- "..." = data not available, 0 or 0.0 = magnitude is less than half of unit employed, GDP = gross domestic product, kWh = kilowatt-hour, PPP = purchasing power parity.
- a Data are based on consumption
- b Derived from consumption shares of the highest quintile and lowest quintile groups
- c Estimates are based on data officially reported to the World Health Organization (WHO) and the United Nations Children's Fund (UNICEF) by member economies and data reported in publications on health surveys.
- d Estimates are based on household survey data.
- e Estimated using data from Global Health Workforce Statistics (WHO) and population from World Population Prospects: The 2012 Revision.
- f Data refer to central government.
- ${\bf g}$ $\,$ $\,$ Measured as the ratio of female gross enrollment ratio to male gross enrollment ratio.
- $h \quad \text{Measured as the ratio of female labor force participation rate to male labor force participation rate}.$
- A rating of "1" corresponds to a very weak performance, and a "6" rating to a very strong performance.
- j Presented in standard normal units of the governance indicator, ranging from -2.5 to 2.5 with higher values corresponding to better governance outcomes.
