Brief Description of the Project:

The expected impact of the JKWSSP-AF will be an improved health and human development in urban areas of Jaffna Peninsula to meet the Millennium Development Goals (MDG) of Government of Sri Lanka. The Government of Sri Lanka is investing for the improvement of water supply and sanitation facilities throughout the Island. The expected outcome will be an improved access to safe drinking water in targeted urban areas in the Jaffna Peninsula.

Brief Description of Goods and Related Services, Works or Consulting Services to be Procured:

Procurement includes the Design, Build and Operate (DBO) of a 24 MLD Sea Water Reverse Osmosis (SWRO) Desalination Plant at Thalaiyadi, Jaffna District, Sri Lanka ("The Works"). The Works, includes the design, procurement, construction, installation and operation & maintenance of the SWRO Desalination Plant, pipelines, pump station and service facilities for delivery of potable water to the JKWSSP drinking water distribution system at specific points designated by NWSDB and all associated permanent and temporary works to provide a fully functional, environmentally compliant and reliable facility over the entire O&M period.
