The Asian Development Bank (ADB) continues to work and evolve to meet the changing and increasingly complex needs of its members. In 2022, ADB completed a comprehensive organizational review and identified the need for a new operating model that will enable holistic improvements. The reforms will ensure that ADB delivers greater impact in the region, including by scaling up climate financing, mobilizing more private sector investment, and providing a wider range of development solutions in response to client needs.

With finance and knowledge, ADB is supporting high-quality green and digital infrastructure by attracting private investment, rebuilding smartly, and closing the digital divide. ADB focuses on addressing inequality including by closing the gender gap, and investing in health, education, and social protection. Helping the region improve its domestic resource mobilization is key to this. Meanwhile, ADB is strengthening cooperation and integration within the region to enable better future linkages in areas ranging from trade to health.

The Netherlands is a founding member of ADB. It has provided $1.45 billion in capital subscription to ADB as of 31 December 2022. It has also contributed and committed $822.6 million to ADB’s special funds since becoming a member.
To date, 460 goods, works, and related services contracts worth $287.51 million and 950 consulting contracts worth $388.9 million have been awarded to contractors, suppliers, and consultants from the Netherlands. In 2022, 1 goods, works, and related services contract worth $3 million and 39 consulting contracts worth $5.74 million have been awarded.

As of 31 December 2022, there were 15 international staff from Netherlands in ADB (13 men and 2 women), which represents 1.10% of the total international staff, including 2 senior staff members.

### Nonsovereign operations

Some of ADB’s nonsovereign operations involving entities in the Netherlands are as follows:

ADB invested in a gender bond issued by a company in Georgia, in which agrIF Cooperatief U.A. is a shareholder. Loans were provided to a wind power project in Uzbekistan and a bank in Georgia alongside the Netherlands Development Finance Company (FMO); an agricultural company in Cambodia, in which De Heus Cambodia B.V. is a shareholder; a manufacturer of personal hygiene products in Viet Nam, in which Hayat Kimya Holding B.V. is a shareholder; a solar project in Thailand, in which Green Yellow Mekong B.V. is a shareholder; and a microfinance institution in Uzbekistan, in which Triodos is a shareholder. Triodos and ADB are co-lenders to a wind project in Viet Nam.

### Financing Partnerships

Financing partnerships enable ADB’s financing partner governments or their agencies, multilateral financing institutions, and private organizations to participate in financing ADB projects. The additional funds may be in the form of loans and grants, technical assistance, and nonsovereign cofinancing.

The Netherlands’s cofinancing commitments from 1 January 2018 to 31 December 2022 comprised:

#### Projects

- **Sovereign:** 14 projects, cofinancing of $27.17 million
  - Grants: $18.64 million for 2 projects
  - Technical assistance: $8.53 million for 12 projects
- **Nonsovereign:** $220.77 million for 10 projects

A list of projects cofinanced by the Netherlands is available at [www.adb.org/what-we-do/financing-partnerships/sovereign-financing#donor-countries](http://www.adb.org/what-we-do/financing-partnerships/sovereign-financing#donor-countries).

#### Trust funds

ADB manages trust funds established through financing agreements initially from single donors targeting specific sectors. It has been increasingly switching to thematic trust funds and financing partnership facilities that link various forms of assistance and addressing the water-food security nexus.

The Netherlands has contributed to the following trust fund:

#### Single-Partner Trust Fund

<sup>a</sup> Loan, grant, or blend

<sup>b</sup> G = sovereign grant cofinancing, NS = nonsovereign cofinancing

<sup>c</sup> The program limit for ADB’s regional Trade Finance Program (TFP) ($1 billion since 2009, and increased to $1.35 billion in 2018 and $2.15 billion in 2020) is the maximum exposure the TFP can assume at any one point in time. Although the TFP exposure exceeds the program limit annually, this limit was not breached at any one point in time because TFP transactions tend to be short—on average less than 180 days—and the program limit can revolve (be reused) within a year. In addition, the TFP distributes risk exposures to various partners that leverage its capital resources.
ADB AT A GLANCE

ADB is committed to achieving a prosperous, inclusive, resilient, and sustainable Asia and the Pacific, while sustaining its efforts to eradicate extreme poverty. It has 68 members—of which 49 are from Asia and the Pacific and 19 outside. ADB headquarters is in Manila, Philippines and has 43 offices around the world, with 3,775 staff from 66 members as of 31 December 2022.

ADB maximizes the development impact of its assistance to its members by providing financing and tailored knowledge solutions through policy dialogue and advisory services, among others. It mobilizes financial resources through cofinancing from official, commercial, and export credit sources.

ADB met strong demand for its assistance in 2022. It unlocked greater resources for its members through the private sector and partnerships. ADB provided financing for climate change mitigation and adaptation initiatives, education quality and access, affordable health care, and more sustainable and climate-resilient food systems. In 2022, 97% of ADB operations contributed to gender equality. ADB fostered greater regional collaboration on issues such as health threats and tax cooperation.

ADB also responded to demand for tailored knowledge solutions from its members.

**ADB operations.** In 2022, ADB committed $20.5 billion in loans, grants, equity investments, guarantees, private sector programs, and technical assistance to both the public and private sectors of its borrowing members. ADB bolstered its total support with cofinancing of $11.4 billion.

As of 31 December 2022, ADB’s cumulative commitments in 45 countries stood at $358.4 billion covering 4,189 loans, $12.6 billion in 566 grants, and $5.5 billion in technical assistance grants, including regional technical assistance grants.

In addition to loans, grants, and technical assistance, ADB uses guarantees, equity investments, and private sector programs to help its developing member countries.

Total commitments in nonsovereign loans, equity investments, and guarantees from ADB’s own funds in 2022 amounted to $11.1 billion for 37 transactions in economic and social infrastructure, finance sector, and agribusiness.

In 2022, ADB mobilized $1.7 billion of long-term project cofinancing and $5.3 billion of cofinancing through its Trade and Supply Chain Finance Program and Microfinance Program. Total outstanding balances and undisbursed commitments of nonsovereign transactions funded by ADB’s own resources stood at $12.8 billion as of 31 December 2022.

FINANCING PARTNERSHIPS

Total sovereign and nonsovereign cofinancing commitments, 2022

- $11.39 billion for 165 projects, of which:
  - $11.2 billion, 75 investment projects,
  - $126.49 million, 87 technical assistance projects,
  - $60 million transaction advisory services mandates for 3 projects.

Cumulative sovereign and nonsovereign cofinancing commitments, 1970–2022

- $151.87 billion for 3,292 projects, of which:
  - $147.81 billion, 1,163 investment projects,
  - $2.92 billion, 2,120 technical assistance projects,
  - $1.13 billion transaction advisory services mandates for 9 projects.

PROCUREMENT

**ADB’s Procurement Contracts, 2022**

**Goods, Works, and Related Services**
ADB’s procurement contracts in Asia and the Pacific for goods, works, and related services under loan and grant operations:

- $15.23 billion in 2021
- $16.19 billion in 2022
- $247.06 billion covering 228,149 contracts, cumulative procurement since 1966.

**Consulting Services**
ADB’s procurement contracts in Asia and the Pacific for consulting services under loan, grant, and technical assistance operations:

- $706.65 million in 2021
- $535.61 million in 2022
- $15.45 billion covering 74,995 contracts, cumulative procurement since 1966.
