Gender parity in labor force participation (Aged 15 and over) [f]	0.64	0.74 (2012)
Percentage of seats held by women in national parliament	4.9	24.2 (2013)
PILLAR THREE: Social Safety Nets		
Social protection and labor rating	...	...
Social security expenditure on health as a percentage of government expenditure on health	4.0 (1995)	15.6
Government expenditure on social security and welfare as a percentage of total government expenditure [e]	5.0 (1995)	10.7
GOOD GOVERNANCE AND INSTITUTIONS		
Voice and accountability [g]	0.2 (1996)	−0.2
Government effectiveness [g]	2.1 (1996)	2.2
Control of corruption [g]	2.2 (1996)	2.1

Average Years of Total Schooling, 2010

Employment-to-Population Ratio, Latest Years
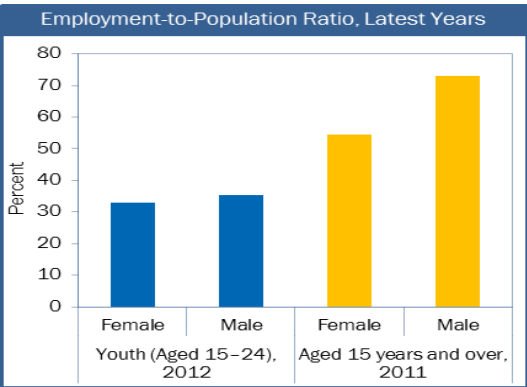

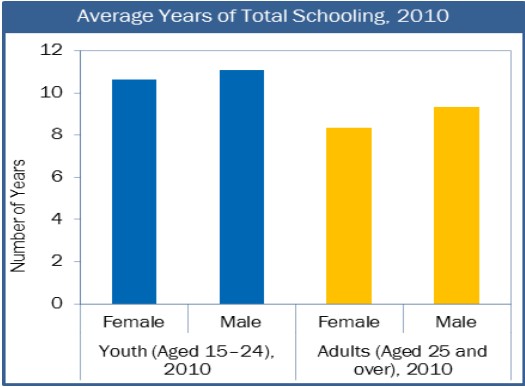

"..." = data not available, 0 or 0.0 = magnitude is less than half of unit employed, GDP = gross domestic product, kWh = kilowatt-hour, n.a. = not applicable, PPP = purchasing power parity.

a Derived from income shares of the highest and lowest quintile groups.
b Estimates are based on data officially reported to World Health Organization (WHO) and the United Nations Children's Fund (UNICEF) by member economies and data reported in publications on health surveys.
c Estimated using data from Global Health Workforce Statistics (WHO) and population from World Population Prospects: The 2012 Revision.
d Data for 1999 refer to nurses only.
e Data refer to central government.
f Measured as the ratio of female labor force participation rate to male labor force participation rate.
g Presented in standard normal units of the governance indicator, ranging from –2.5 to 2.5 with higher values corresponding to better governance outcomes.
