila, ADB has 44 offices around the world, with 3,653 staff from 64 of its 68 members as of 31 December 2020.
FINANCING PARTNERSHIPS
ADB arranges cofinancing from bilateral and multilateral sources, export credit agencies, and commercial sources in the form of loans and grants, B loans, risk transfer arrangements, parallel loans and equity, guarantees, and cofinancing for transactions under ADB’s Trade and Supply Chain Finance Program and Microfinance Program. Cofinancing brings additional resources to ADB’s project financing. In 2020, total sovereign and nonsovereign cofinancing commitments amounted to $16.41 billion for 236 projects, of which $16.15 billion was for 111 investment projects, $185.79 million was for 125 technical assistance projects, and $76 million was mobilized through transaction advisory services. Cumulative sovereign and nonsovereign cofinancing commitments for the period 1970–2020 amounted to $127.16 billion for 3,051 projects, of which $123.92 billion was for 1,082 investment projects, $2.65 billion was for 1,969 technical assistance projects, and $593.5 million was mobilized through transaction advisory services.

Trust Funds
Trust funds are key instruments to mobilize and channel external sources to finance technical assistance and components of investment projects. They play an important role in complementing ADB’s own funding resources. Initially, trust funds were established through single-donor channel financing agreements targeting a number of specific sectors. ADB has been increasingly switching to multi-donor trust funds covering thematic issues and theme-focused umbrella initiatives, called financing partnership facilities, which support priority areas such as water, clean energy, regional cooperation and integration, urban sector financing, and health. In close interaction with the fund contributors, ADB will use these resources strategically to promote innovation, enhance project quality, and provide critical support for project implementation.

NONSOVEREIGN OPERATIONS
As a catalyst for private investments, ADB provides financial assistance to nonsovereign projects and financial intermediaries. Total commitments in loans and equity investments from ADB’s own funds in 2020 amounted to $1.4 billion for 38 transactions in economic and social infrastructure, finance sector, and agribusiness. ADB also actively mobilizes cofinancing from commercial and concessional sources. In 2020, ADB mobilized $1.9 billion of long-term project cofinancing and $3.3 billion of cofinancing through its Trade and Supply Chain Finance Program and Microfinance Program. Total outstanding balances and commitments of nonsovereign transactions funded by ADB’s own resources stood at $14.3 billion as of 31 December 2020.
