PILLAR THREE: Social Safety Nets		
Social protection and labor rating
Social security expenditure on health as a percentage of government expenditure on health	0.4 (1995)	1.1
Government expenditure on social security and welfare as a percentage of total government expenditure ^g	3.5 (1995)	3.7 (2012)
GOOD GOVERNANCE AND INSTITUTIONS		
Voice and accountability ^j	−0.1 (1996)	−0.4
Government effectiveness ^j	0.7 (1996)	1.0
Control of corruption ^j	0.5 (1996)	0.0

"..." = data not available, 0 or 0.0 = magnitude is less than half of unit employed, GDP = gross domestic product, kWh = kilowatt-hour, PPP = purchasing power parity.

- a Data are based on income.
- b Derived from income shares of the highest quintile and lowest quintile groups.
- c Data refer to total number of deposit accounts due to lack of information on deposit account holders.
- d Estimates are based on data officially reported to World Health Organization (WHO) and the United Nations Children's Fund (UNICEF) by member economies and data reported in publications on health surveys.
- e Estimated using data from Global Health Workforce Statistics (WHO) and population from World Population Prospects: The 2012 Revision.
- f For 2010, figure refers to nurses only.
- g Data refer to central government.
- h Measured as the ratio of female gross enrollment ratio to male gross enrollment ratio.
- i Measured as the ratio of female labor force participation rate to male labor force participation rate.
- j Presented in standard normal units of the governance indicator, ranging from −2.5 to 2.5 with higher values corresponding to better governance outcomes.
