Brief Description of the Project:

The proposed Mahaweli Water Security Investment Program – Tranche 2 will amount to about $400 million, comprising ADB ($195 million), cofinancing ($155 million), and government contributions ($50 million). It is mainly comprised of three (3) large civil works packages amounting to about $355 million, under the Upper Elahera Canal Project, namely: (i) construction of two connecting tunnels with a total length of 28 km tunnel using a tunnel boring machine and conventional drill-and-blast methods (UEC-ICB-2A); (ii) construction of a 8 km tunnel (UEC-ICB-2B) using drill-and-blast methods; and (iii) canal and embankment works (UEC-ICB-3). Actual details of the packages will be explained in the contract documents.
