"..." = data not available, $\mathbf{0}$ or $\mathbf{0 . 0}=$ magnitude is less than half of unit employed, GDP = gross domestic product, $\mathbf{k W h}=$ kilowatt-hour, PPP = purchasing power parity
a Data refer to percentage of population below the basic needs poverty line.
b Derived from consumption shares of the highest quintile and lowest quintile groups.
c Estimates are based on data officially reported to the World Health Organization (WHO) and the United Nations Children's Fund (UNICEF) by member economies and data reported in publications on health surveys.
d Data refer to nurses only
e Estimated using data from Global Health Workforce Statistics (WHO) and population from World Population Prospects: The 2012 Revision
f Data refer to central government.
g Measured as the ratio of female gross enrollment ratio to male gross enrollment ratio
h Measured as the ratio of female labor force participation rate to male labor force participation rate
i Presented in standard normal units of the governance indicator, ranging from -2.5 to 2.5 with higher values corresponding to better governance outcomes.
