Social security expenditure on health as a percentage of government expenditure on health	29.2 (1995)	10.4
Government expenditure on social security and welfare as a percentage of total government expenditure		
OOD GOVERNANCE AND INSTITUTIONS		
Voice and accountability 1	1.2 (4000)	1.2
Government effectiveness ⁱ	1.2 (1996)	1.2
	-0.4 (1998)	-1.6
Control of corruption i	-0.6 (1998)	-0.3

- "..." = data not available, 0 or 0.0 = magnitude is less than half of unit employed, GDP = gross domestic product, kWh = kilowatt-hour, PPP = purchasing power parity.
- a Data refer to percentage of population below the basic needs poverty line.
- b Estimates are based on data officially reported to the World Health Organization (WHO) and the United Nations Children's Fund (UNICEF) by member economies and data reported in publications on health surveys.
- c Estimates are based on household survey data
- d Estimated using data from Global Health Workforce Statistics (WHO) and population from World Population Prospects: The 2012 Revision.
- e Figure for 2000 refers to nurses only.
- Measured as the ratio of female gross enrollment ratio to male gross enrollment ratio.
- Measured as the ratio of female labor force participation rate to male labor force participation rate.
- h A rating of "1" corresponds to a very weak performance, and a "6" rating to a very strong performance
- Presented in standard normal units of the governance indicator, ranging from -2.5 to 2.5 with higher values corresponding to better governance outcomes
