Name and Address of Executing Agency:

Druk Holding and Investments Limited
Thori Lam Upper Motithang
Thimphu, Bhutan

Brief Description of the Project:

The proposed Amochhu Land Development and Township Project will develop 64 hectares (ha) of riparian land near the city of Phuentsholing that is located adjacent to the Amochhu River on Bhutan’s southwestern border with India. The project will provide protection from floods and erosion, and construct smart urban infrastructure to allow phased urban expansion. A modern township will be designed on modern sustainable principles of equity, livability, and competitiveness, and it will be integrated into the fabric of the existing municipality and preserve Bhutan’s unique architectural heritage. The project will also protect the existing and new towns from floods and riverbank erosion which currently threatens lives and livelihoods and disrupts connectivity with nearby communities.
