Highest-to-lowest ratio
Gender parity in labor force participation (Aged 15 and over) ^f	0.91	0.91 (2012)
Percentage of seats held by women in national parliament	...	6.0 (2013)
PILLAR THREE: Social Safety Nets		
Social protection and labor rating
Social security expenditure on health as a percentage of government expenditure on health	1.6 (1995)	1.3
Government expenditure on social security and welfare as a percentage of total government expenditure
GOOD GOVERNANCE AND INSTITUTIONS		
Voice and accountability ^g	-1.9 (1996)	-1.9
Government effectiveness ^g	-1.3 (1996)	-1.6
Control of corruption ^g	-1.4 (1996)	-1.7

"..." = data not available, 0 or 0.0 = magnitude is less than half of unit employed, GDP = gross domestic product, kWh = kilowatt-hour, PPP = purchasing power parity.

- a Data are based on consumption.
- b Estimates are based on data officially reported to World Health Organization (WHO) and the United Nations Children's Fund (UNICEF) by member economies and data reported in publications on health surveys.
- c Estimates are based on household survey data.
- d Estimated using data from Global Health Workforce Statistics (WHO) and population from World Population Prospects: The 2012 Revision.
- e Measured as the ratio of female gross enrollment ratio to male gross enrollment ratio.
- f Measured as the ratio of female labor force participation rate to male labor force participation rate.
- g Presented in standard normal units of the governance indicator, ranging from -2.5 to 2.5 with higher values corresponding to better governance outcomes.
