Established in 1966, ADB has committed $323.17 billion in loans toward the vision of an Asia and Pacific region free of poverty. Spain joined ADB in 1986.

**SPAIN**

The Asian Development Bank (ADB) is dedicated to achieving a prosperous, inclusive, resilient, and sustainable Asia and the Pacific, while sustaining its efforts to eradicate extreme poverty. Established in 1966, it is owned by 68 members—49 from the region—who have committed $323.17 billion in loans toward the vision of a region free of poverty.

Despite the region’s successes, issues still to be fully addressed include poverty and inequality, climate change, growing environmental pressures, and large infrastructure deficits.

Spain has provided $520.23 million in capital subscription to ADB as of 31 December 2020. It has also contributed and committed $504.62 million to Special Funds since joining the bank in 1986. Companies and consultants from Spain have since been awarded $964.93 million in procurement contracts on ADB-financed projects.

In 2020, ADB’s lending volume was $26.9 billion (149 projects), with technical assistance at $293.56 million (275 projects) and grant-financed projects at $1.08 billion (62 projects). In addition, $16.41 billion in commitments from sovereign and nonsovereign cofinancing was generated.

From 1 January 2016 to 31 December 2020, ADB’s annual lending volume averaged $19.69 billion. Investment grants and technical assistance funded by ADB and Special Funds resources averaged $805.5 million and $230.81 million, respectively, over the same period.

As of 31 December 2020, cumulative commitments (excluding cofinancing) were $323.17 billion in loans for 3,369 investment projects in 44 countries, $11.3 billion in 495 grants, and $5.01 billion in technical assistance grants, including regional technical assistance grants.

In addition to loans, grants, and technical assistance, ADB uses guarantees and equity investments to help its developing member countries (DMCs).

With its headquarters in Manila, ADB has 44 offices around the world, with 3,653 staff from 64 of its 68 members as of 31 December 2020.

**CONTRIBUTIONS TO SPECIAL FUNDS RESOURCES**

Spain has contributed to the Asian Development Fund (ADF), which was ADB’s window for concessional lending to its borrowing members up to 31 December 2016 and continued as a grant-only operation from 1 January 2017; and the Technical Assistance Special Fund (TASF), which provides grants to borrowing members to help prepare projects and undertake technical or policy studies.

**Contributions:**

- ADF (committed): $481.52 million
- TASF (committed): $23.1 million

FINANCING PARTNERSHIPS

ADB arranges cofinancing from bilateral and multilateral sources, export credit agencies, and commercial sources in the form of loans and grants, B loans, risk transfer arrangements, parallel loans and equity, guarantees, and cofinancing for transactions under ADB’s Trade and Supply Chain Finance Program and Microfinance Program. Cofinancing brings additional resources to ADB’s project financing. In 2020, total sovereign and nonsovereign cofinancing commitments amounted to $16.41 billion for 236 projects, of which $16.15 billion was for 111 investment projects, $185.79 million was for 125 technical assistance projects, and $76 million was mobilized through transaction advisory services. Cumulative sovereign and nonsovereign cofinancing commitments for the period 1970–2020 amounted to $127.16 billion for 3,051 projects, of which $16.15 billion was for 1,969 technical assistance projects, of which $16.15 billion was for 1,969 technical assistance projects, and $593.5 million was mobilized through transaction advisory services.

Cofinancing commitments with Spain from 1 January 2016 to 31 December 2020 comprised the following:

**Projects**
- Sovereign: Technical assistance: 1 project, cofinancing of $0.23 million
- Nonsovereign: 1 project, cofinancing of $28.09 million

**Trust Funds**

Trust funds are key instruments to mobilize and channel external sources to finance technical assistance and components of investment projects.

They play an important role in complementing ADB’s own funding resources. Initially, trust funds were established through single-donor channel financing agreements targeting a number of specific sectors. ADB has been increasingly switching to multi-donor trust funds covering thematic issues and theme-focused umbrella initiatives, called financing partnership facilities, which support priority areas such as water, clean energy, regional cooperation and integration, urban sector financing, and health. In close interaction with the fund contributors, ADB will use these resources strategically to promote innovation, enhance project quality, and provide critical support for project implementation.

Spain has contributed to the following trust funds:

**Single-Donor Trust Fund**
- Spanish Cooperation Fund for Technical Assistance—established in 2000 to support technical assistance for project preparation, transaction advisory services, and project implementation in the energy, water and urban infrastructure services, and transport sectors
  - Cumulative commitment: $14.4 million

**Multi-Donor Trust Funds**
- Water Financing Partnership Facility—a trust fund established in 2006, it prioritizes projects and activities designed to result in significantly more people with access to safe drinking water supply and improved sanitation, higher productivity and efficiency of irrigation and drainage services, and reduced risk to floods; sustainable management of water resources; increased knowledge and capacity; and improved sector governance
  - Cumulative commitment: $9.5 million
- Clean Energy Fund—established in 2007 under the Clean Energy Financing Partnership Facility to improve energy security in DMCs and decrease the rate of climate change through increased use of clean energy
  - Cumulative commitment: $9.5 million

**Nonsovereign Operations**

As a catalyst for private investments, ADB provides financial assistance to nonsovereign projects and financial intermediaries. Total commitments in loans and equity investments from ADB’s own funds in 2020 amounted to $1.4 billion for 38 transactions in economic and social infrastructure, finance sector, and agribusiness. ADB also actively mobilizes cofinancing from commercial and concessional sources. In 2020, ADB mobilized $1.9 billion of long-term project cofinancing and $3.3 billion of cofinancing through its Trade and Supply Chain Finance Program and Microfinance Program. Total outstanding balances and commitments of nonsovereign transactions funded by ADB's own resources stood at $14.3 billion as of 31 December 2020.

Gas Natural Aprovisionamientos is a significant contracting entity of a gas field expansion project in Azerbaijan.

**PROCUREMENT**

Each year, ADB provides loans, grants, and technical assistance to fund projects and activities in its DMCs; and several billion dollars in contracts to procure goods, works, and consulting services. Most contracts are awarded on the basis of international competition, which is open to firms and individuals from all ADB members.

<sup>a</sup> Loan, grant, or blend.
<sup>b</sup> NS = nonsovereign cofinancing.
<sup>c</sup> The program limit for ADB’s regional Trade Finance Program (TFP) ($1 billion since 2009, and increased to $1.35 billion in 2018 and $2.15 billion in 2020) is the maximum exposure the TFP can assume at any one point in time. This limit has never been breached. Although the TFP exposure exceeds the program limit annually, this limit was not breached at any one point in time because TFP transactions tend to be short—on average less than 180 days—and the program limit can revolve (be reused) within a year. In addition, the TFP distributes risk exposures to various partners that leverage its capital resources.
