1. The People’s Republic of China has received a loan from the Asian Development Bank (ADB) toward the cost of Hubei Enshi Qing River Upstream Environmental Rehabilitation Project, and it intends to apply part of the proceeds of this loan to payments under the Contract named above. Bidding is open to Bidders from eligible source countries of ADB.

2. The Enshi Urban Construction and Investment Co. Ltd. (“the Employer”) invites sealed bids from eligible Bidders for all engineering construction in the sewage treatment plant and Yuanbao River sewage interception pipe network, including without limitation:

- Buildings, structures and auxiliary engineering of the plant;
- Water supply/drainage, fire protection, power supply (strong current, weak current, earthing and lightning protection), communication engineering;
- Pipe network for sewage/rainwater collection and drainage in the plant area, process piping inside and outside buildings and structures (including civil construction of relevant process pipes, fittings, valve wells);
- Landscaping, road, enclosure and lighting engineering in the plant area;
- Other work indicated in the construction drawings shall be deemed as included in the contract. The boundary of sewage treatment plant and pipe network (water pipe, rainwater and sewage drain pipes) outside the plant is 3m from the plant enclosure, and that of electric system is the incoming line terminal of HV cabinet in the power distribution room;
- Three supplies and one leveling (water and electric power supplies, road construction and ground leveling) in the plant area.
- Yuanbao River sewage interception pipeline engineering.

Construction period is 365 days.

3. National Competitive Bidding (NCB) will be conducted in accordance with the ADB’s Single Stage – One Envelope procedure and is open to all eligible Bidders as described in the Bidding Document.
4. Only eligible Bidders with the following key qualifications should participate in this bidding:

- The domestic Bidders and the domestic Bidders who associate with foreign Bidders as Joint Ventures should have Grade I or above Qualification Certificate for Primary Contractor of Municipal Engineering (both issued by Ministry of Housing and Urban-Rural Development of the People’s Republic of China), as well as certificates of GB/T19001 Quality Management System, GB/T24001 Environmental Management System and GB/T28001 Occupational Health and Safety Management System, or equivalent. Foreign Bidders shall provide the equivalent documents from their respective jurisdictions;
- Submission of audited financial statements or if not required by the law of the Bidder’s country, other financial statements acceptable to the Employer, for the last three (3) years (2014, 2015, 2016) to demonstrate the current soundness of the Bidder’s financial position and its prospective long term profitability. As a minimum, a Bidder’s net worth calculated as the difference between total assets and total liabilities for each of the three years should be positive.
- Minimum average annual turnover of CNY 194 million, calculated as total certified payments received for contracts in progress or completed, within the last three (3) years.
- The Bidder shall demonstrate access to, or availability of, financial resources such as liquid assets, lines of credit, and other financial means, other than any contractual advance payments to meet:
  - the following cash-flow requirement of CNY19.4 million and
  - the overall cash flow requirements for this contract and its concurrent commitments
- Experience under contracts in the role of contractor, subcontractor, or management contractor for at least the last five (5) years prior to the applications submission deadline.
  - Participation as contractor, management contractor, or subcontractor, in at least two (2) contracts within the last five (5) years, each with a value of at least CNY62 million, that have been successfully and substantially completed and that are similar to the proposed Works. The similarity shall be based on the physical size, complexity, methods/technology or other characteristics as described in Section V, Employer’s Requirements.
  - For the above or other contracts executed during the period stipulated above, a minimum experience in the following key activities: water treatment structures, plant buildings, plant roads, greening, sewage pipe construction and other projects.
