Asia and the Pacific is facing enormous challenges caused by the coronavirus disease (COVID-19) pandemic and climate change, that have imposed disproportionate burdens on the poor and vulnerable. The Asian Development Bank (ADB) is working to ensure a green, resilient, and inclusive recovery that will strengthen the region against future shocks and build sustainable prosperity. Central to this is support for climate change adaptation and improving disaster risk management. In October 2021, ADB elevated its climate financing ambition to its developing member countries to $100 billion from 2019–2030.

With finance and knowledge, ADB is supporting high-quality green and digital infrastructure by attracting private investment, rebuilding smartly, and closing the digital divide. ADB focuses on addressing inequality including by closing the gender gap, and investing in health, education, and social protection. Helping the region improve its domestic resource mobilization is key to this. Meanwhile, ADB is strengthening cooperation and integration within the region to enable better future linkages in areas ranging from trade to health.

Norway is a founding member of ADB. It has provided $505.53 million in capital subscription to ADB. It has also contributed and committed $371.54 million to Special Funds since becoming a member.
To date, 22 goods, works, and related services contracts worth $49.68 million and 109 consulting contracts worth $34.21 million have been awarded to contractors and suppliers from Norway. In 2021, 2 goods, works, and related services contracts worth $4.26 million and 5 consulting contracts worth $1.85 million have been awarded.

As of 31 December 2021, Norway had no international staff members in ADB.

**Nonsovereign operations**. Some of ADB’s nonsovereign operations involving entities in Norway are as follows:

The Nordic Microfinance Initiative and ADB are co-shareholders in a regional private equity fund, and a microfinance institution in India. ADB and the Norwegian Investment Fund for Developing Countries provided debt funding to a micro, small and medium enterprises lending project and solar project in Cambodia.

### FINANCING PARTNERSHIPS

Financing partnerships enable ADB’s partner governments or their agencies, multilateral institutions, and private organizations to participate in ADB projects. The additional funds may be in the form of loans and grants, technical assistance, and nonsovereign cofinancing.

Norway’s cofinancing commitments from 1 January 2017 to 31 December 2021 comprised:

**Projects**
- Sovereign: 5 projects, cofinancing of $85.73 million
  - Grants: $79.74 million for 3 projects
  - Technical assistance: $5.99 million for 2 projects
- Nonsovereign: $4.08 million for 1 project

**Trust funds**, ADB manages trust funds established through financing agreements initially from single donors targeting specific sectors. It has been increasingly switching to thematic trust funds and financing partnership facilities that link various forms of assistance to support priority areas such as water, clean energy, regional cooperation and integration, urban sector financing, and health.

Norway has contributed to the following active trust funds:

ADB AT A GLANCE

ADB is committed to achieving a prosperous, inclusive, resilient, and sustainable Asia and the Pacific, while sustaining its efforts to eradicate extreme poverty. It has 68 members—of which 49 are from Asia and the Pacific and 19 outside. ADB headquarters is in Manila, Philippines and has 43 offices around the world, with 3,693 staff from 65 of its members as of 31 December 2021.

ADB maximizes the development impact of its assistance to its developing members by providing financing and tailored knowledge solutions through policy dialogue and advisory services, among others. It mobilizes financial resources through cofinancing from official, commercial, and export credit sources.

ADB pivoted swiftly to answer the needs of its developing members and will remain agile and responsive in the years ahead. It has started to see the shoots of a green recovery, but the long-term effects of the COVID-19 pandemic, climate change, and the outbreak of conflicts still threaten lives and prosperity. ADB will continue to work closely with members and development partners through these challenges to achieve a better future for all in Asia and the Pacific.

ADB operations. In 2021, ADB committed $22.8 billion in loans, grants, equity investments, private sector programs, and technical assistance both to the public and private sectors of its borrowing members. ADB bolstered its total support with cofinancing of $12.9 billion.

As of 31 December 2021, ADB’s cumulative commitments in 45 countries stood at $342 billion covering 4,061 loans, $11.7 billion in 521 grants, and $5.2 billion in technical assistance grants, including regional technical assistance grants.

In addition to loans, grants, and technical assistance, ADB uses guarantees and equity investments to help its developing member countries.

Total commitments in nonsovereign loans and equity investments from ADB’s own funds in 2021 amounted to $1.2 billion for 35 transactions in economic and social infrastructure, finance sector, and agribusiness.

In 2021, ADB mobilized $1.7 billion of long-term project cofinancing and $5.8 billion of cofinancing through its Trade and Supply Chain Finance Program and Microfinance Program. Total outstanding balances and undisbursed commitments of nonsovereign transactions funded by ADB’s own resources stood at $14 billion as of 31 December 2021.

FINANCING PARTNERSHIPS

Total sovereign and nonsovereign cofinancing commitments, 2021

- $12.93 billion for 187 projects, of which:
  - $12.38 billion, 75 investment projects,
