... = Data not available at cutoff date, | = Marks break in series, 0 or 0.0 = Magnitude is less than half of unit employed, - = Magnitude equals zero.

- a Data for 1994–1999 are based on the interim population estimates according to the National Statistical Coordination Board (NSCB) Resolution No. 2 (Series of 2002) Adoption of the Decennial Census-Based Population Growth Rates. Data for 2000–2011 are based on the population estimates used for national accounts based on the methodology advised by the National Statistics Office (NSO), the NSCB Technical Staff, and the NSO-computed annual and end-quarter population estimates using curvilinear interpolation at decelerating rates, with the results of the 2000 and 2010 Censuses of Population and Housing (CPH) as start and end dates of the reference population.
- b Data are based on household population of 15 years old and over with past week as reference period. Data starting 2007 are average estimates of the results of the four rounds of the Labor Force Survey (LFS). For 2005, data are average of three rounds of the LFS (see footnote c).
- c Beginning April 2005, the definition of unemployed was revised to include all persons who are 15 years old and over and are reported as: (1) without work; (2) currently available for work; and (3) seeking work or not seeking work due to valid reasons.
- d Beginning 1998, compilation follows the 2000 Revised/Rebased Philippine System of National Accounts implemented in 2011.
- e Figures for 1998–2011 were derived using balance of payments data.
- f Per capita figures were adjusted following the use of 2000–2011 population estimates based on 2010 CPH results (see footnote a).
- g Beginning 1995, data were converted from barrels to metric tons using a conversion factor of 1 barrel=0.15897882 metric tons.
- h Refers to refinery run and energy uses and losses.
- i Includes non-alcoholic beverages.
- j Beginning 2001, data series based on the monetary survey concept were revised to adopt the depository corporations survey (DCS) concept, which expanded the coverage of other depository corporations to include thrift banks, nonstock savings and loan associations, and nonbanks with quasi-banking functions, along with commercial and rural banks.
- k Includes liabilities excluded from broad money (Other Liabilities) beginning 2001.
- l Data for 2001 is not comparable with those of the other years since it was calculated using the pre-2001 monetary survey concept.
- m Refers to the weighted average interest rates of sample commercial banks.
- n Refers to rates charged on interest-bearing deposits with maturities of less than or equal to 1 year.
- o Refers to rates charged on interest-bearing deposits with maturities of over 1 year.
- p On obligation basis.
- q Includes agrarian reform and natural resources.
- r Includes trade and tourism.
- s Includes subsidy to local government units.
- t Includes other social services, social service subsidy to local government units, net lending, debt service, and land distribution.
- u Beginning 1999, the IMF's *Balance of Payments Manual 5* was adopted where the overall BOP position refers to the change in the net international reserves. Revisions in the compilation methodology of trade-in goods, services, income, current transfers, and financial account were likewise undertaken.
- v Prior to 1999, trade-in goods data included all goods leaving the country and entering any of the seaports and airports. Data from 1999 onward included only shipped goods that involve a change in ownership.
- w Prior to 1999, both current and capital transfers were reported under the transfers account. Beginning 1999, current transfers were reported under the transfers account while capital transfers were reported under the capital account.
- x Prior to 1999, the financial account consists of medium- and long-term loans, trading of bonds in the secondary market, investments, change in commercial banks' net foreign assets, and short-term capital. From 1999 onward, the capital account is presented separately from the financial account with transactions on loans being recorded under financial account other investment; bonds, under portfolio investment; and intracompany loans, under direct investment.
- y From 1994–1998, item includes data on revaluation adjustments, unremittable arrears/adjustments and purchase of collateral when such transactions occur. Beginning 1999, net unclassified items is used as an offsetting account to the overstatement or understatement in either receipts or payments of the recorded BOP components vis-a-vis the overall BOP position.
- z Beginning 2002, change in commercial banks' net foreign assets is derived by deducting foreign assets from foreign liabilities. This includes assigned capital of foreign banks in local branches that are converted to pesos.

Philippines

aa Beginning 1999, overall BOP position is determined by deducting change in reserve liabilities from change in reserve assets.
