The Asian Development Bank (ADB) supports India’s fast recovery from the coronavirus disease (COVID-19) pandemic, and efforts to ensure inclusive and sustainable growth, as the country adapts to post-pandemic conditions. Despite global headwinds, preliminary estimates reveal economic growth of 6.8%1 for fiscal year 2022 (which ended on 31 March 2023), bolstered by strong private consumption. Fiscal year 2023’s growth is forecast at 6.4%,1 buoyed by structural reforms, increased public investment, and sustained private consumption.

India is a founding member of ADB and the bank’s fourth largest shareholder. Since commencing operations in 1986, ADB has aligned its operations in the country to the government’s developing priorities. This approach will be pursued through the forthcoming country partnership strategy, 2023–2027. ADB remains committed to reinvigorating India’s economy to generate more formal jobs, help address climate challenges, and assist lower-income states. ADB operations also promote private sector development, gender empowerment, regional integration, knowledge solutions, and capacity development.

To date, ADB has committed 605 public sector loans, grants, and technical assistance totaling $52.6 billion to India. Cumulative loan and grant disbursements to India amount to $40.71 billion. These were financed by regular ordinary capital resources, and other special funds. ADB’s sovereign portfolio comprises 66 loans totaling $15.4 billion.2

ADB supports India’s priorities for robust, climate resilient, and inclusive growth, aligned with ADB’s Strategy 2030 and the forthcoming country partnership strategy, 2023–2027.

INDIA

The Asian Development Bank (ADB) supports India’s fast recovery from the coronavirus disease (COVID-19) pandemic, and efforts to ensure inclusive and sustainable growth, as the country adapts to post-pandemic conditions. Despite global headwinds, preliminary estimates reveal economic growth of 6.8%1 for fiscal year 2022 (which ended on 31 March 2023), bolstered by strong private consumption. Fiscal year 2023’s growth is forecast at 6.4%,1 buoyed by structural reforms, increased public investment, and sustained private consumption.

India is a founding member of ADB and the bank’s fourth largest shareholder. Since commencing operations in 1986, ADB has aligned its operations in the country to the government’s developing priorities. This approach will be pursued through the forthcoming country partnership strategy, 2023–2027. ADB remains committed to reinvigorating India’s economy to generate more formal jobs, help address climate challenges, and assist lower-income states. ADB operations also promote private sector development, gender empowerment, regional integration, knowledge solutions, and capacity development.

To date, ADB has committed 605 public sector loans, grants, and technical assistance totaling $52.6 billion to India. Cumulative loan and grant disbursements to India amount to $40.71 billion. These were financed by regular ordinary capital resources, and other special funds. ADB’s sovereign portfolio comprises 66 loans totaling $15.4 billion.2
In 2022, ADB committed over $1.8 billion in sovereign loans to India. ADB extended $15.64 million in technical assistance and $16.41 million in grants under the sovereign portfolio. The bank continued to support India’s metro network expansion through a $350-million loan to improve connectivity in the city of Chennai while enabling transit-oriented development and first- and last-mile connectivity. ADB committed a $350-million loan to help develop Maharashtra’s road network in 10 lagging districts, improve rural communities’ access to health and social services, and reduce transportation costs for small businesses. Other projects included a $300-million loan for upgrading state highways and major district roads in Assam and a $110-million loan to upgrade state highways in Rajasthan.

To support government reforms in India’s logistics sector, ADB approved a $250-million loan to develop an institutional and policy framework for incentivizing private sector participation in multimodal logistics projects. The bank also provided a $220-million loan to Tripura to improve energy security and supply quality, and to build the sector’s resilience. ADB committed a $125-million loan to provide climate-resilient sewage collection, drainage systems, and water supply in Tamil Nadu. A $96-million loan will help provide safe, sustainable, and inclusive rural water supply and sanitation services in Himachal Pradesh.

ADB also committed funds to help plan and design projects for developing the infrastructure of industrial estates in Tripura, and for urban infrastructure development in Nagaland and Tripura’s capital, Agartala.

Nonsovereign operations. Total outstanding balances and undisbursed commitments of ADB’s nonsovereign transactions in India as of 31 December 2022 was $2.84 billion representing 22.2% of ADB’s total private sector portfolio.

In 2022, ADB signed six nonsovereign transactions in India with a total commitment of $208.1 million along with three regional transactions, with India allocations, totaling $185 million. Further, ADB’s Microfinance Risk Participation and Guarantee Program supported new loans of $226 million. Some of the notable deals involve the electric mobility space, water sector, agribusiness sector, crop nutrition, and transport finance.

Operational challenges. ADB operations in India cover more than 20 states, requiring a differentiated approach across and within lower- and higher-income states. Support to lower-income states focuses on basic infrastructure and services to accelerate inclusive growth. Support to higher-income states includes transformative projects marked by replicable innovation and good practices. Because of the spatial peculiarities across regions, ADB programs need to be calibrated to location-specific needs. ADB has also been requested to support India’s medium- to long-term recovery by enhancing assistance to micro, small, and medium-sized enterprises, and to health, education, and social protection systems in the post-pandemic era. ADB support to boost government infrastructure financing through nonsovereign operations will depend on the volume and type of private sector investment opportunities available.
KNOWLEDGE WORK

ADB pursues a strategic, consultative, and responsive knowledge framework aligned to India’s development priorities. The bank supports operationally relevant upstream studies, supplemented with knowledge solutions and capacity building. In 2022, ADB supported the development and launch of the National Logistics Policy to improve India’s logistics efficiency. A joint ADB-NITI Aayog study identified interventions to fulfill the potential of cities as engines of growth. Other studies include developing an economic corridor in the northeastern region and a multimodal logistics park in Sabroom in Tripura, among others. ADB also provided technical assistance to explore solutions supporting India’s climate action to decarbonize transport, including developing an ecosystem for electric vehicles and energy transition.

FINANCING PARTNERSHIPS

Financing partnerships enable ADB’s financing partner governments or their agencies, multilateral financing institutions, and private organizations to participate in financing ADB projects. The additional funds provided may be in the form of loans and grants, technical assistance, and nonsovereign cofinancing.

Cumulative cofinancing commitments in India:

- Sovereign cofinancing: $7.7 billion for 48 investment projects and $163.78 million for 139 technical assistance projects since 1987
- Nonsovereign cofinancing: $3.82 billion for 42 investment projects since 1988

In 2022, India received a total of $772.35 million loan cofinancing from the Asian Infrastructure Investment Bank, the New Development Bank, and private concessionaires for three projects; and a total of $8.88 million additional grant cofinancing from the Japan Fund for Prosperous and Resilient Asia and the Pacific and the Global Environment Facility for the Integrated Urban Flood Management for the Chennai-Kosasthalaiyar Basin Project.

A summary of projects with cofinancing from 1 January 2018 to 31 December 2022 is available at www.adb.org/countries/india/cofinancing.

FUTURE DIRECTIONS

ADB’s program for India from 2023 to 2025 supports the country’s priorities for robust, climate resilient, and inclusive growth, aligned with ADB’s Strategy 2030 and the forthcoming country partnership strategy, 2023–2027. To help achieve greater inclusiveness, ADB will support India in strengthening its health care and social protection systems, and assist small- and medium-sized enterprises to bounce back from the pandemic. ADB will increase investments in education, finance, and public sector management. Support will be provided to help India meet its ambitious climate-action commitments. ADB will strategically engage with higher- and lower-income states through a differentiated approach. Other areas of support will include promoting gender equity, strengthening governance and institutions, increasing digitalization, and promoting regional cooperation and integration. Innovative upstream strategic studies and financing approaches will be pursued to boost private sector investment.

### ADB AT A GLANCE

ADB is committed to achieving a prosperous, inclusive, resilient, and sustainable Asia and the Pacific, while sustaining its efforts to eradicate extreme poverty. It has 68 members—of which 49 are from Asia and the Pacific and 19 outside. ADB headquarters is in Manila, Philippines and has 43 offices around the world, with 3,775 staff from 66 members as of 31 December 2022.

ADB maximizes the development impact of its assistance to its members by providing financing and tailored knowledge solutions through policy dialogue and advisory services, among others. It mobilizes financial resources through cofinancing from official, commercial, and export credit sources.

ADB met strong demand for its assistance in 2022. It unlocked greater resources for its members through the private sector and partnerships. ADB provided financing for climate change mitigation and adaptation initiatives, education quality and access, affordable health care, and more sustainable and climate-resilient food systems. In 2022, 97% of ADB operations contributed to gender equality. ADB fostered greater regional collaboration on issues such as health threats and tax cooperation. ADB also responded to demand for tailored knowledge solutions from its members.

**ADB operations.** In 2022, ADB committed $20.5 billion in loans, grants, equity investments, guarantees, private sector programs, and technical assistance to both the public and private sectors of its borrowing members. ADB bolstered its total support with cofinancing of $11.4 billion.

As of 31 December 2022, ADB’s cumulative commitments in 45 countries stood at $358.4 billion covering 4,189 loans, $12.6 billion in 566 grants, and $5.5 billion in technical assistance grants, including regional technical assistance grants. In addition to loans, grants, and technical assistance, ADB uses equity investments, and private sector programs to help its developing member countries.

Total commitments in nonsovereign loans, equity investments, and guarantees from ADB’s own funds in 2022 amounted to $11.1 billion for 37 transactions in economic and social infrastructure, finance sector, and agribusiness.

In 2022, ADB mobilized $1.7 billion of long-term project cofinancing and $5.3 billion of cofinancing through its Trade and Supply Chain Finance Program and Microfinance Program. Total outstanding balances and undisbursed commitments of nonsovereign transactions funded by ADB’s own resources stood at $12.8 billion as of 31 December 2022.

### FINANCING PARTNERSHIPS

Total sovereign and nonsovereign cofinancing commitments, 2022

- **$11.39 billion for 165 projects,** of which:
  - $11.2 billion, 75 investment projects,
  - $126.49 million, 87 technical assistance projects,
  - $60 million transaction advisory services mandates for 3 projects.

Cumulative sovereign and nonsovereign cofinancing commitments, 1970–2022

- **$151.87 billion for 3,292 projects,** of which:
  - $147.81 billion, 1,163 investment projects,
  - $2.92 billion, 2,120 technical assistance projects,
  - $11.3 million transaction advisory services mandates for 9 projects.

### PROCUREMENT

**ADB’s Procurement Contracts, 2022**

**Goods, Works, and Related Services**

ADB’s procurement contracts in Asia and the Pacific for goods, works, and related services under loan and grant operations:

- **$15.23 billion in 2021**
- **$16.19 billion in 2022**
- **$247.06 billion covering 228,149 contracts,** cumulative procurement since 1966.

**Consulting Services**

ADB’s procurement contracts in Asia and the Pacific for consulting services under loan, grant, and technical assistance operations:

- **$706.65 million in 2021**
- **$535.61 million in 2022**
- **$15.45 billion covering 74,995 contracts,** cumulative procurement since 1966.
